The Peabody Picture Vocabulary Test Fourth Edition (PPVT-4) is a well-respected vocabulary test that has been in practice for almost 50 years. Developed by Lloyd M. Dunn and Douglas M. Dunn, the test is crafted to evaluate receptive vocabulary for American English. It is quick and simple to conduct, saving precious time so that concentration can be placed on implementing successful strategies.

The PPVT-4 evaluation material includes a broad array of vocabulary comprehension levels, extending from preschool through adulthood. The assessment problems broadly include words that portray 20 subject domains (e.g., actions, vegetables, tools), parts of speech (nouns, verbs, attributes), and household and educational vocabulary.

The evaluation provides two identical versions which hold distinct vocabulary words, making sure that the person has not “learned” the evaluation. One form can be employed ahead of intervention implementation to assess individuals’ vocabulary understanding and the second edition can be utilized for re-evaluation to assess and note improvement. The PPVT-4 also contains a special Growth Scale Value (GSV) which is reactive to minor changes in time.
