Developed by Lloyd M. Dunn and Douglas M. Dunn, the evaluation is designed to evaluate vocabulary comprehension for Standard American English. It is swift and effortless to administer, conserving valuable time so that focus can be set on applying effective strategies.

The PPVT-4 test material covers a extensive range of vocabulary comprehension levels, extending from preschool through adult age. The assessment problems broadly sample words that portray 20 subject fields (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and household and educational vocabulary.

The evaluation gives two equal versions which hold various vocabulary terms, ensuring that the individual has not “memorized” the test. One version can be employed before intervention to measure test-takers’ vocabulary knowledge and the second version can be employed for re-assessment to assess and document progress. The PPVT-4 also contains a unique Growth Scale Value (GSV) which is sensitive to slight changes over time.
