How to Design and Evaluate Research in Education 2005-04 Jack R. Fraenkel How to Design and Evaluate Research in Education provides a comprehensive introduction to educational research. Step-by-step analysis of real research studies provides students with practical examples of how to prepare their work and read that of others. End-of-chapter problem sheets, comprehensive coverage of data analysis, and information on how to prepare research proposals and reports make it appropriate both for courses that focus on doing research and for those that stress how to read and understand research.

A Confederacy of Dunces 2007-12-01 John Kennedy Toole Winner of the Pulitzer Prize "A masterwork . . . the novel astonishes with its inventiveness . . . it is nothing less than a grand comic fugue."—The New York Times Book Review A Confederacy of Dunces is an American comic masterpiece. John Kennedy Toole's hero, one Ignatius J. Reilly, is "huge, obese, fractious, fastidious, a latter-day Gargantua, a Don Quixote of the French Quarter. His story bursts with wholly original characters, denizens of New Orleans' lower depths, incredibly true-to-life dialogue, and the zaniest series of high and low comic adventures" (Henry Kisor, Chicago Sun-Times).

involved in conflicts and their knowledge of how to manage them constructively. It provides the theoretical underpinnings that throw light on the fundamental social psychological processes involved in understanding and managing conflicts at all levels—interpersonal, intergroup, organizational, and international. The Handbook covers a broad range of topics including information on cooperation and competition, justice, trust development and repair, resolving intractable conflict, and working with culture and conflict. Comprehensive in scope, this new edition includes chapters that deal with language, emotion, gender, and personal implicit theories as they relate to conflict.

Golden Gulag 2007-01-08 Ruth Wilson Gilmore Since 1980, the number of people in U.S. prisons has increased more than 450%. Despite a crime rate that has been falling steadily for decades, California has led the way in this explosion, with what a state analyst called "the biggest prison building project in the history of the world." Golden Gulag provides the first detailed explanation for that buildup by looking at how political and economic forces, ranging from global to local, conjoined to produce the prison boom. In an informed and impassioned account, Ruth Wilson Gilmore examines this issue through statewide, rural, and urban perspectives to explain how the expansion developed from surpluses of finance capital, labor, land, and state capacity. Detailing crises that hit California's economy with particular ferocity, she argues that defeats of radical struggles, weakening of labor, and shifting patterns of capital investment have been key conditions for prison growth. The results—a vast and expensive prison system, a huge number of incarcerated young people of color, and the

increase in punitive justice such as the "three strikes" law—pose profound and troubling questions for the future of California, the United States, and the world. *Golden Gulag* provides a rich context for this complex dilemma, and at the same time challenges many cherished assumptions about who benefits and who suffers from the state's commitment to prison expansion.

The World Republic of Letters 2004 Pascale Casanova The "world of letters" has always seemed a matter more of metaphor than of global reality. In this book, Pascale Casanova shows us the state of world literature behind the stylistic refinements—a world of letters relatively independent from economic and political realms, and in which language systems, aesthetic orders, and genres struggle for dominance. Rejecting facile talk of globalization, with its suggestion of a happy literary "melting pot," Casanova exposes an emerging regime of inequality in the world of letters, where minor languages and literatures are subject to the invisible but implacable violence of their dominant counterparts. Inspired by the writings of Fernand Braudel and Pierre Bourdieu, this ambitious book develops the first systematic model for understanding the production, circulation, and valuing of literature worldwide. Casanova proposes a baseline from which we might measure the newness and modernity of the world of letters—the literary equivalent of the meridian at Greenwich. She argues for the importance of literary capital and its role in giving value and legitimacy to nations in their incessant struggle for international power. Within her overarching theory, Casanova locates three main periods in the genesis of world literature—Latin, French, and German—and closely examines three towering figures in the world republic of letters—Kafka, Joyce, and Faulkner. Her work provides a rich and surprising view of the political struggles of our modern world—one framed by sites of publication, circulation, translation, and efforts at literary annexation.

