Take Control of Your Paperless Office, 4th Edition 2023-08-23 Joe Kissell Digitize your documents and reduce paper clutter! Version 4.0, updated August 23, 2023 The paperless office doesn't have to be a myth! Turn paper into usable digital files, reducing clutter and increasing convenience. This book helps you assess your situation, develop a strategy, and learn clever techniques for keeping more paper at bay—with detailed discussion of the hardware, software, and processes needed to get the job done. Join Joe Kissell as he helps you clear the chaos of an office overflowing with paper. With Joe's guidance you can develop a personal clean-up strategy and choose your tools, including a scanner and the software you need to perform OCR (optical character recognition). You'll also learn about devices and services for storing your digitized documents and document management apps that help you

categorize, locate, and view your digital document collections. Once you have your gear in hand, Joe shows you how to convert your paper documents to digitized files and gives you ideas for how to organize your office workflow, explaining how to develop day-to-day techniques that reduce the amount of time you spend pressing buttons, launching software, and managing documents. You'll also master paper-reducing skills such as:

- Scanning or photographing documents you find while out and about—business cards, receipts, menus, flyers, and more—so you keep only digitized versions.
- Joe discusses a variety of mobile scanning options for iOS/iPadOS and Android.
- Creating a digitized image of your signature so you can sign and share documents digitally, rather than printing them for the sole purpose of signing them with a pen.
- Using paperless options for bills, invoices, bank statements, and the like.
- Cutting down on unwanted catalogs and junk mail.
- Switching to (mostly) paperless postal

mail.

- Using your computer to send and receive faxes without a fax machine, fax modem, or separate phone line. (Amazingly, some people still need to do this even in the 21st century!)

The book contains answers to numerous questions, including:

- What is a searchable PDF, and why is it key to a paperless office?
- What differentiates document scanners from other types of scanners?
- What's a book scanner?
- What if I need a mobile, portable scanner?
- What does TWAIN stand for, and should my scanner support it?
- Why do I need OCR software, and what features should I look for?
- How do I choose a good scanner and OCR software?
- How should I name and file my digitized documents?
- What are my options if I need to edit a scanned PDF?
- How can I automate my workflow for scanning documents?
- What paper documents should I keep in physical form?
- How do I use common tools to add a signature to a PDF?
- How can I access my digital documents remotely?
- How should I

back up my important digital documents?

EASYUNI Ultimate University Guide 2014
2014-07-02 EasyUni Sdn Bhd Hi there! It's nice to present you once again with another 'hot' issue of easyuni. On 11 June this year, we launched the unifrens social platform, an extension to easyuni's existing vision of providing comprehensive and accurate information to students about colleges and universities. This is another milestone in the history of easyuni as one of Asia's most popular education portals, committed to helping students with their higher education plans. unifrens is a social platform which allows students, searching for universities and colleges with similar interests, to connect with each other to help them make unbiased and community-driven decisions about their higher education. It also allows them to connect with students who are currently enrolled at universities who can tell them about their experiences about a particular

city, country, university or a course. unifrens is something we had been planning for a while to complement our current family of tools for students. We always knew that our users would love it as they want more community-driven information instead of promotional content from universities and "study abroad" consultants. I believe this feature will democratise the way information about specific courses, countries or institutions is presented and this can only mean good news for students and their parents visitors, as it helps them make more informed decisions about which course, institution or country to pick. Students can also pose questions to their groups, which will be answered by experts and the community. The feature is still in its beta stage but has gained massive traction with over 100,000 users already registered and assigned to groups. Exciting, isn't it? The issue you're holding now has so much to offer as well. So, read every page and fill yourself with all the knowledge needed

to make informed decisions about your higher education.
