Return to Oneness with the Tao 2011-09 Ricardo B. Serrano Commentaries, Meditation and Qigong for Healing and Spiritual Awakening"The teaching focuses essentially on the purification of Jing-Chi-Shen into its final product: the elixir of pure-person." - Door to All Wonders, Tao Te ChingThe second book Return to Oneness with the Tao elaborates on the Taoist meditation and Qigong inner alchemy techniques such as lower dantien breathing, Microcosmic Orbit Qigong, primordial wuji Qigong, meditation on twin hearts, and Tibetan Shamanic Qigong to cultivate the Three Treasures Jing, Qi and Shen. An important addition to this book is the understanding of a most important principle - awareness and intention are powerful factors for personal transformation and healing. When we are aware of what is - the emotional root cause of disease that is blocking the flow of Qi - we can intentionally release it through meditation and Qigong to effect a process of change for personal transformation and healing."Oneness or Qigong state (samadhi) is experienced by cultivating the Three Treasures Jing, Qi and Shen in the Three Dantians through the practice of Qigong." - Master Ricardo B Serrano

Return to Oneness with Shiva: Why I Meditate on Hanuman Ji with You Hold the Healing Codes 2012-05 Ricardo B. Serrano R. Ac The goal of the fifth book Return to Oneness with Shiva is to offer a solution to most people whose life challenge is battling their monkey-mind (ego) which I believe is the cause of suffering and can be conquered by becoming like Hanuman whose love and devotion to his Sadguru is shown by the application of Hanuman Qigong and Hunaman ji's mantras and self-realization teachings of Kashmir Shaivism. Healing with the hologram of love merkaba energy ball of light encoded with the healing conscious mind encodements is also included. Most people are not aware that their healing and spiritual ascension are essentially associated with the functioning of their thyroid gland or throat chakra. Who and what you meditate on, you become. The unified chakra and aligned energy fields are very important, not just for survival, but - more importantly - as vital tools for ascension, healing and channeling. "Ascension is basically a change in frequency and a change in focus of consciousness. Because the energy you are has frequency, you can change it. The low-frequency stuff of fear and limitation will fall away and you will live in a state of what you would today call ecstasy, at one with your spirit and with the spirit of everyone else. That's ascension." - Master Enoch "Spiritual oneness means the incarnated soul is achieving a higher degree of oneness with the higher soul, and a certain degree of oneness with God and oneness with all." - Master Choa Kok Sui "Use the Triangles Work with the Great Invocation by Holy Master Djwhal Khul and encourage others to use it." - Mang Mike Nator "This universe, which is created in His Consciousness, is dependent on that Consciousness. It is always dependent on that Consciousness. It cannot move outside of that Consciousness. It exists only when it is residing in His Consciousness. This is the way the creation of His universe takes place. You must understand that this universe, which is created by the Lord of Consciousness, is one with that Creator Who is wholly self-luminous light with Consciousness." - Swami Lakshmanjoo "When one finds true Oneness, there will be no words. . . One will only have the experience of Love and a smiling heart. No words can express that happiness and peace. It is beyond words. Oneness is everything. Oneness is the only truth worth seeking. Oneness is a gift from Heaven." - Hanuman Qigong, origin of the heart, a form of Sheng Zhen Gong The Shamballa Temple of Love with its Ascended Masters can be experienced through the Merkaba meditation facilitated by Ricardo B Serrano of the Melchizedek Order of Mastery (Shamballa Temple of Love). "You will find 'Return to Oneness with Shiva' an excellent addition to your spiritual and healing library." - Bookreview.com

