Euroschiavi dalla truffa alla tragedia. Signoraggio, debito pubblico, banche centrali 2012 Marco Della Luna

Rompere la gabbia 2016-04-19 Claudio Moffa Mentre la crisi chiude le fabbriche e gli enti pubblici, crea disoccupati, distrugge i residui dello Stato sociale e affama i nostri portafogli si resta spesso disorientati sia dal linguaggio volutamente astruso dei mass media e dei politici, sia dal girare a vuoto delle “proposte” via via avanzate: per ogni passo in avanti accennato, la risposta è sempre “dobbiamo trovare le risorse”, come a dire che si deve prendere con una mano quel che si è restituito con l'altra. Un gioco al massacro. Così dal debito non si uscirà mai. Decisamente in controtendenza rispetto alla cripticità con cui si è soliti affrontare queste tematiche, il libro di Claudio Moffa utilizza il linguaggio più semplice possibile per analizzare due tabù che ci impediscono di “rompere la gabbia” dentro cui la crisi ci ha imprigionati: il signoraggio e il debito pubblico. Per affrontare questi due problemi occorre presa di coscienza e coraggio politico. Varie le possibilità: • ri-nazionalizzare la Banca d'Italia, • fondare una nuova Banca centrale di Stato incaricata di emettere banconote, • affidare l'emissione monetaria direttamente alla Zecca di Stato, sotto il controllo del Tesoro. L'alternativa facile, invece, è quella di illudersi che in fondo le cose vadano bene così, continuando a far finta di non sapere. Soluzione “indolore” e veloce. Ma davvero non ci meritiamo qualcosa di più?

Istituzioni di diritto pubblico 2014-07 Gian Piero Iaricci Questo lavoro è destinato essenzialmente agli studenti e costituisce un esaustivo strumento di apprendimento della materia pubblicistica. La prima parte è dedicata al diritto costituzionale; la seconda parte al diritto amministrativo sostanziale e processuale, con puntuali riferimenti ad istituti che assumono comunque rilevanza anche nell'ambito del diritto pubblico, nonché al diritto sanitario. I mirati cenni storici consentono una migliore comprensione della normativa vigente. Inoltre, i diffusi riferimenti bibliografici ed il richiamo delle più significative pronunce della Corte costituzionale e delle magistrature superiori hanno lo scopo di agevolare l'approfondimento degli argomenti trattati. Il volume, pertanto, fornisce una solida base sulla quale misurare le annunciate riforme che dovrebbero incidere profondamente, specie sul nostro sistema costituzionale.

La Gabbia dell'Angelo (Osessione Molotov Vol. 2) 2021-10-26 Anna Zaires Tornata nella tana del diavolo, sono alla mercé di un uomo che mi affascina e mi terrorizza, un tenero assassino la cui osessione per me

cresce di giorno in giorno. Nikolai Molotov è sia il mio rapitore che il mio protettore, la sua tenuta sia il mio rifugio sicuro che la mia gabbia dorata. Se solo potessi resistere al suo tocco letale e seducente... o combattere la sua crescente presa sul mio cuore e sulla mia mente. Perché per quanto io scavi nell'enigma del suo passato, non conosco ancora la risposta alla domanda più cruciale: Quanto è pericoloso il suo amore per me? Nota: Questa è la conclusione della storia di Nikolai e Chloe.

The Future of the Classical 2006-10-20 Salvatore Settis Every era has invented a different idea of the 'classical' to create its own identity. Thus the 'classical' does not concern only the past: it is also concerned with the present and a vision of the future. In this elegant new book, Salvatore Settis traces the ways in which we have related to our 'classical' past, starting with post-modern American skyscrapers and working his way back through our cultural history to the attitudes of the Greeks and Romans themselves. Settis argues that this obsession with cultural decay, ruins and a 'classical' past is specifically European and the product of a collective cultural trauma following the collapse of the Roman Empire. This situation differed from that of the Aztec and Inca empires whose collapse was more sudden and more complete, and from the Chinese Empire which always enjoyed a high degree of continuity. He demonstrates how the idea of the 'classical' has changed over the centuries through an unrelenting decay of 'classicism' and its equally unrelenting rebirth in an altered form. In the Modern Era this emulation of the 'ancients' by the 'moderns' was accompanied by new trends: the increasing belief that the former had now been surpassed by the latter, and an increasing preference for the Greek over the Roman. These conflicting interpretations were as much about the future as they were about the past. No civilization can invent itself if it does not have other societies in other times and other places to act as benchmarks. Settis argues that we will be better equipped to mould new generations for the future once we understand that the 'classical' is not a dead culture we inherited and for which we can take no credit, but something startling that has to be re-created every day and is a powerful spur to understanding the 'other'.

