## *Settlement in the Irish Neolithic*

2014-05-29 Jessica Smyth The Irish Neolithic has been dominated by the study of megalithic tombs, but the defining element of Irish settlement evidence is the rectangular timber Early Neolithic house, the numbers of which have more than quadrupled in the last ten years. The substantial Early Neolithic timber house was a short-lived architectural phenomenon of as little as 90 years, perhaps like short-lived Early Neolithic long barrows and causewayed enclosures. This book explores the wealth of evidence for settlement and houses throughout the Irish Neolithic, in relation to Britain and continental Europe. More importantly it incorporates the wealth of new, and often unpublished, evidence from developer-led archaeological excavations and large grey-literature resources. The settlement evidence scattered across the landscape, and found as a result of developer-funded work, provides the social context for the more famous stone monuments that have traditionally shaped our views of the Neolithic in Ireland. It provides the first comprehensive review of the Neolithic settlement of Ireland, which enables a more holistic and meaningful understanding of the Irish Neolithic.

## **Manager Selection**

2015 Scott Stewart Manager selection is a critical step in implementing any investment program. Investors hire portfolio managers to act as their agents, and portfolio managers are then expected to perform to the best of their abilities and in the investors' best interests. Investors must practice due diligence when selecting portfolio managers. They need to not only identify skillful managers, but also determine the appropriate weights to assign to those managers. This book is designed to help investors improve their ability to select managers. Achieving this goal includes reviewing techniques for hiring active, indexed, and alternative managers; highlighting strategies for setting portfolio manager weights and monitoring current managers; and considering the value of quantitative and qualitative methods for successful manager selection.

## *Artificial Intelligence in Asset Management*

2020-08-28 Söhnke M. Bartram Artificial intelligence (AI) has grown in presence in asset management and has revolutionized the sector in many ways. It has improved portfolio management, trading, and risk management practices by increasing efficiency, accuracy, and compliance. In particular, AI techniques help construct portfolios based on more accurate risk and return forecasts and more complex constraints. Trading algorithms use AI to devise novel trading signals and execute trades with lower transaction costs. AI also improves risk modeling and forecasting by generating insights from new data sources. Finally, robo-advisors owe a large part of their success to AI techniques. Yet the use of AI can also create new risks and challenges, such as those resulting from model opacity, complexity, and reliance on data integrity.

## *A New Look at Currency Investing (A Summary).*

2015 Momtchil Pojarliev Managing risk is at the core of managing any financial organization. Risk measurement and quantitative tools are critical aids for supporting risk management, but quantitative tools alone are no substitute for judgment, wisdom, and knowledge. Managers within a financial organization must be, before anything else, risk managers in the true sense of managing the risks that the firm faces.

## **Elements of Causal Inference**

2017-11-29 Jonas Peters A concise and self-contained introduction to causal inference, increasingly important in data science and machine learning. The mathematization of causality is a relatively recent development, and has become increasingly important in data science and machine learning. This book offers a self-contained and concise introduction to causal models and how to learn them from data. After explaining the need for causal models and discussing some of the principles underlying causal inference, the book teaches readers how to use causal models: how to compute intervention distributions, how to infer causal models from observational and interventional data, and how causal ideas could be exploited for classical machine learning problems. All of these topics are discussed first in terms of two variables and then in the more general multivariate case. The bivariate case turns out to be a particularly hard problem for causal learning because there are no conditional independences as used by classical methods for solving multivariate

cases. The authors consider analyzing statistical asymmetries between cause and effect to be highly instructive, and they report on their decade of intensive research into this problem. The book is accessible to readers with a background in machine learning or statistics, and can be used in graduate courses or as a reference for researchers. The text includes code snippets that can be copied and pasted, exercises, and an appendix with a summary of the most important technical concepts.

