Mulan: Before the Sword Grace Lin 2020-04-07 Family is important to Hua Mulan—even if her parents don't understand why she would rather ride her horse, Black Wind, than weave, or how her notorious clumsiness can be so different from the graceful demeanor of her younger sister, Xiu. Identifying Patterns of Emotional and Behavioural Problems in Preschool children Berit M. Gustafsson 2018-12-20 Mental health problems often debut in early childhood and may last throughout adulthood, thereby making early detection and intervention especially important. The overarching aim of the present thesis was to identify patterns of emotional and behavioural problems indicating mental health problems in preschool children. To facilitate the detection of such problems early on, one available screening instrument Strengths and Difficulties Questionnaire (SDQ), was validated. The development and interaction of externalising problems in preschool children were studied over time. Functioning and behaviour and their relations to protective and risk indicators in both environmental and personal characteristics were explored. The long-term goal was to increase knowledge about early identification of emotional and behavioural problems in preschool children in order to facilitate early intervention. In Study I (n=690), the subscales Hyperactivity and Conduct Problems were shown to be valid for children in the age group 1–3 years. A reasonable level of validity was found for the age group 4–5 years when using the original SDQ four-factor solution. The preschool teachers considered most of the SDQ items relevant and possible to rate. Based on the results of Study II (n=815), a score of ?12 on the SDQ Total Problems Scale is recommended as a cut-off for Swedish preschool children. There were significant differences between boys and girls on all subscales except for the Emotional subscale. The Swedish norms for SDQ are to a large extent similar to findings from other European countries. Study III (n=195) showed that preschool children's conduct

problems decrease over time. Children exhibiting more initial hyperactivity (at year 1) have less reduction in conduct problems over time, i.e. the more hyperactivity early in life, the more conduct problems at year 3. In Study IV (n=197), children high in engagement and social interaction function well over time, even in the presence of hyperactivity, while children with low engagement and interaction alone or in combination with hyperactivity and conduct problems continue to have problems. Stability was related to the existence of a larger number of protective or risk indicators respectively. Taken together, this thesis has shown that the SDQ can be used to identify preschool children at risk of developing mental health problems later in life.

An Anglo-Norman Reader Jane Bliss 2018-02-08 This book is an anthology with a difference. It presents a distinctive variety of Anglo-Norman works, beginning in the twelfth century and ending in the nineteenth, covering a broad range of genres and writers, introduced in a lively and thought-provoking way. Facing-page translations, into accessible and engaging modern English, are provided throughout, bringing these texts to life for a contemporary audience. The collection offers a selection of fascinating passages, and whole texts, many of which are not anthologised or translated anywhere else. It explores little-known byways of Arthurian legend and stories of real-life crime and punishment; women's voices tell history, write letters, berate pagans; advice is offered on how to win friends and influence people, how to cure people's ailments and how to keep clear of the law; and stories from the Bible are retold with commentary, together with guidance on prayer and confession. Each text is introduced and elucidated with notes and full references, and the material is divided into three main sections: Story (a variety of narrative forms), Miscellany (including letters, law and medicine, and other non-fiction), and Religious (saints' lives, sermons, Bible commentary, and prayers). Passages in one genre have been chosen so as to reflect themes or stories that appear in another, so that the book can be enjoyed as a collection or used as a resource to dip into for selected texts. This anthology is essential reading for students and scholars of Anglo-Norman and medieval literature and culture. Wide-ranging and fully referenced, it can be used as a springboard for further study or relished in its own right by readers interested to discover Anglo-Norman literature that was written to amuse, instruct, entertain, or admonish medieval audiences.

Utopia Thomas More 2019-07-31 One of the most influential books in the Western philosophical and literary tradition, Sir Thomas More's Utopia appeared in 1516. The formidable Henry VIII had recently assumed the throne in England, and conflicting ideas about religion were fuelling the Reformation throughout Europe. A scathing satire, Utopia was hugely successful and vaulted More to the forefront of the growing humanist movement. The story of Utopia is told by a mysterious sailor named Raphael Hythloday, who travels to the New World with the Italian explorer Vespucci and remains at a fort built at the farthest point reached. From there, he discovers a strange island kingdom named Utopia, a pagan and communist city-state in which language, social customs, dress, architecture, and education are identical throughout the country's fifty-four cities. The Utopians have eliminated wealth, the nobility, and currency. Labour and goods are distributed equally and property is held in common. And there are no monasteries, alehouses, or academies to tempt a person to withdraw from society. Given More's satiric leanings and eventual execution, is Utopia simply an attack on Europe's wickedness? Or is it a philosophical tract extolling the ideal way to live? Ultimately, Utopia navigates a course between the desire to create perfection and the pragmatic understanding that perfection, given the fallibility of mankind, is impossible.

