Galactic Conflicts which Altered History

It was the year 2023, and the world stood at the brink of war. The USA and China, the pair of global powers, were locked in a fierce rivalry, competing for resources, dominance, and control. They had both created advanced weapons, like laser weapons, drones, and spacecrafts, that could hit any location, any moment. They had also clandestinely constructed space stations, which can launch atomic weapons, that could obliterate the earth. They were both ready to employ them, if required.
