Developed by Lloyd M. Dunn and Douglas M. Dunn, the evaluation is designed to evaluate vocabulary comprehension for American English. It is fast and easy to administer, preserving important time so that focus can be set on applying intelligent strategies.

The PPVT-4 assessment material includes a extensive array of vocabulary comprehension ranks, ranging from preschool through adulthood. The evaluation problems widely feature words that depict 20 subject areas (e.g., actions, vegetables, tools), parts of speech (nouns, verbs, attributes), and household and school vocabulary.

The assessment gives two equivalent forms which contain different vocabulary items, making sure that the test-taker has not “memorized” the test. One version can be used prior to intervention to evaluate test-takers’ vocabulary understanding and the other edition can be utilized for re-testing to evaluate and record advancement. The PPVT-4 also contains a special Growth Scale Value (GSV) which is responsive to small changes over time.
