*Human Rights on Trial*

2018-05-31 Justine Lacroix The first systematic analysis of the arguments made against human rights from the French Revolution to the present day. Through the writings of Edmund Burke, Jeremy Bentham, Auguste Comte, Louis de Bonald, Joseph de Maistre, Karl Marx, Carl Schmitt and Hannah Arendt, the authors explore the divergences and convergences between these 'classical' arguments against human rights and the contemporary critiques made both in Anglo-American and French political philosophy. Human Rights on Trial is unique in its marriage of history of ideas with normative theory, and its integration of British/North American and continental debates on human rights. It offers a powerful rebuttal of the dominant belief in a sharp division between human rights today and the rights of man proclaimed at the end of the eighteenth century. It also offers a strong framework for a democratic defence of human rights.

**Rightlessness in an Age of Rights**

2015 Ayten Gündođdu "Human rights promise equal personhood regardless of citizenship status, yet their existing formulations are tied to the principle of territorial sovereignty. This situation leaves various categories of migrants in a condition of "rightlessness," with a very precarious legal, political, and human standing. Gündođdu examines this problem in the context of immigration detention, deportation, and refugee camps. Critical of the existing system of human rights without seeing it as a dead end, she argues for the need to pay closer attention to the political practices of migrants who challenge their condition of rightlessness and propose new understandings of human rights. What arises from this critical reflection on human rights is also a novel reading of Arendt, one that offers refreshing insights into various dimensions of her political thought, including her account of the human condition, "the social question,," and "the right to have rights." \* --

*The Universal Declaration of Human Rights in the 21st Century*

2016-04-18 Gordon Brown The Global Citizenship Commission was convened, under the leadership of former British Prime Minister Gordon Brown and the auspices of NYU’s Global Institute for Advanced Study, to re-examine the spirit and stirring words of The Universal Declaration of Human Rights. The result - this volume - offers a 21st-century commentary on the original document, furthering the work of human rights and illuminating the ideal of global citizenship. What does it mean for each of us to be members of a global community? Since 1948, the Declaration has stood as a beacon and a standard for a better world. Yet the work of making its ideals real is far from over. Hideous and systemic human rights abuses continue to be perpetrated at an alarming rate around the world. Too many people, particularly those in power, are hostile to human rights or indifferent to their claims. Meanwhile, our global interdependence deepens. Bringing together world leaders and thinkers in the fields of politics, ethics, and philosophy, the Commission set out to develop a common understanding of the meaning of global citizenship - one that arises from basic human rights and empowers every individual in the world. This landmark report affirms the Universal Declaration of Human Rights and seeks to renew the 1948 enterprise, and the very ideal of the human family, for our day and generation.

*The Cambridge Handbook of Human Dignity*

2014-04-10 Marcus Düwell This introduction to human dignity explores the history of the notion from antiquity to the nineteenth century, and the way in which dignity is conceptualised in non-Western contexts. Building on this, it addresses a range of systematic conceptualisations, considers the theoretical and legal conditions for human dignity as a useful notion and analyses a number of philosophical and conceptual approaches to dignity. Finally, the book introduces current debates, paying particular attention to the legal implementation, human rights, justice and conflicts, medicine and bioethics, and provides an explicit systematic framework for discussing human dignity. Adopting a wide range of perspectives and taking into account numerous cultures and contexts, this handbook is a valuable resource for students, scholars and professionals working in philosophy, law, history and theology.

-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

2018-02-13 Stephanie DeGooyer Sixty years ago, the political theorist Hannah Arendt, an exiled Jew deprived of her German citizenship, observed that before people can enjoy any of the "inalienable" Rights of Man-before there can be any specific rights to education, work, voting, and so on-there must first be such a thing as "the right to have rights". The concept received little attention at the time, but in our age of mass deportations, Muslim bans, refugee crises, and extra-state war, the phrase has become the centre of a crucial and lively debate. Here five leading thinkers from varied disciplines-including history, law, politics, and literary studies-discuss the critical basis of rights and the meaning of radical democratic politics today.

<div><div><div><div><div><div><span></span></div></div></div><div><div><div><span></span></div><div><span></span></div></div></div><div><div><div><span></span></div></div></div></div></div></div>

*The Right to Have Rights*

2012-01-12 Alison Kesby Writing in the immediate aftermath of the Second World War, the political theorist Hannah Arendt argued that the plight of stateless people in the inter-war period pointed to the existence of a 'right to have rights'. The right to have rights was the right to citizenship-to membership of a political community. Since then, and especially in recent years, theorists have continued to grapple with the meaning of the right to have rights. In the context of enduring statelessness, mass migration, people flows, and the contested nature of democratic politics, the question of the right to have rights remains of pressing concern for writers and advocates across the disciplines. This book provides the first in-depth examination of the right to have rights in the context of the international protection of human rights. It explores two overarching questions. First, how do different and competing conceptions of the right to have rights shed light on the contemporary context, and in particular on concepts and relationships central to the protection of human rights in public international law? Secondly, given these competing conceptions, how is the right to have rights to be understood in the context of public international law? In the course of the analysis, the author examines the significance and limits of nationality, citizenship, humanity and politics for right bearing, and argues that their complex interrelation points to how the right to have rights might be rearticulated for the purposes of international legal thought and practice.

<div><div><div><div><div><div><span></span></div></div></div><div><div><div><span></span></div><div><span></span></div></div></div><div><div><div><span></span></div></div></div></div></div></div>
-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

2015-07-16 Rhoda E. Howard-Hassmann The Human Right to Citizenship provides an accessible overview of citizenship around the globe, focusing on empirical cases of denied or weakened legal rights. This wide-ranging volume provides a theoretical framework to understand the particular ambiguities, paradoxes, and evolutions of citizenship regimes in the twenty-first century.

*Citizenship: A Very Short Introduction*

2008-09-25 Richard Bellamy Interest in citizenship has never been higher. But what does it mean to be a citizen in a modern, complex community? Richard Bellamy approaches the subject of citizenship from a political perspective and, in clear and accessible language, addresses the complexities behind this highly topical issue.

The Secret Behind The Forbidden Door

Alice was perpetually fascinated by the ancient mansion perched at the end of the street. Stories of its mysterious owner, who never ventured out of his isolated abode, had always piqued her curiosity. Whispers circulated about his identity, ranging from a recluse to a prodigy or even a eccentric, depending on the source. Alice yearned to unravel the truth behind these tales and uncover the secrets concealed within the bolted door on the second floor. Driven by an irresistible urge to delve into the mansions mysteries, Alice embarked on a audacious escapade. With a heart pounding with a mix of apprehension, she discreetly ventured into the mansions grounds, her senses heightened as she approached the off-limits door on the second floor. Standing before the threshold, her hand trembling slightly as she reached for the doorknob, Alice braced herself for the revelations that awaited her beyond. With a deep breath, she turned the knob, the door creaking open to unveil a sight that would forever alter her perception of the world.