Rogue Economics 2011-01-04 Loretta Napoleoni What do Eastern Europe's booming sex trade, America's subprime mortgage lending scandal, China's fake goods industry, and celebrity philanthropy in Africa have in common? With biopirates trolling the blood industry, fish-farming bandits ravaging the high seas, pornography developing virtually in

Second Life, and games like World of Warcraft spawning online sweatshops, how are rogue industries transmuting into global empires? And will the entire system be transformed by the advent of sharia economics? With the precision of an economist and the narrative deftness of a storyteller, syndicated journalist Loretta Napoleoni examines how the world is being reshaped by dark economic forces, creating victims out of millions of ordinary people whose lives have become trapped inside a fantasy world of consumerism. Napoleoni reveals the architecture of our world, and in doing so provides fresh insight into many of the most insoluble problems of our era.

Children of the Future 2013-07-02 Wilhelm Reich Translated by Derek and Inge Jordan In Children of the Future, Wilhelm Reich shows how disastrous the exclusion of genitality is to the young and its important influence on their development. In his 1932 work The Sexual Rights of Youth, published here in its revised form, Reich speaks in terms of what he sees as the real meaning of the sexual enlightenment of youth: it is not the mystery and dangers of procreation, but the essential nature of sexuality and the right of youth to genital gratification. Reich presents a new way of seeing the parental compulsion to teach. In other chapters, Reich examines attitudes toward infantile masturbation, the source of the human no, and special disturbances of the young. Reich's work is substantiated by his concrete observations and experiences with children, including case studies from the Orgonomic Infant Research Center.

The End of Money and the Future of Civilization 2009-06-04 Thomas Greco Like the proverbial fish who doesn't know what water is, we swim in an economy built on money that few of us comprehend, and, most definitely, what we don't know is hurting us. Very few people realize that the nature of money has changed profoundly over the past three centuries, or—as has been clear with the latest global financial crisis—the extent to which it has become a political instrument used to centralize power, concentrate wealth, and subvert popular government. On top of that, the economic growth imperative inherent in the present global monetary system is a main driver of global warming and other environmental crises. The End of Money and the Future of Civilization demystifies the subjects

of money, banking, and finance by tracing historical landmarks and important evolutionary shifts that have changed the essential nature of money. Greco's masterful work lays out the problems and then looks to the future for a next stage in money's evolution that can liberate us as individuals and communities from the current grip of centralized and politicized money power. Greco provides specific design proposals and exchange-system architectures for local, regional, national, and global financial systems. He offers strategies for their implementation and outlines actions grassroots organizations, businesses, and governments will need to take to achieve success. Ultimately, The End of Money and the Future of Civilization provides the necessary understanding—for entrepreneurs, activists, and civic leaders—to implement approaches toward monetary liberation. These approaches would empower communities, preserve democratic institutions, and begin to build economies that are sustainable, democratic, and insulated from the financial crises that plague the dominant monetary system.

The New Rulers of the World 2016-03-22 John Pilger John Pilger is one of the world's renowned investigative journalists and documentary filmmakers. In this classic book, with an updated introduction, he reveals the secrets and illusions of modern imperialism. Beginning with Indonesia, he shows how General Suharto's bloody seizure of power in the 1960s was part of a western design to impose a 'global economy' on Asia. A million Indonesians died as the price for being the World Bank's 'model pupil'. In a shocking chapter on Iraq, he delineates the true nature of the West's war against the people of that country. And he dissects, piece by piece, the propaganda of the 'war on terror' to expose its Orwellian truth. Finally, he looks behind the picture-postcard image of his homeland, Australia, to illuminate an enduring legacy of imperialism: the subjugation of the First Australians.