Narcoland 2013-09-10 Anabel Hernandez The product of five years' investigative reporting, the subject of intense national controversy, and the source of death threats that forced the National Human Rights Commission to assign two full-time bodyguards to its author, Anabel Hernández, *Narcoland* has been a publishing and political sensation in Mexico. The definitive history of the drug cartels, *Narcoland* takes readers to the front lines of the "war on drugs," which has so far cost more than 60,000 lives in just six years. Hernández explains in riveting detail how Mexico became a base for the mega-cartels of Latin America and one of the most violent places on the planet. At every turn, Hernández names names – not just the narcos, but also the politicians, functionaries, judges and entrepreneurs who have collaborated with them. In doing so, she reveals the mind-boggling depth of corruption in Mexico's government and business elite. Hernández became a journalist after her father was kidnapped and killed and the police refused to investigate without a bribe. She gained national prominence in 2001 with her exposure of excess and misconduct at the presidential palace, and previous books have focused on criminality at the summit of power, under presidents Vicente Fox and Felipe Calderón. In awarding Hernández the 2012 Golden Pen of Freedom, the World Association of Newspapers and News Publishers noted, "Mexico has become one of the most dangerous countries in the world for journalists, with violence and impunity remaining major challenges in terms of press freedom. In making this award, we recognize the strong stance Ms. Hernández has taken, at great personal risk, against drug cartels."

Methodology of the Oppressed 2013-11-30 Chela Sandoval In a work with far-reaching implications, Chela Sandoval does no less than revise the genealogy of theory over the past thirty years,

inserting what she terms "U.S. Third World feminism" into the narrative in a way that thoroughly alters our perspective on contemporary culture and subjectivity. What Sandoval has identified is a language, a rhetoric of resistance to postmodern cultural conditions. U.S. liberation movements of the post-World War II era generated specific modes of oppositional consciousness. Out of these emerged a new activity of consciousness and language Sandoval calls the "methodology of the oppressed." This methodology—born of the strains of the cultural and identity struggles that currently mark global exchange—holds out the possibility of a new historical moment, a new citizen-subject, and a new form of alliance consciousness and politics. Utilizing semiotics and U.S. Third World feminist criticism, Sandoval demonstrates how this methodology mobilizes love as a category of critical analysis. Rendering this approach in all its specifics, *Methodology of the Oppressed* gives rise to an alternative mode of criticism opening new perspectives on any theoretical, literary, aesthetic, social movement, or psychic expression.

An Aesthetic Education in the Era of Globalization
 2013-05-06 Gayatri Chakravorty Spivak During the past twenty years, the world's most renowned critical theorist—the scholar who defined the field of postcolonial studies—has experienced a radical reorientation in her thinking. Finding the neat polarities of tradition and modernity, colonial and postcolonial, no longer sufficient for interpreting the globalized present, she turns elsewhere to make her central argument: that aesthetic education is the last available instrument for implementing global justice and democracy. Spivak's unwillingness to sacrifice the ethical in the name of the aesthetic, or to sacrifice the aesthetic in grappling with the political, makes her task formidable. As she wrestles with these fraught relationships, she rewrites Friedrich Schiller's concept of play as double bind, reading Gregory Bateson with Gramsci as she negotiates Immanuel Kant, while in dialogue with

her teacher Paul de Man. Among the concerns Spivak addresses is this: Are we ready to forfeit the wealth of the world's languages in the name of global communication? Even a good globalization (the failed dream of socialism) requires the uniformity which the diversity of mother-tongues must challenge, Spivak writes. "The tower of Babel is our refuge." In essays on theory, translation, Marxism, gender, and world literature, and on writers such as Assia Djebar, J. M. Coetzee, and Rabindranath Tagore, Spivak argues for the social urgency of the humanities and renews the case for literary studies, imprisoned in the corporate university. "Perhaps," she writes, "the literary can still do something."

