The Richest Man in Babylon documented everything he had learned and his progress on clay tablets, which were later found by archaeologists and professors at a university. These professors had then learned of these principles and applied them to their own lives, to also become wealthy and financially abundant. **THE MAGIC STORY:** The motivational story of a luckless artist whose life was changed overnight because of a simple story he found by chance has been a perennial favorite for ages. Find Your Right Job 2007-06-01 George S. Clason There are certain occupations which each individual is more efficient at than any other. Psychologists tell us that we are all entitled to earn our bread at labor that is pleasing to us, and furthermore that we cannot be contented at any other kind. Economists tell us that the man who is happy at his work produces far more than his discontented neighbor, and does so with less effort and less fatigue. Everyone should, work at a job, occupation, or profession that he likes. Yet, inconsistent as it seems, eighty percent of the people of the world are dissatisfied with their jobs. The reader of these lines may be among the number. In brief, the work at which you are most efficient is the kind of work that you like to do and at which you can accomplish the most. It is likewise the work in which you can find the most happiness, make the most money, achieve the greatest measure of success, and do the most good for your fellow man.

The Richest Man in Babylon Action Plan (Master Class Series) 2021-03-16 Mitch Horowitz The Wealth Secrets of the Ancients: Updated for Today's Challenges George S. Clason's classic guide to financial health, The Richest Man in Babylon, has won millions of followers since 1930. Told as a series of parables set in ancient Mesopotamia, The Richest Man in Babylon is enthralling in its wisdom and simplicity. But times have changed. The enduring crisis of economic lockdown, spiraling health costs, and working from home were not even figures in the mind of this great author. Now, PEN Award-winning historian and popular voice of self-help Mitch Horowitz marries Clason's insights to the challenges of our present-day financial lives to produce a profoundly realistic, practical, and relevant "action plan" based on the original principles of The Richest Man in Babylon. In seven steps—or "Clason's Golden Lessons"—Mitch explores how to profit from your dwelling in our new work-from-home economy; the tough truth about healthcare costs and the original Babylon principles; the soundest source of investment; real-world ways to increase your earning power; why maintaining cashflow matters more than paying down debt in times of crisis; how to contend with issues of fear around money, and more. As a special bonus feature, this action plan includes a faithful abridgment of Clason's original work, which serves as a perfect refresher for longtime readers and a primer for newcomers. In this to-the-point guide, Mitch also explores the historical background of the man and book that taught us to "pay yourself first," and why Clason's basic rules still make the most sense. A selection of "Clason's Golden Aphorisms" distill key pieces of wisdom from the original book, each a lesson in itself. In succinct fashion, Mitch provides the first true update to one of the greatest financial guides ever written.

The Psychology of Money 2020-09-08 Morgan Housel Doing well with money isn't necessarily about what you know. It's about how you behave. And behavior is hard to teach, even to really smart people. Money—investing, personal finance, and business decisions—is typically taught as a math-based field, where data and formulas tell us exactly what to do. But in the real world people don't make financial decisions on a spreadsheet. They make them at the dinner table, or in a meeting room, where personal history, your own unique view of the world, ego, pride, marketing, and odd incentives are scrambled together. In The Psychology of Money, award-winning author Morgan Housel shares 19 short stories exploring the strange ways people think about money and teaches you how to make better sense of one of life's most important topics.

Farrell outlines the consistent pattern and strategy of bankers in ancient and modern times, and their desire to suppress the public development of alternative physics and energy technologies, usurp the money creating and issuing power of the state, and substitute a facsimile of money-as-debt. Here, Farrell peels back the layers of deception to reveal the possible deep physics that the "banksters" have used to aid them in their financial policies. Feral House also published Farrell's Philosopher's Stone: Alchemy and the Secret Research for Exotic Matter.

The Millionaire Next Door 2010-11-30 Thomas J. Stanley How do the rich get rich? An updated edition of the "remarkable" New York Times bestseller, based on two decades of research (The Washington Post). Most of the truly wealthy in the United States don't live in Beverly Hills or on Park Avenue. They live next door. America's wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children who don't realize how rich their families are, and reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people many of us think of as "rich" are actually a tiny minority of America's truly wealthy citizens—and behave quite differently than the majority. At the time of its first publication, The Millionaire Next Door was a groundbreaking examination of America's rich—exposing for the first time the seven common qualities that appear over and over among this exclusive demographic. This edition includes a new foreword by Dr. Thomas J. Stanley—updating the original content in the context of the financial crash and the twenty-first century. "Their surprising results reveal fundamental qualities of this group that are diametrically opposed to today's earn-and-consume culture." —Library Journal

Summary of Atomic Habits by James Clear QuickRead Learn about the easy and proven way to build good habits and break the bad ones. What's a habit? If someone were to ask you about your daily habits, you might need some time to think about them. That's because a habit, by definition, is an act that you perform automatically by instinct. Like when you walk into a dark room, you instinctively turn on a light switch, right? Habits are actions you don't even have to think about, which is why you might not realize how a small daily action can have a powerful effect on your life. If you're saving a dollar a day or smoking a cigarette a day, these actions may not seem like much now, but twenty years from now, those habits can either make you rich or, unfortunately, kill you. That's why it's important to understand how habits are formed, so you can learn how to kick the bad habits, implement the healthy ones, and take back control of your life. The Money Mentor 2019-10-01 Graeme Holm The Money Mentor is my take on the classic self-help book - with one major difference: It's a bullshit-free zone! If you're reading this, it's because you've recognised that your finances need help.

Either that or your kids gave you the book as a Christmas stocking-filler, it's pouring with rain and there's nothing on telly this afternoon. Seriously, however you got here isn't important. The important thing is - you're here. Right here, right now is where you start getting control of your finances. This is where you stop throwing money away like it's going out of fashion and start saving. This is where your financial worries start to lessen. This is where you and your family begin to get ahead in the game. What I do is very straightforward - I help ordinary Mums and Dads burdened with standard 30-year home loans, pay off those loans within 7 to 10 years. Yes, you read that correctly - you can be mortgage-free in 7 to 10 years simply by following a plan that we create together. It's not magic. There's no smoke and mirrors. It's not even a secret how we can do this together. In fact, I call it the 'not-so-secret, secret', because anyone can do it. Together, we examine your lifestyle and make a detailed assessment of your living expenses. Using that information, we then give every single dollar of your family's monthly income a specific purpose and structure it within a realistic budget. And guarantee to pay the loan off in 7 to 10 years. Paying your home loan off over 30 years is bullshit! It's the biggest rip-off. When you're sitting in your bank, arranging your home loan, their entire focus is on the minimum monthly repayment. That just means they're forecasting their juicy profits over a 30-year period. Profits that you're paying for. We can even pay off that 30-year loan earlier in some cases. One of our records is having cleared a mortgage in only 3.5! Mortgage-free in three and a half years - wouldn't everyone love to be in that position? Agents of Babylon 2015-10-06 David Jeremiah In his #1 New York Times bestseller Agents of the Apocalypse, noted prophecy expert Dr. David Jeremiah explored the book of Revelation through the lens of its major players.
