This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations.

Of the Five Wounds of the Holy Church 1883 Antonio Rosmini

Fortuny 1909

Post-Structuralism and the Question of History 1989-05-11 Derek Attridge This collection of essays focuses on the relation between post-structuralist and historical literary theory.

Alternative Modernity 1995-11-07 Andrew Feenberg In this new collection of essays, Andrew Feenberg argues that conflicts over the design and organization of the technical systems that structure our society shape deep choices for the future. A pioneer in the philosophy of technology, Feenberg demonstrates the continuing vitality of the critical theory of the Frankfurt School. He calls into question the anti-technological stance commonly associated with its theoretical legacy and argues that technology contains potentialities that could be developed as the basis for an alternative form of modern society. Feenberg's critical reflections on the ideas of Jürgen Habermas, Herbert Marcuse, Jean-François Lyotard, and Kitaro Nishida shed new light on the philosophical study of technology and modernity. He contests the prevalent conception of technology as an unstoppable force responsive only to its own internal dynamic and politicizes the discussion of its social and cultural construction. This argument is substantiated in a series of compelling and well-grounded case studies.

Through his exploration of science fiction and film, AIDS research, the French experience with the "information superhighway," and the Japanese reception of Western values, he demonstrates how technology, when subjected to public pressure and debate, can incorporate ethical and aesthetic values.

The Forgotten Revolution 2013-12-01 Lucio Russo The period from the late fourth to the late second century B. C. witnessed, in Greek-speaking countries, an explosion of objective knowledge about the external world. While Greek culture had reached great heights in art, literature and philosophy already in the earlier classical era, it is in the so-called Hellenistic period that we see for the first time – anywhere in the world – the appearance of science as we understand it now: not an accumulation of facts or philosophically based speculations, but an organized effort to model nature and apply such models, or scientific theories in a sense we will make precise, to the solution of practical problems and to a growing understanding of nature. We owe this new approach to scientists such as Archimedes, Euclid, Eratosthenes and many others less familiar today but no less remarkable. Yet, not long after this golden period, much of this extraordinary development had been reversed. Rome borrowed what it was capable of from the Greeks and kept it for a little while yet, but created very little science of its own. Europe was soon smothered in the obscurantism and stasis that blocked most avenues of intellectual development for a thousand years – until, as is well known, the rediscovery of ancient culture in its fullness paved the way to the modern age.

Pirro Ligorio's Worlds 2018-12-24 A reconsideration of the manifold interests of the central and controversial figure Pirro Ligorio, an ambiguous antagonist of the canon embodied by Michelangelo and one of the most fascinating and learned antiquarians in the entourage of Cardinal Alessandro Farnese.

Splendide Mendax 2016-02-25 Edmund P. Cueva Many new and fruitful avenues of investigation open up when scholars consider forgery as a creative act rather than a crime. We invited authors to contribute work without imposing any restrictions beyond a willingness to consider new approaches to the subject of ancient fakes and forgeries.

Sallust's Bellum Catilinae 2007-01-27 J. T. Ramsey In his Bellum Catilinae, C. Sallustius Crispus or Sallust (86-35/34 B.C.) recounts the dramatic events of 63 B.C., when a disgruntled and impoverished nobleman, L. Sergius Catilina, turned to armed revolution after two electoral defeats. Among his followers were a group of heavily indebted young aristocrats, the Roman poor, and a military force in the north of Italy. With his trademark archaizing style, Sallust skillfully captures the drama of the times, including an early morning attempt to assassinate the consul Cicero and two emotionally charged speeches, by Julius Caesar and Cato the Younger, in a senatorial debate over the fate of the arrested conspirators. Sallust wrote while the Roman Republic was being transformed into an empire during the turbulent first century B.C. The Bellum Catilinae is well-suited for second-year or advanced Latin study and provides a fitting introduction to the richness of Latin literature, while also pointing the way to a critical investigation of late-Republican government and historiography. Ramsey's introduction

and commentary bring the text to life for Latin students. This new edition (updated since the 2007 printing) includes two maps and two city plans, an updated and now annotated bibliography, a list of divergences from the 1991 Oxford Classical Text of Sallust, and revisions in the introduction and commentary.

