Child Abuse and Neglect in Uganda

2017-01-20 David Kaawa-Mafigiri This book provides a unique perspective on addressing issues of various forms of violence against children from scholars within their own country. Bringing together cross-disciplinary expertise, this volume addresses a vast range of topics related to child abuse and neglect in Uganda. Exploring areas from the protection of street children to cultural proverbs related to child maltreatment, this volume examines issues both specific to the Ugandan contexts as well as broadly experienced in child maltreatment work in non-Euro-American countries. This book surveys the breadth of the child protection field, covering issues of children's universal rights, challenges of protection and ethical quandaries in researching and addressing maltreatment.

Lightning Engineering: Physics, Computer-based Test-bed, Protection of Ground and Airborne Systems

2022-02-11 Paul Hoole This book gives a contemporary and comprehensive overview of the physics of lightning and protection systems, based on nearly 40 years of research, teaching, and consultancy work in this area. The book begins with an overview of the climatology of lightning and electric storms, as well as giving insight into lightning discharge from the preliminary discharges or processes such as corona, stepped leader, and subsequent return strokes, including the important submicrosecond threats and continuous current. The subsequent chapters present measures of lightning threat analysis to aircraft and electric power systems, protection measures to be used in high-voltage to low-voltage computer and communication systems, as well as to commercial and domestic buildings. The book discusses challenges posed by the submicrosecond lightning current changes and climate change to present and future high-voltage apparatus and structures (including

Artificial Intelligence and Digital Diplomacy

2021-08-31 Fatima Roumate This volume discusses digital diplomacy and artificial intelligence within the context of global governance and international security. Rapid digitalization has changed the way international actors interact, offering new opportunities for international and bilateral cooperation and reinforcing the role of the emergent actors within global governance. New phenomena linked to digitalization and artificial intelligence are emerging and this volume brings a multidisciplinary, mixed-methods approach to studying them. Written by globally recognized experts, each chapter presents a case study covering an emerging topic such as: international regulation of the web and digital diplomacy, the interplay of artificial intelligence and cyber diplomacy, social media and artificial intelligence as tools for digital diplomacy, the malicious use of artificial intelligence, cyber security, and data sovereignty. Incorporating both theory and practice, quantitative and qualitative analysis, this volume will be of interest to graduate students and researchers in international relations, diplomacy, security studies, and artificial intelligence, as well as diplomats and policymakers looking to understand the implications of digitalization and artificial intelligence in their fields.

Urban Inclusivity in Southern Africa

2021-09-28 Hangwelani H. Magidimisha-Chipungu This book's point of departure rests on the premises that dimensions of the mainstream inclusive city discourse fail to capture in detail vulnerable clusters of society (being women, children, and the aging), the minority clusters (i.e., the blind, the disabled), and migrants. In addition, it fails to recognize the increase of spatial inequality driven by racial and class

differences—a factor that has seen an increase in community violence and protests. The focus on spatial inequality has, for a long time, blind-folded urban authorities to ignore exclusion arising out of the same environments created with a notion of creating inclusivity. Hence this book “collapses spatial walls” as it seeks to uncover the true perspectives of inclusivity in cities beyond spatial dimensions but within social realms. The depth of this book’s enquiry rests on its critical investigation of Southern African cities’ through historical epochs of apartheid and colonialism in the region.

The Development of Global Legislative Politics

2019-11-09 Takashi Inoguchi This book is the first systematic scientific study of global quasi-legislation. Taking public opinion and multilateral agreements as the international equivalent to national election and passing laws on the national scale, and extending nation-state concepts to a global society, it analyzes citizens' preferences and the state's willingness to enter into 120 multilateral treaties. After identifying the links as a first step toward conceptualizing quasi-legislative global politics, the book examines how each of the 193 states manifests quasi-legislative behavior by factor-analyzing six instrumental variables such as treaty participation index and six policy domains of multilateral treaties, including peace and trade. It then discusses global change

