

Communists Take Power In China Reading Study Guide Pdf Pdf

In China 1945, Richard Bernstein tells the incredible story of the sea change that took place during that year—brilliantly analyzing its far-reaching components and colorful characters, from diplomats John Paton Davies and John Stewart ...

Red Roulette 2021-09-07 Desmond Shum "THE BOOK CHINA DOESN'T WANT YOU TO READ."--CNN A riveting insider's story of how the Party and big money work in China today, by a man who, with his wife, Whitney Duan, rose to the zenith of power and wealth--and then fell out of favor. She was disappeared four years ago. News of this book led to a phone call from Whitney, proof that she's alive. As Desmond Shum was growing up impoverished in China, he vowed his life would be different. Through hard work and sheer tenacity he earned an American college degree and returned to his native country to establish himself in business. There, he met his future wife, the highly intelligent and equally ambitious Whitney Duan who was determined to make her mark within China's male-dominated society. Whitney and Desmond formed an effective team and, aided by relationships they formed with top members of China's Communist Party, the so-called red aristocracy, he vaulted into China's billionaire class. Soon they were developing the massive air cargo facility at Beijing International Airport, and they followed that feat with the creation of one of Beijing's premier hotels. They were dazzlingly successful, traveling in private jets, funding multi-million-dollar buildings and endowments, and purchasing expensive homes, vehicles, and art. But in 2017, their fates diverged irrevocably when Desmond, while residing overseas with his son, learned that his now ex-wife Whitney had vanished along with three coworkers. This is both Desmond's story and Whitney's, because she has not been able to tell it herself.

Red Star over China 2007-12-01 Edgar Snow "A historical classic" that brings Mao Tse-tung, the Long March, and the Chinese revolution to vivid life (Foreign Affairs). Journalist Edgar Snow was the first Westerner to meet Mao Tse-tung and the Chinese Communist leaders in 1936—and out of his up-close experience came this historical account, one of the most important books about the remarkable events that would shape not only the future of Asia, but also the future of the world. This edition of Red Star Over China includes extensive notes on military and political developments in the country; interviews with Mao himself; a chronology covering 125 years of Chinese history; and nearly a hundred detailed biographies of the men and women who were instrumental in making China what it is today.

Hidden Hand 2020 Clive Hamilton "Heavily Sourced, Crisply Written and Deeply Alarming" The Time, London Governments around the world are in the early stages of a repositioning of power, as China rises and the United States is drawn into direct competition. However, some are beginning to wonder whether, for all of the economic benefits, engaging with China carries unseen dangers. The Chinese Communist Party is now determined to reshape the world in its image. The party is not interested in democracy. It divides the world into those who can be won over and enemies. They have already lured many leaders to their corner; others are weighing up a devil's bargain. Hidden Hand is a detailed and devastating expose of the Chinese Communist Party's influence in the West, including Canada. It could not arrive at a better time in Canada, with relations between Ottawa and Beijing reaching breaking point after two years of mounting tension. China's bullying behaviour, and the mobilizing of people loyal to the Chinese Communist Party on the streets of Canada's cities, has caused deep disquiet among Canadians. But the government seems paralyzed. Hidden Hand shows how Canada's political, business, academic and cultural elites have over many years been co-opted by the Chinese Communist Party and its agencies. They are confused about what is in Canada's national interests and frequently do Beijing's bidding. Hidden Hand shows how the Chinese Communist Party represents a profound threat to Western democracy. It's vital reading for Canadians who want to understand what is really happening, and points to a way of carving out a new diplomatic course

with China. But the question remains: Does the government have the will to stand up to Beijing and its proxies in Canada or is it too late? About the Authors Clive Hamilton, Author Clive is an Australian academic and author. His book on China's influence in Australia, Silent Invasion, was a national bestseller that propelled him to the centre of the China debate at home and abroad. Clive has written numerous bestselling books spanning thirty years in academia. His articles have appeared in the Guardian, New York Times, Foreign Affairs and THES. Mareike Ohlberg, Author Mareike is a senior fellow in the Asia Program of the German Marshall Fund. She previously worked at the Mercator Institute for China Studies. Her articles have been published in the New York Times, Foreign Affairs and Neue Zürcher Zeitung. Charles Burton, Foreword Charles is an Associate Professor at Brock University specializing in Comparative Politics, Government and Politics of China, Canada-China Relations and Human Rights. He served as Counsellor at the Canadian Embassy to China between 1991-1993 and 1998-2000. Prior to coming to Brock, Charles worked at the Communications Security Establishment of the Canadian Department of National Defence.

Wealth Into Power 2008-07-14 Bruce J. Dickson Dickson argues that, rather than promoting democratization, China's entrepreneurs offer key support for the Communist Party's agenda.

