Discipline Disparities Among Students With Disabilities 2022 Pamela A. Fenning The decades-long problem of disproportionate school discipline and school-based arrests of students with disabilities, particularly those who also identify as Black or Native American, is explored in this authoritative book. A team of interdisciplinary scholars, attorneys, and education practitioners focus on how disparities based on disability intersect with race and ethnicity, why such disparities occur, and the impacts these disparities have over time. A DisCrit and research-based perspective frames key issues at the beginning of the book, and the chapters that follow suggest promising practices and approaches to reduce the inequitable use of school discipline and increase the use of evidence-supported alternatives to prevent and respond to behaviors of students with disabilities. The final chapter recommends future research, policy, legal, and practice goals, suggesting an agenda for moving the field forward in years to come. Contributors: Amy Briesch, Sandra Chafouleas, Donald Chee, Lindsay Fallon, Pamela Fenning, Amy Fisher, Benjamin Fisher, Emma Healy, Heather Hoechst, Miranda Johnson, Kathleen Lynne Lane, Patrice Leverett, Laura Marques, Thomas Mayes, Markeda Newell, Angelina Nortey, Wendy Oakes, Kristen Pearson, Michelle Rappaport, Monica Stevens, Carly Tindall-Biggins, Margarida Veiga, Elizabeth Marcell Williams, Perry Zirkel

Promoting the Educational Success of Children and Youth Learning English 2017-08-25 National Academies of Sciences, Engineering, and Medicine Educating dual language learners (DLLs) and English learners (ELs) effectively is a national challenge with consequences both for individuals and for American society. Despite their linguistic, cognitive, and social potential, many ELs"who account for more than 9 percent of enrollment in grades K-12 in U.S. schools"are struggling to meet the requirements for academic success, and their prospects for success in postsecondary education and in the workforce are jeopardized as a result. Promoting the Educational Success of Children and Youth Learning English: Promising Futures examines how evidence based on research relevant to the development of DLLs/ELs from birth to age 21 can inform education and health policies and related practices that can result in better educational outcomes. This report makes recommendations for policy, practice, and research and data collection focused on addressing the challenges in caring for and educating DLLs/ELs from birth to grade 12.

Business, Economics and Enterprise 2005-11-23 Jacek Brant This book has been written for teachers of business education and economics in the years of their early professional development, including those on PGCE courses, those in their induction year, and those in years two and three of their teaching career. The book will also be suitable for subject leaders with mentor responsibilities and Advanced Skills teachers undertaking specialist inset and teaching support. The book covers the training standards for NQTs and the Induction Standards. But it goes beyond this by fully exploring issues to do with subject knowledge in learning to teach, broadly accepting that an essential element of a secondary teacher's identity is tied up with the subject taught. The book is divided into three sections: framing the subject - which defines subject knowledge and raises questions about business education and economics as school subjects teaching the subject - which looks at pedagogical, curricular and pupil knowledge business, economics and enterprise within the professional community - which focuses on the place of business education and economics within the wider curriculum and the teaching community. This book aims to provide stimulating assistance to subject specialists by helping them find ways of thinking about their specialism, how to teach with it and how to engage with what pupils learn through it.

Exam Literacy 2018-08-13 Jake Hunton In Exam Literacy: A guide to doing what works (and not what doesn't) to better prepare students for exams, Jake Hunton focuses on the latest cognitive research into revision techniques and delivers proven strategies which actually work. Foreword by Professor John Dunlosky. 'Read, highlight, reread, repeat if such a revision cycle sounds all too wearily familiar, you and your students need a better route to exam success. And in light of the recent decision to make all subjects at GCSE linear, so that students will be tested in one-off sittings, it will be even more important that students are well equipped to acquire and recall key content ahead of their exams. In this wide-ranging guide to effective exam preparation, Jake Hunton casts a careful eye over a wide range of research into revision techniques and details the strategies which have been proven to deliver the best results. With plenty of practical suggestions and subject-specific examples, Exam Literacy provides teachers with user-friendly advice on how they can make the content they cover stick, and shares up-to-date, evidence-based information on: - The nature of learning and the various types of memory. - How to improve students' retention of knowledge and recall of content. - Why popular revision techniques, such as rereading, highlighting and summarising, may not be as effective as you think. - How revision strategies that have been identified as being more effective such as interleaving, elaborative interrogation, self-explanation and retrieval practice can be embedded into day-to-day teaching. - How students can be encouraged to make use of these winning strategies when revising independently.

Building Boys 2023-04-04 Jennifer L. W. Fink Offers parents tips and tools to help boys move beyond persistent gender stereotypes to full humanity. We want to raise well-rounded human beings—we're just not quite sure how best to do it. Confounded by rapidly changing gender norms, today's parents are attempting to raise kind, compassionate, emotionally sensitive boys in a society that simultaneously rewards stereotypical masculinity and is increasingly hostile to boys. Surrounded by messages of female empowerment, young boys ask their parents, "Why don't they ever say that boys can be anything they want to be?" Teaching boys to respect others will help them in the future—but can make life awfully difficult in the here and now. Making the world a safer place for women and girls is not the only reason to rethink our boy raising practices. Current culture harms our boys too—and they need (and deserve) as much support as girls and women. Building Boys is written by an in-the-trenches #boymom who intimately understands male development and the challenges currently facing boys and their families. Fink offers ten rules that parents can use to guide their parenting choices throughout their sons' lives—guidelines that are as relevant to parenting toddlers as they are to parenting teenagers. These rules range from emphasizing emotional intelligence to letting your son struggle and ultimately accepting him as he is. Fink explains both the science and research behind each rule as well as stories and anecdotes from families, including her own. Parents are taught how to apply the rule to a variety of common parenting challenges. And because these rules are broad, they are as applicable to boys with ADHD, autism and learning challenges as they are to neurotypical boys.

