The book “Analyzing Casual Conversation” by Suzanne Eggins and Diana Slade, originally published in 1997, develops a systematic model for the analysis and portrayal of casual conversation in English. The writers contend that in spite of its occasionally aimless seeming and apparently unstructured content, casual conversation is a very structured task and has a critical part in the social building of reality. The work proceeds through real examples of casual conversations including participants varying in age, gender, ethnicity, and socio-economic class¹². Deriving on perspectives from sociology, linguistics, and critical semiotics, the work provides readers with the analytical skills to describe the strata of structure and critical interpretive structures to explain the ‘social work’ that happens on through chat.