Mr Scobie's Riddle 2010-03-01 Elizabeth Jolley 'Startlingly good... It divines riddles of mortality.' The Age Mr Scobie's arrival at the nursing home of St Christopher and St Jude – and descent into the clutches of Matron Hyacinth Price – is accidental. Adrift in his own memories but preserving a gentle politesse, Mr Scobie stands apart from the others. For long-term resident and eccentric, Miss Hailey, he represents a kindred spirit; for Matron Price – a lady of questionable practices – the latest victim. This bleakly comic investigation of old age, exile and displacement shows Elizabeth Jolley at her finest. It is written with wry humour, melancholy and great warmth. Winner of The Age Book of the Year 1993.

Pirro Ligorio: The Renaissance Artist, Architect, and Antiquarian The first comprehensive account of this Italian architect and antiquarian's life and multifaceted career.

Partisan Diary 2014 Ada Gobetti Ada Gobetti's Partisan Diary is both diary and memoir. From the German entry into Turin on 10 September 1943 to the liberation of the city on 28 April 1945, Gobetti recorded an almost daily account of events, sentiments, and personalities, in a cryptic English only she could understand. Italian senator and philosopher Benedetto Croce encouraged Ada to convert her notes into a book. Published by the Italian publisher Giulio Einaudi in 1956, it won the Premio Prato, an annual prize for a work inspired by the Italian Resistance (Resistenza). From a political and military point of view, the Partisan Diary provides firsthand knowledge of how the partisans in Piedmont fought, what obstacles they encountered, and who joined the struggle against the Nazis and the Fascists. The mountainous terrain and long winters of the Alpine regions (the site of many of their battles) and the ever-present threat of reprisals by German occupiers and their fascist partners exacerbated problems of organization among the various partisan groups. So arduous was their fight, that key military events--Italy's declaration of war on Germany, the fall of Rome, and the Allied landings on D-Day --appear in the diary as remote and almost unrelated incidents. Ada Gobetti writes of the heartbreak of mothers who lost their sons or watched them leave on dangerous missions of sabotage, relating it to worries about her own son Paolo. She reflects on the relationship between anti-fascist thought of the 1920s, in particular the ideas of her husband, Piero Gobetti, and the Italian resistance movement (Resistenza) in which she and her son were participating. While the Resistenza represented a culmination of more than twenty years of anti-fascist activity for Ada, it also helped illuminate the exceptional talents, needs, and rights of Italian women, more than one hundred thousand of whom participated.

The Illustrated Virago Book of Women Travellers 2006-12-14 Mary Morris Women move through the world differently from men. The constraints and perils, the perceptions and complex emotions women journey with are different. For many women, the inner landscape is as important as the outer. This does not mean that the woman traveller is not politically aware, historically astute or in touch with the customs and language of the place, but it does mean that a woman cannot travel and not be aware of her body and the limitations her sex presents. This illustrated edition of The Virago Book of Women Travellers captures 300 years of wanderlust. Some of the women are observers of the world in which they wander and others are more active. Often they are storytellers, weaving tales about the people they encounter. Whether it is curiosity about the world or escape from personal tragedy, these women approached their journeys with wit, intelligence, compassion and empathy for the lives of others.

Ancient Germanic Warriors 2004-08-02 Michael P. Speidel Presenting a range of evidence for these diverse styles, from Roman art to early medieval bracteate amulets, and from classical texts to Beowulf, the Edda and Icelandic sagas, Professor Speidel here details seventeen different Germanic warriors styles, including berserks, wolf-warriors, club-wielders, long-hairs, ghost warriors and horse-stabbers, and how they indicate an unbroken continuity of customs, beliefs and battle-field tactics. Ancient Germanic warriors played a decisive role in historical events from 200 BC, when Germanic culture first became identifiable, to AD 1000 when Christianity swept through the Nordic countries. Arising from beliefs and states of mind, a variety of warrior styles manifested themselves in differences of dress, weaponry and fighting technique. Fully illustrated with over fifty photographs, this vivid and fascinating survey adds a colourful new dimension to our understanding of the history of Europe.

Classics in Progress 2006-01-26 T. P. Wiseman The study of Greco-Roman civilisation is as exciting and innovative today as it has ever been. This intriguing

collection of essays by contemporary classicists reveals new discoveries, new interpretations and new ways of exploring the experiences of the ancient world. Through one and a half millennia of literature, politics, philosophy, law, religion and art, the classical world formed the origin of western culture and thought. This book emphasises the many ways in which it continues to engage with contemporary life. Offering a wide variety of authorial style, the chapters range in subject matter from contemporary poets' exploitation of Greek and Latin authors, via newly discovered literary texts and art works, to modern arguments about ancient democracy and slavery, and close readings of the great poets and philosophers of antiquity. This engaging book reflects the current rejuvenation of classical studies and will fascinate anyone with an interest in western history.

