**Miracle proceedings of the national association for multicultural**—Mystery of the Missing Diamond

It was a dark and tempestuous night. The drizzle was falling heavily, and the gale was roaring. In the heart of the town, there was a museum, where a precious diamond was on show. The diamond was called the Star of Africa, and it was the biggest and most gorgeous diamond in the globe. It was guarded by an advanced security system, and a team of weaponized guards. No one could pilfer it, or so they thought. But someone did. Somebody managed to bypass the safeguard, to avoid the guards, to smash the glass, and to take the diamond. And no one observed them, no one heard them, no one recognized who they were. They exited no mark, no clue, no evidence. They disappeared into the nightfall, with the African Star. And the mystery of the missing diamond began.

It involves current and upcoming economic factors, making it vital to obtain dependable estimates of future costs, benefits, and other economic parameters. Engineers regularly deal with projects whose scale, complexity, and uncertainty call for complex approaches to planning and budgeting<sup>[1]</sup>. Various methods are used for cost estimation, including rough estimates, semi-detailed estimates, or detailed estimates, depending on the needs for the estimates<sup>[1]</sup><sup>[2]</sup>. Key concepts in this field include overhead costs, cost driver identification, cost allocation methods, capital budgeting, flexible budgeting, zero-based budgeting, budgets, and estimates. Several models are available for developing cost (or benefit) estimates, such as the per-unit model, the segmenting model, cost indexes, the power-sizing model, and learning curve cost estimating. The quality of a cost estimate usually increases as the resources allocated to developing the estimate increase.

The publication "Analyzing Casual Conversation" by Suzanne Egghins and Diana Slade, first issued in 1997, creates a organized model for the examination and portrayal of casual conversation in English. The authors argue that notwithstanding its sometimes aimless appearance and ostensibly unstructured material, casual conversation is a highly structured activity and performs a critical function in the social formation of reality. The work proceeds through authentic samples of casual conversations entailing participants varying in age, gender, ethnicity, and socio-economic class<sup>12</sup>. Pulling on insights from sociology, linguistics, and critical semiotics, the book provides readers with the examinative skills to depict the strata of structure and critical interpretive models to explain the 'social work' that occurs on through chat.
