The book “Analyzing Casual Conversation” by Suzanne Eggins and Diana Slade, originally published in 1997, establishes a systematic model for the study and portrayal of casual conversation in English. The authors argue that despite its occasionally aimless look and seemingly unstructured material, casual conversation is a extremely structured activity and plays a vital function in the social building of reality. The publication works through genuine examples of casual conversations including participants diverging in age, gender, ethnicity, and socio-economic class¹². Deriving on perspectives from sociology, linguistics, and critical semiotics, the publication equips readers with the analytical skills to depict the strata of structure and critical interpretive frameworks to elucidate the ‘social work’ that happens on through chat.
