With a dry wit and a clean line, Delisle makes the most of his time spent in Asia overseeing outsourced production for a French animation company. By translating his fish-out-of-water experiences into accessible graphic novels, Delisle skillfully notes the differences between Western and Eastern cultures, while also conveying his compassion for the simple freedoms that escape his colleagues in the Communist state.

Steve talks candidly about his early life, his time with Genesis, and in particular his personal relationships with the other four band members, with great insight into the daily goings on of this major rock band. Naturally A Genesis In My Bed also regales stories of Steve's career since leaving Genesis and the many different journeys that it has taken him on. With his flair for the creative, and a great deal of levity, A Genesis In My Bed is a riveting read.

In the tradition of Raymond Carver, Rock Springs is a masterpiece of taut narration, cleanly chiseled prose, and empathy so generous that it feels like a kind of grace. A new war may be about to break out in this city of cutthroat bargaining, ruthless betrayal, and brutal revenge. Saviano continues the story of the disillusioned boys of Forcella, the paranzini ready to give and receive kisses that leave a taste of blood. Saviano's Gomorrah was a worldwide sensation, and The Piranhas, called 'raw and shocking' by the New York Times Book Review, captured readers with its tale of raw criminal ambition, told with 'openhearted rashness' (Elena Ferrante). The Boundaries of Europe
2015-04-24 Pietro Rossi
Europe's boundaries have mainly been shaped by cultural, religious, and political conceptions rather than by geography. This volume of bilingual essays from renowned European scholars outlines the transformation of Europe's boundaries from the fall of the ancient world to the age of decolonization, or the end of the explicit endeavor to "Europeanize" the world. From the decline of the Roman Empire to the polycentrism of today's world, the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from "mare nostrum" to a frontier between nations. Europe and the Atlantic are also analyzed as boundaries in the context of exploration, migratory movements, cultural exchanges, and war. The Boundaries of Europe, edited by Pietro Rossi, is the first installment in the ALLEA book series Discourses on Intellectual Europe, which seeks to explore the question of an intrinsic or quintessential European identity in light of the rising skepticism towards Europe as an integrated cultural and intellectual region.

WHEN ALL HOPE IS LOST?
In the middle of the night in 1997, Doctors Without Borders administrator Christophe Andre was kidnapped by armed men and taken away to an unknown destination in the Caucasus region. For three months, Andre was kept handcuffed in solitary confinement, with little to survive on and almost no contact with the outside world. Close to twenty years later, award-winning cartoonist Guy Delisle (Pyongyang, Jerusalem, Shenzhen, Burma Chronicles) recounts Andre's harrowing experience in Hostage, a book that attests to the power of one man's determination in the face of a hopeless situation. Marking a departure from the author's celebrated first-person travelogues, Delisle tells the story of his

the perspective of the titular captive, who strives to keep his mind alert as desperation starts to set in. Working in a pared down style with muted colour washes, Delisle conveys the psychological effects of solitary confinement, compelling us to ask ourselves some difficult questions regarding the repercussions of negotiating with kidnappers and what it really means to be free. Thoughtful, intense, and moving, Hostage takes a profound look at what drives our will to survive in the darkest of moments.

It addresses alienation as a social condition of estrangement caused by the capitalist system, a pathological state of the mind and an ontological condition of subjectivity.

Contributors to the edited volume explore the pervasive influence this multifarious concept had on literature, cinema, architecture, and photography in Italy. The collection also theoretically reassesses the notion of alienation from a novel perspective, employing Italy as a paradigmatic case study in its pioneering role in the revolution of mental health care and factory work during these two decades.

The Imagery of Interior Spaces 2019 On the unstable boundaries between "interior" and "exterior," "private" and "public," and always in some way relating to a "beyond," the imagery of interior space in literature reveals itself as an often disruptive code of subjectivity and of modernity. The Translation of Children's Literature
2006-01-01 Gillian Lathey

This book not only provides a synthetic account of what has been achieved in the field, but also makes us fully aware of all the textual, visual and cultural complexities that translating for children entails.... Students of this subject have had problems in finding a book that attempted an up-to-date and comprehensive review of the field. Gillian Lathey's Reader does just this. upbringing unfolded amidst a backdrop of racial inequality, where he witnessed firsthand the unjust treatment inflicted upon the Black majority by the ruling white minority government. Driven by a deep sense of equality, he dedicated his life to the struggle for freedom and equality, joining the African National Congress (ANC), a political organization dedicated to dismantling apartheid, the system of racial discrimination that plagued South Africa. Emerging as a charismatic lawyer, activist, and leader, Mandela faced numerous arrests and imprisonments for his unwavering resistance and defiance. Mandelas leadership ushered in a period of reconciliation, transforming South Africa into a nation of equal opportunity. His global impact extended far beyond South Africa's borders, as he became a beacon of peace, recognized for his unwavering dedication to these ideals.