Quotations from Chairman Mao Tsetung 1990 Zedong Mao

The Party 2010-06-08 Richard McGregor "A masterful depiction of the party today. . . . McGregor illuminates the most important of the contradictions and paradoxes. . . . An entertaining and insightful portrait of China's secretive rulers." —The Economist "Few outsiders have any realistic sense of the innards, motives, rivalries, and fears of the Chinese Communist leadership. But we all know much more than before, thanks to Richard McGregor's illuminating and richly-textured look at the people in charge of China's political machinery. . . . Invaluable." — James Fallows, National Correspondent for The Atlantic In this provocative and illuminating account, Financial Times reporter Richard McGregor offers a captivating portrait of China's Communist Party, its grip on power and control over China, and its future. China's political and economic growth in the past three decades has been one of astonishing, epochal dimensions. The most remarkable part of this transformation, however, has been left largely untold—the central role of the Chinese Communist Party. McGregor delves deeply into China's inner sanctum for the first time, showing how the Communist Party controls the government, courts, media, and military and keeps all corruption accusations against its members in-house. The Party's decisions have a global impact, yet the CCP remains a deeply secretive body, hostile to the law and unaccountable to anyone or anything other than its own internal tribunals. It is the world's only geopolitical rival of the United States, and is primed to think the worst of the West.

Mao's China and the Cold War 2010-03-15 Jian Chen This comprehensive study of China's Cold War experience reveals the crucial role Beijing played in shaping the orientation of the global Cold War and the confrontation between the United States and the Soviet Union. The success of China's Communist revolution in 1949 set the stage, Chen says. The Korean War, the Taiwan Strait crises, and the Vietnam War—all of which involved China as a central actor—represented the only major "hot" conflicts during the Cold War period, making East Asia the main battlefield of the Cold War, while creating conditions to prevent the two superpowers from engaging in a direct military showdown. Beijing's split with Moscow and rapprochement with Washington fundamentally transformed the international balance of power, argues Chen, eventually leading to the end of the Cold War with the collapse of the Soviet Empire and the decline of international communism. Based on sources that include recently declassified Chinese documents, the book offers pathbreaking insights into the course and outcome of the Cold War.

Afterlives of Chinese Communism 2019-06-25 Christian Sorace Afterlives of Chinese Communism comprises essays from over fifty world-renowned scholars in the China field, from various disciplines and continents. It provides an indispensable guide for understanding how the Mao era continues to shape Chinese politics today. Each chapter discusses a concept or practice from the Mao period, what it attempted to do, and what has become of it since. The authors respond to the legacy of Maoism from numerous perspectives to consider what lessons Chinese communism can offer today, and whether there is a future for the egalitarian politics that it once promised.

Hidden Hand 2021-07-03 Clive Hamilton Headline: The Globe and Mail: Legal challenge halts Canadian, U.S. and U.K. release of book critical of Chinese Communist Party by Robert Fife That said it all. The hands of the Chinese Communist Party were going on the offence. The 48 Group Club a China friendly group of former UK ambassadors and Prime Ministers were embarrassed by their connections to a Club founded by key members of the Chinese Communist Party of Britain who's chair Stephen Perry suggested that China's approach to world order and rule was superior to democracy and the UK should embrace them. Asked if he believed the lawsuit was an effort by the Chinese government to stop the publication of his book, Mr. Hamilton said: "I have no evidence of that, although it should be noted that the Chinese government has used lawfare in the past." Lawfare is the use of legal action as part of a campaign against a target. Governments around the world are in the early stages of a repositioning of power, as China rises and the United States is drawn into direct competition. However, some are beginning to wonder whether, for all of the economic benefits, engaging with China carries unseen dangers. The Chinese Communist Party is now determined to reshape the world in its image. The party is not interested in democracy. It divides the world into those who can be won over and enemies. They have already lured many leaders to their corner; others are weighing up a devil's bargain. Through its exercise of 'sharp power,' the party is weakening global institutions, aggressively targeting individual corporations, and threatening freedom of expression from the arts to academia. At the same time, security services are increasingly worried about incursions into our communications infrastructure. Indeed, the vaunted Great Firewall is a temporary measure, only necessary until the party has transformed the global conversation. In December 2019, the CCP's obsession with social control led it to suppress expert warnings about the coronavirus outbreak in Wuhan. Most alarming for the West was the active collaboration of the WHO in spreading the CCP's version of events. It was a shocking example of the widespread co-optation of global institutions by the CCP, as described in Hidden Hand. As soon as Beijing thought it had the virus under control, it began a global propaganda blitz, presenting China's authoritarian system as a model for the rest of the world. Western media and pundits soon began echoing the Party line. Hidden Hand is a detailed and devastating expose of Chinese Communist Party influence in the West, including Canada. It could not arrive at a better time in Canada, with relations between Ottawa and Beijing reaching breaking point after two years of mounting tension. China's bullying behaviour, and the mobilising of people loyal to the Chinese Communist Party on the streets of Canada's cities, has caused deep disquiet among Canadians. But the government seems paralyzed. Hidden Hand shows how Canada's political, business, academic and cultural elites have over many years been co-opted by the Chinese Communist Party and its agencies. They are confused about what is in Canada's national interests and frequently do Beijing's bidding. Hidden Hand shows how the Chinese Communist Party represents a profound threat to Western democracy. It's vital reading for Canadians who want to understand what is really happening, and points to a way of carving out a new diplomatic course with China. But the question remains: Does the government have the will to stand up to Beijing and its proxies in Canada or is it too late?

