*Restorative Christ* 2015-01-02 Geoff Broughton The conviction that Jesus is the restorative Christ demands a commitment to the justice he articulated. The justice of the restorative Christ is justice with

reconciliation, justice with repentance, justice with repair, and justice without retaliation. The Gospel of Luke and the book of Acts portray the life, death, and resurrection of Jesus Christ through the radical concept of "enemy-love." In conversation with Dietrich Bonhoeffer (Jesus-for-others), John Howard Yoder (a nonviolent Jesus), Miroslav Volf (an embracing Jesus), and Chris Marshall (a compassionate Jesus), Broughton demonstrates what the restorative Christ means for us today. Following the restorative Christ faithfully involves imaginative disciplines (seeing, remembering, and desiring), conversational disciplines (naming, questioning, and forgiving), and embodied disciplines (absorbing, repairing, and embracing).

Activist Theology 2019-10-01 Roberto Che Espinoza In this searing and personal book, intellectual activist and theologian Robyn Henderson-Espinoza bridges the gap between academia and activism, bringing the wisdom of the streets to the work of scholarship, all for the sake of political liberation and social change for marginalized communities. This is an invitation--a powerful and provocative call-to-action--to academic theologians to the work of social activism through movement building. Activist Theology summons all to take up radical acts of labor that uses scholarship and contemplation to build bridges with difference and make connections of solidarity, rooted in collective action. Featuring poetry by Brittini "Ree Belle" Gray, this rich and interdisciplinary work draws on continental philosophy, queer theology, and critical class theory in accessible and artful ways, using story, personal narratives, and sharp cultural analysis to bring clarity to the methods, sources, and objectives of activist

theology. This is a key step forward in the contemporary conversation about theology and social action and will be essential reading for all those who want to see theology and ethics break new ground in the work of justice, hope, and liberation for all.

Creative Community Organizing 2010-02-15 Si Kahn Privatization has been on the right-wing agenda for years. Health care, schools, Social Security, public lands, the military, prisons--all are considered fair game. Through stories, analysis, impassioned argument--even song lyrics--Si Kahn and Elizabeth Minnich show that corporations are, by their very nature, unable to fulfill effectively what have traditionally been the responsibilities of government. They make a powerful case that the market is not the measure of all things, and that a vital public sector is an indispensable component of a healthy democracy.

Rome 2014-01-07 Jay Crossover Sometimes the wrong choice can be just right . . . Fun and fearless, Cora Lewis knows how to keep her tattooed "bad boy" friends at the Marked in line. But beneath all that flash and sass is a broken heart. Cora won't let herself get burned again. She's waiting to fall in love with the perfect man--a baggage-free, drama-free guy ready for commitment. Then she meets Rome Archer. Rome Archer is as far from perfect as a man can be. He's stubborn, rigid, and bossy. And he's returned from his final tour of duty more than a little broken. Rome's used to filling many roles: big brother, doting son, supersoldier--but none of those fit anymore. Now he's just a man trying to figure out what to do with the rest of his life while keeping the dark demons of war and loss at bay. He would have

been glad to suffer through it alone, until Cora comes sweeping into his life and becomes a blinding flash of color in a sea of gray. Perfect may not be in the cards, but perfectly imperfect could just last forever . . .

Prophetic Activism 2011-06-13 Helene Slessarev-Jamir  
While the links between conservative Christians and politics have been drawn strongly in recent years, coming to embody what many think of as religious activism, the profoundly religious nature of community organizing and other more left-leaning justice work has been largely overlooked. Prophetic Activism is the first broad comparative examination of progressive religious activism in the United States. Set up as a counter-narrative to religious conservatism, the book offers readers a deeper understanding of the richness and diversity of contemporary religious activism. Helene Slessarev-Jamir offers five case studies of major progressive religious justice movements that have their roots in liberative interpretations of Scripture: congregational community organizing; worker justice; immigrant rights work; peace-making and reconciliation; and global anti-poverty and debt relief. Drawing on intensive interviews with activists at all levels of this work—from pastors and congregational leaders to local organizers and the executive directors of the national networks—she uncovers the ways in which they construct an ethical framework for their work. In addition to looking at predominantly Christian organizations, the book also highlights the growth of progressive activism among Jews, Muslims, and Buddhists who are engaged in reinterpreting their religious texts to support new forms of activism. Civic Innovation in America 2001-07-01 Carmen Sirianni  
In this book, two leading experts on community action provide the first scholarly examination of the civic renewal movement that has emerged in the United States in recent decades. Sirianni and Friedland examine civic innovation since the 1960s as social learning in four arenas (community organizing/development, civic environmentalism, community health, and public journalism), and they link local efforts to broader networks and to the development of "public policy for democracy." They also explore the emergence of a movement for civic renewal that builds upon the civic movements in these four arenas. In contrast to some recent studies that stress broad indicators of civic decline, this study analyzes innovation as a long process of social learning within specific institutional and policy domains with complex challenges and cross-currents. It draws upon analytical frameworks of social capital, policy learning, organizational learning, regulatory culture, democratic theory, and social movement theory. The study is based upon interviews with more than 400 innovative practitioners, as well as extensive field observation, case study, action research, and historical analysis.

