Scotland: Home of Golf 2020-09-14 Iain M Lowe This book is unashamedly designed to brighten your day; to re-ignite happy memories of previous trips or maintain your desire to visit Scotland with club and ball. We strive to showcase the selected fourteen links courses, from the air and ground, in a way that is interesting and captivating. The low sun aiding the understanding of the golfing challenge and the beauty of the location. Then there is the history. For this we look back over some six hundred years with brief observations of the key occurrences and greatest influencers and players to have walked these links. All of this supported by hand-drawn illustrations, an artform that we believe is far better than photography when reflecting on the goliaths of our game. To these players we will devote more attention, bigger illustrations and commentary to explain their status in the book.

E-Commerce Strategy 2012-08-16 Sanjay Mohapatra
E-Commerce Strategy: Text and Cases provides the fundamental literature required for graduate students and practitioners to understand electronic commerce. Each chapter provides clearly designed learning objectives and review questions to highlight the major topics and goals. This book covers many of the new innovations and technologies that have been established for e-commerce site development. Unlike similar books, topics such as e-channel adoption, factors affecting e-commerce adoption, and strategy design are reviewed in greater depth. Additionally, the book examines areas not normally covered like open source, online research, and peer-to-peer systems. E-Commerce Strategy: Text and Cases is divided into two parts. Part 1 examines the evolution of e-commerce, analyzes different sectors such as B2B and m-Commerce, and explores the challenges they face. Case studies of well known companies

reinforce the concepts learned to demonstrate both successes and failures in the field. Part 2 deals with developing strategies in e-Commerce and looks at future trends including Web 2.0. Overall, the useful guidelines provided should prove valuable to students and researchers in the field.

Informed Societies 2020-01-07 Stéphane Goldstein

This book explains how and why information literacy can help to foster critical thinking and discerning attitudes, enabling citizens to play an informed role in society and its democratic processes. In early 21st century societies, individuals and organisations are deluged with information, particularly online information. Much of this is useful, valuable or enriching. But a lot of it is of dubious quality and provenance, if not downright dangerous. Misinformation forms part of the mix. The ability to get the most out of the information flow, finding, interpreting and using it, and particularly developing a critical mindset towards it, requires skills, know-how, judgement and confidence – such is the premise of information literacy. This is true for many aspects of human endeavour, including education, work, health and self-enrichment. It is notably true also for acquiring an understanding of the wider world, for reaching informed views, for recognising bias and misinformation, and thereby for playing a part as active citizens, in democratic life and society. This ground-breaking and uniquely multi-disciplinary book explores how information literacy can contribute to fostering attitudes, habits and practices that underpin an informed citizenry. The 13 chapters each come from a particular perspective and are authored by international experts representing a range of disciplines: information literacy itself, but also political science, pedagogy, information science, psychology. *Informed Societies: Why Information literacy matters for citizenship, participation and democracy* covers: - why information literacy and informed citizens matter for healthy, democratic societies - information literacy's relationship with political science - information literacy's relationship with human rights - how information literacy can help foster citizenship, participation, empowerment and civic engagement in different contexts: school students, refugees, older people and in wider society - information literacy as a means to counter

misinformation and fake news - the challenges of addressing information literacy as part of national public policy. The book will be essential reading for librarians and information professionals working in public libraries, schools, higher education institutions and public bodies; knowledge and information managers in all sectors and student of library and information science students, especially those at postgraduate/Masters level who are planning dissertations. Because of the topicality and political urgency of the issues covered, the book will also be of interest to students of political science, psychology, education and media studies/journalism; policy-makers in the public, commercial and not-for-profit sectors and politicians implications of information use and information/digital literacy.

Begging for Change 2010-07-06 Robert Egger You are a good person. You are one of the 84 million Americans who volunteer with a charity. You are part of a national donor pool that contributes nearly \$200 billion to good causes every year. But you wonder: Why don't your efforts seem to make a difference? Fifteen years ago, Robert Egger asked himself this same question as he reluctantly climbed aboard a food service truck for a night of