Cadre Country 2022-02-01 John Fitzgerald Since the founding of the Communist Party in China just over a century ago, there is much the country has achieved. But who does the heavy lifting in China? And who walks away with the spoils? Cadre Country places the spotlight on the nation's 40 million cadres – the managers and government officials employed by the ruling Communist Party to protect its great enterprise. This group has captured the culture and wealth of China, excluding the voices of the common citizens of this powerful and diverse country. Award-winning historian John Fitzgerald focuses on the stories the Communist Party tells about itself, exploring how China works as an authoritarian state and revealing Beijing's

monumental propaganda productions as a fragile edifice built on questionable assumptions. Cadre Country is essential reading for anyone who wants to understand the workings of the Chinese Communist Party and the limits of its achievements. 'It takes decades of patient observation, experience and study of China to produce a book like this. Cadre Country is a must read for specialists and the general public.' – Anita Chan, Australian National University 'One of the most important books on China written since Xi Jinping assumed power, Cadre Country is a forensic and profound explication of the true nature of the Chinese Communist Party.' — John Lee, Hudson Institute and United States Studies Centre 'Everyone interested in China today should read this incisive analysis that explains exactly what China's own leaders mean by describing their country as a "party-state". Avoiding shibboleths like "totalitarian" and never assuming the inevitability of the paths China has taken in the past or will take in the future, Fitzgerald gives us a much-needed clinical description of the fundamental nature of Chinese politics.' — Peter Zarrow, University of Connecticut

From Rebel to Ruler 2021-07-06 Tony Saich A Project Syndicate Best Read of the Year On the centennial of the founding of the Chinese Communist Party, the definitive history of how Mao and his successors overcame incredible odds to gain and keep power. Mao Zedong and the twelve other young men who founded the Chinese Communist Party in 1921 could hardly have imagined that less than thirty years later they would be rulers. On its hundredth anniversary, the party remains in command, leading a nation primed for global dominance. Tony Saich tells the authoritative, comprehensive story of the Chinese Communist Party—its rise to power against incredible odds, its struggle to consolidate rule and overcome self-inflicted disasters, and its thriving amid other communist parties' collapse. Saich argues that the brutal Japanese invasion in the 1930s actually helped the party. As the Communists retreated into the countryside, they established themselves as the populist, grassroots alternative to the Nationalists, gaining the support they would need to triumph in the civil war. Once in power, however, the Communists faced the difficult task of learning how to rule. Saich examines the devastating economic consequences of Mao's Great Leap Forward and the political chaos of the Cultural Revolution, as well as the party's rebound under Deng Xiaoping's reforms. Leninist systems are thought to be rigid, yet the Chinese Communist Party has proved adaptable. From Rebel to Ruler shows that the party owes its endurance to its flexibility. But is it nimble enough to realize Xi Jinping's "China Dream"? Challenges are multiplying, as the growing middle class makes new demands on the state and the ideological retreat from communism draws the party further from its revolutionary roots. The legacy of the party may be secure, but its future is anything but guaranteed.

Politics And Traditional Culture: The Political Use Of Traditions In Contemporary China 2014-09-19 Ai Janette Jiawen This book examines the political use of China's traditions by the party-state in contemporary China. It argues that the party-state has taken an official Marxist stance in terms of the political use of tradition. Besides looking at the official Marxist stance, this book also looks at critiques of the party-state's use of traditions by the Liberalists and Neo-traditionalists. The underlying political ideologies of these three camps are Marxism, Liberalism and Neo-traditionalism. These three political ideologies have been the most influential in Chinese politics since the Republican Revolution in 1911. The contemporary political use of China's traditions is a competition between Marxism, Liberalism and Neo-traditionalism. This competition is critical to the future of Chinese politics. This book also examines three cases, representing identical ways of the political use of traditions. The three cases are the children's reading-of-the-classics movement, the construction of a Chinese Cultural Symbolic City, the construction and subsequent removal of a statue of Confucius in and from Tiananmen Square, and the revision of the official list of public holidays. The study of the three cases attempts to shed light on the three ways Chinese traditions have been used politically by the party-state. It also attempts to explore the reasons for the party's use of Chinese traditions, the reasons for the party's scepticism with regard to using Chinese traditions, and more importantly, the competition and/or cooperation between Marxists, Liberalists and Neo-traditionalists.

Communism 2018 Randy K. Hess During the 20th century, communism was one of the world's dominant forms of government. During the late 1980s, communist regimes held power across much of Asia, Eastern Europe, and parts of Africa. By the early 1990s, however, most of the communist regimes had been replaced.

Today only China, Cuba, Laos, North Korea, and Vietnam operate under communist political systems. This book explores the principles that underpin communism, and examines the way communist governments have exercised power in practice. Each title in this series includes color photos throughout, and back matter including: an index and further reading lists for books and internet resources. Key Icons appear throughout the books in this series in an effort to encourage library readers to build knowledge, gain awareness, explore possibilities and expand their viewpoints through our content rich non-fiction books. Key Icons in this series are as follows: Words to Understand are shown at the front of each chapter with definitions. These words are set in boldfaced type in that chapter, so that readers are able to reference back to the definitions--building their vocabulary and enhancing their reading comprehension. Sidebars are highlighted graphics with content rich material within that allows readers to build knowledge and broaden their perspectives by weaving together additional information to provide realistic and holistic perspectives. Educational Videos are offered in chapters through the use of a QR code, that, when scanned, takes the student to an online video showing a moment in sports' history, a speech, or an instructional video. This gives the readers additional content to supplement the text. Text-Dependent Questions are placed at the end of each chapter. They challenge the reader's comprehension of the chapter they have just read, while sending the reader back to the text for more careful attention to the evidence presented there. Research Projects are provided at the end of each chapter as well and provide readers with suggestions for projects that encourage deeper research and analysis. And a Series Glossary of Key Terms is included in the back matter containing terminology used throughout the series. Words found here broaden the reader's knowledge and understanding of terms used in this field. Mao's China and After 1999-04 Maurice Meisner Presents a revised account of the revolution of 1966-1969 - Examines the social and political consequences of the upheaval - Deng Xiaoping - Democracy movement - Tienanmen Incident - Mao Zedong - The hundred flowers - Great Leap Forward.