## *FinTech and RegTech in a Nutshell, and the Future in a Sandbox*

2017-07-31 Douglas W. Arner The 2008 global financial crisis represented a pivotal moment that separated prior phases of the development of financial technology (FinTech) and regulatory technology (RegTech) from the current paradigm. Today, FinTech has entered a phase of rapid development marked by the proliferation of startups and other new entrants, such as IT and ecommerce firms that have fragmented the financial services market. This new era presents fresh challenges for regulators and highlights why the evolution of FinTech necessitates a parallel development of RegTech. In particular, regulators must develop a robust new framework that promotes innovation and market confidence, aided by the use of regulatory "sandboxes." Certain RegTech developments today are highlighting the path toward another paradigm shift, which will be marked by a reconceptualization of the nature of financial regulation.

## **Behavioral Finance: The Second Generation**

2019-12-02 Meir Statman Behavioral finance presented in this book is the second-generation of behavioral finance. The first generation, starting in the early 1980s, largely accepted standard finance's notion of people's wants as "rational" wants—restricted to the utilitarian benefits of high returns and low risk. That first generation commonly described people as "irrational"—succumbing to cognitive and emotional errors and misled on their way to their rational wants. The second generation describes people as normal. It begins by acknowledging the full range of people's normal wants and their benefits—utilitarian, expressive, and emotional—distinguishes normal wants from errors, and offers guidance on using shortcuts and avoiding errors on the way to satisfying normal wants. People's normal wants include financial security, nurturing children and families, gaining high social status, and staying true to values. People's normal wants, even more than their cognitive and emotional shortcuts and errors, underlie answers to important questions of finance, including saving and spending, portfolio construction, asset pricing, and market efficiency.

#### **Acupuncture and Weight Loss**

There are a lot of people who are overweight. For those who are obese, perhaps surgery is the best option but for those who can't, they can try to see if acupuncture can help take out the excess weight.

Acupuncture is a form of holistic healthcare that uses needles to help treat a patient. Unlike the cartoon where the balloon will pop and all the air will go out, the needles that are inserted into the vital points will stimulate the body to release endorphins thus helping the person control their appetite.

But before needles are inserted, the specialist will first ask the patient some questions and perform an examination. This is needed to understand the main cause for the person to be overweight.

**Guide exam papers 2012 accounting n4 pdf pdf**, Anyone can try facial acupuncture because it is painless and it has proven to reverse the signs of aging. However, if you are pregnant, suffer from the colds or flu, have acute herpes or an allergic reaction, it is best to wait until this has passed.

But before anyone can try facial acupuncture, they first have to be evaluated by the acupuncturist. This person will evaluate your age, lifestyle and diet. If everything looks good, then you will probably do an average of about 12 to 15 treatments. More could be done if your skin tends to sag, manifest jowls or have droopy eyes.

Facial acupuncture treatment needs to be done twice a week for about 45 minutes to 1 hour. For those who can't make two sessions in a week, they can opt for the 1 treatment that will last 90 minutes.

What is the meaning of accounting? It is defined as the art of systematic recording and analyzing of financial business transactions. The history of accounting dates back many years ago. Accounting is already an essential part of modern education. Every nation needs accounting because it is the key to economic development.

If you want to pursue an accounting course, you should first choose a university or college. There are local universities and colleges that you can enroll in for an accounting course. If you prefer attending college abroad, you may do so. But make sure that you choose the university or college wisely. You also have to determine where you will stay when you're already there; you can either stay at the dormitory or you can rent an apartment. Expenses are a great consideration as well.

However, that would mean additional cost to the church since they have to pay for the services. It can consume so much time and money.

#### Power exam papers 2012 accounting n4 pdf pdf, The Skinny on Acupuncture Weight Loss

It has been found that weight gain is directly related to emotions. Other than physical hunger, people reach for a huge chocolate bar or a big platter of burger and fries because of the sense of comfort derived from food and eating. More often than not, excessive weight gain is an emotional issue, rather than a mere physical one. You may not realize it, but you tend to take in more food whenever you're stressed, upset, or pressured.

In Acupuncture, there are specific spots on the body being targeted by the hair-like needles. These spots are linked to certain areas in the body and by stimulating these spots; the patient will achieve a greater sense of inner balance. As these points are inserted by the needles, certain hormones are released throughout the body. These substances work by helping you manage hunger and efficiently control the impulse to overeat.

