The Peabody Picture Vocabulary Test 4th Edition (PPVT-4) is a well-respected vocabulary assessment that has been in use for close to 50 years. Formulated by Lloyd M. Dunn and Douglas M. Dunn, the test is designed to assess vocabulary comprehension for American English. It is swift and simple to administer, conserving precious time so that concentration can be placed on executing successful strategies.

The PPVT-4 assessment material includes a broad array of receptive vocabulary grades, ranging from preschool through adulthood. The evaluation problems widely feature words that depict 20 subject areas (e.g., actions, vegetables, tools), parts of speech (nouns, verbs, attributes), and household and educational vocabulary.

The test provides two equal forms which include different vocabulary words, making sure that the individual has not "learned" the test. One form can be utilized ahead of intervention implementation to measure test-takers' vocabulary comprehension and the alternative version can be utilized for re-evaluation to assess and note improvement. The PPVT-4 also contains a unique Growth Scale Value (GSV) which is reactive to minor changes over time.