Keys to Healing and Self-Mastery According to the Hathors 2011-11 Ricardo B. Serrano A Guide for Emotional and Self-Mastery, Healing and Stress Management The goal of the fourth book Keys to Healing and Self-Mastery according to the Hathors, a supplementary book to Holographic Sound Healing taught at the Meditation and Qigong Mastery book, and the Omkahab Heart Lightbody Activation video, is to build the Ka and offer readers an effective Hathor's emotional mastery technique to manage emotional stress, the main cause of disease, in their daily lives and spiritually awaken when emotional stress is cleared, released and stabilized. Doing this practice will provide a fast, safe way to stabilize your chaotic emotions such anger or fear. Holographic Sound Healing with the Four Sacred Elements is integrated with Ka(Merkaba) Meditation to complement Holographic Lightbody activation, and build the Sahhu or immortal golden lightbody. Dr. Johanna Budwig's Diet for Cancer and Chronic Diseases and Sun gazing are included as adjunct keys to healing. In summary, the four books Meditation and Qigong Mastery, Return to Oneness with the Tao, Return to Oneness with Spirit, and Keys to Healing and Self-Mastery according to the Hathors form a four-sided basic pyramid foundation, so to speak, of dietary and energy-based psychoneuroimmunolgy or neuroimmunomodulation strategies to effectively heal substance abuse and chronic diseases mainly caused by emotional stress, diet that is high in trans-fatty acids and low in Essential Fatty Acids, and unhealthy lifestyle. These strategies bring the physical, mental, emotional, and spiritual aspects of a person into homeostasis, and at the same time spiritually awaken a person in the process of being in the flow because the individual being is one with universal being.

Meditation and Qigong Mastery 2011-08 Ricardo B. Serrano A guide for healing, inner happiness and spiritual awakening by activating and developing your lightbodyThe first book Meditation and Qigong Mastery elaborates on the meditation and Qigong principles that masters use to activate and develop their lightbodies, also called EMF (electromagnetic fields), Wei Qi or merkaba, which is the missing mastery principle not discussed by eastern authors in their meditation and Qigong books. Omkahab heart lightbody activation and Maitreya (Shiva) Shen Gong are introduced. Quotations on inner mastery by meditation masters are included to guide the readers toward the path of inner mastery. Powerful mantras are also included to unite the meditation practitioners to the spiritual divine energy of the ancient lineage of the Siddha and Buddhist Masters. Lastly, the merkaba energy ball of light with holographic sound healing is taught for healing and spiritual awakening.

Oneness with Shiva: Meditate on the Self as the Self 2013-01 Ricardo B. Serrano R. Ac The important questions: "Who am I? Why was I born? What is the goal of my life? What am I supposed to accomplish here?" are hopefully answered in this supplementary book to the "Return to Oneness with Shiva" with the help of my Siddha Guru Baba Muktananda's excerpts from his books and my Sadguru Nityananda's grace which are based from the Self-realization teachings of Kashmir Shaivism. Who and what you meditate on, you become. When you meditate on the Self as the Self, you become one with Shiva, the Self of all. "Form is emptiness, emptiness is form," states the Heart Sutra. The essence of all things is emptiness. To become aware of So'ham, "I am That," is to attain oneness with the Higher Self. The result of the integration of the Siddha Guru and the awakened Kundalini is a meditation that is very powerful. The subtle path to the Self is most easily attained through the Guru. Kabir said that the Guru makes one perfect; he unites the individual soul with Shiva. Unconditional love is the fulcrum of this universe, the original point of the universe. In the practice of Meditation on Three Hearts and Hanuman Qigong, efforts must be made to integrate the mind and heart, to feel the interaction between Love and Qi, restoring the experience of harmony in the world, in nature, and the Universe that may be understood as "being with higher Self" symbolized by Swastika or Yuan Shen (Original Spirit). Grounding and rooting to mother earth through the practice of Enlightenment Qigong forms especially Hanuman Qigong, Eight Extraordinary Meridians Qigong, and Drawing in Heaven and Earth via Wei Qi field activation are added to Siddha spiritual practices to balance the Shakti Qi flow in the body, build the Lightbody, psychic self-defense, avoid post-kundalini syndromes often seen in yoga practitioners and Self-realization. "The supreme state, which may be attained on some paths after extreme hardship, can be attained without great difficulty on the Siddha path." - Yogashikha Upanishad 1.3 "God consciousness is