#### *Story of" exam papers 2012 accounting n4 pdf pdf: Acne in Adolescents*

Acne is one of the most common problems in adolescent teens affecting nearly seventeen million people in the United States. Acne is nothing but a disorder involving sebaceous glands and hair follicles. Acne results from the clogging of sebaceous glands leading to the formation of pimples and cysts. The condition usually begins with the onset of puberty. Going by the facts, as teens attain puberty the androgens also called male sex hormones are produced in high number leading to sebaceous glands becoming over active which results in sebum being produced in high proportions.

Sebum, which is nothing but oil is produced by sebaceous glands which travel to the skin surface through hair follicles. But, skin cells block the follicles which results in oil also being blocked. When these hair follicles are blocked it results in the development of skin bacteria known as Propionibacterium Acnes within the follicles which in turn results in swelling of the skin called Acne. If the hair follicles are partially blocked it results in blackheads. If the follicles are completely blocked they result in whiteheads. But if these plugged follicles are not treated they ultimately burst causing the oil, bacteria and skin cells to spill all over the skin resulting in irritation and formation of pimples. Acne can be shallow as well as deep in various individuals depending on the nature of skin and amount of oil produced.

**Revenge exam papers 2012 accounting n4 pdf pdf**\_\_\_The earliest account of this is found in the book called Nei Jing which in English means the Yellow Emperor's Classic of Internal Medicine. The contents of this book date somewhere around 200 BC. Back then, they did not use metal needles and instead used those made out of stone, moxibustion and herbs to treat a patient.

Acupuncture prevents and treats diseases by inserting very fine needles into the skin specifically at the anatomic points of the body.

The principle behind this concept is that illnesses occur because there is an imbalance in your life force otherwise known as Qi. It is believed that this flows in 14 channels in the human body known as meridians which branch out to bodily organs and functions. If there is a blockage or obstruction in any of them, this is when you succumb to a disease or an illness.

*Opportunity exam papers 2012 accounting n4 pdf pdf*

In some cases, acupuncture is more effective when the needles are first heated. This technique is known as "moxibustion." Here, the acupuncturist lights a small bunch of the dried herb called moxa or mugwort and holds it above the needles. The herb, which burns slowly and gives off a little smoke and a pleasant, incense-like smell, will never directly touch your body.

Another variation is electrical acupuncture. Here, electrical wires are hooked up to the needles and a weak current runs through it which may cause no or little sensation at all.

It is also possible that herbal medications will also be prescribed by the acupuncturist for your treatment to be successful.

There are basically two types of diabetes that will affect an adolescent. It is type 1 diabetes and type 2 diabetes. Type 1 diabetes affects the immune system's function as the systems attacks the pancreas' insulin producing cells, also known as the beta cells. Because of this, the pancreas loses the ability to manufacture insulin. This is the reason why people with type 1 diabetes take insulin everyday. The symptoms are weight loss, increase in urination & thirst, blurred vision, tiredness and constant hunger. And if the adolescent isn't treated at the right time, he/she can slip in to diabetic coma which can endanger his/her life. In type2 diabetes, the body is incapable of properly using the insulin produced by the body and requires insulin from an external source, too. The symptoms of type 2 diabetes are similar to type 1 diabetes. The teenager feels sick, tired, nauseated, and thirsty. The wounds will recover very slowly; he/she will get infections frequently, will develop blurred vision and will experience weight loss.

Parents play a vital role in determining the problem. They should constantly observe their child for eating disorders or signs of depression. Although cigarette, drugs and alcohol should be avoided by all adolescents and children, it is even more important that youngster with diabetes should stay away from these things as they can worsen the situation. A person with diabetes, who switches to smoking, is at risk of developing cardiovascular diseases and circulatory problems. Consumption of alcohol can cause hypoglycemia or low blood sugar. It is the duty of the parents to make their child aware of the possible risk they would face if they start to smoke, drink alcohol or take drugs.