volunteering to help serve meals to the homeless. He wondered why there were still people waiting in line for soup in this day and age. Where were the drug counselors, the job trainers, and the support team to help these men and women get off the streets? Why were volunteers buying supplies from grocery stores when restaurants were throwing away unused fresh food every night? Why had politicians, citizens, and local businesses allowed charity to become an end in itself? Why wasn't there an efficient way to solve the problem? Robert knew there had to be a better way. In 1989, he started the D.C. Central Kitchen by collecting unused food from local restaurants, caterers, and hotels and bringing it back to a central location where hot, nutritious meals were prepared and distributed to agencies around the city. Since then, the D.C. Central Kitchen has been named one of President Bush Sr.'s Thousand Points of Light and has become one of the most respected and emulated nonprofit agencies in the world, producing and distributing more than 4,000 meals a day. Its highly successful 12-week job-training program equips former homeless transients and drug addicts with culinary and life skills to gain employment in the restaurant business. In *Begging for Change*, Robert Egger looks back on his experience and exposes the startling lack of logic, waste, and ineffectiveness he has encountered during his years in the nonprofit sector, and calls for reform of this \$800 billion industry from the inside out. In his entertaining and inimitable way, he weaves stories from his days in music, when he encountered legends such as Sarah Vaughan, Mel Torme, and Iggy Pop, together with stories from his experiences in the hunger movement -- and recently as volunteer interim director to help clean up the beleaguered United Way National Capital Area. He asks for nonprofits to be more innovative and results-driven, for corporate and nonprofit leaders to be more focused and responsible, and for citizens who contribute their time and money to be smarter and more demanding of nonprofits and what they provide in

return. Robert's appeal to common sense will resonate with readers who are tired of hearing the same nonprofit fund-raising appeals and pity-based messages. Instead of asking the "who" and "what" of giving, he leads the way in asking the "how" and "why" in order to move beyond our 19th-century concept of charity, and usher in a 21st-century model of change and reform for nonprofits. Enlightening and provocative, engaging and moving, this book is essential reading for nonprofit managers, corporate leaders, and, most of all, any citizen who has ever cared enough to give of themselves to a worthy cause.

The Healthy Kitchen 2003-12-09 Andrew Weil, M.D. Two of America's most popular authorities on healthy eating and cooking join forces in this inspiring, easy-to-use cookbook. This is not a diet book. It is a lively guide to healthy cooking, day-by-day, packed with essential information and, above all, filled with enticing food. Andrew Weil, M.D.—author of the best-selling *Eating Well* for

Optimum Health—brings to this perfect collaboration a comprehensive philosophy of nutrition grounded in science. Rosie Daley—acclaimed for her best-seller, *In the Kitchen with Rosie*—brings to it her innovative and highly flavorful spa cuisine. The recipes are eclectic, drawing from the healthy and delicious cooking of the Middle East, the Mediterranean, and Asia, among other cuisines. For starters, you might try Grilled Satay or a Miso Pâté; for soup, often a meal in itself, a hearty Mixed-Bean Minestrone Stew or a Roasted Winter Squash and Apple Soup with Cilantro Walnut Pesto; a special entrée could be the Savory Roasted Cornish Hens with Roasted Garlic or Baked Spicy Tofu with Bean Thread Noodles, Corn, and Mango; for a simple supper, Turkey Burgers or Portobello Burgers; and for the occasional indulgence, a dessert of Almond Fruit Tart or Peach and Blueberry Cobbler. Andy and Rosie do not always agree. When Rosie calls for chicken, Andy offers a tofu alternative; she likes the flavor of coconut milk, whereas he prefers ground nut milk; when she makes a pastry with butter, he suggests using Spectrum Spread. There are no hard-and-fast rules. Lifelong health begins in the kitchen, so this is a lifestyle book as well as a cookbook. In it you will learn from Dr. Weil: • how to make use of nutritional information in everyday cooking • what is organic . . . and how to buy organic foods • the importance of reading labels and what to look for • sensible advice about eggs, milk, cheese, salt, spicy foods, wine, coffee • the facts about sugar and artificial sweeteners . . . and from Rosie: • how to get kids involved—from skinning almonds to layering lasagna • ways to have fun in the kitchen—creating scallion firecrackers and radish rosettes • low-fat and nondairy alternatives for those with special concerns • smart menu planning—letting the seasons be your guide . . . and lots more. This revolutionary book will change forever the way you cook for yourself and your family. With 58 photographs in full color.

