Tales from the Rifle Brigade

2005-09-19 John Kincaid To Napoleon's troops, the sharp shooters of the 95th (Rifle) Regiment were 'the rascals in green', famed throughout Europe for their bravery, skill, and dash. Kincaid's Adventures in the Rifle Brigade was the first book to be published by a veteran, recounting the amazing escapades of this legendary unit in the war against French armies in Portugal and Spain. His second volume, Random Shots From a Rifleman, is just as vivid and memorable as the first, and finishes with a remarkable first-hand description of the Waterloo campaign from the ordinary soldier's point of view. The two volumes, here bound together in abridged form, add up to one of the most enthralling eyewitness records of regimental soldiering ever written. Although other Rifles memoirs quickly followed, none achieved the commercial or critical success of Kincaid's collection of unforgettable anecdotes.

whose memoirs were one of the principal sources for the Sharpe television series, served with the green-uniformed Rifle Brigade, a unit of British skirmishers and snipers who played a key role in the battles of the Peninsular and Waterloo campaigns. In tracing the following scenes, I have chiefly drawn on the reminiscences of my military life, and endeavoured faithfully to convey to the mind of the reader the impression which they made on my own at the time of their occurrence. Should any errors, as to dates or trifling circumstances, have inadvertently crept into my narrative, I hope they will be ascribed to want of memory, rather than to any wilful intention to mislead. I am aware, that some objections may be taken to my style; for "Rude am I in my speech, And little bless'd with the set phrase of peace: For, since these arms of mine had seven years' pith, Till now, some nine moons wasted, they have us'd Their dearest action in the tented field: And little of this world can I speak, More than pertains to feats of broil and battle; And therefore little shall I grace my cause In speaking for myself; yet, by your gracious patience, I will a round unvarnished tale deliver," Other People, Myself, and my Regiment. Retreat to the Lines of Torres Vedras. Leave Coimbra, followed by a select group of Natives. Ford the Streets of Condacia in good spirits. A Provost-Marshal and his favourites. A fall. THE RECOLLECTIONS OF RIFLEMAN HARRIS - The book which inspired the Sharpe Novels

2018-08-30 Benjamin Harris The book which inspired the Sharpe Novels! Just as in the Sharpe Novels by Bernard Cornwell, the Prince's Own 95th Rifles was a real regiment, and there was a real Rifleman Harris for it is his recollections which are published in this volume. There was indeed a soldier who joined the rifles and was soon made a sergeant. By the end of the wars he had, unusually, risen to be a commissioned officer (see Ch. XV.). It is believed that it is this story which inspired the character of Richard Sharpe. Harris' story starts after he had been recruited and was now, in turn, on a recruiting drive. In this volume he recounts anecdotes about his officers; believe me all enlisted men have such stories about their officers. He also recounts occurrences of desertion and the penalties if caught, cases of treachery and accounts of camaraderie. There is even an account of how he held a perfectly rational conversation with a fellow rifleman during the heat of

battle, no easy feat when you're using a muzzle loader. All of these are retold at some point during the Sharpe Novels. Also recorded are the battles in which the part he, and the 95th, took part. Here you can read of the battles of Roliça, Vimiero, Salamanca and the retreat to Corunna. Read also of the stories of "A cobbler and the cannon ball", "A lubberly artilleryman", "Major Travers and his wig" and how the 95th routed Boney's Invincibles. If a soldier survived the Peninsula War, he would have had the opportunity to augment his meagre wages by plundering what items of value the enemy left behind. In many cases this meant picking over the dead. Hence there was the opportunity to finish the war a lot wealthier than he could have imagined. The wives and dependants of the soldiers were also allowed to pick over the dead at the end of each battle. In most cases it would mean cutting off brass buttons and removing belts. If they were lucky they may find an officer's sword or pistols. Many would convert their pickings to cash, or use them to trade, for food for themselves and any children they may have with them. Harris himself was illiterate. He is thought to have been born in Portsea, Portsmouth into a family of shepherds and this was his way of life until he joined the army in 1803. His recollections were recorded for him, after the war, at some stage in the middle of the 1830s by an officer who knew him, Captain Henry Curling, editor of this volume. Curling then kept the manuscript until 1848, when he succeeded in getting it published. So, we invite you to download this very interesting, first-hand account, of an enlisted man who inspired the story of Richard Sharpe and the Sharpe Novels.

