The Science of Happiness

Happiness is one of the most sought-after and elusive goals of human existence. We all want to be happy, but how do we achieve it? What are the factors that influence our happiness? How can we measure it? How can we enhance it? This book aims to answer these questions, by presenting the science of happiness. It will introduce the main theories and models of happiness, the methods and tools of measuring and assessing happiness, the findings and discoveries of happiness research, and the applications and interventions of happiness promotion. It will also provide practical tips and advice for readers, on how to increase their happiness and well-being, based on scientific evidence and principles.

The Mystery of the Missing Diamond

It was a dark and stormy night. The rain was pouring down, and the wind was howling. In the middle of the city, there was a museum, where a priceless diamond was on display. The diamond was called the Star of Africa, and it was the largest and most beautiful diamond in the world. It was guarded by a high-tech security system, and a team of armed guards. No one could steal it, or so they thought. But someone did. Someone managed to bypass the security, to evade the guards, to break the glass, and to take the diamond. And no one saw them, no one heard them, no one knew who they were. They left no trace, no clue, no evidence. They vanished into the night, with the Star of Africa. And the mystery of the missing diamond began.