Parsimony and Other Radical Ideas About Justice 2023-02-21 Jeremy Travis How to envision a justice system that combines the least possible punishment with the greatest possible healing, from an all-star cast of contributors "An extraordinary and long overdue collection offering myriad ways that we can and must completely overhaul the way we imagine as well as implement 'justice.'" —Heather Ann Thompson, historian and Pulitzer Prize-winning author of Blood in the Water After decades of overpolicing and ever-more punitive criminal justice measures, the time has come for a new approach to violence and community safety. Parsimony and Other Radical Ideas About Justice brings together leading activists, legal practitioners, and researchers, many of them justice-involved, to envision a justice system that applies a less-is-more framework to achieve the goal of public safety. Grounded in a new social contract heralding safety not punishment, community power not state power, the book describes a paradigm shift where justice is provided not by police and prisons, but in healing from harm. A distinguished cast of contributors from the Square One Project at Columbia University's Justice Lab shows that a parsimonious approach to punishment, alongside a reckoning with racism and affirming human dignity, would fundamentally change how we respond to harm. We would encourage mercy in the face of violence, replace police with community investment, address the trauma lying at the heart of mass incarceration, reduce pre-trial incarceration, close the democracy gap between community residents and government policymakers, and eliminate youth prisons, among other significant changes to justice policy.

Twice Exceptional 2018-01-02 Scott Barry Kaufman In an educational system founded on rigid standards and categories, students who demonstrate a very specific manifestation of intelligence flourish, while those who deviate tend to fall between the cracks. Too often, talents and interests that do not align with classroom conventions are left unrecognized and unexplored in children with extraordinary potential but little opportunity. For twice-exceptional (2e) children, who have extraordinary strengths coupled with learning difficulties, the problem is compounded by the paradoxical nature of their intellect and an unbending system, ill-equipped to cater to their unique learning needs. Twice Exceptional: Supporting and Educating Bright and Creative Students with Learning Difficulties provides cutting-edge, evidence-based approaches to creating an environment where twice-exceptional students can thrive. Viewing the 2e student as neither exclusively disabled nor exclusively gifted, but, rather, as a dynamic interaction of both, leading experts offer holistic insight into identification, social-emotional development, advocacy, and support for 2e students. With chapters focusing on special populations (including autism, dyslexia, and ADHD) as well as the intersection of race and 2e, this book highlights practical recommendations for school and social contexts. In expounding the unique challenges faced by the 2e population, Twice Exceptional makes a case for greater flexibility in our approach to education and a wider notion of what it means to be academically successful.

Reporting Inequality 2019-03-04 Sally Lehrman Under increasingly intense newsroom demands, reporters often find it difficult to cover the complexity of topics that deal with racial and social inequality. This path-breaking book lays out simple, effective reporting strategies that equip journalists to investigate disparity’s root causes. Chapters discuss how racially disparate outcomes in health, education, wealth/income, housing, and the criminal justice system are often the result of inequity in opportunity and also provide theoretical frameworks for understanding the roots of racial inequity. Examples of model reporting from ProPublica, the Center for Public Integrity, and the San Jose Mercury News showcase best practice in writing while emphasizing community-based reporting. Throughout the book, tools and practical techniques such as the Fault Lines framework, the Listening Post and the authors' Opportunity Index and Upstream-Downstream Framework all help journalists improve their awareness and coverage of structural inequity at a practical level. For students and journalists alike, Reporting Inequality is an ideal resource for understanding how to cover structures of injustice with balance and precision.

Their bond was unbreakable, and they vowed to keep in touch, to cherish their connection, and to love each other forever. But life, as it often does, had a different path in store for them. They lost track of each other, they moved on with their lives, and they eventually married other people. Years passed, and the turmoil of life took them in different directions. But fate, it seems, had not forgotten their unbreakable connection. At a chance encounter, at a long-awaited reunion, their paths crossed once again. The moment they laid eyes on each other, the spark of their connection rekindled. The same magnetic pull that had drawn them together years ago was still potent. They felt the same thrill that had fueled their teenage romance, but they also felt the reality of their present. Their souls ached for the unwavering devotion they had shared, but their minds grappled with the tangled web of their current lives. They were caught in an emotional battle, torn between the alluring memories of their first love and the stability and security of their present. They stood at a crossroads, forced to make a heartbreaking choice. Would they choose the intense connection of their first love, risking the unpredictability that lay ahead, or would they hold onto the predictability of their current lives, forever wondering what could have been?