The Cure and Cause of Cancer 2013-01 Ricardo B. Serrano R. Ac As a registered acupuncturist, I have been researching for over 30 years on the best alternative holistic - body, mind and spirit - functional medicine based therapies for healing cancer and degenerative diseases that work. The main focus of the seven books of You Hold the Keys to Healing - is to heal the body, mind, and emotions by building the Qi of the energy body (lightbody or energy bubble) while achieving Self-realization through meditation and Qigong. This final seventh book "The Cure & Cause of Cancer: An Alternative Holistic Approach to Heal Cancer," is focused on the therapeutic measures to heal cancer manifesting in the body through the Budwig diet, Cessiac herbal formulas, electrotherapy, alkaline water, coconut oil, reishi mushroom and other tonic herbs to detox the body and boost the body's Wei Qi immune system fostering an anti-cancer terrain. Oriental medicine such as acupuncture, acupressure, pranic healing, meditation, and Qigong are also used to balance and build the body's Qi. An important therapeutic tool emphasized in this book is the addition of an unorthodox therapy using hydrazine sulfate to address the wasting syndrome problem often seen with cancer patients: cachexia. Basically, hydrazine sulfate inhibits gluconeogenesis (the liver's recycling of lactic acid into glucose) where the sugar is consumed in ever-increasing amounts by voracious cancer cells, and halt the leading cause of death in cancer: cachexia. Dr. Joseph Gold, the developer of hydrazine sulfate therapy said, "For the past 50 years the attention of the medical profession has been focused on the tumor. But all attempts to treat the tumor - to kill the tumor and therefore wipe out the disease - have in general been futile. During the past 50 years the death rate from this disease has reportedly hardly budged, decreasing at the most 5 percent overall, and in the major cancers not decreasing at all. Cytotoxic chemotherapy, the major weapon to defeat cancer in the last 50 years, has succeeded in killing cancer cells, but in killing normal cells, too, and has been itself a cause of cancer mortality. Effective cancer control may lie, rather, with therapy of the 'shift' to glycolysis, than with tumor therapy, potentially obviating such developments as drug resistance and major drug toxicity. In this regard it is recognized that not only can the "metabolic shift to enhanced glycolysis" provide a basis for cancer treatment but that discovery of the regulatory mechanism(s) underlying this metabolic shift may be essential to the future development of anti-cancer therapy." Why do I, as a licensed health care professional, recommend Hydrazine Sulfate to my patients who are under the care of their medical doctors? Hydrazine sulfate is marketed in the United States and Canada as a dietary supplement /nutraceutical by some companies. In the United States and Canada, dietary supplements are regulated as foods, not drugs. In my over 30 years of cancer research, I also believe that hydrazine sulfate is the missing important therapeutic tool to solve the riddle of the wasting syndrome - cachexia - in cancer, and stop the voracious cancer cells to use glucose. "These studies in essence suggest that it would be sheer insanity for a cancer patient failing current therapy, not to try hydrazine sulfate. To wait until his/her disease becomes truly terminal, from which there is no return." - Dr. Gold BOOK UPDATES The main reasons for the updates: 1) I have included powerful herbs, ketogenic diet and coconut oil for cancer which are natural substitutes for the intake of hydrazine sulfate, an MAO inhibitor medication. 2) I have also included the reasons for acupuncture and the practice of meditation and Qigong as vital adjuncts to natural cancer therapy. 3) Finally, an electromagnetic healing technology invented in the Philippines can rebuild the body's Qi field by supplying negative ions needed to heal cancer and other chronic degenerative dise

