State University, and the death of Sandra Bland—throwing our understanding of these and other stories into doubt. Something is very wrong, Gladwell argues, with the tools and strategies we use to make sense of people we don't know. And because we don't know how to talk to strangers, we are inviting conflict and misunderstanding in ways that have a profound effect on our lives and our world. In his first book since his #1 bestseller *David and Goliath*, Malcolm Gladwell has written a gripping guidebook for troubled times.

Review computer fundamental bangla book scribd pdf-The  
Mystery of the Missing Diamond

It was a dark and stormy night. The downpour was falling heavily, and the gale was roaring. In the middle of the town, there was a exhibition, where a precious diamond was on show. The diamond was called the Star of Africa, and it was the biggest and most beautiful diamond in the globe. It was protected by a high-tech security system, and a squad of equipped guards. No one could pilfer it, or so they believed. But somebody did. An individual managed to bypass the protection, to elude the guards, to break the pane, and to take the diamond. And no one observed them, no one heard them, no one identified who they were. They left no sign, no hint, no evidence. They disappeared into the nightfall, with the African Star. And the riddle of the missing diamond began.