Yours the Power 2013-01-23 Katie Day Despite shifts in the religious landscape in North America--reflected in the significant increase in those with no religious affiliation and emptier pews across the religious spectrum--there has also been a rise in participation in faith-based grassroots organizations. People of faith are increasingly joining broad-based organizing efforts to seek social change in their communities, regions and country. This unique volume brings together the most current thinking on faith-based organizing from the perspective of theologians, social researchers and practitioners. The current state of faith based organizing is critically presented, as it has evolved from its roots in the mid-twentieth century into a context which raises new questions for its philosophical assumptions, methodology, and very future. This volume serves as a timely resource for those inside the academy as well as religious and organizational leaders wanting to understand and promote faith-based organizing in North America and beyond. Originally published as issue 4 of Volume 6 (2012) of Brill's "International Journal of Public Theology."

Collective Action for Social Change 2011-04-11 A. Schutz Community organizers build solidarity and collective power in fractured communities. They help ordinary people turn their private pain into public action, releasing hidden capacities for leadership and strategy.

In *Collective Action for Social Change*, Aaron Schutz and Marie G. Sandy draw on their extensive experience participating in community organizing activities and teaching courses on the subject to empower novices to think like an organizers.

An Interracial Movement of the Poor 2005-11-01 Jennifer Frost  
Choice Outstanding Academic Title 2002  
Community organizing became an integral part of the activist repertoire of the New Left in the 1960s. Students for a Democratic Society, the organization that came to be seen as synonymous with the white New Left, began community organizing in 1963, hoping to build an interracial movement of the poor through which to demand social and political change. SDS sought nothing less than to abolish poverty and extend democratic participation in America. Over the next five years, organizers established a strong presence in numerous low-income, racially diverse urban neighborhoods in Chicago, Cleveland, Newark, and Boston, as well as other cities. Rejecting the strategies of the old left and labor movement and inspired by the Civil Rights Movement, activists sought to combine a number of single issues into a broader, more powerful coalition. Organizers never limited themselves to today's simple dichotomies of race vs. class or of identity politics vs. economic inequality. They actively synthesized emerging identity politics with class and coalition politics and with a drive for a more participatory welfare state, treating these diverse political approaches as inextricably intertwined. While common wisdom holds that the New Left rejected all state involvement as cooptative at best, Jennifer Frost traces the ways in which New Left and community activists did

in fact put forward a prescriptive, even visionary, alternative to the welfare state. After Students for a Democratic Society and its community organizing unit, the Economic Research and Action Project, disbanded, New Left and community participants went on to apply their strategies and goals to the welfare rights, women's liberation, and the antiwar movements. In her study of activism before the age of identity politics, Frost has given us the first full-fledged history of what was arguably the most innovative community organizing campaign in post-war American history.

Organizing Urban America 2008-01-01 Heidi J. Swarts  
Collective action through organized social movements has long expanded American citizens' rights and liberties. Recently, the Association of Community Organizations for Reform Now (ACORN) has helped win living wage initiatives in more than 130 cities across the country. Likewise, congregation-based groups have established countless health, education, and other social programs at city and state levels. Despite modest budgets, these organizations—different in their approach, but at the same time working for social change—have won billions of dollars in redistributive programs. Looking closely at

this phenomenon, Heidi J. Swarts explores activist groups' cultural, organizational, and political strategies. Focusing on ACORN chapters and church federations in St. Louis, Missouri, and San Jose, California, Swarts demonstrates that congregation-based organizing has developed an innovative cultural strategy, combining democratic deliberation and leadership development to produce a "culture of commitment" among its cross-class, multiracial membership. By contrast, ACORN's more homogeneous low-income class base has a national structure that allows it to coordinate campaigns quickly, and its seasoned staff excels in tactical innovations. By making these often-invisible grassroots organizers evident, Swarts sheds light on factors that constrain or enable other social movements in the United States. Heidi J. Swarts is assistant professor of political science at Rutgers University.

