The Touchstone 2012-11-06 Edith Wharton Glennard had never thought himself a hero; but he had been certain that he was incapable of baseness. The story of a young man who scorns the love of a tortured novelist, only to have her words come back to haunt him from the dead, The Touchstone shows off the skills Wharton became famous for in novels such as *Ethan Frome* and *House of Mirth*, particularly her piercing and delicious talent for satiric observation. But despite its masterly control, this startlingly modern tale is also a simmering, rebel *cri de coeur* unleashed by a writer who was herself unappreciated in her own time. The combination of these attributes make this edgy novella a moving and suspenseful homage to the power of literature itself. The Art of The Novella Series Too short to be a novel, too long to be a short story, the novella is generally unrecognized by academics and publishers. Nonetheless, it is a form beloved and practiced by literature's greatest writers. In the Art Of The Novella series, Melville House celebrates this renegade art form and its practitioners with titles that are, in many instances, presented in book form for the first time.

Owl Moon 1987-10-23 Jane Yolen Celebrating 30 years of the beloved classic Owl Moon from renowned children's book author Jane Yolen and Caldecott Medal-winning illustrator John Schoenherr! Late one winter night a little girl and her father go owling. The trees stand still as statues and the world is silent as a dream. Whoo-who-who, the father calls to the mysterious nighttime bird. But there is no answer. Wordlessly the two companions walk along, for when you go owling you don't need words. You don't need anything but hope. Sometimes there isn't an owl, but sometimes there is. Distinguished author Jane Yolen has created a gentle, poetic story that lovingly depicts the special companionship of a young child and her father as well as humankind's close relationship to the natural world. Wonderfully complemented by John Schoenherr's soft, exquisite watercolor illustrations, this is a verbal and visual treasure, perfect for reading aloud and sharing at bedtime.

Mr. Monk in Outer Space 2008-06-03 Lee Goldberg At a convention for the cult science fiction show *Beyond Earth*, Adrian Monk meets fans as obsessive-compulsive as he is. Though he's not preoccupied with the program, Monk can understand the phenomenon. Who wouldn't want to live in an imaginary world? But there may be a killer in the *Beyond Earth* community: Someone in a starship uniform has gunned down the show's legendary creator. Could a fan be that furious at him for selling out to Hollywood? Or is more going on behind the scenes? Luckily, Monk's agoraphobic brother, Ambrose, is an expert on the TV series, and together they'll search the earth and beyond for the murderer. That is, if Ambrose can bring himself to leave the house. A new story starring Adrian Monk by Edgar® Award-nominated screenwriter Lee Goldberg. It's compulsive, page-turning fun. "Even if you aren't familiar with the TV series *Monk*, this book is too funny to not be read."—*The Weekly Journal*

The Gene Keys 2013-05-09 Richard Rudd The book begins by introducing the reader to a fantastic possibility - that humanity may be on the verge of a major shift in consciousness rooted in a new understanding of how our DNA operates - namely that it is programmed directly by the way we think and feel. This is a highly ambitious and sophisticated system for shaping one's destiny. Based around 64 archetypes, it resembles the *I Ching* in its vast scope and profound importance, and in the resonant character of its symbolism. The author shows how there are two ways to approach the Gene Keys - the analogue (holistic) way and the digital (detailed) way. It is the combining of both analogue and digital that results in contemplation - the primary pathway into the Gene Keys. Since our beliefs shape our genes, when we change our beliefs, we change the chemistry of our body. The Gene Keys are an inner language whose central purpose is to transform our core beliefs about ourselves, thus raising our lives onto a new level of awareness. The book works alongside state-of-the-art

online profiling software. This software will provide instantaneous free profiles known as 'Hologenetic Profiles', which uses astrological data (time, date and place of birth) to generate a unique sequence of Gene Keys that relate to many aspects of your life, including the underlying genetic patterns governing your relationships, your finances, your health and your life purpose. As the reader contemplates the 64 Gene Keys over time and applies their insights in his or her own life, so one's belief system will begin to change and our DNA will actually start to transform the way we think and feel.

Ashes Under Water 2014-10-07 Michael McCarthy The untold story of the worst disaster on the Great Lakes in U.S. History. On July 24th, 1915, Chicago commuters were horrified as they watched the SS Eastland, a tourism boat taking passengers across Lake Michigan, flip over while tied to the dock and drown 835 passengers, including 21 entire families. Rockefeller, Morgan, and Carnegie had bought into the ship business in the Midwest, creating a boom market and a demand for ships that were bigger, longer, faster. The pressure-filled and greedy climate that resulted would be directly responsible for the Eastland disaster and others. As dramatic as the disaster was, the subsequent trial was even more so. The public demanded justice. When the immigrant engineer who was being scapegoated for the accident was left out to dry by the ship's owners, penniless and down-on-his-luck Clarence Darrow decided to take his case. The defense he mounted, which he was too ashamed to even mention in his memoirs, would be even more shocking.