Children and adolescents, who have diabetes, face many challenges while trying to lead a normal life. They have to think twice before doing simple things as going to a party, playing sports and even when staying over with friends. This is because they require to intake oral medication or insulin. Their blood sugar level must be checked many times through out the day. Also, at gatherings, they have to avoid many food items. Because of this they will feel different from the crowd and can feel left out. Not only does diabetes pose behavioral challenges, but also emotional challenges.

Learn exam papers 2012 accounting n4 pdf pdf-But how well acupuncture does for one patient may vary with another. This depends on the condition of the attack and the individual.

The best part about acupuncture is that there are no side effects and it is painless. Skillful professionals can do this so you don't suffer from hematoma or pneumothorax. Another disease is potentially dangerous is HIV or hepatitis which can be prevented of course as long as the needles used are properly sterilized. It will be much better if the person uses disposable needles.

Acupuncture has been practiced in the United States for more than 2 decades. Although tests have shown how effective it can be to treat chronic conditions and certain addictions, more studies need to be done to see where else it can be useful.

*Rating : exam papers 2012 accounting n4 pdf pdf*,Once he or she knows the reason, this is the time that the needles are inserted into different parts of the body. One way is called the multi-targeted approach which is designed to lower the body's weight by increasing the output of the pituitary gland.

The areas where the needles will be inserted will be in the ear and in two of three body points. These areas could also include the mouth, the stomach, the lung, the endocrine, the spleen, kidney or thyroid.

During the initial treatment, the "Four Gate" points would be used to circulate energy throughout the entire body. It is also possible that electro simulation will also be done to increase endorphin release and stimulate metabolism.

**Rating : exam papers 2012 accounting n4 pdf pdf**\_\_\_Impulses of electromagnetic energy can also be used as the body generates tiny but electrical discharges which influence the function, growth and maturity of certain types of cells. By inserting the needles in these areas, it stimulates and alters the neurotransmitters in the body thus making the patient feel better after treatment. This is also sometimes used for diagnosis and testing.

There are also other forms of acupuncture that do not use needles. For instance there is sonopuncture that uses an ultrasound device that transmits sound waves to points in

the body to treat a patient. Some practitioners use a tuning fork or other vibration devices.

Acupressure is another. Here, the professional will use their hands to relieve the pain. This can be used on its own or with other manual healing techniques.

The needles used in acupuncture are very small and you will probably feel a slight twitch when the needle goes in. They will be inserted carefully to ¼ or an inch in depth and will stay there from 45 minutes to an hour depending on the condition of the patient.

If inserted properly, you should feel some cramping, distention, electric sensation or tingling which means that the treatment is working.

Needles used for acupuncture especially in the US are clean because they are required to be disposable. This prevents any chance that those who go for treatment will be contaminated by a communicable disease like hepatitis or HIV.

In TCM, practitioners adhere to the concept of Qi, or energy flow, and the meridians in which they travel. They use longer needles and insert them deeper in order to reach the acupuncture points. Modern science has found little evidence to prove the existence of these energy channels, but this is the technique that has been used effectively for thousands of years.

In medical acupuncture, the practitioners are graduates of western medical schools. Their application of needles is not based on the traditional acupuncture points, but on anatomic data. These acupuncturists use shorter needles and the insertions are shallower. They also tend to use fewer needles and leave them inserted for shorter periods of time. Adherents to TCM feel this is a watered-down version of the real thing. Nevertheless, many patients have felt relief of symptoms through this method.

#### Conditions for Puncture Application

There is a broad and extensive list of ailments which can be treated with acupuncture. The conditions run the gamut from asthma to constipation, anxiety to weight loss.

Most TCM practitioners believe that any health condition results from an imbalance in Qi flow, therefore amenable to needle therapy. Western acupuncturists tend to have a more limited list of indications, the most common of which is undoubtedly control of pain.