This Moment Is Your Miracle 2019-02-02 David Hoffmeister Written by a world-renowned teacher of A Course in Miracles, this book reveals the profound power of the present moment and shows how tapping into it using practical insights and simple exercises can fortify your spirit against fear, break down perceived limitations and your sense of separation, and help you manifest a life of joy, oneness, and serenity. We all feel isolated and afraid sometimes, but the truth is, we're never really alone. Indeed, as author and spiritual teacher David Hoffmeister points out, it is the deeply ingrained belief that you are separate from everything—that you're on your own, there is reason to be afraid, and you might not be worthy—that prevents you from living the joyful life you long for. So, how can you begin to untangle the thoughts and feelings that keep you trapped in your own egoic fears? This Moment Is Your Miracle addresses this painful yet widespread belief in separation, peeling back the layers of misperception to uncover the divine oneness at the heart of reality, through which we are all connected. You'll find spiritual practices and tools to help you awaken from the nightmare of fear and isolation, and practical ways to cultivate acceptance, forgiveness, healing, and trust—for healing yourself, your relationships, and the world. With this book as your guide, you'll learn how to trust your inner guidance and accept life's miracles, and find true freedom and peace of mind. There has never been a better time than now.

The Lost Teachings of Atlantis 1997-07-06 Jon Peniel This is the account of an American teenager who discovered a monastery in Tibet that was the inspiration for the legend of Shangri La. It might be categorized as a 'new age' or philosophy book, like the Celestine Prophecy, since it focuses on his spiritual training and their teachings in a novel-like format. Hard to believe, but interestingly, the sub-tropical region amongst the Himalayas that he describes finding, was later documented by explorers from National Geographic, then 'covered up' (there is still evidence of this). Also interesting is that the author was apparently mentioned in the Edgar Cayce readings (the famous American psychic whose books have sold millions of copies), as someone who would one day bring an important message to the world.

The Book of the Damned 2020-09-28 Charles Fort "Time travel, UFOs, mysterious planets, stigmata, rock-throwing poltergeists, huge footprints, bizarre rains of fish and frogs-

nearly a century after Charles Fort's Book of the Damned was originally published, the strange phenomenon presented in this book remains largely unexplained by modern science. Through painstaking research and a witty, sarcastic style, Fort captures the imagination while exposing the flaws of popular scientific explanations. Virtually all of his material was compiled and documented from reports published in reputable journals, newspapers and periodicals because he was an avid collector. Charles Fort was somewhat of a recluse who spent most of his spare time researching these strange events and collected these reports from publications sent to him from around the globe. This was the first of a series of books he created on unusual and unexplained events and to this day it remains the most popular. If you agree that truth is often stranger than fiction, then this book is for you"--Taken from Good Reads website.

God 2017-11-07 Reza Aslan NEW YORK TIMES BESTSELLER • The bestselling author of Zealot and host of Believer explores humanity's quest to make sense of the divine in this concise and fascinating history of our understanding of God. In Zealot, Reza Aslan replaced the staid, well-worn portrayal of Jesus of Nazareth with a startling new image of the man in all his contradictions. In his new book, Aslan takes on a subject even more immense: God, writ large. In layered prose and with thoughtful, accessible scholarship, Aslan narrates the history of religion as a remarkably cohesive attempt to understand the divine by giving it human traits and emotions. According to Aslan, this innate desire to humanize God is hardwired in our brains, making it a central feature of nearly every religious tradition. As Aslan writes, "Whether we are aware of it or not, and regardless of whether we're believers or not, what the vast majority of us think about when we think about God is a divine version of ourselves." But this projection is not without consequences. We bestow upon God not just all that is good in human nature—our compassion, our thirst for justice—but all that is bad in it: our greed, our bigotry, our penchant for violence. All these qualities inform our religions, cultures, and governments. More than just a history of our understanding of God, this book is an attempt to get to the root of this humanizing impulse in order to develop a more universal spirituality. Whether you believe in one God, many gods, or no god at all, God: A Human History will challenge the way you think about the divine and its role in our everyday lives. Praise for God "Timely, riveting, enlightening and necessary."—HuffPost "Tantalizing . . . Driven by [Reza] Aslan's grace and curiosity, God . . . helps us pan out from our troubled times, while asking us to consider a more expansive view of the divine in contemporary life."—The Seattle Times "A fascinating exploration of the interaction of our humanity and God."—Pittsburgh Post-Gazette "[Aslan's] slim, yet ambitious book [is] the story of how humans have created God with a capital G, and it's thoroughly mind-blowing."—Los Angeles Review of Books "Aslan is a born storyteller, and there is much to enjoy in this intelligent survey."—San Francisco Chronicle