The End of Finance 2013-12-19 Massimo Amato This new book by two distinguished Italian economists is a highly original contribution to our understanding of the origins and aftermath of the financial crisis. The authors show that the recent financial crisis cannot be understood simply as a malfunctioning in the subprime mortgage market: rather, it is rooted in a much more fundamental transformation, taking place over an extended time period, in the very nature of finance. The 'end' or purpose of finance is to be found in the social institutions by which the making and acceptance of promises of payment are made possible - that is, the creation and cancellation of debt contracts within a specified time frame. Amato and Fantacci argue that developments in the modern financial system by which debts are securitized has endangered this fundamental credit/debt structure. The illusion has been created that debts are universally liquid in the sense that they need not be redeemed but can be continually sold on in increasingly extensive global markets. What appears

to have reduced the riskiness of default for individual agents has in fact increased the fragility of the system as a whole. The authors trace the origins of this profound transformation backwards in time, not just to the neoliberal reforms of the 1980s and 90s but to the birth of capitalist finance in the mercantile networks of the sixteenth and seventeenth centuries. This long historical perspective and deep analysis of the nature of finance enables the authors to tackle the challenges we face today in a fresh way - not simply by tinkering with existing mechanisms, but rather by asking the more profound question of how institutions might be devised in which finance could fulfil its essential functions.

In limine. Storie di una comunità ai margini della laguna 2018-06-06 Sauro Gelichi Il volume correda un breve percorso espositivo a pannelli (testi e immagini) per presentare i risultati delle ricerche e degli scavi svolti dal 2011 ad oggi nel sito archeologico 'Antiche Mura' di Jesolo. 'In limine' è una poesia di Eugenio Montale (introduce la raccolta "Ossi di Seppia"). Il titolo, e la poesia stessa, sono sembrati pertinenti a sintetizzare il senso del progetto archeologico sull'antica Equilo, di cui si pubblicano in questo volume i primi risultati. 'In limine' significa 'sulla soglia': indica cioè un punto di passaggio, un confine; e, nel nostro caso, metaforicamente rimarca il discrimine tra passato e presente, il luogo archeologico dove la materia inerte diviene narrazione. Qui, in limine, è anche uno spazio fisico preciso, quello dell'area delle 'Antiche Mura', luogo anche tangibile della memoria collettiva. Un luogo, ieri come oggi, ai margini. Se l'antica Equilo era stato un insediamento sul confine instabile tra mare e laguna, la moderna Jesolo, che ne ha ereditato il nome, ha lasciato che i ruderi della sua memoria restassero al di fuori del centro abitato: nel punto dove la città diventa campagna, lì sorgono le rovine dell'antica cattedrale, lì rimane il reliquiario della comunità, come una sorta di giardino 'dove affonda un morto viluppo di memorie' (di nuovo Montale). Gli archeologi hanno cercato nel tempo di recuperare quelle memorie e quel passato, con pazienza e fatica. Così, il progetto nato qualche anno fa per iniziativa del Dipartimento di Studi Umanistici dell'Università Ca' Foscari di Venezia, non costituisce che l'ultimo atto di un percorso che ha inizio dalla metà del secolo scorso, con gli scavi nell'area della cattedrale e nel vicino sito della chiesa di San Mauro. I contributi che si pubblicano in questa circostanza raccontano e sintetizzano i risultati degli ultimi anni di scavi.

L'interconnessione tra le varie strategie di indagine ci ha consentito di proporre una ricostruzione storico-insediativa del sito del tutto inedita e sorprendente.

Life and death of a rural village in Garamantian Times. Archaeological investigations in the oasis of Fewet (Libyan Sahara) 2013-12-01 Lucia Mori This volume presents the results of the archaeological investigations in the oasis of Fewet (SW Libyan Sahara), carried out by the Archaeological Mission in the Sahara of the Sapienza University of Rome.

Evidences of an ancient rural village were identified under the houses of the modern town of Tan Afella and a large necropolis, dated to the Garamantian times, spread at the fringes of the modern settlement. Until 1997 very little was known on the Garamantian period in the Wadi Tanezzuft area and on the transition from the pastoral to the early-historical phase. This period witnessed the gradual sedentarisation of human groups in the oases, and the development of caravan routes with the flourishing of an intra- and trans-Saharan trade. These processes, also influenced by significant alterations in climate, which led to the agricultural exploitation of the limited areas where water resources were available – the oases – were archaeologically unknown as far as settlements were concerned. The archaeological surveys and excavations carried out in the area of Fewet were particularly promising and are here analysed in a multidisciplinary perspective, which takes into consideration environmental and anthropological studies in the attempt to reconstruct the culture and the life of people inhabiting the Southern Fezzan region in early-historical times. «The historical archaeology of the Sahara remains an underdeveloped field of research, especially for the pre-Islamic period. The most significant exception to this rule has for long concerned the people known as the Garamantes, who inhabited the central Saharan region coincident with Libya's south-west province, Fezzan. (...) This volume is a marvelous addition to the small corpus of published research on the Pre-Islamic oasis societies of the Sahara and provides a complementary perspective on the world of the Garamantes to the Anglo-Libyan work I have directed from their heartlands in the Wadi el-Ajal, c. 400 km to north-east of Ghat». Quiet Revolution in Welfare Economics 2017-03-14 Michael Albert This ambitious work presents a critique of traditional welfare theory and proposes a new approach to it. Radical economists Robin Hahnel and Michael Albert argue that an improved theory of social welfare can consolidate and extend recent advances in microeconomic theory, and generate exciting new results as well. The authors show that once the traditional "welfare paradigm" is appropriately modified, a revitalized welfare theory can clarify the relationship between individual and social

