L'IVA funesta 2018-02-20T00:00:00+01:00 Fulvio Romanin È possibile essere un lavoratore autonomo senza giocare il capitale, la salute e il senso dell'umorismo? «Non fatevi fregare con la storia della partita IVA: non otterrete mai un mutuo, non andrete mai in vacanza, non metterete mai su famiglia. Ma che, scherziamo? Fatture e preventivi, codici ATECO e regimi forfettari, SOW e anticipi sulle tasse, trovare i clienti, mantenere i clienti, farsi pagare dai clienti... in Italia? Di questi tempi?» E invece si può. Fulvio Romanin ha più di quindici anni di esperienza di partita IVA «al massimo della pena». Ha (più o meno) capito come si fa, e soprattutto ha sperimentato a sue spese come non si fa. Ed è ancora vivo, vegeto e di ottimo umore. Perché tenere una contabilità immacolata e un archivio dei contratti impeccabile non significa per forza rinunciare al divertimento e alla serenità – casomai il contrario. In questo irresistibile manuale semiserio, con semplicità e precisione, Romanin riesce in un piccolo miracolo: spiegare bene le cose complicate, evidenziare le difficoltà, discutere i dettagli burocratici e legali, ma senza perdere l'ironia. Oggi il popolo delle partite IVA è un esercito variegato, quasi una classe sociale. Non solo i venerati professionisti degli albi, avvocati, commercialisti, giornalisti, ma anche molti lavoratori precari del settore dei servizi come grafici, sviluppatori, redattori, designer, sono stati costretti a fare i conti con l'IVA funesta. Leggere questo libro è il primo passo per sopravvivere alle difficoltà del lavoro autonomo senza giocare il capitale, la salute e il senso dell'umorismo. «Un manuale in cui parole come fatture, contratti e contabilità strappano sorrisi» - Rossana Campisi, il Venerdì di Repubblica

Richard Yates 2010-09-07 Tao Lin In a startling change of direction, cult favorite Tao Lin presents a dark and brooding tale of illicit love that is his most sophisticated and mesmerizing writing yet Richard Yates is named after real-life writer Richard Yates, but it has nothing to do with him. Instead, it tracks the rise and fall of an illicit affair between a very young writer and his even younger—in fact, under-aged—lover. As he seeks to balance work and love, she becomes more and more self-destructive in a play for his undivided attention. His guilt and anger builds in response until they find themselves hurtling out of control and afraid to let go. Lin's trademark minimalism takes on a new, sharp-edged suspense here, zeroing in on a lacerating narrative like never before—until it is almost, in fact, too late. “Richard Yates is neither pretentious nor sneering nor reflexively hip . . . simply a focused, moving, and rather upsetting portrait of two oddballs in love.” —The Boston Globe “The most intelligent and hilarious book I've read all year . . . crushingly sad . . . at some points, beautiful.” —Vice

The Global Lives of Things 2015-11-19 Anne Gerritsen The Global Lives of Things considers the ways in which 'things', ranging from commodities to works of art and precious materials, participated in the shaping of global connections in the period 1400-1800. By focusing on the material exchange between Asia, Europe, the Americas and Australia, this volume traces the movements of objects through human networks of commerce, colonialism and consumption. It argues that material objects mediated between the forces of global economic exchange and the constantly changing identities of individuals, as they were drawn into global circuits. It proposes a reconceptualization of early modern global history in the light of its material culture by asking the question: what can we learn about the early modern world by studying its objects? This exciting new collection draws together the latest scholarship in the study of material culture and offers students a critique and explanation of the notion of commodity and a reinterpretation of the meaning of exchange. It engages with the concepts of 'proto-globalization', 'the first global age' and 'commodities/consumption'. Divided into three parts, the volume considers in Part One, Objects of Global Knowledge, in Part Two, Objects of Global Connections, and finally, in Part Three, Objects of Global Consumption. The collection concludes with afterwords from three of the leading historians in the field, Maxine Berg, Suraiya Faroqhi and Paula Findlen, who offer their critical view of the methodologies and themes considered in the book and place its arguments within the wider field of scholarship. Extensively illustrated, and with chapters examining case studies from Northern Europe to China and Australia, this book will be essential reading for students of global history.