Hyperion, Or the Hermit in Greece 2019-03-05 Friedrich Hölderlin Friedrich Hölderlin's only novel, Hyperion (1797-99), is a fictional epistolary autobiography that juxtaposes narration with critical reflection. Returning to Greece after German exile, following his part in the abortive uprising against the occupying Turks (1770), and his failure as both a lover and a revolutionary, Hyperion assumes a hermitic existence, during which he writes his letters. Confronting and commenting on his own past, with all its joy and grief, the narrator undergoes a transformation that culminates in the realisation of his true vocation. Though Hölderlin is now established as a great lyric poet, recognition of his novel as a supreme achievement of European Romanticism has been belated in the Anglophone world. Incorporating the aesthetic evangelism that is a characteristic feature of the age, Hyperion preaches a message of redemption through beauty. The resolution of the contradictions and antinomies raised in the novel is found in the act of articulation itself. To a degree remarkable in a prose work of any length, what it means is inseparable from how it means. In this skilful translation, Gaskill conveys the beautiful music and rhythms of Hölderlin's language to an English-speaking reader.

The Inside Songs of Amiri Baraka 2021-06-28 Aldon Lynn Nielsen The Inside Songs of Amiri Baraka examines the full length of Baraka's discography as a poet recording with musicians as well as his contributions to jazz and R & B, beginning with his earliest studio recordings in 1965 and continuing to the last year of his life, 2014. This recorded history traces his evolution from the era of Beat poetry and "projective verse," through the period of the Black Arts Movement and cultural nationalism, and on to his commitments to "third world Marxism," which characterized the last decades of his life. The music enfolding Baraka's recitations ranges from traditional African drumming, to doo wop, rhythm and blues, soul and the avant garde jazz that was his great love and the subject of so much of his writing, and includes both in-studio sessions and live concert performances. This body of work offers a rare opportunity to think about not only jazz/poetry, but the poet in the recording studio and the relations of text to score.

The Spirit of Catholicism 2021-11-09T22:44:00Z Karl Adam In this book, Karl Adam seeks to identify the "spirit" or essence of Roman Catholicism. The Spirit of Catholicism is an accessible, articulate, and compelling presentation of the fundamental tenets of the Catholic faith, explaining to all - Catholic and non-Catholic alike - exactly what the Church represents. Adam attempts to communicate about the Catholic faith and the Church's role as the keeper of the faith. Those attempting to grasp the very heart and spirit of Catholicism should read Karl Adam's book, which is a most elegant and concise exploration of the faith and an attempt to address these ambiguities. What are the fundamental attributes of the Catholic Church? What is the source from which it has drawn vigor and life through its two thousand years of life on earth? What are the secret sources of its incredible vitality in the world today? The author answers these and many other questions about the nature and structure of the Church. He examines the essential nature of the Catholic Church from the basic premise that it was expressly founded by Christ, traces its historical development and analyzes its actual functioning through the ages.

Man and His Symbols 2012-02-01 Carl G. Jung The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung's revolutionary ideas "What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society."—The Guardian "Our psyche is part of nature, and its enigma is limitless." Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life's work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, Man and His Symbols is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, Man and His Symbols proves to be—decades after its conception—a revelatory, absorbing, and relevant experience.