The Chinese Communist Party 2021-05-06 Timothy Cheek Ten engaging personal histories introduce readers to what it was like to live in and with the most powerful political machine ever created: the Chinese Communist Party. Detailing the life of ten people who led or engaged with the Chinese Communist Party, one each for one of its ten decades of its existence, these essays reflect on the Party's relentless pursuit of power and extraordinary adaptability through the transformative decades since 1921. Demonstrating that the history of the Chinese Communist Party is not one story but many stories, readers learn about paths not taken, the role of chance, ideas and persons silenced, hopes both lost and fulfilled. This vivid mosaic of lives and voices draws together one hundred years of modern Chinese history - and illuminates possible paths for China's future.

Civil War in China 1999 Suzanne Pepper Many books have tried to analyze the reasons for the Chinese communist success in China's 1945-1949 civil war, but Suzanne Pepper's seminal work was the first and remains the only comprehensive analysis of how the ruling Nationalists lost that war—not just militarily, but by alienating the civilian population through corruption and incompetence. Now available in a new edition, this authoritative investigation of Kuomintang failure and communist success explores the new research and archival resources available for assessing this pivotal period in contemporary Chinese history. Even more relevant today given the contemporary debates in Hong Kong and Taiwan over the terms of reunification with a communist-led national government in Beijing, this book is essential reading for anyone seeking a nuanced understanding of twentieth-century Chinese politics.

The Long Game 2021-06-11 Rush Doshi For more than a century, no US adversary or coalition of adversaries - not Nazi Germany, Imperial Japan, or the Soviet Union - has ever reached sixty percent of US GDP. China is the sole exception, and it is fast emerging into a global superpower that could rival, if not eclipse, the United States. What does China want, does it have a grand strategy to achieve it, and what should the United States do about it? In *The Long Game*, Rush Doshi draws from a rich base of Chinese primary sources, including decades worth of party documents, leaked materials, memoirs by party leaders, and a careful analysis of China's conduct to provide a history of China's grand strategy since the end of the Cold War. Taking readers behind the Party's closed doors, he uncovers Beijing's long, methodical game to displace America from its hegemonic position in both the East Asia regional and global orders through three sequential "strategies of displacement." Beginning in the 1980s, China focused for two decades on "hiding capabilities and biding time." After the 2008 Global Financial Crisis, it became more assertive regionally, following a policy of "actively accomplishing something." Finally, in the aftermath populist elections of 2016, China shifted to an even more aggressive strategy for undermining US hegemony, adopting the phrase "great changes unseen in century." After charting how China's long game has evolved, Doshi offers a comprehensive yet asymmetric plan for an effective US response. Ironically, his proposed approach takes a page from Beijing's own strategic playbook to undermine China's ambitions and strengthen American order without competing dollar-for-dollar, ship-for-ship, or loan-for-loan.

Mao's Road to Power: Revolutionary Writings, 1912-49: v. 1: Pre-Marxist Period, 1912-20 2015-06-03 Zedong Mao Revolution in its Leninist guise has been a dominant force in the world for most of the 20th century, and the Chinese revolution has been, with the Russian revolution, one of its two most important manifestations. Mao Zedong, the architect of victory in China in 1949, stands out as one of the dominant figures of the century. Guerilla leader, strategist, conqueror, ruler, poet and philosopher, he placed his imprint on China, and on the world. Even though today communism is widely seen as bankrupt, Mao Zedong's achievements as an innovative disciple of Lenin and Stalin in the most populous nation on earth guarantees his place in history. Whatever the ultimate fate of communism in China, the fact of Mao's influence on events during more than five decades, and its resonance after his death, will remain. This edition of Mao Zedong's writings provides abundant documentation in his own words regarding his life and thought. It has been compiled from all available Chinese sources, including not only the 20-volume edition published in Tokyo years ago, but many new materials issued in China since 1978, both openly and for internal circulation. The editors have pursued a threefold goal: firstly, to translate every text by Mao which could be obtained, so as to make this English version as complete as possible; secondly, to annotate the materials in sufficient detail to make them accessible to the non-specialist reader; and thirdly, to combine accuracy with a level of literary quality which is intended to make the volumes agreeable as well as instructive to read. Volume 1 includes translations of the entire contents of the authoritative "Mao Zedong Zaoqi Wengao 1912.6-1920.11" ("Draft writings from Mao Zedong's early period, June 1912-November 1920"), published in Beijing in 1990, plus some 15 additional texts for the same period which have been attributed to Mao. Among the items thus made available in English are his first surviving work, a middle school essay of 1912 in praise of Shang Yang; his very extensive "Classroom Notes" of late 1913 on the lectures of his most influential teachers, Yang Changji and "Yuan the Big Beard"; a dozen letters to his then close friend Xiao Zisheng (Siao-yu), who described a shared odyssey in "Mao-Tse-tung and I were Beggars"; his marginal annotations of 1918 to the German

philosopher Friedrich Paulsen's work on ethics, in which Mao proclaimed himself a believer in "individualism" and an admirer of Nietzsche; and many important letters, articles, and other writings documenting his evolution from liberalism to anarchism and finally to Marxism in 1919-1920.