between 1989 and 2008, and conceptually and empirically examines the three theories of global politics that originated during that period: the theory of power transition, theory of civilizational clash and theory of global legislative politics. Lastly, it proposes a theory of global legislative politics. Shedding fresh light on the transformative nature of multilateral treaties, this book attracts researchers and students in political philosophy, international law and international relations as well as practitioners and journalists. Inoguchi and Le have developed a genuinely original perspective on world politics, one that opens up a new research agenda for thinking about state and global actors simultaneously.-- Anne-Marie Slaughter, Bert G. Kerstetter '66 University Professor Emerita of Politics and International Affairs, Princeton University This is one of those books that warrant a global readership given its emphasis on the implied trust that we invest in public institutions as viewed from an interdisciplinary perspective. -- Richard J. Estes, Professor of Social Policy & Practice, University of Pennsylvania, Philadelphia, Pennsylvania This book is innovative and distinctive in carving out a new way to look at “global legislative politics.” I do not know of anything that compares in this interesting and novel niche of international relations analysis.-- William R. Thompson, Distinguished Professor and Rogers Chair of Political Science Emeritus, Indiana University

It had been the time 2023, and the world stood at the brink of war. The USA and Peoples Republic of China, the pair of world powers, were locked in a intense contest, contending for resources, influence, and control. They had both created high-tech arms, such as laser weapons, drones, and spacecrafts, which can hit anywhere, anytime. They had also secretly established orbital stations, that can deploy atomic weapons, that could obliterate the world. They were both set to use these weapons, if at all required. But they were not alone. There existed a 3rd power, a concealed power, that had been monitoring them both, waiting for them both, getting ready for them both. They were extraterrestrials, and they had come to stop them both. They had come arrived to rescue the world, or to terminate it all. They had come arrived to begin the space wars which changed history.

The publication “Analyzing Casual Conversation” by Suzanne Eggins and Diana Slade, originally issued in 1997, creates a methodical model for the analysis and depiction of casual conversation in English. The authors contend that in spite of its sometimes aimless look and apparently unstructured substance, casual conversation is a very structured undertaking and plays a vital part in the social formation of reality. The publication proceeds through genuine samples of casual conversations including participants varying in age, gender, ethnicity, and socio-economic class¹². Drawing on insights from sociology, linguistics, and critical semiotics, the work furnishes readers with the analytical skills to portray the strata of structure and critical interpretive models to clarify the ‘social work’ that occurs on through chat.

It involves current and upcoming economic factors, making it essential to obtain dependable estimates of future costs, benefits, and other economic parameters. Engineers frequently deal with projects whose scale, complexity, and uncertainty call for advanced approaches to planning and budgeting^[^2^][1]. A number of methods are used for cost estimation, including rough estimates, semi-detailed estimates, or detailed estimates, depending on the needs for the estimates^[^1^][2]. Key concepts in this field include overhead costs, cost driver identification, cost allocation methods, capital budgeting, flexible budgeting, zero-based budgeting, budgets, and estimates. Various models are available for developing cost (or benefit) estimates, such as the per-unit model, the segmenting model, cost indexes, the power-sizing model, and learning curve cost estimating. The quality of a cost estimate typically increases as the resources allocated to developing the estimate increase.

She had spent her childhood in a normal family, living in a unassuming town, devoid of any signs of the supernatural. However, on her sixteenth birthday, her life took an unexpected turn. A mysterious package arrived, sent by her grandmother, who had passed away years ago. Within the package lay an timeworn leather-bound book, its cover adorned with the inscription, "The Book of Shadows". As Eva opened the book, a wave of energy coursed through her veins. She realized that the book held the hidden mysteries of her familys magical lineage, and that she was the last descendant of a long line of powerful witches. But she also discovered that she was not alone. There were others like her, individuals who possessed similar abilities, and some of them sought to wield their magic for malevolent purposes. Eva faced a pivotal decision: embrace her destiny as a witch and delve into the world of sorcery, or reject her newfound powers and continue living her life as she had always known it. Regardless of her choice, she knew that her life would forever be altered from that moment forward.