A United States of Africa? 1999 Eddy Maloka A substantial work on the question of unity of African states, containing essays from twenty-four scholars from universities throughout Africa. The papers revolve around four main subjects. The first examines the colonial origins of the African state, neo-colonial constraints on post-colonial regimes, and the nature of the post-colonial political elite. The second subject under discussion is regional integration as a vehicle for the realisation of the African Union. Dani Wadaba Nabudere contributes an overview chapter on African unity in historical perspective; and many contributors consider the complicating phenomenon of globalisation alongside regional integration. The next part examines the extent to which problems of peace and security impact upon the integration project; and the effectiveness of existing regional and continental conflict prevention and resolution mechanisms. Xavier Renou analyses the present roles of France and America on the continent as an obstacle to peace and unity in a chapter entitled 'The New Franco-American Cold-War'. Finally, three contributors address the need for an approach to African unity for development better grounded in civil society and to a lesser extent centred around the role of the state.

We Believe in the Holy Spirit 2021-07-02 Cheryl M. Peterson The concept of "identity" today is contested against the backdrop of myriad forms of social, political, economic and ecological exclusion. How is identity expressed in a global Lutheran tradition whose members share common biblical, liturgical, confessional, theological and spiritual foundations yet represent diverse cultures and traditions? At the end of 2019, The Lutheran World Federation (LWF) hosted a global consultation on contemporary Lutheran identities, in Addis Ababa, Ethiopia. The result was the papers presented in this publication. The authors—church leaders, youth, theologians, lay and ordained practitioners in local communities—explore the Spirit's work to revive and equip the faithful for vocation through the ministry of the church today and into the future of the Lutheran communion. Globale Perspektiven lutherischer Identität] Ende 2019 veranstaltete der Lutherische Weltbund (LWB) eine globale Konsultation zu zeitgenössischen lutherischen Identitäten. Die Konsultation in Addis Abeba, Äthiopien, zielte darauf ab herauszufinden, wie die gemeinsamen Noten lutherischer Identität in der reichen Harmonie gelebter, kontextbezogener Identitäten in der gesamten lutherischen Gemeinschaft wiedergegeben werden können. Der LWB engagierte Theologen seiner Mitgliedskirchen, um das Wirken des Heiligen Geistes unter dem Thema "Wir glauben an den Heiligen Geist. Schopenhauer's Compass 2014-09-09 Urs App Schopenhauer was the first major Western philosopher with a deep interest in Asian philosophies and religions. His favorite book was a Latin version of the Indian Upanishads—the Oupnek'hat—that he used to call the consolation of his life and death. Urs App explains in this book for the first time why Schopenhauer regarded this work as the most excellent in the world, how it is connected with the birth of his philosophy, and what caused him to list it even ahead of Plato and Kant as his major inspiration. This groundbreaking new introduction to Schopenhauer's thought and its genesis explains the role of Indian, Persian (Sufi), Neoplatonic, and mystical ideas as well as meditative states ("better consciousness"). But its focus lies firmly on the central dynamic at the heart of Schopenhauer's entire work: the inner compass that gave it its overall direction.

The Spell of the Sensuous 2012-10-17 David Abram Winner of the International Lannan Literary Award for Nonfiction Animal tracks, word magic, the speech of stones, the power of letters, and the taste of the wind all figure prominently in this intellectual tour de force that returns us to our senses and to the sensuous terrain that sustains us. This major work of ecological philosophy startles the senses out of habitual ways of perception. For a thousand generations, human beings viewed themselves as part of the wider community of nature, and they carried on active relationships not only with other people with other animals, plants, and natural objects (including mountains, rivers, winds, and weather patters) that we have only lately come to think of as "inanimate." How, then, did humans come to sever their ancient reciprocity with the natural world? What will it take for us to recover a sustaining relation with the breathing earth? In The Spell of the Sensuous David Abram draws on sources as diverse as the philosophy of Merleau-Ponty, Balinese shamanism, Apache storytelling, and his own experience as an accomplished sleight-of-hand of magician to reveal the subtle dependence of human cognition on the natural environment. He explores the character of perception and excavates the sensual foundations of language, which--even at its most abstract--echoes the calls and cries of the earth. On every page of this lyrical work, Abram weaves his arguments with a passion, a precision, and an intellectual daring that recall such writers as Loren Eiseley, Annie Dillard, and Barry Lopez.