Before Mao 2005-02-15 Patrick Lescot The first biography of Li Lisan, the first head of China's Communist Party, whose fiery independence led to forced exile under Stalin and eventual execution at the hands of Mao. Combining an exceptional love story with a gripping tale of incarceration in Stalin's gulag and later in Mao's concentration camps, Patrick Lescot's *Before Mao* is a deeply moving, beautifully told saga of Li Lisan, Mao's predecessor at the head of the Communist Party, a key member of the Russian and Chinese revolutions. Told in an engaging, highly dramatic style that reads more like a novel than a standard history, Lescot skilfully unfolds this page-turning biography. Li, who led the Chinese Communist Party in the 1920s, was a rare survivor among the Chinese members of the Internationale. Moving from China to France to the Soviet Union and finally back to China, *Before Mao* is an extraordinary chronicle of the indomitable human spirit 'allowing us to share in some true moments of emotion, where love wins over totalitarianism's destruction of individuality' (Le Monde).

The Party Line 2012-11-05 Doug Young The first in-depth, authoritative discussion of the role of the press in China and the way the Chinese government uses the media to shape public opinion China's 1.3 billion population may make the country the world's largest, but the vast majority of Chinese share remarkably similar views on these and a wide array of other issues, thanks to the unified message they get from tightly controlled state-run media. Official views are formed at the top in organizations like the Xinhua News Agency and China Central Television and allowed to trickle down to regional and local media, giving the appearance of many voices with a single message that is reinforced at every level. As a result, the Chinese are remarkably like-minded on a wide range of issues both domestic and foreign. Takes readers beyond China's economic miracle to show how the nation's massive state-run media complex not only influences public opinion but creates it Explores an array of issues, from Tibet and Taiwan to the environment and US trade relations, as seen through the lens of the Xinhua News Agency Tells the story of the official Xinhua News Agency along with its history and reporting over the years, as the foundation for telling the story

The Cultural Revolution 2017-06-06 Frank Dikötter The concluding volume--following *Mao's Great Famine* and *The Tragedy of Liberation*--in Frank Dikötter's award-winning trilogy chronicling the Communist revolution in China. After the economic disaster of the Great Leap Forward that claimed tens of millions of lives from 1958-1962, an aging Mao Zedong launched an ambitious scheme to shore up his reputation and eliminate those he viewed as a threat to his legacy. The Cultural Revolution's goal was to purge the country of bourgeois, capitalistic elements he claimed were threatening genuine communist ideology. Young students formed the Red Guards, vowing to defend the Chairman to the death, but soon rival factions started fighting each other in the streets with semiautomatic weapons in the name of revolutionary purity. As the country descended into chaos, the military intervened, turning China into a garrison state marked by bloody purges that crushed as many as one in fifty people. *The Cultural Revolution: A People's History, 1962-1976* draws for the first time on hundreds of previously classified party documents, from secret police reports to unexpurgated versions of leadership speeches. After the army itself fell victim to the Cultural Revolution, ordinary people used the political chaos to resurrect the market and hollow out the party's ideology. By showing how economic reform from below was an unintended consequence of a decade of violent purges and entrenched fear, *The Cultural Revolution* casts China's most tumultuous era in a wholly new light.

Red at Heart 2017 Elizabeth McGuire Presents a multigenerational history of the people who experienced Sino-Soviet affairs most intimately: prominent Chinese revolutionaries who traveled to Russia in their youths to study, often falling in love and having children there. Their personal memoirs, interviews with their children, and a collection of documents from the Russian archives allow McGuire to reconstruct the sexually-charged, physically difficult, and politically dangerous lives of Chinese communists in the Soviet Union. She brings to life a cast of transnational characters--including a son of Chiang Kai-shek and a wife of Mao Zedong--

-who connected the two great communist revolutions in human terms. Weaving personal stories and cultural interactions into political history, McGuire shows that the Sino-Soviet relationship was not a brotherhood or a friendship, but rather played out in phases like many lifelong love affairs - from first love, early betrayal, and love children; through eventual marriage with its conveniences and annoyances, guarded optimism, and official heirs; to divorce, reconciliation, and a nostalgia that lingers even today. --From publisher description.

Mao Zedong's China (Revised Edition) 2012-08-01 Kathlyn Gay In 1949, Mao Zedong came to power in China after a long and brutal civil war. He and his Chinese Communist Party immediately set out to transform their nation into a Communist state. They seized land from wealthy and middle-class farmers and distributed it to poor peasant farmers. The government also took over ownership of all industries. Citizens who resisted these changes were branded "counterrevolutionaries," and thousands were imprisoned or executed. Within a few years, Mao had turned China into a totalitarian state, controlling all aspects of his citizens' daily lives. In the 1960s, he sought to wipe out what remained of traditional Chinese society by launching the Cultural Revolution. Millions died as the country erupted into spasms of mob violence. Yet, despite the tumult, Chairman Mao remained a revered, almost godlike figure, worshiped by his people. How did he do it? Learn more about one of the most powerful and controversial figures of the 20th century.