===== HISTORICAL NOTE: The Prince's Own 95th underwent a few reinventions and amalgamations during the Peninsula Wars ending the Napoleonic wars as The Rifle Brigade. They were still in existence during WWI and at the outbreak of WWII they were part of The 1st Battalion, Rifle Brigade and performed with distinguished service during both World Wars. On 1 January 1966 the regiment was amalgamated with the 1st Green

Jackets (43rd and 52nd) and the King's Royal Rifle Corps to form The Royal Green Jackets. The 1st Battalion The Royal Green Jackets' final operation was in Basra, Iraq, on Operation Telic in 2006/7. Thereafter they were reorganised and amalgamated in 2007 with a few other regiments to become The Rifles.

The field of Engineering Economics and Cost Estimation is a vital aspect of any engineering project. It involves current and upcoming economic factors, making it vital to obtain reliable estimates of future costs, benefits, and other economic parameters. Engineers frequently deal with projects whose scale, complexity, and uncertainty call for sophisticated approaches to planning and budgeting^[1]. Several methods are used for cost estimation, including rough estimates, semi-detailed estimates, or detailed estimates, depending on the needs for the estimates^[2]. Key concepts in this field include overhead costs, cost driver identification, cost allocation methods, capital budgeting, flexible budgeting, zero-based budgeting, budgets, and estimates. A number of models are available for developing cost (or benefit) estimates, such as the per-unit model, the segmenting model, cost indexes, the power-sizing model, and learning curve cost estimating. The quality of a cost estimate typically increases as the resources allocated to developing the estimate increase.

Nelson Mandela stands as one of the most influential leaders of the 20th century. His life journey began on July 18, 1918, in the tranquil village of Mvezo, South Africa. Born into the Thembu royal family, he was bestowed with the name Rolihlahla, meaning “troublemaker” in Xhosa. Mandelas upbringing unfolded amidst a backdrop of racial injustice, where he witnessed firsthand the unfair practices inflicted upon the Black majority by the ruling white minority government. Driven by a deep sense of justice, he dedicated his life to the struggle for emancipation and fairness, joining the African National Congress (ANC), a political organization dedicated to dismantling apartheid, the system of racial segregation that plagued South Africa. Emerging as a charismatic lawyer, activist, and leader, Mandela faced numerous arrests and imprisonments for his unwavering resistance and defiance. For 27 years, he endured the harsh conditions and isolation of Robben Island, a notorious prison island, where his optimism never wavered. His unwavering commitment to freedom continued to inspire and mobilize his people and the world at large. In 1990, he walked out of prison, free at last, and in 1994, he made

history as South Africa's first democratically elected Black president. Mandela's leadership ushered in a period of unity, transforming South Africa into a nation of fairness. His global impact extended far beyond South Africa's borders, as he became a beacon of human rights, recognized for his unwavering dedication to these ideals. In 1993, he was awarded the Nobel Peace Prize, alongside numerous other accolades and honors. On December 5, 2013, at the age of 95, Mandela passed away, leaving behind a legacy of resilience, understanding, and compassion. Revered as the father of the nation and one of history's greatest heroes, Mandela's legacy continues to inspire generations to come.

A term paper is a research paper written by students over an academic term, accounting for a major part of a grade. It's a vital component of your college education, often assigned towards the conclusion of a semester. The paper is a vehicle through which educators gauge your comprehension of the course content. Writing a term paper isn't just about summarizing facts. It requires a blend of organization, deep research, and the art of presenting your findings in a way that's both clear and analytical. This means structuring your arguments logically, citing relevant sources, and critically evaluating the information you've gathered. When grading a term paper, there are three important aspects to consider. First, the paper should be passionately written and captivating to read. Second, it should have good grammar and style (following MLA, APA, or CMS style). Third, it should be well documented with in-text references (in parentheses) linking their assertions to scholarly articles in the list of references at the end of the paper.
