## Math Riddles for Smart Kids

2017-08-22 M. Prefontaine Brain Stretching Math Riddles This book is the second in a series of riddles books. It is a collection of 150 brain teasing math riddles and puzzles. Their purpose is to make children think and stretch the mind. They are designed to test logic, lateral thinking as well as memory and to engage the brain in seeing patterns and connections between different things and circumstances. They are laid out in three chapters which get more difficult as you go through the book, in the author's opinion at least. The answers are at the back of the book if all else fails. These are more difficult riddles and are designed to be attempted by children from 10 years onwards, as well as participation from the rest of the family.

Journey of a Thousand Miles

He was tired of his living. He was dull, sad, and unfulfilled. He had a work he hated, a boss he despised, and a significant other he didn't adore. He had no passion, no purpose, no meaning. He believed like he was wasting his time, his potential, his being. He wanted to alter, he desired to escape, he wanted to live. He decided to resign from his work, to break up with his girlfriend, to dispose of his belongings, and to purchase a direct fare to the far end of the world. He didn't know where he was heading, he didn't know what he was doing, he didn't understand what he was looking for. He only knew that he had to depart, that he had to investigate, that he had to discover. He embarked on a journey of a thousand distances, a trip of thrill, of difficulty, of education, of growth, of change.

Galactic Conflicts which Transformed Past

It was the time 23, and the earth stood at the edge of war. The USA and China, the pair of global powers, had been locked in a fierce competition, vying for resources, dominance, and supremacy. They had created advanced armaments, like lasers, drones, and spacecrafts, which can hit any place, any moment. They had covertly built orbital stations, which can launch atomic weapons, that could annihilate the world. They were ready to utilize them, if at all required. But they were not alone. There existed a third power, a concealed force, that had watching them, waiting for them both, preparing for them. They were the aliens, and they had come arrived to halt them. They had come come to save the globe, or to finish it all. They had come to initiate the galactic wars that altered history.
