Your Money and Your Man

2007-01-30 Michelle Singletary "Money may not be able to buy you love, but conflicts about it can certainly bankrupt your relationship." -Michelle Singletary Here at last is the lowdown on how to manage your finances with the man in your life. Money is the #1 problem couples fight about, says beloved Washington Post

financial columnist Michelle Singletary. Acknowledging that most fights about money are usually about something else—like feelings of fear or resentment—Singletary stresses the value of open dialogue. In her trademark no-holds-barred style, she shows us how to handle the entire range of financial issues couples face—from splitting the dinner bill when dating to planning for retirement together after years of marriage. Singletary speaks to the hearts of women as they try to successfully merge their money and future security with those of their man. Acknowledging the emotional weight of shared investments, she brings her own experience as a wife and mother to the table and doles out advice in a voice that, while encouraging and rational, is never less than frank on tough topics. From sizing up a potential mate’s financial responsibility (or lack thereof) to figuring

out how best to share bank accounts and expenses once you’ve made the leap, to determining how to teach your children about money, *Your Money and Your Man* focuses on the undeniable role that finance plays in every stage of a long-term relationship. Including typical questions from readers of her syndicated column and advice from one of the savviest financial experts she has ever known—her grandmother—Singletary shows women that they can live happily ever after with Prince Charming, even if he doesn’t have a royal bank account!

The Global Findex Database 2017

2018-04-19 Asli Demirguc-Kunt In 2011 the World Bank—with funding from the Bill and Melinda Gates Foundation—launched the Global Findex database, the world's most comprehensive data set on how adults save, borrow, make payments, and manage risk. Drawing on survey data collected in collaboration with Gallup, Inc., the Global Findex database covers more than 140 economies around the world. The initial survey round was followed by a second one in 2014 and by a third in 2017. Compiled using nationally representative surveys of more than 150,000 adults age 15 and above in over 140 economies, The Global Findex Database 2017: Measuring Financial Inclusion and the Fintech Revolution

includes updated indicators on access to and use of formal and informal financial services. It has additional data on the use of financial technology (or fintech), including the use of mobile phones and the Internet to conduct financial transactions. The data reveal opportunities to expand access to financial services among people who do not have an account—the unbanked—as well as to promote greater use of digital financial services among those who do have an account. The Global Findex database has become a mainstay of global efforts to promote financial inclusion. In addition to being widely cited by scholars and development practitioners, Global Findex data are used to track progress toward the World Bank goal of Universal Financial Access by 2020 and the United Nations Sustainable Development Goals. The database, the full text of the report, and the underlying country-level data for all

figures—along with the questionnaire, the survey methodology, and other relevant materials—are available at www.worldbank.org/globalindex.