*Solutions exam papers 2012 accounting n4 pdf pdf*, It sounds like a made-up explanation with no basis in reality, but there are numerous scientific studies which support the effects of acupuncture. Although the exact scientific basis is still unknown, recent theories seem to suggest involvement of complicated neurochemical effects in the brain, nerve to spinal cord impulse modulation, and microscopic connective tissue changes.

What risks and side effects are of concern?

The use of things not completely understood for the treatment of medical conditions is nothing new. Penicillin and aspirin were used for decades solely on the basis of their beneficial effects, without doctors knowing exactly how they worked. Results are what are truly important. However, it is equally important is to ensure that the technique is used safely.

Right after each acupuncture session, you will feel a bit tired and may need to rest. Some people feel an increase in their energy levels. The response to acupuncture is very individual. In some cases there is immediate relief of symptoms. For some patients, the beneficial effects may only be noticed after undergoing a few sessions. Do not be alarmed and keep your acupuncturist updated on what you are feeling to ensure everything is going as expected.

You need never fear the thought of needles ever again. Acupuncture is a beneficial treatment with a long history of effectiveness. It is used to complement current medical therapy and should not replace currently existing medications or treatments.

The safe application of this once exclusively Chinese therapy can now be experienced by chronic disease sufferers worldwide.

According to a research, youngsters who have participated in sex education programs which gave them knowledge about contraception methods, abstinence, sexually transmitted diseases and youngsters who involved in discussions in order to get a clear picture, used contraceptives and condoms effectively without any increase in sexual activity. The Center for Disease Control & Prevention has said that the solution for unwanted adolescent pregnancies and STDs are barrier contraceptive use and abstinence.

#### **Allergies in Adolescents**

Allergies are reactions by immune system that are abnormal in nature to stuff that are usually harmless to majority of the people. When somebody is allergic to something the immune system of that person gets confused and thinks that the substance is detrimental to the body. The substances causing allergic reactions are known as allergens.

The examples of allergens are dust, food, plant pollen, medicine etc. The body produces antibodies to protect itself from these allergens. The antibodies make certain cells present in the system to let chemicals to mix with the bloodstream and one of them is histamine. This chemical then acts on nose, eyes, skin, lungs, gastrointestinal tract and results in allergic reaction symptoms. Exposure to the same chemicals in future triggers same response to the antibodies again meaning every time one comes in contact with the same allergen, allergic reaction is produced in the body.

Teenagers suffering from asthma often have allergic reaction to cold and get asthma attack is another example of allergies. Some kinds of allergies trigger multiple symptoms. Allergic reactions in very rare cases also produce severe reaction known as "anaphylaxis" for which the signs are difficulty in breathing, difficulty in swallowing, swelling in tongue, lips and throat and dizziness. This allergic reaction occurs as soon as the system is exposed to substances that trigger allergic reactions like peanut although some reactions are delayed by as much as four hours.

The reasons why people get allergies can be various and one of the reasons could be hereditary but that that does not necessarily mean that children are bound to get allergies from their parents. Some of the common allergens include food, airborne particles, insect bite and sting, medicines, chemicals etc. Food allergies typically occur in infants and usually vanish as the child grows. The list of food allergens includes milk & dairy products, wheat, soy, eggs, peanuts, and seafood. Some people are allergic to stings and bites of certain insects. The venom in the bite is the one which actually causes reaction and can be as serious as anaphylactic in some teens. Some teens are also allergic to airborne particles which are also known as environmental allergens. They are also the commonest of all the allergens. Examples of these allergens include dust mites, animal dander, mold spores, grass pollens, trees and ragweed. Some adolescents are also allergic to certain antibiotic medicines. Another common allergen is chemical, certain chemicals present in laundry detergents or cosmetics can cause rashes that are itchy in nature.

Allergists usually treat allergic problems. They may ask questions like symptoms of the allergy and whether it is hereditary. They may also prescribe certain diagnostic tests like blood or skin test depending on the type of allergy. The best way to treat allergies is to completely avoid the substances that cause allergies. However there are certain medications and injections are also available to treat allergies.