The Grandeur That Was Rome 2020-08-14 J. C. Stobart
Reproduction of the original: The Grandeur That Was Rome by J.C. Stobart

The Shawl 2021-04-13 Cynthia Ozick
From the winner of the National Book Critics Circle Award comes a story about the Holocaust that "burns itself into the reader's imagination with almost surreal powers" (The New York Times). "Read this great little book of Cynthia Ozick's: It contains dazzling staggering pages filled with sadness and truth." —Elie Wiesel, Chicago Tribune
A devastating vision of the Holocaust and the unfillable emptiness it left in the lives of those who passed through it.

Pio IX (1846-1850) 1974 Giacomo Martina
Il primo volume tratta dei primi anni del pontificato di Pio IX, segnati dalla crisi di fondo che investe gli stati italiani. Dopo l'iniziale coinvolgimento del papa negli entusiasmi travolgenti del '48, si passa ad una politica di incertezze e ad una certa involuzione dello stesso pontefice. Il secondo volume analizza lo stato d'animo del pontefice dopo gli avvenimenti del biennio 59-61 e le sue azioni più importanti, come la definizione dell'Immacolata Concezione e la condanna degli errori moderni (Sillabo e Quanta Cura). Nel terzo volume l'autore studia il comportamento del papa durante il Vaticano I e tenta un bilancio teologico e storico del concilio. Infine, si analizza la chiusura del suo pontificato, nel clima di ostilità tra chiesa e mondo civile.

Hebrew Manuscripts

Heidegger and Marcuse 2005 Andrew Feenberg
First Published in 2005. Routledge is an imprint of Taylor & Francis, an informa company.

Domenico Scandella
Known as Menocchio 1996 Domenico Scandella

Men and Times of the Revolution 2023-07-18 Watson Elkanah
Men and Times of the Revolution is a fascinating account of the American Revolution from the perspective of one of its most important participants. Elkanah Watson was a prominent businessman and political figure who played a key role in the economic and political life of the young nation. This book provides a unique perspective on the revolution, exploring its impact on the people and communities who lived through it. It also sheds light on the complex social and economic forces that shaped the country during this pivotal period in American history. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Uneasy Neighbors 2010 Sharon Pardo
This book offers an analysis of the dynamics of Israeli-European relations and discusses significant developments in that relationship from the late 1950s through to the present day. The emphasis is placed on five broad themes that address different dimensions of the relationship:

- 1) Israeli-E.U. relations and the Israeli-Palestinian peace process;
- 2) Israeli-E.U. relations in a multilateral context;
- 3) the bilateral nature of Israeli-E.U. relations;
- 4) Israeli (mis)perceptions of the E.U.;
- 5) the future of Israeli-E.U. relations.

Roman Civilization 1951 Naphtali Lewis

The Smile of the Unknown Mariner 1994 Vincenzo Consolo
Joseph Farrell translates this haunting tapestry of fiction and fact, this interplay of texts and voices: the reader assembles the tale, infers the connections and is drawn into the action even as the Baron is, with the confusion of cultural and political loyalties resolving at last in the most basic loyalty: to the cause of the used, exploited and oppressed.

Marcuse 1988 Robert Pippin
Distinguished scholars—Jurgen Habermas, Claus Offe, Douglas Kellner, and Martin Jay, among others—draw upon historical, theoretical, and biographical information to assess Marcuse's philosophy, from its grounding in classical German idealism, through the break with Heidegger, to his role in the American counterculture of the sixties and seventies. Indispensable for anyone interested in an in-depth understanding of one of the most burning issues of our time: the relation of critical theory to social action.

The Critique of Power 1993-10-04 Axel Honneth
In this rich interpretation of the history of critical theory, Axel Honneth clarifies critical theory's central problems and emphasizes the social factors that should provide it with a normative and practical orientation. Axel Honneth's Critique of Power is a rich interpretation of the history of critical theory, which clarifies its central problems and emphasizes the "social" factors that should provide that theory with a normative and practical orientation. Honneth focuses on the dialog between French and German social theory that was beginning at the time of Michel Foucault's death. It traces the common roots of the work of Foucault and Jürgen Habermas to a basic text of the last generation of critical theorists—Max Horkheimer and Theodor Adorno's Dialectic of Enlightenment—and draws from this connection the outline of a program that might unite and surpass their seemingly irreconcilable methods of critiquing power structures. In doing so, Honneth provides a constructive and nonpolemical framework for comparisons between the two theorists. And he presents a novel interpretation of Foucault's analysis of social systems. Honneth traces the internal contradictions in critical theory through an analysis of Horkheimer's early programmatic writings, the Dialectic of Enlightenment, and Adorno's later social-theoretical writings. He shows how Habermas and Foucault in their distinctive ways reinserted the social world into critical theory but argues that neither operation has been wholly successful. His cogent analysis redirects critical social theory in ways that can draw on the strengths and avoid the weaknesses of the two approaches.

