Criticizing Photographs

2020-11-29 Terry Barrett Emphasizing the understanding of images and their influences on how they affect our attitudes, beliefs, and actions, this fully updated sixth edition offers consequential ways of looking at images from the perspectives of photographers, theoreticians, historians, curators, and editors. It invites informed conversations about meanings and implications of images, providing multiple and sometimes conflicting answers to questions such as: What are photographs? Should they be called art? Are they ethical? What are their implications for self, society, and the world? From showing how critics verbalize what they see in images and how they persuade us to see similarly, to dealing with what different photographs might mean, the book posits that some interpretations are better than others and explains how to deliberate among competing interpretations. It looks at how the worth of photographs is judged aesthetically and socially, offering samples and practical considerations for both studio critiques for artists and professional criticism for public audiences. This book is a clear and accessible guide for students of art history, photography and criticism, as well as anyone interested in carefully looking at and talking about photographs and their effects on the world in which we live.

Complete Cheerleading

2005-10-31 Justin Carrier In the past decade, cheerleading has lit up the sidelines and become an activity all its own. Attendance at summer camps has grown to more than 500,000 participants annually, and tens of thousands train for regional and national competitions each year, with championships and even college scholarships on the line. As cheerleading continues to grow, so too does the need for a source of information that covers the range of skills, stunts, and moves. Complete Cheerleading provides all the information participants need in order to excel in this highly athletic and increasingly competitive activity. Top cheerleading coaches and judges lend their expert instruction on such crucial topics as body position and movement, voice control, jumps and tumbling, stunt technique, and choreography. There are chapters dedicated solely to games and pep rallies, camps and competition, and practices and conditioning, in addition to XX stunts for all levels of cheer squads. Teaming Justin Carrier, National Cheerleading Association (NCA) director of curriculum, and Donna McKay, cheer coach in Iowa and national judge, this book combines success at the national level, long-term coaching expertise at the high school level, and judging experience at every level. Complete Cheerleading is the all-in-one authoritative source that cheerleaders, coaches, and advisors will turn to from one spirited season to the next.

Sports Injury Research

2010 Evert Verhagen This book is a comprehensive guide to the epidemiology and methodology involved in sports injury research, including detailed background on epidemiological methods employed in research on sports injuries and discussions on key methodological issues.

Head and Neck Injuries in Young Athletes

2015-11-30 Michael O'Brien Providing the most current information on injuries to the head and neck sustained by young athletes, this practical text presents a thorough review of the complex and emerging issues for youths and adolescents involved in contact/collision sports. While concussions are among the most common injuries, fractures of the skull and facial bones and structural brain injuries can be serious and are discussed in chapters of their own, as are stingers and other cervical spine and cord issues and disease. Injuries to the eyes, ears and jaw are likewise examined. Prevention is a major theme throughout the book, as seen in chapters on protective head- and neckwear, transportation of injured players, and sideline response and return-to-play. Head and Neck Injuries in Young Athletes will be an excellent resource not only for orthopedists and sports medicine specialists treating growing athletes, but also specialists and team physicians who are on the scene at sporting events where these injuries may occur.

Coaching Cheerleading Successfully

2005 Linda Rae Chappell This guide presents all the essentials you need to teach techniques, choreograph specific cheer components, plan and conduct practice sessions, and evaluate performances. You'll also find helpful suggestions and examples for fund-raising, building school spirit, and making your cheerleaders more likely to receive special awards and college tryouts.

Coaching Young Athletes

1981 Rainer Martens This guide introduces and explains the basics of coaching, such as coaching philosophy, sport psychology, sport pedagogy, sport physiology, sport medicine, parent management, and sport law.

The Double-Goal Coach

2003-08-12 Jim Thompson The Double-Goal Coach is filled with powerful coaching tools based on Jim Thompson's Positive Coaching Alliance. These strategies reflect the "best-practices" of elite coaches and the latest research

3D Coach

2014-06-11 Jeff Duke With more than 60 million athletes involved in sports in America, it is estimated that one coach will impact more people in one year than the average person does in a lifetime. Today's coach could be one of the greatest authoritative figures in the life of today's adolescent. So the question isn't whether coaches leave a legacy, but rather, what will that legacy be? Current trending research shows that only 15% of coaches are intentional about coaching beyond the skills and strategies of the game (1st Dimension). A 3-Dimensional Coach understands and harnesses the power of the coaching platform to coach the mind (2nd Dimension) and transform the heart (3rd Dimension). They can be the catalysts for internal transformation that guides both the coach and the athlete on a spiritual journey to finding purpose in our performance-based culture. Now that's a legacy! In 3D Coach, National Coaches Training Director Jeff Duke shares his own journey through the three dimensions of coaching and how it has impacted his life and those around him. He also shares the personal stories of coaches from all levels who have implemented the 3D concept into their own programs and who have pointed to Jesus Christ, the Master Coach, as the ultimate example of how to lead athletes to true significance.