Tactical Biopolitics 2010-08-13 Beatriz Da Costa

Scientists, scholars, and artists consider the political significance of recent advances in the biological sciences. Popular culture in this “biological century” seems to feed on proliferating fears, anxieties, and hopes around the life sciences at a time when such basic concepts as scientific truth, race and gender identity, and the human itself are destabilized in the public eye. Tactical Biopolitics suggests that the political challenges at the intersection of life, science, and art are best addressed through a combination of artistic intervention, critical theorizing, and reflective practices. Transcending disciplinary boundaries, contributions to this volume focus on the political significance of recent advances in the biological sciences and explore the possibility of public participation in scientific discourse, drawing on research and practice in art, biology, critical theory, anthropology, and cultural studies. After framing the subject in terms of both biology and art, Tactical Biopolitics discusses such topics as race and genetics (with contributions from leading biologists Richard Lewontin and Richard Levins); feminist bioscience; the politics of scientific expertise; bioart and the public sphere (with an essay by artist Claire Pentecost); activism and public health (with an essay by Treatment Action Group co-founder Mark Harrington); biosecurity after 9/11 (with essays by artists' collective Critical Art Ensemble and anthropologist Paul Rabinow); and human-animal interaction (with a framing essay by cultural theorist Donna Haraway). Contributors Gaymon Bennett, Larry Carbone, Karen Cardozo, Gary Cass, Beatriz da Costa, Oron Catts, Gabriella Coleman, Critical Art Ensemble, Gwen D'Arcangelis, Troy Duster, Donna Haraway, Mark Harrington, Jens Hauser, Kathy High, Fatimah Jackson, Gwyneth Jones, Jonathan King, Richard Levins, Richard Lewontin, Rachel Mayeri, Sherie McDonald, Claire Pentecost, Kavita Philip, Paul

Disability and Development Report 2019-08-16

United Nations Publications Disability-inclusive development is an essential condition for a sustainable future. In 2015, the United Nations adopted the 2030 Agenda for Sustainable Development, pledging to leave no one behind in the global efforts to realize the 17 Sustainable Development Goals. Without the world's one billion persons with disabilities - 15% of the world population - being included as both agents and beneficiaries of development, these Goals will never be achieved. Yet, persons with disabilities are still invisible and often left behind. This United Nations flagship report is the first publication to address, at the global level, the nexus between disability and the Sustainable Development Goals. It is also the first global analysis based on an unprecedented amount of data, legislation and policies from over 100 countries to understand the socio-economic circumstances of persons with disabilities and the challenges and barriers they face in their daily lives. This report examines new areas, like the role of access to energy to enable persons with disabilities to use assistive technology, for which no global research was previously available. And explores the linkages between the Sustainable Development Goals and the Convention on the Rights of Persons with Disabilities as well as other international relevant norms and standards relating to disability. Against the backdrop of all the available evidence, the report identifies good practices and recommends urgent actions to be taken for the achievement of the Sustainable Development Goals by, for and with persons with disabilities. The e-book for this publication has been converted into an accessible format for the visually impaired and people with print reading disabilities. It is fully compatible with leading screen-reader technologies such as JAWS and NVDA.

State of the World's Indigenous Peoples 2011-05-09
United Nations Department of Economic and Social Affairs While indigenous peoples make up around 370 million of the world's population – some 5 per cent – they constitute around one-third of the world's 900 million extremely poor rural people. Every day, indigenous communities all over the world face issues of violence and brutality. Indigenous peoples are stewards of some of the most biologically diverse areas of the globe, and their biological and cultural wealth has allowed indigenous peoples to gather a wealth of traditional knowledge which is of immense value to all humankind. The publication discusses many of the issues addressed by the Declaration on the Rights of Indigenous Peoples and is a cooperative effort of independent experts working with the Secretariat of the Permanent Forum on Indigenous Issues. It covers poverty and well-being, culture, environment, contemporary education, health, human rights, and includes a chapter on emerging issues.

A Geography Of Time 2008-08-01 Robert N. Levine In this engaging and spirited book, eminent social psychologist Robert Levine asks us to explore a dimension of our experience that we take for granted—our perception of time. When we travel to a different country, or even a different city in the United States, we assume that a certain amount of cultural adjustment will be required, whether it's getting used to new food or negotiating a foreign language, adapting to a different standard of living or another currency. In fact, what contributes most to our sense of disorientation is having to adapt to another culture's sense of time. Levine, who has devoted his career to studying time and the pace of life, takes us on an enchanting tour of time through the ages and around the world. As he recounts his unique experiences with humor and deep insight, we travel with him to Brazil, where to be three hours late is perfectly acceptable, and to Japan, where he finds a sense of the long-term that is