The New Comparative Mythology 1973 C. Scott Littleton

Between Culture and Politics 1994-06-14 Ron Eyerman
In this book Ron Eyerman examines the role of intellectuals in the new modern order, considering the impact of recent social changes on the nature of contemporary intellectual culture.

Education Through Work 1993 Célestin Freinet

The Criterion 2002 Jason Harding
In this detailed study of literary culture in the inter-war period, Jason Harding examines the standing of T. S. Eliot's journal the Criterion in relation to other literary periodicals and, beyond that, to the larger cultural networks of the time. The Criterion may at first sight seem a well-studied publication, often dismissed as predictably conservative, even proto-Fascist. However, through his examination of insufficiently known archive material and interviews with living witnesses to the period, Harding significantly alters our understanding of the journal and of Eliot's role as editor. More than that, by carefully resituating the journal in its relations - of both competition and co-operation - with a range of other literary periodicals (for the most part little-studied themselves), he shows himself an authoritative and discriminating guide to the often complex network within which Eliot worked. The Criterion: Cultural Politics and Periodical Networks in Inter-War Britain defends the journal against charges of Fascism and anti-Semitism: it is an invaluable book for scholars of Eliot and an original and incisive exploration of difficult areas of literary-cultural exchange.

The Science of Synthesis 2011-05-18 Debora Hammond
Debora Hammond's The Science of Synthesis explores the development of general systems theory and the individuals who gathered together around that idea to form the Society for General Systems Research. In examining the life and work of the SGSR's five founding members—Ludwig von Bertalanffy, Kenneth Boulding, Ralph Gerard, James Grier Miller, and Anatol Rapoport—Hammond traces the emergence of systems ideas across a broad range of disciplines in the mid-twentieth century. Both metaphor and framework, the systems concept as articulated by its earliest proponents highlights relationship and interconnectedness among the biological, ecological, social, psychological, and technological dimensions of our increasingly complex lives. Seeking to transcend the reductionism and mechanism of classical science—which they saw as limited by its focus on the discrete, component parts of reality—the general systems community hoped to complement this analytic approach with a more holistic orientation. As one of many systems traditions, the general systems group was specifically interested in fostering collaboration and integration among different disciplinary perspectives, with an emphasis on nurturing more participatory and truly democratic forms of social organization. The Science of Synthesis documents a unique episode in the history of modern thought, one that remains relevant today. This book will be of interest to historians of science, system thinkers, scholars and practitioners in the social sciences, management, organization development and related fields, as well as the general reader interested in the history of ideas that have shaped critical developments in the second half of the twentieth century.

The Origins of the Inquisition in Fifteenth Century Spain 2001 Benzion Netanyahu The Spanish Inquisition remains a fearful symbol of state terror. Its principal target was the conversos, descendants of Spanish Jews who had been forced to convert to Christianity some three generations earlier. Since thousands of them confessed to charges of practicing Judaism in secret, historians have long understood the Inquisition as an attempt to suppress the Jews of Spain. In this magisterial reexamination of the origins of the Inquisition, Netanyahu argues for a different view: that the conversos were in fact almost all genuine Christians who were persecuted for political ends. The Inquisition's attacks not only on the conversos' religious beliefs but also on their "impure blood" gave birth to an anti-Semitism based on race that would have terrible consequences for centuries to come. This book has become essential reading and an indispensable reference book for both the interested layman and the scholar of history and religion.

Pots & Plays 2007-10-15 Oliver Taplin This interdisciplinary study opens up a fascinating interaction between art and theater. It shows how the mythological vase-paintings of fourth-century B.C. Greeks, especially those settled in southern Italy, are more meaningful for those who had seen the myths enacted in the popular new medium of tragedy. Of some 300 relevant vases, 109 are reproduced and accompanied by a picture-by-picture discussion. This book supplies a rich and unprecedented resource from a neglected treasury of painting.

