Pro SharePoint 2010 Administration

2012-01-29 Robert Garrett Pro SharePoint 2010 Administration is a practical guide to SharePoint 2010 for intermediate to advanced SharePoint administrators and power users, covering the out-of-the-box feature set and capabilities of Microsoft's collaboration and business productivity platform. SharePoint 2010 is an incredibly complex product, with many moving parts, new features, best practices, and "gotchas." Author Rob Garrett distills SharePoint's portfolio of features, capabilities, and utilities into an in-depth professional guide—with no fluff and copious advice—that is designed from scratch to be the manual Microsoft never wrote. Starting with a detailed deployment and initial configuration walkthrough, the book covers all major feature areas, including document management, social computing, metadata management, and administration. You'll also learn about planning for capacity, backup administration and disaster recovery, business intelligence, monitoring, and more. Unlike other books, Pro SharePoint 2010 Administration covers all elements of the product, but has a specific emphasis on features new and enhanced in the 2010 release. Pro SharePoint 2010 Administration is the only book you'll need as you set out to deploy and administer SharePoint 2010.

SharePoint 2010 User's Guide

2010-07-30 Seth Bates Microsoft SharePoint Foundation 2010 and SharePoint Server 2010 provide a collection of tools and services you can use to improve user and team productivity, make information sharing more effective, and facilitate business decision-making processes. In order to get the most out of SharePoint 2010, you need to understand how to best use the capabilities to support your information management, collaboration, and business process management needs. This book is designed to provide you with the information you need to effectively use these tools. Whether you are using SharePoint as an intranet or business solution platform, you will learn how to use the resources (such as lists, libraries, and sites) and services (such as publishing, workflow, and policies) that make up these environments. Information and process owners will be given the knowledge they need to build and manage solutions. Information and process consumers will be given the knowledge they need to effectively use SharePoint resources. In this book, Seth Bates and Tony Smith walk you through the components and capabilities that make up a SharePoint 2010 environment. Their expertise shines as they provide step-by-step instructions for using and managing these elements, as well as recommendations for how to best leverage them. As a reader, you'll then embrace two common SharePoint uses, document management and project information management, and walk through creating samples of these solutions, understanding the challenges these solutions are designed to address and the benefits they can provide. The authors have brought together this information based on their extensive experience working with these tools and with business users who effectively leverage these technologies within their organizations. These experiences were incorporated into the writing of this book to make it easy for you to gain the knowledge you need to make the most of the product.

Galactic Conflicts that Changed History

It had been the year 23, and the world was at the brink of war. The USA and Peoples Republic of China, the pair of superpowers, had been entangled in a intense rivalry, vying for resources, power, and supremacy. They had developed advanced armaments, like lasers, unmanned aerial vehicles, and satellites, which can strike anywhere, anytime. They had secretly built orbital stations, which could deploy nuclear missiles, that can annihilate the earth. They were prepared to utilize these weapons, if necessary. But they were not alone. There existed a 3rd force, a hidden power, that had observing them both, waiting for them both, getting ready for them. They were the extraterrestrials, and they had come to stop them both. They had come arrived to save the world, or to terminate it. They had come arrived to initiate the star wars that transformed chronicle.

Story of" sharepoint 2010 document sets pdf pdf–In the abandoned attic of an old Victorian mansion, where dust danced in the slanting sunlight, a chest rested beneath a tattered tapestry. Inside, letters bound in silk ribbons revealed the correspondence between two star-crossed lovers separated by time. Their words, like echoes in time, held the key to a love that defied the boundaries of existence.

The Rise and Fall of a Pop Star

She had a dream. She desired to be a performer. She wanted to entertain, to groove, to captivate, to amuse. She wished to be celebrated, to be adored, to be worshipped. She wished to have it all, recognition, fortune, honor. She toiled diligently, she trained, she tried out, she amazed. She got a deal, a record deal, a representative, a producer. She made an CD, a hit, a wonder. She became a celebrity, a public figure, a marvel. She had it all, fans, wealth, honors. She was on seventh heaven, she was living her vision. But she also had a hidden side. She had a mystery, a dilemma, an addiction. She started to spiral out of control, to make mistakes, to stir up trouble. She faced condemnation, fallout, litigations. She gave up her fans, her wealth, her awards. She tumbled down, she became a laughingstock, a catastrophe. She lost it all, her recognition, her fortune, her glory. She was the ascent and decline of a singer.

The Northstar motor, created by General Motors (GM) from 1993 until 2011, was a high-quality 90° V engine series and GM's first manufacturing V-8 with overhead camshafts1. Nonetheless, regardless of its initial achievement, the Northstar engine has been connected with a array of troubles over the years and years.

One of the most common issues is getting too hot, which can result in significant damage to the engine block. A different issue is oil usage, which can lead to poor fuel economy and pricey repairs. A lot of Northstar engine owners also mention troubles with head gaskets, which can lead to overheating issues and lead to costly repairs.

Especially, the Northstar engine years from 1993 to 2005 have been noted to have seepage issues, damaged seals, damaged head gaskets, additional oil loss, damaged valve cover, defective water pumps, and carbon collection. These problems are not major, but the expense to resolve the troubles was significantly higher than a lot of other engines owing to the complex engineering.

The Mystery of the Missing Diamond

It was a dark and tempestuous night. The drizzle was falling heavily, and the wind was whistling. In the heart of the metropolis, there was a gallery, where an invaluable diamond was on display. The diamond was known as the African Star, and it was the greatest and most gorgeous diamond in the world. It was protected by a sophisticated security setup, and a team of equipped guards. No one could pilfer it, or so they believed. But somebody did. An individual succeeded to get around the safeguard, to elude the guards, to break the glass, and to take the diamond. And no one saw them, no one listened to them, no one recognized who they were. They left no trace, no clue, no proof. They vanished into the darkness, with the African Star. And the enigma of the lost diamond began.
