Compass Rose

2018-06-18 Anna Burke In the year 2513, the only thing higher than the seas is what's at stake for those who sail them. Rose was born facing due north, with an inherent perception of cardinal points flowing through her veins. Her uncanny sense of direction earns her a coveted place among the Archipelago Fleet elite, but it also attracts the attention of Admiral Comita, who sends her on a secret mission deep into pirate territory. Accompanied by a ragtag crew of mercenaries and under the command of Miranda, a captain as bloodthirsty as she is alluring, Rose discovers the hard way that even the best sense of direction won't be enough to keep her alive if she can't learn to navigate something far more dangerous than the turbulent seas. Aboard the mercenary ship, Man o' War, Rose learns quickly that trusting the wrong person can get you killed—and Miranda's crew have no intention of making things easy for her—especially Miranda's trusted first mate, Orca, who is as stubborn as she is brutal.

Jonathan Haymaker

2016-05-01 Sam Ferguson Jonathan is not the strongest young man in his home village. That would be his older brother Jason. He isn't the tallest, best looking, or funniest either. Again, that would be Jason. He is better than most in the village at archery, though. He is an excellent hunter, and can perform more trick shots than anyone else with amazing accuracy. Well, he is almost better than anyone else. Jason has him beat there too. Jonathan doesn't mind though, he and his older brother share a deep bond that connects them more fully than their differences could separate them. They work together in their family fields, go swimming at the fishing hole, and sometimes they play tricks on other farmers in the village. Whatever they do, for good or ill, they do together. On Jonathan's sixteenth birthday though, officers come to the village asking for volunteers. Trolls have invaded during the heaviest monsoon season ever known, and

the wet conditions have given the trolls enhanced abilities. Jason is the first to step forward, and is eagerly accepted for his height and strength. Though he also volunteers, Jonathan is told he is too young, and not strong enough for the rigors of war with the trolls in the Murkle Quags. When letters stop arriving from Jason after two years of war, and Jonathan still finds himself denied acceptance to the army due to his small stature, he does what any good brother would do. Jonathan Haymaker takes his bow and leaves his home. They said it couldn't be done. The journey was too far, the dangers too great, and the war too fierce for a boy like him. Perhaps they were right, but he knew Jason was alive somewhere, and he was not about to let his brother be alone.

Idle Claws

2020-10-16 DM Gilmore Lewis used to think school was hard. He's only been a dragon for a week, but he's already nostalgic for boring human classes. Instead of math and science, he's learning how to fly and hunt! It would be fun if he wasn't so bad at it! Meanwhile, Becca and Jeremy are still coming to terms with his change. Becca thinks they need to stand by him. Jeremy has other designs. After discovering that his parents are still looking for him, Lewis wants to risk seeing them. That means going back into town for the first time since his change. There's only one problem: Lewis's friends aren't the only ones who know about him. He's being watched, and not all the watchers have the best intentions.
