The Peabody Picture Vocabulary Test Fourth Edition (PPVT-4) is a well-respected vocabulary assessment that has been in operation for close to 50 years. Created by Lloyd M. Dunn and Douglas M. Dunn, the assessment is crafted to assess receptive vocabulary for Standard American English. It is fast and effortless to conduct, saving important time so that concentration can be put on executing effective interventions. The PPVT-4 test subject matter covers a wide range of vocabulary comprehension levels, extending from preschool through adulthood. The test problems broadly include words that portray 20 content areas (e.g., actions, vegetables, tools), parts of speech (nouns, verbs, attributes), and household and educational vocabulary. The assessment offers two identical versions which contain various vocabulary words, making sure that the individual has not “mastered” the assessment. One form can be used ahead of intervention implementation to assess test-takers’ vocabulary understanding and the second version can be utilized for re-testing to evaluate and record advancement. The PPVT-4 also features a special Growth Scale Value (GSV) which is reactive to slight changes in time.
