The Peabody Picture Vocabulary Test 4th Edition (PPVT-4) is a highly regarded vocabulary evaluation that has been in use for nearly half a century. Created by Lloyd M. Dunn and Douglas M. Dunn, the assessment is designed to measure vocabulary comprehension for American English. It is quick and easy to carry out, saving valuable time so that concentration can be set on executing intelligent approaches.

The PPVT-4 test material encompasses a extensive range of receptive vocabulary grades, ranging from preschool through adult age. The evaluation questions widely feature words that represent 20 topic areas (e.g., actions, vegetables, tools), parts of speech (nouns, verbs, attributes), and home and educational vocabulary.

The test gives two equal editions which include various vocabulary items, making sure that the person has not “learned” the test.