Fins Are Forever 2012-04-01 Tera Lynn Childs Just when things seem to be going swimmingly, Lily Sanderson's human-hating cousin Dosinia is exiled from the mer kingdom of Thalassinia and sent to land, leaving Lily with the huge task of keeping her on the straight and narrow. But why was Dosinia exiled in the first place? And why, why, why is she batting her eyelashes at Brody, Lily's former crush? The Everest Story 2010 Tim Vicary "It is beautiful to look at, hard to reach, and terribly difficult to climb. Winds of 200 kilometres per hour or more scream across

it day and night, while the temperature falls to -20°C or lower. Every year, some who try to climb the highest mountain in the world do not return. But for a century people have been coming to climb Everest - some alone, some in groups, but all with a dream of going to the highest place in the world. This is their story"--Back cover.

Rules for Revolutionaries 2016-11-09 Becky Bond Lessons from the groundbreaking grassroots campaign that helped launch a new political revolution Rules for Revolutionaries is a bold challenge to the political establishment and the "rules" that govern campaign strategy. It tells the story of a breakthrough experiment conducted on the fringes of the Bernie Sanders presidential campaign: A technology-driven team empowered volunteers to build and manage the infrastructure to make seventy-five million calls, launch eight million text messages, and hold more than one-hundred thousand public meetings—in an effort to put Bernie Sanders's insurgent campaign over the top. Bond and Exley, digital iconoclasts who have been reshaping the way politics is practiced in America for two decades, have identified twenty-two rules of "Big Organizing" that can be used to drive social change movements of any kind. And they tell the inside story of one of the most amazing grassroots political campaigns ever run. Fast-paced, provocative, and profound, Rules for Revolutionaries stands as a liberating challenge to the low expectations and small thinking that dominates too many advocacy, non-profit, and campaigning organizations—and points the way forward to a future where political revolution is truly possible.

People Power 2015-04-27 Aaron Schutz Saul Alinsky, according to Time Magazine in 1970, was a "prophet of power to the people," someone who "has possibly antagonized more people . . . than any other living American." People Power introduces the major organizers who adopted and modified Alinsky's vision across the United States: --Fred Ross, Cesar Chavez, Dolores Huerta, and the Community Service Organization and National Farm Workers Association --Nicholas von Hoffman and the Woodlawn Organization --Tom Gaudette and the Northwest Community Organization --Ed Chambers, Richard Harmon, and the Industrial Areas Foundation --Shel Trapp, Gale Cincotta, and National People's Action -- Heather Booth, Midwest Academy, and Citizen Action -- Wade Rathke and ACORN Weaving classic texts with interviews and their own context-setting commentaries, the editors of People Power provide the first comprehensive history of Alinsky-based organizing in the tumultuous period from 1955 to 1980, when the key organizing groups in the United States took form. Many of these selections--previously available only on untranscribed audiotapes or in difficult-to-read mimeograph or Xerox formats--appear in print here for the first time.

The People Shall Rule 2009-10-16 Robert Fisher With the election of a community organizer as president of the United States, the time is right to evaluate the current state of community organizing and the effectiveness of ACORN (Association of Community Organizations for Reform Now). Since 2002, ACORN has been dramatically expanding and raising its national profile; it has also been weathering controversy over its voter registration campaigns and an internal financial scandal. The twelve chapters in this volume present the perspectives of insiders like founder Wade Rathke and leading outside practitioners and academics. The result is a thorough detailing of ACORN's founding and its changing strategies, including vivid accounts and analyses of its campaigns on the living wage, voter turnout, predatory lending, redlining, school reform, and community redevelopment, as well as a critical perspective on ACORN's place in the community organizing landscape.

Smith Updated from the original version published in 1974, this book examines the thought of Martin Luther King, Jr. and the influences that shaped it. Kenneth L. Smith's firsthand knowledge of King's seminary studies provides the background for an incisive analysis of the influences of the Christian tradition.