unheard of in the West. We visit communities in the United States and find that population size affects the pace of life—and even the pace of walking. We travel back in time to ancient Greece to examine early clocks and sundials, then move forward through the centuries to the beginnings of "clock time" during the Industrial Revolution. We learn that there are places in the world today where people still live according to "nature time," the rhythm of the sun and the seasons, and "event time," the structuring of time around happenings (when you want to make a late appointment in Burundi, you say, "I'll see you when the cows come in"). Levine raises some fascinating questions. How do we use our time? Are we being ruled by the clock? What is this doing to our cities? To our relationships? To our own bodies and psyches? Are there decisions we have made without conscious choice? Alternative tempos we might prefer? Perhaps, Levine argues, our goal should be to try to live in a "multitemporal" society, one in which we learn to move back and forth among nature time, event time, and clock time. In other words, each of us must chart our own geography of time. If we can do that, we will have achieved temporal prosperity.

Postharvest Handling 2009-02-21 Wojciech J. Florkowski Consideration of the interactions between decisions made at one point in the supply chain and its effects on the subsequent stages is the core concept of a systems approach. Postharvest Handling is unique in its application of this systems approach to the handling of fruits and vegetables, exploring multiple aspects of this important process through chapters written by experts from a variety of backgrounds. The ideal book for

understanding the economic as well as physical impacts of postharvest handling decisions. Key Features: *Features contributions from leading experts providing a variety of perspectives *Updated with 12 new chapters *Focuses on application-based information for practical implementation *System approach is unique in the handling of fruits and vegetables

How Buddhism Began 2006-03-07 Richard F. Gombrich Written by one of the world's top scholars in the field of Pali Buddhism, this new and updated edition of How Buddhism Began, discusses various important doctrines and themes in early Buddhism. It takes 'early Buddhism' to be that reflected in the Pali canon, and to some extent assumes that these doctrines reflect the teachings of the Buddha himself. Two themes predominate. Firstly, the author argues that we cannot understand the Buddha unless we understand that he was debating with other religious teachers, notably Brahmins. The other main theme concerns metaphor, allegory and literalism. This accessible, well-written book is mandatory reading for all serious students of Buddhism.

Human-Robot Interaction 2020-05-13 Céline Jost This book offers the first comprehensive yet critical overview of methods used to evaluate interaction between humans and social robots. It reviews commonly used evaluation methods, and shows that they are not always suitable for this purpose. Using representative case studies, the book identifies good and bad practices for evaluating human-robot interactions and proposes new standardized processes as well as recommendations, carefully developed on the basis of intensive discussions between specialists in various HRI-related disciplines, e.g. psychology, ethology, ergonomics, sociology, ethnography, robotics, and computer

science. The book is the result of a close, long-standing collaboration between the editors and the invited contributors, including, but not limited to, their inspiring discussions at the workshop on Evaluation Methods Standardization for Human-Robot Interaction (EMSHRI), which have been organized yearly since 2015. By highlighting and weighing good and bad practices in evaluation design for HRI, the book will stimulate the scientific community to search for better solutions, take advantages of interdisciplinary collaborations, and encourage the development of new standards to accommodate the growing presence of robots in the day-to-day and social lives of human beings.

Educational Design Research 2006-11-22 Jan Van den Akker The field of design research has been gaining momentum over the last five years, particularly in educational studies. As papers and articles have grown in number, definition of the domain is now beginning to standardise. This book fulfils a growing need by providing a synthesised assessment of the use of development research in education. It looks at four main elements: background information including origins, definitions of development research, description of applications and benefits and risks associated with studies of this kind how the approach can serve the design of learning environments and educational technology quality assurance - how to safeguard academic rigor while conducting design and development studies a synthesis and overview of the topic along with relevant reflections.

Barren Lives 2011-05-18 Graciliano Ramos A peasant family, driven by the drought, walks to exhaustion through an arid land. As they shelter at a deserted ranch, the drought is broken and they linger, tending cattle for the absentee ranch owner, until the onset of another drought forces them to move on, homeless wanderers again. Yet, like the desert plants that defeat all rigors of wind and weather, the family maintains its will to survive in the harsh and solitary land. Intimately acquainted with the region of which he writes and keenly appreciative of the character of its inhabitants, into whose minds he has penetrated as few before him, Graciliano Ramos depicts them in a style whose austerity well becomes the spareness of the subject, creating a gallery of figures that rank as classic in contemporary Brazilian literature.