Pan-African Banks 2015 Pan-African banks are expanding rapidly across the continent, creating cross-border networks, and having a systemic presence in the banking sectors of many Sub-Saharan African countries. These banking groups are fostering financial development and economic integration, stimulating competition and efficiency, introducing product innovation and modern management and information systems, and bringing higher skills and expertise to host countries. At the same time, the rise of pan-African banks presents new challenges for regulators and supervisors. As networks expand, new channels for transmission of macro-financial risks and spillovers across home and host countries may emerge. To ensure that the gains from cross border banking are sustained and avoid raising financial stability risks, enhanced cross-border cooperation on regulatory and supervisory oversight is needed, in particular to support effective supervision on a consolidated basis. This paper takes stock of the development of pan-African banking groups; identifies regulatory, supervisory and resolution gaps; and suggests how the IMF can help the authorities address the related challenges.

From Song to Book Sylvia Huot 2019-05-15 As the visual representation of an essentially oral text, Sylvia Huot points out, the medieval illuminated manuscript has a theatrical, performative quality. She perceives the tension between implied oral performance and real visual artifact as a fundamental aspect of thirteenth- and fourteenth-century poetics. In this generously illustrated volume, Huot examines manuscript texts both from the performance-oriented lyric tradition of chanson courtoise, or courtly love lyric, and from the self-consciously literary tradition of Old French narrative poetry. She demonstrates that the evolution of the lyrical romance and dit, narrative poems which incorporate thematic and rhetorical elements of the lyric, was responsible for a progressive redefinition of lyric poetry as a written medium and the emergence of an explicitly written literary tradition uniting lyric and narrative poetics. Huot first investigates the nature of the vernacular book in the thirteenth and fourteenth centuries, analyzing organization, page layout, rubrication, and illumination in a series of manuscripts. She then describes the relationship between poetics and manuscript format in specific texts, including works by widely read medieval authors such as Guillaume de Lorris, Jean de Meun, and Guillaume de Machaut, as well as by lesser-known writers including Nicole de Margival and Watriquet de Couvin. Huot focuses on the writers' characteristic modifications of lyric poetics; their use of writing and performance as theme; their treatment of the poet as singer or writer; and of the lady as implied reader or listener; and the ways in which these features of the text were elaborated by scribes and illuminators. Her readings reveal how medieval poets and book-makers conceived their common project, and how they distinguished their respective roles.

Teaching in Blended Learning Environments Norman D. Vaughan 2013-12-01 Teaching in Blended Learning Environments provides a coherent framework in which to explore the transformative concept of blended learning. Blended learning can be defined as the organic integration of thoughtfully selected and complementary face-to-face and online approaches and technologies. A direct result of the transformative innovation of virtual communication and online learning

communities, blended learning environments have created new ways for teachers and students to engage, interact, and collaborate. The authors argue that this new learning environment necessitates significant role adjustments for instructors and generates a need to understand the aspects of teaching presence required of deep and meaningful learning outcomes. Built upon the theoretical framework of the Community of Inquiry – the premise that higher education is both a collaborative and individually constructivist learning experience – the authors present seven principles that provide a valuable set of tools for harnessing the opportunities for teaching and learning available through technology. Focusing on teaching practices related to the design, facilitation, direction and assessment of blended learning experiences, Teaching in Blended Learning Environments addresses the growing demand for improved teaching in higher education.

[Grace Is Not God's Backup Plan](#) Adam S. Miller 2015-02-26 What follows is not a translation in the ordinary sense of the word. It's more like a paraphrase. Rather than worry over the letter of the text, the goal has been to illuminate the large scale patterns that structure it. The King James Version, for instance, renders Paul's letter with uncanny beauty but is opaque as an argument. Modern translations tend to have the same problem. Their overriding concern is with the letter of the text, not with its logic. As a result, Paul's forest is always getting sacrificed for the sake of his trees. But Paul's work is too important, his good news too urgent, to leave so much of him locked in the first century. We need our renderings to do more than mimic the original, we need them to bleed and breathe. This work argues that the deep logic of Romans comes into sharp focus around a single premise: Paul's claim that grace is not God's backup plan. Paul never quite puts it like this, but he implies it at every turn.

All Quiet on the Western Front Erich Maria Remarque 2013-09-03 Considered by many the greatest war novel of all time, All Quiet on the Western Front is Erich Maria Remarque's masterpiece of the German experience during World War I. I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . . This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive. "The world has a great writer in Erich Maria Remarque. He is a craftsman of unquestionably first rank, a man who can bend language to his will. Whether he writes of men or of inanimate nature, his touch is sensitive, firm, and sure."—The New York Times Book Review

Engineering and Design 1993 The objective of frequency analysis in a hydrologic context is to infer the probability that various size events will be exceeded or not exceeded from a given sample of recorded events. Two basic problems exist for most hydrologic applications. First the sample is usually small, by statistical standards, resulting in uncertainty as to the true probability. And secondly, a single theoretical frequency distribution does not always fit a particular data-type equally well in all applications.
