On Eagles' Wings

2019-04-29 Jimmie Duane Ross These true-to-life experiences show how you can overcome and grow from the problems in your life. After all, if it had not been for Goliath, David would have remained a shepherd boy. The challenges that you face are part of life, not the end of it. I used my spiritual strength to conquer those problems and strengthen my faith. You will also see how we can have disappointing times in all segments of life. This includes professions, family, church members, banks, and, most of all, the corporate United States under the control of the unconstitutional Federal Reserve and its collection agency Internal Revenue Service. You will see how our challenges sometimes force us to study and research such entities and discover the fraud and corruption that exists in government, Internal Revenue Service, Federal Reserve, and our judicial system. These things are not taught in government-operated schools that indoctrinate our school kids from an early age. Our judicial system is just as corrupt and no longer rings the bell of justice that was experienced during those wonderful days of freedom and liberties that were enjoyed by all Americans. Today it is all about the money, control, connections, and punishment. You will see that all those areas of life mentioned above use punishment rather than compassion to resolve or correct a situation. There are at least 15 percent of innocent people in prisons for political reasons or just to put another notch in some judges' belt. At least 39 percent of people in prison are nonviolent and should not be placed in prison. A judge in Tennessee stated that his goal was to sentence ten thousand years by his retirement. That is a vendetta, not justice. My purpose in sharing the information within is to reveal to you the two governments that are prevalent in America today. There is the Constitutional United States of America with its fifty sovereign states controlling their own affairs. Then there is the corporate United States, which has become an unconstitutional central government controlling every aspect of the lives of Americans. You were not taught in school about the bankruptcy that the United States was forced to file to the private-owned Federal Reserve in 1933. This is explained herein. I explain how the Internal Revenue Service, Federal Reserve, and its national banking system are frauds as well as corrupt. They use any means necessary to control the citizens of America even by murder, which is also proven from personal experience. The primary purpose is to awaken "we the people" of this country to how they are in prisons without bars and do not realize it. My desire is to awaken the sleeping giant and motivate you to become active in taking back America before it is too late. I hope reveal some records straight and reveal the truth of several personal situations. It should illustrate how our spiritual strength can assist each of us in continual challenges in our lives. The spirit is of utmost importance in moving through this journey of life to arrive at our destiny. Society has lost respect for other people as we witness the atrocities that take place every day. Not only is our patriotism being tested, so is our faith. Our destiny is not found in this life but rather in the life to come.

2012 Micha Feldmann Told through diary entries interspersed with the stories of many Ethiopian Jews in their own words, this is the gripping account of the Jewish Agency's co-ordinator of Ethiopian aliyah as he worked over a decade to free the Beta Israel from shocking conditions. With Ethiopia overrun by rebels, the Jews had left their villages in northern Ethiopia by the thousands to trek for weeks to the Sudan. There, in squalid refugee camps, untold numbers died of disease and malnutrition. Those left alive were motivated only by the desire to return to Zion. Starving, preyed-upon, and often separated from their families in heartbreaking ways, the refugees also faced stark cultural adjustments in Israel. When Israel was able to open an embassy in Ethiopia in January 1990, the author went to Addis Ababa, where his crowning achievement as the Jewish Agency's representative and Israeli consul was overseeing the immigration of over fourteen thousand Jews from the besieged city in the dramatic two-day Operation Solomon in May 1991. This modern-day Exodus story is a heart-warming tale of the love of one man for Ethiopian Jewry as he devoted himself to their struggle to go up to Jerusalem.

2009-01-06 Michael Korda Michael Korda's brilliant work of history takes the reader back to the summer of 1940, when fewer than three thousand young fighter pilots of the Royal Air Force—often no more than nine hundred on any given day—stood between Hitler and the victory that seemed almost within his grasp. Korda re-creates the intensity of combat in "the long, delirious, burning blue" of the sky above southern England, and at the same time—perhaps for the first time—traces the entire complex web of political, diplomatic, scientific, industrial, and human decisions during the 1930s that led inexorably to the world's first, greatest, and most decisive air battle. Korda deftly interweaves the critical strands of the story—the invention of radar (the most important of Britain's military secrets); the developments by such visionary aircraft designers as R. J. Mitchell, Sidney Camm, and Willy Messerschmitt of the revolutionary, all-metal, high-speed monoplane fighters the British Spitfire and Hurricane and the German Bf 109; the rise of the theory of air bombing as the decisive weapon of modern warfare and the prevailing belief that "the bomber will always get through" (in the words of British prime minister Stanley Baldwin). As Nazi Germany rearmed swiftly after 1933, building up its bomber force, only one man, the central figure of Korda's book, Air Chief Marshal Sir Hugh Dowding, the eccentric, infuriating, obstinate, difficult, and astonishingly foresighted creator and leader of RAF Fighter Command, did not believe that the bomber would always get through and was determined to provide Britain with a weapon few people wanted to believe was needed or even possible. Dowding persevered—despite opposition, shortage of funding, and bureaucratic infighting—to perfect the British fighter force just in time to meet and defeat the German onslaught. Korda brings to life the extraordinary men and women on both sides of the conflict, from such major historical figures as Winston Churchill, Neville Chamberlain, and Reichsmarschall Herman Göring (and his disputatious and bitterly feuding generals) to the British and German pilots, the American airmen who joined the RAF just in time for the Battle of Britain, the young airwomen of the RAF, the ground crews who refueled and rearmed the fighters in the middle of heavy German raids, and such heroic figures as Douglas Bader, Josef František, and the Luftwaffe ace Adolf Galland and his archrival Werner Mölders. Winston Churchill memorably said about the Battle of Britain, "Never in the field of human conflict was so much owed by so many to so few." Here is the story of "the few," and how they prevailed against the odds, deprived Hitler of victory, and saved the world during three epic months in 1940.

2009-12-14 Christopher Anthony Matthew Gaius Marius (157-86B) was one of the most innovative and influential commanders of antiquity. With Marius in command of its legions, Rome prevailed on the battlefields of North Africa and defeated a two-pronged invasion of the Italian peninsula by 300,000 migrating Germanic tribesmen. The reason for this success was a series of five ground-breaking reforms through which Marius dramatically altered the demographics, recruitment, training and operation of the Roman army. In effect, Marius' reforms changed the Roman military from a service of short-term militia into a professional standing army. This allowed Rome to use the military as an effective tool for military expansion and internal security and laid the foundations for the role of the Roman army for centuries to come. Many of these reforms, however, came at a cost to the stability of the state. This book charts the military implications of Marius' reforms: what they were, why they were made, how they were made, and how they altered the functionality of the Roman military.