**First exam papers 2012 accounting n4 pdf pdf**. Seventy four percent of females above fourteen years and sixty percent of females below fifteen years have reported to have involuntary sex. Fifty percent of the adolescent pregnancies are within the time period of six months after the initial sexual intercourse. More than nine hundred thousand teenagers are reported to have become pregnant every year in the United States. Fifty one percent of the adolescent pregnancies result in live birth, thirty five percent result in induced abortion and fourteen percent result in stillbirths or miscarriages. Four out of ten adolescent females get pregnant, before they turn twenty, at least once. Twenty five percent of adolescent deliveries aren't the mother's first child. When a teenager gives birth to her first child, she increases the risk of begetting another child. One third of the adolescent parents are themselves result of adolescent pregnancies.

There are many reasons why adolescents choose to become sexually active at an early stage in life. The reasons can be early pubertal development, poverty, sexual abuse in childhood, lack of parent's attention, lack of career goals, family and cultural patterns of early sex, substance abuse, dropping out from school and poor school performance. Factors which discourage an adolescent to become sexually active are stable family environment, parental supervision, good family income, regular prayers, connectedness with parents and living with complete family and both the parents. The factors which are responsible for the consistent use of contraceptive among adolescents are academic success, anticipation for successful future, and involvement in a stable relationship.

There are many medical risks associated with adolescent pregnancies. Adolescents who are less than seventeen years are at a greater risk of developing medical complications, when compared to adult females. The risk is even more in teenagers below seventeen. The weight of the child, given birth by an adolescent, is very low in these pregnancies. It is usually below 2.5 kilogram. The rate of neonatal birth is also three times greater in adolescents, when compared to adults. Other problems caused by adolescent pregnancies are prematurity of the child, birth of underweight child, poor maternal weight gain, poor nutritional status, anemia, STDs and hypertension induced due to pregnancy.

This was further strengthened by the fact that the side effects of acupuncture are much less than that of conventional drugs that are being sold by pharmaceutical companies. So that people can avail of acupuncture, another recommendation by the NIH is for US companies to provide full coverage for certain conditions. If you do not qualify, perhaps there is partial coverage which you should look up in your policy.

But despite that, more research needs to be done to see its effects on other health related problems. Some examples of these include addictions, autism, chronic low back pain, migraines and osteoarthritis of the knee.

Revenge exam papers 2012 accounting n4 pdf pdf, The profit & loss of a certain company is determined by finance professionals through accounting. They can determine what created the profits as well as the losses. Accountants form some sort of business equation so justify the profits & losses of a business. By doing so, they can easily tell a company's net worth.

It seems that by simply starting to define one accounting term, it eventually leads to defining other terms as well. Net worth is another term that is quite difficult to understand. It refers to the resulting amount after deducting the liabilities of a company from the assets. Private companies refer to net worth as owner's equity.

Why owner's equity? Well, after deducting all the liabilities, what's left basically belongs to the owner. In the case of public companies, the profit of the business is returned as dividends to shareholders. As you can see, before owner or shareholders of a company can take hold of the profits, all liabilities must be deducted first.

### **Discovery exam papers 2012 accounting n4 pdf pdf~Acupuncture Closely Revealed**

The foundation of acupuncture rests on the relevance of an individual's chi in maintaining bodily and mental health. It is believed that chi is present in every living creature, and flows through specific pathways in the body. Health problems arise when the flow of chi on the body is blocked. As a result, a person may feel persistent headaches, muscle pain, fever, weakness, or in the worst case, becomes afflicted with more serious health conditions.

#### **A Deeper Explanation of Acupuncture**

Acupuncture has its origins in ancient Chinese philosophy and practice. More than ten thousand years ago, during the Old Stone Age of China, stones were fashioned into knives for medical purposes. After several years, during the New Stone Age, these stones were eventually made into needles intended for the same therapeutic end. These accounts are further evidenced by unearthed stone needles found to be of the same types used during the New Stone Age.