Spotify Teardown 2019-02-19 Maria Eriksson An innovative investigation of the inner workings of Spotify that traces the transformation of audio files into streamed experience. Spotify provides a streaming service that has been welcomed as disrupting the world of music. Yet such disruption always comes at a price. Spotify Teardown contests the tired claim that digital culture thrives on disruption. Borrowing the notion of “teardown” from reverse-engineering processes, in this book a team of five researchers have playfully disassembled Spotify's product and the way it is commonly understood. Spotify has been hailed as the solution to illicit downloading, but it began as a partly illicit enterprise that grew out of the Swedish file-sharing community. Spotify was originally praised as an innovative digital platform but increasingly resembles a media company in need of regulation, raising questions about the ways in which such cultural content as songs, books, and films are now typically made available online. Spotify Teardown combines interviews, participant observations, and other analyses of Spotify's “front end” with experimental, covert investigations of its “back end.” The authors engaged in a series of

interventions, which include establishing a record label for research purposes, intercepting network traffic with packet sniffers, and web-scraping corporate materials. The authors' innovative digital methods earned them a stern letter from Spotify accusing them of violating its terms of use; the company later threatened their research funding. Thus, the book itself became an intervention into the ethics and legal frameworks of corporate behavior.

Ulysses 2022-10-19 James Joyce Loosely based on the Odyssey, this landmark of modern literature follows ordinary Dubliners in 1904. Capturing a single day in the life of Dubliner Leopold Bloom, his friends Buck Mulligan and Stephen Dedalus, his wife Molly, and a scintillating cast of supporting characters, Joyce pushes Celtic lyricism and vulgarity to splendid extremes. Captivating experimental techniques range from interior monologues to exuberant wordplay and earthy humor. A major achievement in 20th century literature.

Frequent Confession 1999 Benedikt Baur This collection of homilies by St. Josemaría Escrivá helps you develop a strong, lasting friendship with the God who is close to us. St. Josemaría gives you a broad picture of the basic human and Christian virtues, so that you can not only follow closely in our Lord's footsteps, but establish and maintain a filial dialogue with God. Each of his homilies here are not only heartfelt conversations with the Christian who is immersed in ordinary life, but also a prayerful colloquy with God. With a masterful pastor's hand, St. Josemaría combines theological depth with evangelical clarity. He gives you here not only a lesson in doctrine, but an introduction to essential aspects of the Christian life. Simple, compassionate, and profound, these homilies are a full expression of St. Josemaría's passionate, expansive love for God.

The Routledge Handbook of Disability Activism 2019-10-28 Maria Berghs The onslaught of neoliberalism, austerity measures and cuts, impact of climate change, protracted conflicts and ongoing refugee crisis, rise of far right and populist movements have all negatively impacted on disability. Yet, disabled people and their allies are fighting back and we urgently need to understand how, where and what they are doing, what they feel their challenges are and what their future needs will be. This comprehensive handbook emphasizes the importance of everyday disability activism and how activists across the world bring together a wide range of activism tactics and strategies. It also challenges the activist movements, transnational and emancipatory politics, as well as providing future directions for disability activism. With contributions from senior and emerging disability activists, academics, students and practitioners from around the globe, this handbook covers the following broad themes: •

Contextualising disability activism in global activism • Neoliberalism and austerity in the global North • Rights, embodied resistance and disability activism • Belonging, identity and values: how to create diverse coalitions for rights • Reclaiming social positions, places and spaces • Social media, support and activism • Campus activism in higher education • Inclusive pedagogies, evidence and activist practices • Enabling human rights and policy • Challenges facing disability activism The Routledge Handbook of Disability Activism provides disability activists, students, academics, practitioners, development partners and policy makers with an authoritative framework for disability activism.