Restless Empire 2012-08-28 Odd Arne Westad As the twenty-first century dawns, China stands at a crossroads. The largest and most populous country on earth and currently the world's second biggest economy, China has recently reclaimed its historic place at the center of global affairs after decades of internal chaos and disastrous foreign relations. But even as China tentatively reengages with the outside world, the contradictions of its development risks pushing it back into an era of insularity and instability—a regression that, as China's recent history shows, would have serious implications for all other nations. In *Restless Empire*, award-winning historian Odd Arne Westad traces China's complex foreign affairs over the past 250 years, identifying the forces that will determine the country's path in the decades to come. Since the height of the Qing Empire in the eighteenth century, China's interactions—and confrontations—with foreign powers have caused its worldview to fluctuate wildly between extremes of dominance and subjugation, emulation and defiance. From the invasion of Burma in the 1760s to the Boxer Rebellion in the early 20th century to the 2001 standoff over a downed U.S. spy plane, many of these encounters have left Chinese with a lingering sense of humiliation and resentment, and inflamed their notions of justice, hierarchy, and Chinese centrality in world affairs. Recently, China's rising influence on the world stage has shown what the country stands to gain from international cooperation and openness. But as Westad shows, the nation's success will ultimately hinge on its ability to engage with potential international partners while simultaneously safeguarding its own strength and stability. An in-depth study by one of our most respected authorities on international relations and contemporary East Asian history, *Restless Empire* is essential reading for anyone wishing to understand the recent past and probable future of this dynamic and complex nation.

Red Star Over China 1973 Edgar Snow

The Communist Road To Power In Vietnam 2018-03-05 William J Duiker In this new edition of his widely acclaimed study, William Duiker has revised and updated his analysis of the Communist movement in Vietnam from its formation in 1930 to the dilemmas facing its leadership in the post-Cold War era. Making use of newly available documentary sources and recent Western scholarship, the author reevaluates Communist revolutionary strategy during the Vietnam War. Based on primary materials in several languages, this respected work is essential for an understanding of Vietnam in the twentieth century.

Quotations from Chairman Mao Tse-tung 1967 Zedong Mao Reveals the man and the aims of the Cultural Revolution.

The Cultural Revolution 2020-08-06 Michel Oksenberg The Chinese Communist system was from its very

inception based on an inherent contradiction and tension, and the Cultural Revolution is the latest and most violent manifestation of that contradiction. Built into the very structure of the system was an inner conflict between the desiderata, the imperatives, and the requirements that technocratic modernization on the one hand and Maoist values and strategy on the other. The Cultural Revolution collects four papers prepared for a research conference on the topic convened by the University of Michigan Center for Chinese Studies in March 1968. Michel Oksenberg opens the volume by examining the impact of the Cultural Revolution on occupational groups including peasants, industrial managers and workers, intellectuals, students, party and government officials, and the military. Carl Riskin is concerned with the economic effects of the revolution, taking up production trends in agriculture and industry, movements in foreign trade, and implications of Maoist economic policies for China's economic growth. Robert A. Scalapino turns to China's foreign policy behavior during this period, arguing that Chinese Communists in general, and Mao in particular, formed foreign policy with a curious combination of cosmic, utopian internationalism and practical ethnocentrism rooted both in Chinese tradition and Communist experience. Ezra F. Vogel closes the volume by exploring the structure of the conflict, the struggles between factions, and the character of those factions.

Peasant Nationalism and Communist Power 1962 Chalmers A. Johnson This author researches the Chinese Communists' wartime expansion, according to the documentation recorded by Japanese intelligence, then compares that expansion with that of the Yugoslav Communists.

Mao's Great Famine 2010 Frank Dikötter Between 1958 and 1962, China descended into hell. Mao Zedong threw his country into a frenzy with the Great Leap Forward, an attempt to catch up and overtake Britain in less than 15 years. The experiment ended in the greatest catastrophe the country had ever known, destroying tens of millions of lives. So opens Frank Dikötter's astonishing, riveting, magnificently detailed chronicle of an era in Chinese history much speculated about but never before fully documented because access to Communist Party archives has long been restricted to all but the most trusted historians. A new archive law has opened up thousands of central and provincial documents that fundamentally change the way one can study the Maoist era. Dikötter makes clear, as nobody has before, that far from being the program that would lift the country among the world's superpowers and prove the power of communism, as Mao imagined, the Great Leap Forward transformed the country in the other direction. It became the site not only of one of the most deadly mass killings of human history, as at least 45 million people were worked, starved or beaten to death, but also the greatest demolition of real estate in human history, as up to a third of all housing was turned into rubble. The experiment was a catastrophe for the natural world as well, as the land was savaged in the maniacal pursuit of steel and other industrial accomplishments. In a powerful meshing of exhaustive research and narrative drive, Dikötter for the first time links up what happened in the corridors of power - the vicious backstabbing and bullying tactics that took place among party leaders - with the everyday experiences of ordinary people, giving voice to the dead and disenfranchised. His magisterial account recasts the history of the People's Republic of China.

Revolutions: A Very Short Introduction 2014-02 Jack A. Goldstone Revolutions have shaped world politics for the last three hundred years. This volume shows why revolutions occur, how they unfold, and where they created democracies and dictatorships. Jack A. Goldstone presents the history of revolutions from America and France to the collapse of the Soviet Union, 'People Power' revolutions, and the Arab revolts.