rationality a task that continues to be of interest to mainstream and nonmainstream economists alike. Hahnel and Albert show how recent work in the theory of the labor process, externalities, public goods, and endogenous preferences can advance research in welfare theory. In a series of important theorems, the authors extend the concept of Pareto optimality to dynamic contexts with changing preferences and thus highlight the importance of institutional bias. This discussion provides the basis for further analysis of the properties and consequences of private and public enterprise and of markets and central planning. Not surprisingly, Hahnel and Albert reach a number of conclusions at odds with conventional wisdom. Originally published in 1990. Matteo Cibic – Paradiso Dreams 2019-11-28 Matteo Cibic Potremmo definirlo così Matteo Cibic, prendendo in prestito il titolo che egli stesso ha scelto per una delle sezioni in cui ha strutturato la mostra Paradiso Dreams. L'onironauta è il sognatore lucido, è colui che sa navigare nella galassia dei sogni restando sveglio, colui che riesce a esplorare e modificare a piacimento il proprio paesaggio onirico. Cibic lavora così: è un visionario consapevole, un artista che sa tradurre una cosa intangibile e impalpabile come i sogni in qualcosa di materico, fisico e tangibile come la ceramica. I suoi pezzi sono sempre ibridi: mescolano i nasi di Pinocchio e le nuvole di Magritte, il ricordo di certi personaggi zoomorfi di Walt Disney con quello dei vasi e delle bottiglie di Morandi, la tradizione del grande artigianato ceramista con lo sberleffo dadaista. Guardi un suo artefatto, uno qualunque, e senti che viene da lontano, forse perfino dalle decorazioni itifalliche di antiche civiltà, eppure al contempo lo senti contemporaneo, senti che dialoga con il nostro tempo, e che introyetta nel presente, nel gusto e nella sensibilità di oggi, tecniche, saperi e linguaggi di secoli e secoli fa. In ciò sta la sua originalità, ciò che lo rende unico anche fra i designer più creativi della sua generazione: la capacità di generare cortocircuiti di senso, e di creare forme che non esistevano prima che lui le inventasse, ma con dentro l'eco e la memoria delle forme generate dalle generazioni precedenti. Per quanto possa sembrare paradossale, con lui anche la ceramica sembra fatta con la stessa materia di cui sono fatti i sogni. Silvana Annicchiarico, curatrice Esponente di punta della cultura del progetto contemporanea, Matteo Cibic lavora al crocevia fra design, arte e alto artigianato. Cresciuto in una famiglia con forti tradizioni di design, ha maturato un approccio sperimentale che lo porta a fare ricerca sui materiali, sulle forme e sulle tecniche di

produzione. Lavora sulla ceramica da più di vent'anni, con uno sguardo visionario e fortemente innovativo. I suoi lavori sono esposti in alcuni dei principali musei del mondo.

The Money Illusion 2014-03-27 Irving Fisher In economics, money illusion refers to the tendency of people to think of currency in nominal, rather than real, terms. In other words, the numerical/face value (nominal value) of money is mistaken for its purchasing power (real value). This is false, as modern fiat currencies have no inherent value and their real value is derived from their ability to be exchanged for goods and used for payment of taxes. The term was coined by John Maynard Keynes in the early twentieth century. Almost every one is subject to the "Money Illusion" in respect to his own country's currency. This seems to him to be stationary while the money of other countries seems to change. It may seem strange but it is true that we see the rise or fall of foreign money better than we see that of our own.-IRVING FISHER