Tiger Woods 2019-04-02 Jeff Benedict The inspiration for the HBO documentary from Academy Award–winning producer Alex Gibney. The #1 New York Times bestseller based on years of reporting and interviews with more than 250 people from every corner of Tiger Woods’s life—this “comprehensive, propulsive...and unsparing” (*The New Yorker*) biography is “an ambitious 360-degree portrait of golf’s most scrutinized figure...brimming with revealing details” (*Golf Digest*). In 2009, Tiger Woods was the most famous athlete on the planet, a transcendent star of almost unfathomable fame and fortune living what appeared to be the perfect life. But it turned out he had been living a double life for years—one that exploded in the aftermath of a Thanksgiving night crash that exposed his serial infidelity and sent his personal and professional lives over a cliff. In this “searing biography of golf’s most blazing talent” (*GOLF* magazine), Jeff Benedict and Armen Keteyian dig deep behind the headlines to produce a richly reported answer to the question that has mystified millions of sports fans for nearly a decade: who is Tiger Woods, really? Drawing on more than four hundred interviews with people from every corner of Woods’s life—many of whom have never spoken about him on the record before—Benedict and Keteyian construct a captivating psychological profile of a mixed race child programmed by an attention-grabbing father and the original Tiger Mom to be the “chosen one,” to change not just the game of golf, but the world as well. But at what cost? Benedict and Keteyian provide the startling answers in this definitive biography that is destined to linger in the minds of readers for years to come. “Irresistible...Immensely readable...Benedict and Keteyian bring us along for the ride in a whirlwind of a biography that reads honest and true” (*The Wall Street Journal*). Ultimately, Tiger Woods is “a big American story...exhilarating, depressing, tawdry, and moving in almost equal measure” (*The New York Times*).

Schooling and Aspirations in the Urban Margins 2021-04-29 Gunjan Sharma This book presents a detailed ethnographic study conducted in an urban slum in India. It explores how a State school, as a social and pedagogic institution, shapes the aspirations and worldviews of children in the urban margins. The volume engages with the children's experience of marginality and exclusion as they negotiate the intersecting axes of caste, class, gender, and citizenship. It further explores how their everyday school experience is mediated by the power asymmetries between the teachers and the community. In this process, it makes sense of the political dynamics between the State and its margins while highlighting the role of schools and locating childhood in this context. Based on ethnographic fieldwork, the book will be of interest to researchers, students, and teachers of education studies, sociology and politics of education, teacher education, childhood and youth studies, and urban studies. It will also be useful for education policymakers, and professionals in the development sector.

Writer will inspire readers to return to literature with a fresh eye and an eager heart – to take pleasure in the long and magnificent sentences of Philip Roth and the breathtaking paragraphs of Isaac Babel; to look to John le Carré for a lesson in how to advance plot through dialogue and to Flannery O'Connor for the cunning use of the telling detail; to be inspired by Emily Brontë's structural nuance and Charles Dickens's deceptively simple narrative techniques. Most importantly, Prose cautions readers to slow down and pay attention to words, the raw material out of which all literature is crafted, and reminds us that good writing comes out of good reading. /div

My Life in France 2006-04-04 Julia Child
NATIONAL BESTSELLER • Julia's story of her
transformative years in France in her own words is
"captivating ... her marvelously distinctive voice is
present on every page." (San Francisco Chronicle).
Although she would later singlehandedly create a
new approach to American cuisine with her
cookbook *Mastering the Art of French Cooking* and
her television show *The French Chef*, Julia Child
was not always a master chef. Indeed, when she
first arrived in France in 1948 with her husband,
Paul, who was to work for the USIS, she spoke no
French and knew nothing about the country itself.
But as she dove into French culture, buying food at
local markets and taking classes at the Cordon Bleu,
her life changed forever with her newfound
passion for cooking and teaching. Julia's
unforgettable story—struggles with the head of the
Cordon Bleu, rejections from publishers to whom
she sent her now-famous cookbook, a wonderful,
nearly fifty-year long marriage that took the Childs
across the globe—unfolds with the spirit so key to
Julia's success as a chef and a writer, brilliantly
capturing one of America's most endearing
personalities.

The Lady Tasting Tea 2002-05-01 David Salsburg At
a summer tea party in Cambridge, England, a lady
states that tea poured into milk tastes differently
than that of milk poured into tea. Her notion is
shouted down by the scientific minds of the group.
But one guest, by the name Ronald Aylmer Fisher,
proposes to scientifically test the lady's hypothesis.
There was no better person to conduct such a test.

For Fisher had brought to the field of statistics an emphasis on controlling the methods for obtaining data and the importance of interpretation. He knew that how the data was gathered and applied was as important as the data themselves. In *The Lady Tasting Tea*, readers will encounter not only Ronald Fisher's theories (and their repercussions), but the ideas of dozens of men and women whose revolutionary work affects our everyday lives. Writing with verve and wit, author David Salsburg traces the rise and fall of Karl Pearson's theories, explores W. Edwards Deming's statistical methods of quality control (which rebuilt postwar Japan's economy), and relates the story of Stella Cunliff's early work on the capacity of small beer casks at the Guinness brewing factory. *The Lady Tasting Tea* is not a book of dry facts and figures, but the history of great individuals who dared to look at the world in a new way.