Blueprint for Revolution 2015-02-03 Srdja Popovic An urgent and accessible handbook for peaceful protesters,

activists, and community organizers—anyone trying to defend their rights, hold their government accountable, or change the world Blueprint for Revolution will teach you how to • make oppression backfire by playing your opponents' strongest card against them • identify the "almighty pillars of power" in order to shift the balance of control • dream big, but start small: learn how to pick battles you can win • listen to what people actually care about in order to incorporate their needs into your revolutionary vision • master the art of compromise to bring together even the most disparate groups • recognize your allies and view your enemies as potential partners • use humor to make yourself heard, defuse potentially violent situations, and "laugh your way to victory" Praise for Blueprint for Revolution "The title is no exaggeration. Otpor's methods . . . have been adopted by democracy movements around the world. The Egyptian opposition used them to topple Hosni Mubarak. In Lebanon, the Serbs helped the Cedar Revolution extricate the country from Syrian control. In Maldives, their methods were the key to overthrowing a dictator who had held power for thirty years. In many other countries, people have used what Canvas teaches to accomplish other political goals, such as fighting corruption or protecting the environment."—The New York Times "A clear, well-constructed, and easily applicable set of principles for any David facing any Goliath (sans slingshot, of course) . . . By the end of Blueprint, the idea that a punch is no match for a punch line feels like anything but a joke."—The Boston Globe "An entertaining primer on the theory and practice of peaceful protest."—The Guardian "With this wonderful book, Srdja Popovic is inspiring ordinary people facing injustice and oppression to use this tool kit to

challenge their oppressors and create something much better. When I was growing up, we dreamed that young people could bring down those who misused their power and create a more just and democratic society. For Srdja Popovic, living in Belgrade in 1998, this same dream was potentially a much more dangerous idea. But with an extraordinarily courageous group of students that formed Otpor!, Srdja used imagination, invention, cunning, and lots of humor to create a movement that not only succeeded in toppling the brutal dictator Slobodan Milošević but has become a blueprint for nonviolent revolution around the world. Srdja rules!”—Peter Gabriel “Blueprint for Revolution is not only a spirited guide to changing the world but a breakthrough in the annals of advice for those who seek justice and democracy. It asks (and not heavy-handedly): As long as you want to change the world, why not do it joyfully? It’s not just funny. It’s seriously funny. No joke.”—Todd Gitlin, author of *The Sixties* and *Occupy Nation*

*Designing and Drafting for Handweavers* 1958 Berta Frey

*Physics* 2000 Eugene Hecht Hecht brings to bear the perspective of both historical concepts and contemporary physics. While the text covers the standard range of material from kinematics to quantum physics, Hecht has carefully limited the math required to basic calculus and very basic vector analysis. He omits obscure, high-level topics while focusing on helping students understand the fundamental concepts of modern-day physics. Calculus and vector analysis are both painstakingly developed as tools, and then used only insofar as they illuminate the physics. Hecht deliberately paces comfortably, justifies where each

topic is going, stops to take stock of where the students have been, and points out the marvelous unity of the discourse. Informed by a 20th century perspective and a commitment to providing a conceptual overview of the discipline, Hecht's *CALCULUS* 2/e keeps students involved and focused.

*In the Words of Desmond Tutu* 2011-01-13 Desmond Tutu *In the Words of Desmond Tutu* is a collection of some of Nobel Peace Prize laureate Archbishop Desmond Mpilo Tutu’s most famous and inspiring quotes and it conveys the intelligence, dignity, steadfastness and much admired wit with which he goes about his work. In doing so it shows how he has come to symbolise and indeed mould a growing movement for global justice. The words collected here promise to provide inspiration in confronting challenges of discrimination and moral uncertainty which we all face, individually or collectively.

Praise for Nicole Jordan and *Lover Be Mine* "[An] engagingly, well-plotted Regency that is worthy of the Bard and is the latest in Jordan's 'Wilde-ly' entertaining *Legendary Lovers* series featuring the scandalous Wilde cousins."—Library Journal "The hero and heroine in Jordan's latest stylishly written romance have sexual chemistry to burn, making *Lover Be Mine* the perfect choice for readers who crave Regency-set historicals that sizzle with sensuality."—Booklist "Nicole Jordan's new fairy tale series will steal your heart."—Cathy Maxwell