The Soviet Union and Communist China 1945-1950: The Arduous Road to the Alliance 2015-06-18 Dieter Heintz Drawing on a wealth of new sources, this work documents the evolving relationship between Moscow and Peking in the twentieth century. Using newly available Russian and Chinese archival documents, memoirs written in the 1980s and 1990s, and interviews with high-ranking Soviet and Chinese eyewitnesses, the book provides the basis for a new interpretation of this relationship and a glimpse of previously unknown events that shaped the Sino-Soviet alliance. An appendix contains translated Chinese and Soviet documents - many of which are being published for the first time. The book focuses mainly on Communist China's relationship with Moscow after the conclusion of the treaty between the Soviet Union and Kuomintang China

in 1945, up until the signing of the treaty between Moscow and the Chinese Communist Party in 1950. It also looks at China's relationship with Moscow from 1920 to 1945, as well as developments from 1950 to the present. The author reevaluates existing sources and literature on the topic, and demonstrates that the alliance was reached despite disagreements and distrust on both sides and was not an inevitable conclusion. He also shows that the relationship between the two Communist parties was based on national interest politics, and not on similar ideological convictions.

China's Grand Strategy 2020-07-27 Andrew Scobell To explore what extended competition between the United States and China might entail out to 2050, the authors of this report identified and characterized China's grand strategy, analyzed its component national strategies (diplomacy, economics, science and technology, and military affairs), and assessed how successful China might be at implementing these over the next three decades.

News under Fire 2017-09-05 Shuge Wei News under Fire: China's Propaganda against Japan in the English-Language Press, 1928-1941 is the first comprehensive study of China's efforts to establish an effective international propaganda system during the Sino-Japanese crisis. It explores how the weak Nationalist government managed to use its limited resources to compete with Japan in the international press. By retrieving the long neglected history of English-language papers published in the treaty ports, Shuge Wei reveals a multilayered and often chaotic English-language media environment in China, and demonstrates its vital importance in defending China's sovereignty. Chinese bilingual elites played an important role in linking the party-led propaganda system with the treaty-port press. Yet the development of propaganda institution did not foster the realization of individual ideals. As the Sino-Japanese crisis deepened, the war machine absorbed treaty-port journalists into the militarized propaganda system and dashed their hopes of maintaining a liberal information order. "A superbly researched and well-nuanced account of an overlooked topic: nationalist China's propaganda system and the multiple ways in which it intersected with the treaty-port foreign-language press of the time. Combining a wealth of archival and newspaper sources, it is destined to be on the 'must read' list of all who are interested in state propaganda and news dissemination in the Republican period." —Julia C. Strauss, professor of Chinese politics, SOAS, University of London "An absorbing and well-sourced study of KMT propaganda efforts to convince the United States to side with China rather than Japan in WWII. The study shows how the KMT, facing a massive power asymmetry compared to its Japanese opponent, managed to effectively use the soft power of foreign propaganda." —Rudolf G. Wagner, senior professor of Chinese studies, Cluster of Excellence Asia and Europe, Heidelberg University, Germany

The Soviet Union, the Communist Movement, and the World 1990-02-08 Alan Levine In this volume, Alan Levine traces the development of the Soviet Union and the Communist movement from 1917 to the Nazi invasion of the USSR in June 1941. Arguing that the Cold War between the Soviet Union and the Western democracies can only be fully understood by examining the doctrine and practices of the Soviet Union and the world Communist movement from their inception, Levine offers a detailed account of the development of the state parties in Russia and China, the Communist seizure of power, the Soviet Union's role in international relations between the two world wars, and the development of the techniques of conflict management used by the Communist powers later in the era of the Cold War. By treating together a number of topics and elements that are closely related but usually treated separately, Levine offers important new insights into the origins of the Cold War, showing that the devices used successfully by the Soviet state during these years--building satellite states, the use of proxy forces to influence the outcomes of revolutions, the use of Soviet military aid, and the inconspicuous employment of Soviet advisors--were already seen in the 1920s and 1930s. Levine stresses throughout the continuity exhibited by Soviet policies between the world wars and those used during the Cold War after World War II. He examines in depth such topics as Soviet foreign policy and territorial expansion, the development of Communist movements and doctrines, the successes and failure of the Communists' enemies, the history of the Russian and Chinese revolutions, and the history of Communist attempts to seize power. Based on his analysis, Levine concludes that rather than

beginning in 1945, following the end of World War II, the Cold War actually had its origins in the development of a totalitarian Communist regime in the former Russian Empire under the shattering impact of World War I. Levine argues further that there has also been a strong element of continuity in the characteristic features of Western responses to the Soviets. Students of twentieth-century international politics will find Levine's work illuminating reading.

China's Communist Party 2008-04-02 David L Shambaugh Few issues affect the future of China--and hence all the nations that interact with China--more than the nature of its ruling party and government. In this timely study, David Shambaugh assesses the strengths and weaknesses, durability, adaptability, and potential longevity of China's Communist Party (CCP). He argues that although the CCP has been in a protracted state of atrophy, it has undertaken a number of adaptive measures aimed at reinventing itself and strengthening its rule. Shambaugh's investigation draws on a unique set of inner-Party documents and interviews, and he finds that China's Communist Party is resilient and will continue to retain its grip on power. Copub: Woodrow Wilson Center Press

The Tragedy of Liberation 2013-08-29 Frank DikÅttter In 1949 Mao Zedong hoisted the red flag over Beijing's Forbidden City. Instead of liberating the country, the communists destroyed the old order and replaced it with a repressive system that would dominate every aspect of Chinese life. In an epic of revolution and violence which draws on newly opened party archives, interviews and memoirs, Frank DikÅttter interweaves the stories of millions of ordinary people with the brutal politics of Mao's court. A gripping account of how people from all walks of life were caught up in a tragedy that sent at least five million civilians to their deaths.