Invisible No More 2017-08-01 Andrea J. Ritchie “A passionate, incisive critique of the many ways in which women and girls of color are systematically erased or marginalized in discussions of police violence.” —Michelle Alexander, author of The New Jim Crow Invisible No More is a timely examination of how Black women, Indigenous

women, and women of color experience racial profiling, police brutality, and immigration enforcement. By placing the individual stories of Sandra Bland, Rekia Boyd, Dajerria Becton, Monica Jones, and Mya Hall in the broader context of the twin epidemics of police violence and mass incarceration, Andrea Ritchie documents the evolution of movements centered around women’s experiences of policing. Featuring a powerful forward by activist Angela Davis, Invisible No More is an essential exposé on police violence against WOC that demands a radical rethinking of our visions of safety—and the means we devote to achieving it.

1808: The Flight of the Emperor 2013-08-29 Laurentino Gomes In a time of terror for Europe’s monarchs—imprisoned, exiled, executed—Napoleon’s army marched toward Lisbon. Cornered, Prince Regent João had to make the most fraught decision of his life. Protected by the British Navy, he fled to Brazil with his entire family, including his deranged mother, most of the nobility, and the entire state apparatus. Until then, no European monarch had ever set foot in the Americas. Thousands made the voyage, but it was no luxury cruise. It took two months in cramped,

decrepit ships. Lice infested some of the vessels, and noble women had to shave their hair and grease their bald heads with antiseptic sulfur. Vermin infested the food, and bacteria contaminated the drinking water. Sickness ran rampant. After landing in Brazil, Prince João liberated the colony from a trade monopoly with Portugal. As explorers mapped the burgeoning nation's distant regions, the prince authorized the construction of roads, the founding of schools, and the creation of factories, raising Brazil to kingdom status in 1815.

Meanwhile, Portugal was suffering the effects of abandonment, war, and famine. Never had the country lost so many people in so little time. Finally, after Napoleon's fall and over a decade of misery, the Portuguese demanded the return of their king. João sailed back in tears in 1821, and the last chapter of colonial Brazil drew to a close, setting the stage for the strong, independent nation that we know today, changing the New World forever.

Closing the Feedback Loop 2014-05-29 Björn-Sören Gigler This book is a collection of articles, written by both academics and practitioners as an evidence base for citizen engagement through information and communication technologies (ICTs). In it, the authors ask: how do ICTs empower through participation, transparency and accountability? Specifically, the authors examine two principal questions: Are technologies an accelerator to closing the "accountability gap" – the space between the supply (governments, service providers) and demand (citizens, communities, civil society organizations or CSOs) that requires bridging for open and collaborative governance? And under what conditions does this occur? The introductory chapters lay the theoretical groundwork for understanding the potential of technologies to achieving intended goals. Chapter 1 takes us through the theoretical linkages between empowerment, participation, transparency and accountability. In Chapter 2, the authors devise an informational capability framework, relating human

abilities and well-being to the use of ICTs. The chapters to follow highlight practical examples that operationalize ICT-led initiatives. Chapter 3 reviews a sample of projects targeting the goals of transparency and accountability in governance to make preliminary conclusions around what evidence exists to date, and where to go from here. In chapter 4, the author reviews the process of interactive community mapping (ICM) with examples that support general local development and others that mitigate natural disasters. Chapter 5 examines crowdsourcing in fragile states to track aid flows, report on incitement or organize grassroots movements. In chapter 6, the author reviews Check My School (CMS), a community monitoring project in the Philippines designed to track the provision of services in public schools. Chapter 7 introduces four key ICT-led, citizen-governance initiatives in primary health care in Karnataka, India. Chapter 8 analyzes the World Bank Institute's use of ICTs in expanding citizen project input to understand the extent to which technologies can either engender a new "feedback loop" or ameliorate a "broken loop". The authors' analysis of the evidence signals ICTs as an accelerator to closing the "accountability gap". In Chapter 9, the authors conclude with the Loch Ness model to illustrate how technologies contribute to shrinking the gap, why the gap remains open in many cases, and what can be done to help close it. This collection is a critical addition to existing literature on ICTs and citizen engagement for two main reasons: first, it is expansive, covering initiatives that leverage a wide range of technology tools, from mobile phone reporting to crowdsourcing to interactive mapping; second, it is the first of its kind to offer concrete recommendations on how to close feedback loops.