**Challenge exam papers 2012 accounting n4 pdf pdf**, Unfortunately, standards of acupuncture have not been fully approved by the FDA due to many unregulated practices that still exist such as the re-use of needles. Furthermore, acupuncture certification today is mostly a sham, used to make money on desperate patients who have not benefited from western medical treatments. The National Council Against Health Fraud has even declared acupuncture as an unproven means of treatment whose concepts of healing are primitive and false.

#### **Should You Try It**

One thing that Western science can agree upon is that there are no proven harmful effects of acupuncture. Many doctors agree that as long as a medication is not detrimental to one's health, then there is no reason why it should not be used if there are noticeable benefits. Most scientists would also state that it is simply due to a lack of research that the therapeutic properties of acupuncture have not yet been proven.

#### **Acupuncture For All Those Simple Aches And Pains**

If, like me, you have quite a fear of needles and injections, then acupuncture, that practice of sticking needles onto different parts of your body to cure sicknesses might seem scary at first.

However, if you've been long been suffering from some problems like headaches or chronic pains and your regular visits to the doctor don't seem to be helping you, then why not consider a trip to an acupuncture specialist? After all, who hasn't heard of somebody's aunt somewhere suffering from arthritis and trying out everything that the doctors recommended all to no avail, only to finally be cured by a really good acupuncturist?

Perhaps you were wondering if it could actually work for you. You might feel a bit skeptical since traditional Chinese medicine doesn't immediately coincide with theories in modern Western medicine. In fact, the use of needles to cure people was discovered thousands of years ago in China long before microscopes or x-ray machines were invented or before bacteria and germs were discovered.

Holistic healthcare by definition is being able to cure an illness through the use alternative means. This means no medication is given to the patient and an instrument like a

bunch of needles could do the trick.

Acupuncture has been around for than 2000 years. It is only recently that this holistic form of healthcare has reached the US. Studies have shown that it can treat minor problems and prevent some from happening.

The needles used in acupuncture are very thin but thicker than the human hair. This makes it smaller than those used on hypodermic needles.

The greatest advantage of this ancient Oriental procedure is the absence of side-effects during and after treatment. Unlike smoking cessation medications and nicotine replacement therapy products, acupuncture does not employ chemically manufactured substances. There is also no risk of weight gain during therapy. In conjunction with helping a patient quit smoking, it can also curb appetite, thus reducing food cravings. If you have tried several methods in smoking cessation to no avail, perhaps it is high time you consider the alternative method that is acupuncture. With the right practitioner and the right frame of mind, there is no reason why you won't be nicotine-free before long.

Hypertension is diagnosed by blood test and urinalysis. The kidney function will also be checked, along with blood cholesterol levels. Family history check is another important factor. Adolescents' eating habits, exercise levels, activities in school and home will also be studied thoroughly. High blood pressure is dealt with by weight reduction, healthy diet, and increase in physical activity. If hypertension is due to illness, the illness is treated first. These treatment measures will decrease the systolic blood pressure and diastolic blood pressure. It will also strengthen the heart and decrease the level of cholesterol in blood. This also helps to keep heart diseases at bay. The good thing is that only one percent of the adolescents, who have high blood pressure, need medication to bring back the blood pressure to normal.

**Infectious Mononucleosis**

Also known as mononucleosis or mono Pfeiffers disease or glandular fever, infectious mononucleosis can be identified by inflamed lymph glands and constant fatigue. The disease is named so as the amount of mononuclear leukocytes which belong to white cells increase in number. The cause of the disease is EBV (Epstein - Barr virus) or in some cases cytomegalovirus. Both these viruses belong to the family of herpes simplex. According to statistic majority of the adults in the United States are exposed to the virus Epstein - Barr, a very widespread virus. Although the virus does not show any visible affects in children but it does in adolescents which can lead to infectious mononucleosis in nearly fifty percent of cases of exposure to the virus.

The symptoms of heat cramps include cramps that are painful in the legs. Flushed and moist skin is also symptoms of heat cramps. The symptoms could also include mild fever generally below 102 degree Fahrenheit. Teens suffering from heat cramps should move to a cool place and take adequate rest. Remove any excessive clothing and wear or put cool clothing on skin or cool skin using air conditioner or fan. Sports drinks which are cool and which contains sugars and salts can also be taken. Stretching out cramped muscles slowly and steadily also helps reduce heat cramps.

