#### THE WORLD COMMUNITY AND THE ARAB SPRING

2018-07-26 Cenap Çakmak This edited volume offers an understanding of how the international community, as a collection of significant actors including major states and intergovernmental institutions, has responded to the important political and social development of the Arab Spring. Contributors analyze the response by international organizations (UN, EU, NATO), big powers (US, Russia, China, UK), regional powers (Turkey, Iran, Israel, Saudi Arabia) and small powers (Kuwait, Qatar). The book thus makes a sound contribution to the existing literature on the Arab Spring in form of foreign policy analysis and provides an overview of the current shape and outlook of global politics.

#### *Betrayal Of Palestine*

2018-03-05 Susan Boyle This definitive biography of George Antonius tells the life story of a man who lived during a dramatic period of history, amid challenge that remains unresolved: the Palestine-Zionist conflict. Betrayal of Palestine is an important and innovative work about the continuing controversy of empire and nationalism. This book traces Antonius's contribution and ideas on nation building and good governance and resonates for contemporary seekers of peace in the Middle East. As an archaeology of ideas and meaning, the book will be of great significance for the millennium. It speaks to the paradigm of a conqueror's code, and to the ever present danger of special interests capturing public policy and corrupting good governance. By rediscovering Antonius's message about institutions and nation building, and the true meaning of morality, conscience and public

service, Betrayal of Palestine speaks to contemporary people in a voice that reconnects the past with the present. The book offers hope to a region where many solutions have failed, and a reminder that the solutions have been there all along, in the people and traditions of the Middle East, but they have been obscured by a conqueror's code of empire and nationalism. It is a reminder of the genius of democracy and the power of first principles: that ordinary people are important, that power must be shared, and that society as nation transcends tribalism and its more virulent contemporary form: nationalism.

orthodoxy for most of this century has lost its grip on the imagination and allegiance of a new generation. At the same time, Islam as an ideology has spread across the region, and "Islamists" bid to capture the center of politics. Most Western scholars and experts once hailed the redemptive power of Arabism. Arab Awakening and Islamic Revival is a critical assessment of the contradictions of Arab nationalism and Islamic fundamentalism, and the misrepresentation of both in the West. The first part of the book argues that Arab nationalism--the so-called Arab awakening--bore within it the seeds of its own failure. Arabism as an idea drew upon foreign sources and resources. Even as it claimed to liberate the Arabs from imperialism it deepened intellectual dependence upon the West's own romanticism and radicalism. Ultimately, Arab nationalism became a force of oppression rather than liberation, and a mirror image of the imperialism it defied. Kramer's essays together form the only chronological

telling and the at fully documented postmortem of Arabism. The second part of the book examines the similar failings of Islamism, whose ideas are Islamic reworkings of Western ideological radicalism. Its effect has been to give new life to old rationales for oppression, authoritarianism, and sectarian division. Arab Awakening and Islamic Revival provides an alternative view of a century of Middle Eastern history. As the region moves fitfully past ideology, Kramer's perspective is more compelling than at any time in the past--in Western academe no less than among many in the Middle. This book will be of interest to sociologists, political scientists, economists, and Middle East specialists.