Late Medieval Papal Legation 2017 Antonín Kalous Late Medieval Papal Legation is a result of long term study of papal legates in the late medieval period. Even though this crucial institution of the reform papacy of the eleventh, twelfth and thirteenth centuries kept its standards as designed in the classical canon law, it was transformed according to the current needs of the papacy in later periods. A substantial change came after the conciliar crisis and before the radical transformation of the first half of the sixteenth century. In the second half of the 15th and early 16th centuries, papal legates *de latere*, as cardinals, travelled all around Europe in support of the recovered papal authority after the conciliar period and before the outbreak of the German Reformation. The volume focuses on the terminology and theory of papal legation, on the sources and expression of legatine authority and on the system in relation to practical matters, and political, diplomatic and ecclesiastical tasks and topics. The study of the legatine office is exceptionally complex and ranges from high diplomacy and spiritual benefits brought for distinct provinces, to the personal interests and involvement of individual cardinals.

The Battle of Britain and the Blitz 2002 Nigel Fountain By June 1940 Britain faced the enemy across the English Channel with anxious sense that very little kept her from being subjugated by the overwhelming might of the Nazi forces. What rescued the country was the Royal Air Force's triumph in the Battle of Britain, and the encouragement and endurance of the people who lived, worked and suffered under the Luftwaffe's blitz which, almost nightly from September 1940 until May 1941, rained destruction upon London and other major cities - only to do so again in later campaigns that culminated in the launching of the Nazis' V1 and V2 'vengeance weapons'.

and the blitz relives those desperate times in the words of pilots, ground crew and other airmen and airwomen, firefighters, air-raid wardens, radar operators, potters, anti-aircraft gunners, Red Cross, YMCA and other voluntary workers, and civilians - old and young, male and female - who between them helped ensure that Britain survived to fight another day and, ultimately, to win.

I Belong to the Left 2015-02-09 George Orwell On 29 March 1945, Orwell's wife Eileen died, aged 39. Her last, long, very moving letters to her husband are printed here. Less than six months later the novel that she might be said to have nurtured and which gave Orwell world-wide fame, *Animal Farm*, was published. For a little over three months Orwell worked as a War Correspondent for the *Observer* and the *Manchester Evening News*. As well as 74 books specifically reviewed, many others were discussed briefly in essays and in her column 'As I Please'. 'Politics and the English Language', one of Orwell's most important essays, was immediately reprinted for journalists of the *Observer* and *News of the World* as a guide to good writing. His defence of P.G. Wodehouse, printed here, was written at a time when Wodehouse was still under a cloud. Essays and articles he wrote for the *Observer*, *Manchester Evening News* and *Evening Standard* are reprinted; correspondence shows he had written the first twelve pages of *Nineteen Eighty-Four*. Eileen's will and Orwell's first notes for his literary executor are also reproduced. Orwell kept a careful account of what he earned to assist in making his income tax return. Only one such record has survived (for 12 July 1943 to 31 December 1945) and it is reproduced here, fully annotated.

Nature and Narrative 2003-05-15 Bill Fulford *Nature and Narrative* is the launch volume in a new series of books entitled *International Perspectives in Philosophy and Psychiatry*. The series will aim to build links between the sciences and humanities in psychiatry. Our ability to decipher mental disorders depends to a unique extent on both the sciences and the humanities. Science provides insight into the 'causes' of a problem, enabling us to formulate an 'explanation', and the humanities provide insight into its 'meanings' and helps with our 'understanding'. Psychiatry, if it is to

develop as a balanced discipline, must draw on input from both of these spheres. Nature (for causes) and Narrative (for meanings) will help define the series as a whole by touching on a range of issues relevant to this 'border country'. With contributions from an international star-studded cast, representing the field of psychiatry, psychology and philosophy, this volume will set the scene for this new interdisciplinary field. This will be of interest to all those with practical experience of mental health issues, whether as providers or as users/consumers of services, as well as to philosophers, social scientists, and bioethicists.