The Archaeology of Mesoamerican Animals 2013-11-15 Kitty F. Emery Recognition of the role of animals in ancient diet, economy, politics, and ritual is vital to understanding ancient cultures fully, while following the clues available from

animal remains in reconstructing environments is vital to understanding the ancient relationship between humans and the world around them. In response to the growing interest in the field of zooarchaeology, this volume presents current research from across the many cultures and regions of Mesoamerica, dealing specifically with the most current issues in zooarchaeological literature. Geographically, the essays collected here index the different aspects of animal use by the indigenous populations of the entire area between the northern borders of Mexico and the southern borders of lower Central America. This includes such diverse cultures as the north Mexican hunter-gatherers, the Olmec, Maya, Mixtec, Zapotec, and Central American Indians. The time frame of the volume extends from the earliest human occupation, the Preclassic, Classic, Postclassic, and Colonial manifestations, to recent times. The book's chapters, written by experts in the field of Mesoamerican zooarchaeology, provide important general background on the domestic and ritual use of animals in early and classic Mesoamerica and Central America, but deal also with special aspects of human-animal relationships such as early domestication and symbolism of animals, and important yet otherwise poorly represented aspects of taphonomy and zooarchaeological methodology. Spanish-language version also available (ISBN 978-1-937040-12-3).

The Buffalo (*Bubalus bubalis*) - Production and Research 2017-03-31 Giorgio A. Presicce This handbook aims at focusing on the husbandry of the common water buffalo, (*Bubalis bubalis*). The book covers a broad range of topics such as the buffalo's genetic evolution, cytogenetics, subspecies, breed diversification, feeding and metabolic specificity, adaptable response to environmental stress factors, welfare, dairy requirements and production, reproduction and embryo technologies, cryopreservation, sperm cell sexing, somatic cell cloning and transgenesis. Chapters presented and

reviewed in this book have been by contributed by renowned scientists that have devoted years of research to the understanding of this species, and highlight the most recent advances in basic and applied science to unveil the understanding of physiological facets intrinsic to this animal species. The depth of the selected topics makes this book especially suited for readers of all academic levels of study. Researchers, students and professionals will find this book a useful guide to breeding and farming the water buffalo.

Introduction to Sociology 3e 2021-06-04 Tonja R. Conerly Introduction to Sociology 3e aligns to the topics and objectives of many introductory sociology courses. It is arranged in a manner that provides foundational sociological theories and contexts, then progresses through various aspects of human and societal interactions. The new edition is focused on driving meaningful and memorable learning experiences related to critical thinking about society and culture. The text includes comprehensive coverage of core concepts, discussions and data relevant to a diverse audience, and features that draw learners into the discipline in powerful and personal ways. Overall, Introduction to Sociology 3e aims to center the course and discipline as crucial elements for understanding relationships, society, and civic engagement; the authors seek to lay the foundation for students to apply what they learn throughout their lives and careers.

The New Imperialism 2005-02-24 David Harvey People around the world are confused and concerned. Is it a sign of strength or of weakness that the US has suddenly shifted from a politics of consensus to one of coercion on the world stage?

What was really at stake in the war on Iraq? Was it all about oil and, if not, what else was involved? What role has a sagging economy played in pushing the US into foreign adventurism and what difference does it make that neo-conservatives rather than neo-liberals are now in power? What exactly is the relationship between US militarism abroad and domestic politics? These are the questions taken up in this compelling and original book. Closely argued but clearly written, 'The New Imperialism' builds a conceptual framework to expose the underlying forces at work behind these momentous shifts in US policies and politics. The compulsions behind the projection of US power on the world as a 'new imperialism' are here, for the first time, laid bare for all to see. This new paperback edition contains an Afterword written to coincide with the result of the 2004 American presidential election.

It was a gloomy and tempestuous night. The downpour was pouring down, and the wind was whistling. In the heart of the city, there was a gallery, where a invaluable diamond was on display. The diamond was known as the African Star, and it was the largest and most gorgeous diamond in the world. It was protected by a sophisticated security setup, and a squad of equipped guards. No one could pilfer it, or so they thought. But somebody did. Someone managed to bypass the protection, to avoid the watchmen, to break the window, and to steal the diamond. And no one noticed them, no one listened to them, no one identified who they were. They departed from no sign, no clue, no proof. They disappeared into the darkness, with the Star of Africa. And the mystery of the lost diamond commenced.
