Being The Other Woman 2012-02 Micalle A. Culver In 2002, Micalle was swept off her feet by a man who spoke rapturous words to her heart, whisked her away to exotic locations, and made her laugh to no end. Like kindred souls, the two connected instantly, leading to a euphoric romance. The catch: He's married. As one promise after another was broken, the storybook love affair began to unravel. Wrought with confusion, Micalle set out to discover how she could have allowed passion to overrule logic and wondered about the likelihood of their situation resulting in happily-ever-after. The other woman, Micalle discovered, walks into an affair blind and leaves wishing she were. Worse, there is hardly a book on the shelf to comfort her, awaken her, or better yet; stop her from making a disaster of her life. Finding little material to glean from, Micalle began asking her own questions. What she found was that her experience wasn't entirely unique. This epitome led to several years of research into the triangle of affairs and who the other woman really is. Being the Other Woman was written to illuminate her path. In sometimes humorous but often painful detail, Micalle gives the raw story of her own affair, countless interviews from women who became mistresses, and research into the psychology of the other woman and the man who cheats. What is really going on in the mind of the mistress? Her lover? His wife? Being the Other Woman will help the reader identify in what type of affair the other woman is involved and provide guidance as to whether or not the husband will really leave his wife, how to make smart relationship decisions, and how to heal from the tremendous pain one is bound to experience either by being the other woman or having one in your life.

NICOMACHEAN ETHICS 2017-04-20 Aristotle ¶EVERY art and every inquiry, and similarly every action and pursuit, is thought to aim at some good; and for this reason the good has rightly been declared to be that at which all things aim. But a certain difference is found among ends; some are activities, others are products apart from the activities that produce them. Where there are ends apart from the actions, it is the nature of the products to be better than the activities. Now, as there are many actions, arts, and sciences, their ends also are many; the end of the medical art is health, that of shipbuilding a vessel, that of strategy victory, that of economics wealth. But where such arts fall under a single capacity- as bridle-making and the other arts concerned with the equipment of horses fall under the art of riding, and this and every military action under strategy, in the same way other arts fall under yet others- in all of these the ends of the master arts are to be preferred to all the subordinate ends; for it is for the sake of the former that the latter are pursued. It makes no difference whether the activities themselves are the ends of the actions, or something else apart from the activities, as in the case of the sciences just mentioned.¶

The Independent Woman 2018-11-06 Simone De Beauvoir “Like man, woman is a human being.” When The Second Sex was first published in Paris in 1949—groundbreaking, risqué, brilliantly written and strikingly modern—it provoked both outrage and inspiration. The Independent Woman contains three key chapters of Beauvoir’s masterwork, which illuminate the feminine condition and identify practical social reforms for gender equality. It captures the essence of the spirited manifesto that switched on light bulbs in the heads of a generation of women and continues to exert profound influence on feminists today.

He's a Stud, She's a Slut, and 49 Other Double Standards Every Woman Should Know 2009-07-31 Jessica Valenti Double standards are nothing new. Women deal with them every day. Take the common truism that women who sleep around are sluts while men are studs. Why is it that men grow distinguished and sexily gray as they age while women just get saggy and haggard? Have you ever wondered how a young woman is supposed to both virginal and provocatively enticing at the same time? Isn't it unfair that working moms are labeled "bad" for focusing on their careers while we shake our heads in disbelief when we hear about the occasional stay-at-home dad? In 50 Double Standards Every Woman Should Know, Jessica Valenti, author of Full Frontal Feminism, calls out the double standards that affect every woman. Whether Jessica is pointing out the wage earning discrepancies between men and women or revealing all of the places that women still aren't equal to their male counterparts—be it in the workplace, courtroom, bedroom, or home—she maintains her signature wittily sarcastic tone. With sass, humor, and in-your-face facts, this book informs and equips women with the tools they need to combat sexist comments, topple ridiculous stereotypes (girls aren't good at math?), and end the promotion of lame double standards.

Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Democratizing Innovation 2006-02-17 Eric Von Hippel The process of user-centered innovation: how it can benefit both users and manufacturers and how its emergence will bring changes in business models and in public policy. Innovation is rapidly becoming democratized. Users, aided by improvements in computer and communications technology, increasingly can develop their own new products and services. These innovating users—both individuals and firms—often freely share their innovations with others, creating user-innovation communities and a rich intellectual commons. In Democratizing Innovation, Eric von Hippel looks closely at this emerging system of user-centered innovation. He explains why and when users find it profitable to develop new products and services for themselves, and why it often pays users to reveal their innovations freely for the use of all. The trend toward democratized innovation can be seen in software and information products—most notably in the free and open-source software movement—but also in physical products. Von Hippel's many examples of user innovation in action range from surgical equipment to surfboards to software security features. He shows that product and service development is concentrated among "lead users," who are ahead on marketplace trends and whose innovations are often commercially attractive. Von Hippel argues that manufacturers should redesign their innovation processes and that they should systematically seek out innovations developed by users. He points to businesses—the custom semiconductor industry is one example—that have learned to assist user-innovators by providing them with toolkits for developing new products. User innovation has a positive impact on social welfare, and von Hippel proposes that government policies, including R&D subsidies and tax credits, should be realigned to eliminate biases against it. The goal of a democratized user-centered innovation system, says von Hippel, is well worth striving for. An electronic version of this book is available under a Creative Commons license.

Language and Woman's Place 2004-07-22 Robin Tolmach Lakoff The 1975 publication of Robin Tolmach Lakoff's Language and Woman's Place, is widely recognized as having inaugurated feminist research on the relationship between language and gender, touching off a remarkable response among language scholars, feminists, and general readers. For the past thirty years, scholars of language and gender have been debating and developing Lakoff's initial observations. Arguing that language is fundamental to gender inequality, Lakoff pointed to two areas in which inequalities can be found: Language used about women, such as the asymmetries between seemingly parallel terms like master and mistress, and language used by women, which places women in a double bind between being appropriately feminine and being fully human. Lakoff's central argument that "women's language" expresses powerlessness triggered a controversy that continues to this day. The revised and expanded edition presents the full text of the original first edition, along with an introduction and annotations by Lakoff in which she reflects on the text a quarter century later and expands on some of the most widely discussed issues it raises. The volume also brings together commentaries from twenty-six leading scholars of language, gender, and sexuality, within linguistics, anthropology, modern languages, education, information sciences, and other disciplines. The commentaries discuss the book's contribution to feminist research on language and explore its ongoing relevance for scholarship in the field. This new edition of Language and Woman's Place not only makes available once again the pioneering text of feminist linguistics; just as important, it places the text in the context of contemporary feminist and gender theory for a new generation of readers.

The Four Loves 2018-07-26 C. S. Lewis The Four Loves by C. S. Lewis We hear often that love is patient and kind, not envious or prideful. We hear that human love is a reflection of divine love. We hear that God is love. But how do we understand its work in our lives, its perils and rewards? Here, the incomparable C. S. Lewis examines human love in four forms: affection, the most basic, general, and emotive; friendship, the most rare, least jealous, and, in being freely chosen, perhaps the most profound; Eros, passionate love that can run counter to happiness and poses real danger; charity, the greatest, most spiritual, and least selfish. Proper love is a risk, but to bar oneself from it—to deny love—is a damning choice. Love is a need and a gift; love brings joy and laughter. We must seek to be awakened and so to find an Appreciative love through which "all things are possible." We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The Life and Legacy of Nelson Mandela

Nelson Mandela was one of the most influential and inspiring leaders of the 20th century. He was born on July 18, 1918, in Mvezo, a small village in South Africa. He belonged to the Thembu royal family, and was given the name Rolihlahla, which means "troublemaker" in Xhosa. He grew up in a time of racial oppression and discrimination, and witnessed the injustices and violence inflicted by the white minority government on the black majority. He decided to dedicate his life to the struggle for freedom and equality, and joined the African National Congress (ANC), a political party that fought against apartheid, the system of racial segregation and domination in South Africa. He became a lawyer, an activist, and a leader, and was arrested and imprisoned several times for his resistance and defiance. He spent 27 years in prison, most of them on Robben Island, a notorious prison island where he endured harsh conditions and isolation. He never gave up his hope and vision, and continued to inspire and mobilize his people and the world.
