Music Theory for Electronic Music Producers

2018-10-13 J. Allen The producer's guide to harmony, chord progressions, and song structure in the MIDI grid. As an online class, Dr. Allen has had over 50,000 students use this ground-breaking curriculum to learn music theory. Students and Producers who have wanted to learn music theory to improve their own music, but have been intimidated by traditional approaches, music notation, and abstract concepts will find this book to be the answer they have been looking for. From the Author: "How music theory is usually taught is unfair. It starts with the assumption that you can read music and understand the language of classical music. My book leaves all of that behind - focusing only on the MIDI grid that producers are already familiar with to learn all the key concepts of music theory, and ultimately, make better music." This book covers all the fundamentals of music theory, but is written using the language of the DJ and Producer - the MIDI Grid. It includes "analysis" projects that look at the harmonic and melodic ideas in songs by popular producers including Zedd, Boards of Canada, Daft Punk, Deadmau5, Bonobo, Richie Hawtin, Moby, Skrillex, and Aphex Twin. Praise for Music Theory for Electronic Music Producers: "Aspiring electronic musicians have choices to make when it concerns their own education and training. This text makes one choice much easier: start here and get learning, quickly. Grounded and easygoing, the book uses real-world examples to help you make sense of music's inner workings while steering clear of dense theories." - Michael J. Ethen, PhD Musicologist "This book knocks the oftentimes alienating world of music theory completely onto it's side. Difficult to explain concepts are perfectly demonstrated for the aspiring electronic music producer who might have no formal music training. A must have for all aspiring producers." - James Patrick (DJ, Producer, Educator) Slam Academy, Dubspot, IPR, Ableton Certified Trainer "With Music Theory for Electronic Music Producers, Dr. Allen has produced a remarkable resource: an extensive tour of musical theory that leverages some of our favorite modern tools - the virtual studio and it's piano roll note display. By introducing us to the "why" as well as the "what" of music theory, this book helps us to understand what makes music tick and how to improve our own work. In addition to offering a sound theoretical foundation, the deep dives into analyzing tracks by Skrillex, Aphex Twin, and Deadmau5 keeps our attention focused on real-world production. MTEMP will definitely go on the top of my recommendation list for anyone that needs a fresh view of musical concepts." - Darwin Grosse Director of Education, Cycling '74

Anna could never banish from her thoughts her first love, Leo. Their paths had crossed when they were both 16, at a magical summer camp. They were utterly smitten, spending every day sharing laughter, exchanging heartfelt thoughts, and experiencing the thrill of first love. Their bond was solid, and they vowed to maintain their bond, to wait for each other, and to never let their love fade. But life, as it often does, had a different path in store for them. They lost communication, they moved on with their lives, and they eventually married other people. Years passed, and the turmoil of life took them in different directions. But fate, it seems, had not forgotten their unbreakable connection. At a chance encounter, at a sentimental reunion, their paths crossed once again. The moment they laid eyes on each other, the spark of their connection rekindled. The same undeniable attraction that had drawn them together years ago was still unmistakable. They felt the same thrill that had fueled their teenage romance, but they also felt the burden of their past. Their emotions swirled for the deep connection they had shared, but their minds grappled with the complexity of their current lives. They were caught in a tug-of-war, torn between the passion of their past and the stability and security of their present. They stood at a crossroads, forced to make a life-altering choice. Would they choose the magnetic pull of their first love, risking the unpredictability that lay ahead, or would they hold onto the predictability of their current lives, forever wondering what could have been? Only time would tell if their unbreakable bond would overcome the challenges.