From Lake to Sand. The Archaeology of Farafra Oasis Western desert, Egypt 2014-12-11 Barbara E. Barich The volume presents all the data collected during the cycle of research conducted by the Italian Archaeological Mission in the Farafra Oasis between 1990 and 2005. The 29 multidisciplinary essays contained in this book provide a detailed picture of the population of the Farafra Oasis, hitherto one of the least well known within the Western Desert. Farafra became particularly important during the middle Holocene, the period when climate conditions were most favourable, with later brief humid episodes even in the historic periods. The results of the long-term research cycle presented here, combined with data from the survey of the whole Wadi el Obeiyid still in progress, allow the authors to identify changes in the peopling of the oasis and to define various occupation phases. The new chronology for the Wadi el Obeiyid is one of the main achievements of the book and, as demonstrated in the final chapter, is in complete agreement with the main cultural units of other

territories in the Western Desert. On this chronological basis, the contacts between the latter and the populations established on the Nile are brought into sharper focus. The importance of the archaeological documents discovered at Farafra and, at the same time their fragility due to the deterioration of the physical environment and the uncontrolled human activities, make us fear for their conservation. We hope that this book, with its complete documentation of the precious nature of the Farafra Oasis landscape and its archaeological heritage, may help to promote more effective policies for its safeguard.

Archeologia e Calcolatori, 30, 2019 2019-11-28 Marco Arizza Il volume 30 di «Archeologia e Calcolatori» si apre con un inserto speciale, dedicato al trentennale della rivista. Alle introduzioni di F. Djindjian e di P. Moscati, che delineano un quadro dell'informatica archeologica nel suo divenire, seguono gli articoli dei membri del Comitato di Redazione, a testimoniare l'attività di ricerca e di sperimentazione che ha caratterizzato il cammino editoriale della rivista, e il contributo di una giovane laureata dell'Università Bocconi, che ha lavorato a stretto contatto con il team di «Archeologia e Calcolatori». Nella parte centrale sono pubblicati gli articoli proposti annualmente dagli autori. Ne emerge un quadro che rappresenta gli aspetti applicativi più qualificanti dell'informatica archeologica (le banche dati, i GIS, le analisi statistiche, i sistemi multimediali), ma che guarda oggi con sempre maggiore interesse agli strumenti di visualizzazione scientifica e di comunicazione delle conoscenze. Il volume si chiude con gli Atti del XII Workshop ArcheoFOSS (Free, Libre and Open Source Software e Open Format nei processi di ricerca archeologica), un'iniziativa lodevole, nata nel 2006, cui si è più volte dato spazio nelle pagine della rivista.

The Babylonian Woe 2015-04-15 David Astle Every conclusion arrived at as a result of study of the fragments of information available in respect to money and its creators in the world of the Ancient Civilizations, indicates the existence of a far reaching conspiracy in respect to monetary issuance influencing the progression of man's history in the earliest times of which written record exists. It is also outstandingly clear that it was parent to that acknowledged and most obvious conspiracy such as exists today. Hence was able to develop that conspiracy against mankind most exemplified by a continuous propaganda of hate against all authority: in pre-antiquity and antiquity against the many city gods, and in relatively modern times against the kings that rose out of the ruins of that which had been Rome. As those controlling totally the economic life of a state through monetary creation and emission, must have felt that kings and gods were more of a nuisance than anything else, the instigators of this conspiracy in whatever place and era, obviously were those who first did the business of bankers; the controllers of values, and consequently the economic life of the states wherever the precious metal standard was used.

Who Owns the World 2015-04-16 Kevin Cahill Who Owns the World is the first ever compilation of landowners and landownership structures in every single one of the world's 197 states and 66 territories. It covers the history of landownership as far as written history will allow and shows the division of landownership in every region of the globe. Packed with revelatory information, the book: * identifies the person who owns the largest proportion of the world's land and documents that person's landholdings; * provides details of the next 25 top landowners; * reveals that aristocratic families own over 60 per cent of Europe's land mass and receive most of the EC's agricultural subsidy allowance; * documents the vast landholdings of the four largest religious groups: the Catholic Church and the other Christian churches, the Islamic trusts, and the temple possessions of the Hindus and Buddhists; * details the landownership structure of all the countries of the British Commonwealth; * contains a complete survey of the historic record of landownership, starting in Mesopotamia/Iraq in 8000 BC; * lists many of the world's great Domesdays, going back to the earliest, in Ptolemaic Egypt; * includes an analysis of the legal structures

that have reduced 85 per cent of the earth's population to serfdom. This is a breathtaking tome of huge political, economic and social importance. It will revolutionise our understanding of our planet, its history and its land.

