Race Relations in America

2021-06-14 Nikki Khanna This book is an essential resource for anyone who wants to understand race in America, drawing on research from a variety of fields to answer frequently asked questions regarding race relations, systemic racism, and racial inequality. This work is part of a series that uses evidence-based documentation to examine the veracity of claims and beliefs about high-profile issues in American culture and politics. This particular volume examines the true state of race relations and racial inequality in the United States, drawing on empirical research in the hard sciences and social sciences to answer frequently asked questions regarding race and inequality. The book

refutes falsehoods, misunderstandings, and exaggerations surrounding these topics and confirms the validity of other assertions. Assembling this empirical research into one accessible place allows readers to better understand the scholarly evidence on such high-interest topics as white privilege, racial bias in criminal justice, media bias, housing segregation, educational inequality, disparities in employment, racial stereotypes, and personal attitudes about race and ethnicity in America. The authors draw from scholarly research in biology, genetics, medicine, sociology, psychology, anthropology, and economics (among many other fields) to answer these questions, and in doing so they provide readers with the information to enter any conversation about American race

relations in the 21st century as informed citizens.

In Defense of Global Capitalism

2003-09-25 Johan Norberg From Seattle to Genoa to Johannesburg, people march in the streets protesting global capitalism. They denounce Nike and McDonald's, the World Bank and the World Trade Organization. Who would defend global capitalism? A young writer from Sweden, who started on the anarchist left and then came to understand the world better. Johan Norberg has traveled to Vietnam, Africa, and other hot spots in the battle over globalization. He has become a passionate defender of the globalization that is lifting poor countries out of poverty. In *Defense of Global Capitalism* is the first book to rebut, systematically and thoroughly, the claims of the anti-globalization movement. With facts, statistics, and graphs,

Norberg shows why capitalism is in the process of creating a better world. The book is written in a conversational style with an emphasis on liberal values and the opportunities and freedom that globalization brings to the world's poor. In *Defense of Global Capitalism* shows that the diffusion of capitalism in the past few decades has lowered poverty rates and created opportunities for individuals all over the world. Living standards and life expectancy have risen substantially. There is more food, more education, and more democratization, less inequality and less oppression of women. Norberg takes on the tough issues-economic growth, freedom vs. equality, free trade and fair trade, international debt, child labor, cultural imperialism-and concludes that free-market capitalism is the best route out of global poverty.

Climate Change, Migration and Conflict in Bangladesh

2023-08-18 Md Rafiqul Islam This book explores the relationship between climate change-induced migration and conflict in Bangladesh - one of the most ecologically fragile countries in the world. It explores why people migrate from their original place of land and how the migration of people with a different background to an ethnically distinctive region due to environmental changes can become a source of conflict and violence between the host peoples and migrants. The volume focuses on the Chittagong Hill Tracts (CHT), which has experienced long-standing ethnopolitical conflict due to the settlement and migration of the Bengali people from the plain land of Bangladesh. This settlement and migration were mainly caused climatic events such as floods, cyclones, sealevel rise, and disasters. It traces the history of the ethnic conflict in the region and presents key findings from the field, as well as the dynamics of everyday politics in the region. This volume also highlights how

internally climate-displaced people generate violence and civil strife in the major urban cities through their settlements in slums. The volume will be of great interest to scholars and researchers of environmental studies, human geography, migration and diaspora studies, public policy, social anthropology, and South Asian studies.
