Day 2003 Kenneth Goldsmith Poetry. "I am spending my 39th year practicing uncreativity. On Friday, September 1, 2000, I began retyping the day's NEW YORK TIMES word for word, letter for letter, from the upper left hand corner to the lower right hand corner, page by page." With these words, Kenneth Goldsmith embarked upon a project which he termed "uncreative writing", that is: uncreativity as a constraint-based process; uncreativity as a creative practice. By typing page upon page, making no distinction between article, editorial and advertisement, disregarding all typographic and graphical treatments, Goldsmith levels the daily newspaper. DAY is a monument to the ephemeral, comprised of yesterday's news, a fleeting moment concretized, captured, then reframed into the discourse of literature. "When I reach 40, I hope to have cleansed myself of all creativity"-Kenneth Goldsmith.

Knowledge Management 2004 Ashok Jashapara As we move towards an increasingly knowledge-based economy, the ability to manage knowledge becomes a matter of competitive survival. Whilst current literature addresses the subject only partially, from a human resource, information systems or practitioner perspective, this is the first textbook to bring together and integrate all these dimensions. Knowledge Management: An Integrated Approach is centred around five parts of the knowledge cycle - discovering knowledge, generating knowledge, evaluating knowledge, sharing knowledge and leveraging knowledge. The blend of theory and practice makes this the ideal resource for students studying knowledge management courses within business management, information science and computer science degrees at both undergraduate and postgraduate levels. Key features bull; bull;The first truly integrated approach to knowledge management offers the student the most realistic and complete perspective. bull;Case studies and vignettes from a range of sectors and organisations illustrate the theory in practice. bull;The comprehensive coverage offers an accessible bridge between disciplines for students and practitioners in the fields of human resource management, information systems and strategic management. bull;Chapters on intellectual capital and the philosophy of knowledge demonstrate the breadth of coverage from the evolution of the subject area to the leading edge of contemporary research. bull;Learning outcomes, exercises and questions for further thought stimulate the reader and encourage them to reflect on their learning. 'This is an excellent book which manages to combine a consideration of the philosophy of knowledge with the practical discussion of what it means to 'manage knowledge' in an organisational context. The book integrates many disparate strands from the literature and in doing so provides a comprehensive and coherent coverage of this emerging area.' Professor Sue Newell, Trustee Professor, Department of Management, Bentley College, USA 'This book provides a very useful summary of key works and current debates in the fields of organisational learning and knowledge management. It will be of value both to new students and to experienced scholars who are looking for a succinct overview of the field.'

Bad Twin 2006-05-02 Gary Troup Sometimes evil has a familiar face . . . Paul Artisan, P.I. is a new version of an old breed -- a righter of wrongs, someone driven to get to the bottom of things. Too bad his usual cases are of the boring malpractice and fraud variety. Until now. His new gig turns on the disappearance of one of a pair of twins, adult scions of a rich but tragedy-prone family. The missing twin -- a charismatic poster-boy for irresponsibility -- has spent his life daring people to hate him, punishing himself endlessly for his screw-ups and misdeeds. The other twin -- Artisan's client -- is dutiful and resentful in equal measure, bewildered that his "other half" could have turned out so badly, and wracked by guilt at his inability to reform him. He has a more practical reason, as well, for wanting his brother found: their crazy father, in failing health and with guilty secrets of his own, will not divide the family fortune until both siblings are accounted for. But it isn't just a fortune that's at stake here. Truth itself is up for grabs, as the detective's discoveries seem to challenge everything we think we know about identity, and human nature, and family. As Artisan journeys across the globe to track down the bad twin, he seems to have moved into a mirror-world where friends and enemies have a way of looking very much alike. The P.I. may have his long-awaited chance to put his courage and ideals to the test, but if he doesn't get to the bottom of this case soon, it could very well cost him his life. Troup's long-awaited Bad Twin is a suspenseful novel that touches on many powerful themes, including the consequence of vengeance, the power of redemption, and where to turn when all seems lost. Bad Twin is a work of fiction and all names, characters and incidents are used fictitiously; the author himself is a fictional character.

Texas Outlaw 2020-03-30 James Patterson To Rory Yates being a Texas Ranger is about justice, but all of that

changes when he is brought to a small southern town to help uncover the mysteries behind a local woman's death—only to discover corruption and lies. Texas Ranger Rory Yates is not keen for hero status. But it's unavoidable once his girlfriend, country singer Willow Dawes, writes a song about his bravery. Rory escapes his newfound fame when he's sent to the remote West Texas town of Rio Lobo, a municipality with two stoplights. And now, according to the Chief of Police, it has one too many Texas Rangers. Rio Lobo Detective Ariana Delgado is the one who requested Rory, and the only person who believes a local councilwoman's seemingly accidental death is a murder. Then Rory begins to uncover a tangle of small-town secrets, favors, and lies as crooked as Texas law is straight. To get to the truth before more people die, Rory is forced to take liberties with the investigation. The next ballad of Rory Yates may not be about a hero, but rather an outlaw song.

Cities at War 2020-03-31 Mary Kaldor Warfare in the twenty-first century goes well beyond conventional armies and nation-states. In a world of diffuse conflicts taking place across sprawling cities, war has become fragmented and uneven to match its settings. Yet the analysis of failed states, civil war, and state building rarely considers the city, rather than the country, as the terrain of battle. In Cities at War, Mary Kaldor and Saskia Sassen assemble an international team of scholars to examine cities as sites of contemporary warfare and insecurity. Reflecting Kaldor's expertise on security cultures and Sassen's perspective on cities and their geographies, they develop new insight into how cities and their residents encounter instability and conflict, as well as the ways in which urban forms provide possibilities for countering violence. Through a series of case studies of cities including Baghdad, Bogotá, Ciudad Juarez, Kabul, and Karachi, the book reveals the unequal distribution of insecurity as well as how urban capabilities might offer resistance and hope. Through analyses of how contemporary forms of identity, inequality, and segregation interact with the built environment, Cities at War explains why and how political violence has become increasingly urbanized. It also points toward the capacity of the city to shape a different kind of urban subjectivity that can serve as a foundation for a more peaceful and equitable future.

Making India Great 2020-08-13 Aparna Pande India will be the world's most populous country by 2024 and its third largest economy by 2028. But the size of our population and a sense of historical greatness alone are insufficient to guarantee we will fulfil our ambition to become a global power. Our approach to realize this vision needs more than just planning for economic growth. It requires a shift in attitudes. In Making India Great, Aparna Pande examines the challenges we face in the areas of social, economic, military and foreign policy and strategy. She points to the dichotomy that lies at the heart of the nation: our belief in becoming a global power and the reluctance to implement policies and take actions that would help us achieve that goal. The New India holds all the promise of greatness

many of its citizens dream of. Can it become a reality? The book delves into this question.