On the other hand heat exhaustion is more serious and severe compared to heat cramps and occur due to heavy loss of salt and water from the body. Extreme heat conditions, inadequate fluid intake and excessive sweating results in this conditions. Also, heat exhaustion occurs as a result of inability of the body to maintain the body

temperature below the normal which can deteriorate further and also result in a heat stroke which is even worse. The symptoms of heat exhaustion are: muscle cramps, moist skin, pale skin, nausea, fever above 102 degree Fahrenheit, diarrhea, vomiting, fatigue, headache, weakness, anxiety and faint feeling. Teens suffering from heat exhaustion should stay in cool surrounding and take enough rest. Removing excessive clothing, putting on cool clothes and sitting in fan or air conditioning also helps the situation. Intake of cold sports drinks which contains salts and sugars are also advisable. If a teen doesn't show any signs of improvement even after taking all these measures a physician should be consulted immediately.

#### **Best Seller : exam papers 2012 accounting n4 pdf pdf...What This Ancient Method Does**

One of the foremost effects of acupuncture on the body is relaxation. Stress is frequently pinpointed as the main precursor for a host of physical ailments. There are particular points all over the body that direct the flow of harmony and relaxation and when these are enthused, the patient becomes more at ease.

Another positive effect of this alternative therapy is increased pain control. During a session, a patient will usually feel very minimal pain as the thin needles are being inserted gradually. However, the needles are deliberately placed in varying depths, depending on the health requirements of the patient. When the needles reach the right depth, the patient will feel deeper pain, although the entire procedure is not necessarily painful.

It is also recommended for relief from chemotherapy fatigue as well as chemotherapy-related nausea. It has also been found to be largely effective for back pains, migraines, menstrual cramps, and as a pain controller for patients after undergoing surgical operations.

Acupuncture treatment for smokers should only be done by a license professional. You can do some research online to find out if they are accredited by the National Commission for Acupuncture and Oriental Medicine, ask how long they have been in the profession, find out how many smokers they have helped and how much will they charge.

Once you have found one, you have to commit yourself to the program because both you and the acupuncturist have to work together to give up this habit.

Acupuncture can help smokers in the same way that it has helped addicts and alcoholics quit their addictions. You just have to try it even if you may not believe in it.

#### **Story of" exam papers 2012 accounting n4 pdf pdf:Variations of Conventional Acupuncture**

Auriculotherapy or ear acupuncture is one of the variations of conventional acupuncture. In this practice, it is believed that the ear provides a map for all the major bodily organs. A specific area or point on the ear corresponds to a particular organ, such as the heart, kidneys, or liver. Thus, the needles are placed in particular points around the ear and on the ear cartilage.

Staplepuncture is a method used in smoking cessation, wherein staples are placed for a certain period anywhere on the ear area to provide stimulation.

Indeed there is growing evidence that this traditional Oriental practice can rival any modern forms of treatment. If you are one of the many people who are looking for a widely recognized and time honored therapeutic practice, acupuncture may just be the alternative treatment for you.

##### **Heat-Related Illnesses in Teens**

Heat related illnesses are caused due to prolonged exposure to heat and also humidity without any reprieve and due to inadequate intake of fluids. Kids and teens adjust to the variations in heat compared to adults who adapt more quickly. However the heat production is high in them when compared to adults but sweat relatively less. Sweating is the natural action of the body and cooling mechanism to counter heat. Kids and teens often ignore these facts and do not hydrate themselves enough while playing, participating in sports and exercises.

Kids and teens with health problems that are chronic or those who are on certain prescription could be more susceptible to heat related problems. Overweight adolescents or those who wear heavy clothing in times of exertion also suffer heat related illnesses. Heat related illnesses are basically classified into three types. They are: Heat cramps, heat stroke and heat exhaustion.