The Origins of Unhappiness 2018-05-08 David Smail It is the main argument of this book that emotional and psychological distress is often brought about through the operation of social-environmental powers which have their origin at a considerable distance from those ultimately subjected to them. On the whole, psychology has concerned itself very little with the field of power which stretches beyond our immediate relations with each other, and this has led to serious limitations on the explanatory power of the theories it has produced. To illustrate this, typical cases of patient distress in the 1980s are examined. The decade when the right-wing of politics proclaimed there was no such thing as society gave rise to psychological distress across social classes, as long-standing societal institutions were dismantled. This is as much a work of sociology, politics, and philosophy, as it is of psychology. Fundamentals of an environmental understanding of distress are outlined. A person is the interaction of a body with the environment.

Celtic Symbols 2008-03 Sabine Heinz What is it about the arts of the ancient Celts that make them so fascinating for today's fashions and jewellery, graphic design and even architecture? It's as though their ancient magical powers still cast a spell over us. It's easy to see why, when you become familiar with the stories and the representations of the 50 most important symbol groupings. Illustrated texts reveal dozens of cultic figures featured in ancient Celtic rituals, including wild animals and birds, reptiles and fish, trees and flowers, numbers, spirals, crosses, circles and many other designs. Each spread depicts the qualities and values they symbolise, with examples of characters and stories from ancient myths that can be incorporated into modern-day designs.

Printed Propaganda under Louis XIV 2015-03-08 Joseph Klaitis In the late seventeenth century the role of printed propaganda in manipulating public consciousness became increasingly explicit, and governments developed systematic controls over the printed word. This book considers the purposes, mechanisms, content, and audience of royal printed propaganda in early modern France. The author first sketches the impact of the invention of printing and characterizes propaganda generally during the reign of Louis XIV. In succeeding chapters he discusses the theory and practice of censorship and the government's relationships with the recently established French periodical press, presenting a balanced portrait of the crown's objectives and mixed success in influencing the sources of opinion. The varieties of government-inspired pamphlet propaganda are carefully and extensively analyzed, and signed royal propaganda receives special attention. Originally published in 1977. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. Fromental Halévy 1996 Ruth Jordan Fromental Halevy, best known for his opera La Juive, captured the romantic and contentious spirit of his time. His was one of the most eventful eras in French history, ranging from the fall of Napoleon to the establishment of the Second Empire, and he took part in what was happening around him, often reflecting it in his music. As a composer, Halevy regarded opera as a magic spectacle fusing drama, music, dance and art. His work - innovative, demanding, captivating - included more than 30 grand operas and operas comiques, almost all widely performed and many immensely popular throughout nineteenth century Europe and the United States. And, loyal to his Jewish faith, Halevy set to music several psalms for liturgical use in French synagogues. Wagner, for all his virulent anti-Semitism, hailed "Halevy's brilliant energy that has sped French grand opera along a new road". This book, our century's first full-length biography of Halevy, which includes previously unpublished excerpts from his diaries and correspondence, illuminates that road.

Samia 1983-01-01 Menander With the discovery in Egypt of papyrus books we now know much more about Greek 'New Comedy' and the plays of its greatest exponent, Menander, but his second best preserved play, Samia, is not yet generally known. In this new edition the text takes account of all recent scholarly work, with the facing translation as an aid to interpretation. The commentary elucidates the text, explaining the themes and conventions of New Comedy, and emphasizing the text's dramatic nature. The Samia is among the ancestors of modern comedy, whose traditions are derived from Menander and the Greek plays adapted by Plautus and Terence for Roman audiences.