The Political Economy of Participatory Economics 2020-07-21 Michael Albert With the near bankruptcy of centrally planned economies now apparent and with capitalism seemingly incapable of generating egalitarian outcomes in the first world and economic development in the third world, alternative approaches to managing economic affairs are an urgent necessity. Until now, however, descriptions of alternatives have been unconvincing. Here Michael Albert and Robin Hahnel support the libertarian socialist tradition by presenting a rigorous, well-defined model of how producers and consumers could democratically plan their interconnected activities. After explaining why hierarchical production, inequalitarian consumption, central planning, and market allocations are incompatible with "classlessness," the authors present an alternative model of democratic workers' and consumers' councils operating in a decentralized, social planning procedure. They show how egalitarian consumption and job complexes in which all engage in conceptual as well as executionary labor can be efficient. They demonstrate the ability of their planning procedure to yield equitable and efficient outcomes even in the context of externalities and public goods and its power to stimulate rather than subvert participatory impulses. Also included is a discussion of information management and how simulation experiments can substantiate the feasibility of their model.

A Primer on Medical Acupuncture

Have you ever had an uncontrollable urge to be pierced by a dozen needles? This is the image most people get when someone mentions the word

“acupuncture”. It comes as no surprise that most view this technique with suspicion, even downright horror. The fact is, however, that this relatively painless ancient Chinese technique has helped relieve the symptoms of millions of people. Properly used, it can help in the management of many medical conditions including chronic pain and fatigue.

How does needle puncture work?

Practitioners of Chinese traditional medicine believe in energy flows. This energy, called Qi, circulates around the body using pathways called meridians. Meridians run very close to the surface of the skin in certain areas and can be accessed by needles. Much like plumbing, these pipes can get blocked or go the wrong way, causing health problems. The insertion of needles at these points is aimed to help loosen blocks and normalize flow.

Anyone can try facial acupuncture because it is painless and it has proven to reverse the signs of aging. However, if you are pregnant, suffer from the colds or flu, have acute herpes or an allergic reaction, it is best to wait until this has passed.

But before anyone can try facial acupuncture, they first have to be evaluated by the acupuncturist. This person will evaluate your age, lifestyle and diet. If everything looks good, then you will probably do an average of about 12 to 15 treatments. More could be done if your skin tends to sag, manifest jowls or have droopy eyes.

Facial acupuncture treatment needs to be done twice a week for about 45 minutes to 1 hour. For those who can't make two sessions in a week, they can opt for the 1 treatment that will last 90 minutes.

Acupuncture is a form of holistic healthcare that uses needles to help treat a patient. Unlike the cartoon where the balloon will pop and all the air will go out, the needles that are inserted into the vital points will stimulate the body to release endorphins thus helping the person control their appetite.

But before needles are inserted, the specialist will first ask the patient some questions and perform an examination. This is needed to understand the main cause for the person to be overweight.

Physical health problems encountered during adolescence can affect the development of the body, if not treated. There are few anatomic regions, such as spine, knee and ankle, in adolescents which can get orthopedic problems such as Osgood-Schlatter disease, and Slipped Capital Femoral Epiphysis. Osgood-Schlatter disease is caused due to injury or overuse of the knee which causes swelling and pain in the area below the knee, above the shin bone. The patellar tendon and the soft tissues surrounding it gets inflamed, because of the constant pulling of the area where the tendon joins the below knee. Usually, adolescents who participate in sports actively and are athletic, such as football, basketball, soccer, ballet and gymnastics, tend to get the Osgood-Schlatter disease. The most important precautionary measure is to brush the teeth regularly after every meal. Since the food can be easily lodged in braces, it is a good idea to brush carefully with soft bristles toothbrush and fluoride toothpaste. Foods like caramel, chew candy, popcorn, and nuts must be avoided. Cleaning must be done by the orthodontist or general dentist, every five to six months.

The wisdom teeth or third molars can grow in people of the age fifteen to twenty five. But if the adolescent experiences pain, facial swelling, mouth infection and gum-line swelling, then they should be extracted immediately. They can also destroy the second molars and impact other tooth. Various gum and jaw diseases can be caused. There can be a tumor development; cysts development and plaque build up. Hence, a surgery is performed to remove the tooth or teeth. The gum tissue covering the wisdom tooth is removed and the connective tissue connecting the tooth to the bone is detached.