Eye of the Needle 2017-10-17 Ken Follett The worldwide phenomenon from the bestselling author of The Pillars of the Earth, World Without End, A Column of Fire, and The Evening and the Morning His code name was "The Needle." He was a German aristocrat of extraordinary intelligence—a master spy with a legacy of violence in his blood, and the object of the most desperate manhunt in history. . . . But his fate lay in the hands of a young and vulnerable English woman, whose loyalty, if swayed, would assure his freedom—and win the war for the Nazis. . . .

Popular Intellectuals and Social Movements 2004 Michiel Baud All forms of popular protest include a category of 'popular intellectuals', who reflect on social reality, speak in the name of popular classes and who articulate ideas that inspire collective action. This volume focuses on these individuals from an original angle: it looks at the experiences of popular intellectuals in non-western societies, who operate within social-movement networks that link local, regional, and international arenas, and connect to a global flow of ideas. Eight case studies on different societies in twentieth-century Asia, Africa, and Latin America highlight specific activist intellectuals.

The Pauline Chapel 2013 Maurizio De Luca This magnificently illustrated book, The Pauline Chapel, the private chapel of the Apostolic Palaces, built in 1537, accurately describes all the phases of the complex restoration works, providing a more advanced understanding of its historical, iconographic and stylistic value. An appendix dedicated to the liturgical furnishings of the Pauline Chapel concludes the volume. Numerous images and tipped-in color plates, linked to the essays, illustrate the development of the restoration works through images showing the chapel "before" and "after" intervention.

Shirtlifter #1 2006-06-01 Steve MacIsaac Winner of Prism Comics first annual Queer Press Grant, SHIRTLIFTER is a series of queer-themed short fiction comics from STICKY artist Steve MacIsaac. This first issue features the self-contained story "Unmade Beds." Set amidst the gay expatriate culture of Tokyo, the comic is a quiet and lyrical examination of cross-cultural adjustment and sexual parity. This new edition features re-inked, and in some cases redrawn, artwork and 8 pages of bonus material including alternate pages, sketches, and a feature on the evolution of a comics panel from inspiration to completion. 52 pages, color.

Studies in Intellectual History 2020-02-03 George Boas This volume gathers work by Harold Cherniss, George Boas, Ludwig Edelstein, Leo Spitzer, and others.

MARVEL's Avengers: Infinity War: The Cosmic Quest Volume Two 2018-11-27 Brandon T. Snider Space. Reality. Soul. A deadly threat emerged from the cosmos—and it was fulfilled. In the wake of Thanos's horrifying success, the people of Earth are left reeling in despair and confusion. Without any logical explanation for the blip-out event, those remaining must pick up the pieces. Doctor Erik Selvig and his associate Darcy Lewis are determined to find and understand the cause of the devastation. With a team of friends both old and new, they embark on a pursuit of knowledge, eager to discover the links between their own pasts and the stones that decimated half of humanity—the Infinity Stones. Little do they know that a new foe who threatens to destroy them all is looming...

Nelson Mandela stands as one of the most esteemed leaders of the 20th century. His life journey began on July 18, 1918, in the tranquil village of Mvezo, South Africa. Born into the Thembu royal family, he was bestowed with the name Rolihlahla, meaning "troublemaker" in Xhosa. Mandelas upbringing unfolded amidst a backdrop of racial injustice, where he witnessed firsthand the unfair practices inflicted upon the Black majority by the ruling white minority government. Driven by a deep sense of fairness, he dedicated his life to the struggle for liberation and fairness, joining the African National Congress (ANC), a political organization dedicated to dismantling apartheid, the system of racial segregation that plagued South Africa. Emerging as a charismatic lawyer, activist, and leader, Mandela faced numerous arrests and imprisonments for his unwavering resistance and defiance. For 27 years, he endured the harsh conditions and isolation of Robben Island, a notorious prison island, where his vision never wavered. His unwavering commitment to justice continued to inspire and mobilize his people and the world at large. In 1990, he walked out of prison, free at last, and in 1994, he made history as South Africas first democratically elected Black president. Mandelas leadership ushered in a period of reconciliation, transforming South Africa into a nation of justice. His global impact extended far beyond South Africas borders, as he became a beacon of human rights, recognized for his unwavering dedication to these ideals. In 1993, he was awarded the Nobel Peace Prize, alongside numerous other accolades and honors. On December 5, 2013, at the age of 95, Mandela passed away, leaving behind a legacy of strength, wisdom, and kindness. Revered as the father of the nation and one of historys greatest heroes, Mandelas legacy continues to inspire generations to come.
