### Fifty Ways to Teach Writing

2016-05-18 Maggie Sokolik Writing ought to be the easiest of the four skills for students of English as a Second or Foreign Language. Unlike listening and reading, the students control all the words. Unlike speaking, the students can go back, check their work, revise it, and resubmit it. It should then follow that writing would be one of the most popular courses to teach. Yet teachers never say, "I can't wait

to teach writing." However, some of those composition classes of 25 students. However, writing can teach English Hungarian Fluency Practice Book 7 Pdf Pdf upload Arnold e Paterson

classes also offer the opportunity to see growth, to share important ideas, and to develop a sense of community. The tips in Fifty Ways Ways to Teach Writing are chosen with that goal in mind -- to make it easier for students to succeed at becoming better writers, and for instructors to enjoy the teaching of writing. This book is divided into three categories, which represent the stages of process writing: a) Pre-writing and planning b) Writing topics and strategies c) Editing and revising The Fifty Ways to Teach series gives you a variety of drills, games, techniques, methods, and ideas to help your students master English. ### Accents, Personal Stories

2015-05-20 Alexander Pavlenko Based on the Speech Plasma method the book is designed to teach the students to speak English in a natural conversational manner. This book includes personal stories narrated by seventeen people from different parts of the United Kingdom, the USA, Ireland, Canada and Australia. The volume is supplied with audio files. Our intention in recording this range of voices was neither to collect as many accents as possible, nor to find the most typical or strongest accents. Rather, our aim was to illustrate a range of regional pronunciation in English. By listening to the tapes the reader will hear the differences in the way

places as London, New York, Manchester and many other parts of the English speaking world. Accents, Personal Stories is part of the Fluency Practice series designed to expose students to English as spoken by native speakers in a range of situations. This book, however, differs from the others in the series, in that while the stories the speakers tell were also recorded and transcribed, they were not edited in order to rid them of unnecessary repetition or other grammatical errors. This gives the stories the authentic flavour of English as it is spoken. The book's aim is to expose the student to an actual informal, conversational style. Educationalists are currently debating the factors which influence the way in which English is spoken, such as the speaker's thought processes as they mingle with the demands of grammar and syntax, and sometimes it is unclear which usage of the language

is "correct" or not. What is evident, however, about conversational style is that in the process of speaking, while expressing thoughts and ideas, it is impossible to avoid afterthoughts, interrupted thoughts, repetition and retracing of ideas. So the way we have commented on the text is by detecting grammatical mistakes in the words and sentences that did not occur under the influence of these extra-linguistic factors. Mistakes of the type belong to non-standard English (NSE). The other uses of technically "incorrect" English should be considered as current conversational style (CS). Accents, Personal Stories can be used for listening and reading practice, for identifying regional accents and analysing various informal types of speech. The book can also be used for teaching and learning how to present a personal story in a concise and interesting form.

more advanced level. The book is a collection of stories told by people in everyday conversational manner. The stories are accounts of incidents or ideas which the people interviewed consider interesting or entertaining. They are not intended as great works of literature, rather as examples of people using their language naturally. The stories are the sort of tales that you might hear in a pub or at a party, reflections on anything from weather and inquisitive neighbours to a passion for music and how it can help handicapped children. At times amusing, surprising, entertaining or simply hard to believe, they are all related in the kind of natural informal style which language learners so often wish to imitate. This collection will help show you how to do just that.
