My Improbable Journey to America

2021-11-08 Jarvis Sankalan Mengarpuan Author

Sankalan was in the sixth grade when his guardians threw him out of their government-owned house in the picturesque community of Germany, Kakata, Liberia, West Africa. Why? Because he went to borrow a uniform from his friend to sit for the Liberian Government national examinations designed for sixth, ninth, and twelfth graders in the sixties and seventies. Booker Washington Institute (BWI) campus was the site of the exams. The old uniform he had showed his naked anatomy in public, which was not only humiliating but embarrassingly inappropriate in such public arena. How did he continue school as an independent homeless youth in his home country, Liberia? What difficult circumstances did he experience in Liberia during his formative years in the quest of education? What propelled him to undertake this incredible journey to the United States of America, a country in which many Africans or Liberians believe that 'Money grows on trees,' a country in which people are territorial by nature

and protective of their personal space, a country in which the culture values are diametrically opposed to the African or Liberian way of life? How did he maintain his moral integrity to his family, after he was pressured to engage in an illegal marriage proposal to obtain permanent resident status (Green Card) in his first year in the America? And how did he successfully complete his educational journey with perseverance despite insurmountable problems along his path in the US? Answers to these questions are chronicled in this riveting account of an intrepid Liberian in his book: *My Improbable Journey to America—A Memoir of Reflections*.

Resisting the Kinder-Race

2021 Christopher P. Brown "This book explores how the current process of schooling that frames public education through economic rather than democratic terms is fundamentally flawed, why it must change, and how all members and participants within the early childhood and elementary school communities must be a part of the reform process. The work is based on the author's recent studies of stakeholders' in the changed kindergarten as well as earlier studies examining the impact of reforms on classrooms, pre and in-service teachers, students, families, administrators, teacher educators, and other education stakeholders. By examining these issues empirically, practically, and theoretically, the author illuminates the complexity of what is currently occurring in kindergarten and other early childhood classrooms across the U.S. Then, Brown skillfully puts forward ideas for change