Engendering the Chinese Revolution 1995-11 Christina K. Gilmartin "A long-overdue rewriting of gender politics in 1920s China. Gilmartin brings women activists alive."—Emily Honig, author of *Sisters and Strangers*

Inside a People's Commune 2001-09 Li Chu When originally published in Beijing in 1974, the Chinese publisher said: "This is a book of easy-to-read reportage in depth from a pioneer people's commune in China. "The story of Chillying's struggle and growth over fifteen years is typical of the people's communes as a whole. It should help readers to understand better the character, make-up, functions and advantages of these new-type socialist collectives, and of the life, work and outlook of the 600 million rural people, about four-fifths of China's population, who are organized in them. "China's agriculture, which feeds the world's most populous country, is the basis of her economy. The authors give a close-up view of how the spirit of self-reliance and hard struggle, which promotes her entire advance, shows itself in the communes. "The story is told in historic sequence, both on a commune-wide scale and in terms of separate villages and spheres of work -- agriculture, industries, trade, education, people's militia, the youth, women, culture and recreation, medicine and health. "Building socialism is a struggle against class enemies, erroneous lines and ideas, and nature. Waging it, people transform both the world and themselves. We learn through living episodes and portraits how the Communist Party of China leads her peasants forward in conformity with Chairman Mao Tsetung's revolutionary line, and how socialist ideas take ever deeper root in countless hearts and minds."

China 1945 2015-10-27 Richard Bernstein At the beginning of 1945, relations between America and the Chinese Communists couldn't have been closer. Chinese leaders talked of America helping to lift China out of poverty; Mao Zedong himself held friendly meetings with U.S. emissaries. By year's end, Chinese Communist soldiers were setting ambushes for American marines; official cordiality had been replaced by chilly hostility and distrust, a pattern which would continue for a quarter century, with the devastating wars in Korea and Vietnam among the consequences. In *China 1945*, Richard Bernstein tells the incredible story of the sea change that took place during that year—brilliantly analyzing its far-reaching components and colorful characters, from diplomats John Paton Davies and John Stewart Service to Time journalist, Henry Luce; in addition to Mao and his intractable counterpart, Chiang Kai-shek, and the indispensable Zhou Enlai. A tour de

force of narrative history, *China 1945* examines American power coming face-to-face with a formidable Asian revolutionary movement, and challenges familiar assumptions about the origins of modern Sino-American relations.

The "Cost Management: Measuring, Monitoring, and Motivating Performance" is an all-encompassing manual that offers practical guidance for the second Canadian edition. This invaluable resource, authored by Eldenburg, delves into the concepts of cost management, shedding light on cost behavior and estimation techniques. It clearly explains cost terminology and outlines the different types of cost behavior. Equipped with proven techniques for cost estimation, the manual guides readers through the process of determining future costs. It skillfully utilizes regression analysis in cost estimation, highlighting the uses and restrictions of cost estimates.

Designed to adhere to specific learning objectives, the manual provides cross-referenced exercises and problems, ensuring a seamless connection between the textbook and its accompanying guide. It meticulously explains the distinctions between fixed costs, variable costs, and mixed costs, complemented by practical examples from a car rental agency.

The manual addresses the impact of outliers on cost function development, providing valuable insights into this critical aspect of cost estimation. This comprehensive guide is available for download or online viewing, offering convenient access to its wealth of knowledge and practical guidance.

Across the windswept plains of the Great Plains, where the skyline stretched infinitely and dreams were as vast as the prairies, a young frontierswoman named Amelia Turner dared to envision a world beyond the confines of her sheltered upbringing. From the rumbling covered wagons to the cockpit of her own plane, Amelias story would etch itself into the annals of aviation history as she soared towards new horizons, forever inspiring generations of dreamers to reach for the stars.

Opportunity communists take power in china reading study: The Journey of a Thousand Miles

He was exhausted of his existence. He was bored, unhappy, and unfulfilled. He had a employment he hated, a supervisor he abhorred, and a significant other he didn't adore. He had no passion, no aim, no meaning. He believed like he was misusing his moment, his possibility, his being. He desired to modify, he wished to run away, he wanted to survive. He decided to quit his work, to end things with his partner, to sell his possessions, and to purchase a one-way pass to the far end of the globe. He didn't know where he was going, he didn't understand what he was doing, he didn't understand what he was looking for. He only realized that he had to leave, that he had to explore, that he had to find out. He set out on a voyage of a thousand kilometers, a trip of thrill, of challenge, of education, of growth, of transformation.

Obsession communists take power in china reading study

In the neglected attic of an old antique mansion, where dust danced in the slanting sunlight, a chest rested beneath a tattered tapestry. Inside, letters bound in silk ribbons revealed the correspondence between two star-crossed lovers separated by time. Their words, like echoes in time, held the key to a love that defied the boundaries of mortality.
