Your Guide to Knights and the Age of Chivalry Cynthia O'Brien 2017-03-31 Meet the knights of the Age of Chivalry. This exciting title explores the work of a knight, from jousting tournaments and codes of honor to battlefields and life on campaign. Also examined are the legends surrounding Robin Hood and the Knights of the Round Table, as well as the very real battles between the British king Richard the Lionheart and the sultan Saladin, as well as the political maneuvering of Eleanor of Aquitaine.

Story of England Arthur Bryant 2001-08-01

The Age of Chivalry: the Story of England Volume 2 Arthur Bryant 1963

Age of Chivalry Nigel Saul 1995 An illustrated collection of essays which examine the cultural influence which the age of chivalry had upon art and society during the Middle Ages.

Queens of the Age of Chivalry Alison Weir 2022-12-06 Packed with dramatic true stories from one of European history's most romantic and turbulent eras, this epic narrative chronicles the five vividly rendered queens of the Plantagenet kings who ruled England between 1299 and 1399. The Age of Chivalry describes a period of medieval history dominated by the social, religious, and moral code of knighthood that prized noble deeds, military greatness, and the game of courtly love between aristocratic men and women. It was also a period of high

England In The Age Of Chivalry And Awful Diseases The Hundred Years War And Black Death Pdf Pdf upload Jason v Robertson

drama in English history, which included the toppling of two kings, the Hundred Years War, the Black Death, and the Peasants' Revolt. Feudalism was breaking down, resulting in social and political turmoil. Against this dramatic milieu, Alison Weir describes the lives and reigns of five queen consorts: Marguerite of France was seventeen when she became the second wife of sixty-year-old King Edward I. Isabella of France, later known as "the She-Wolf," dethroned her husband, Edward II, and ruled England with her lover. In contrast, Philippa of Hainault was a popular queen to the deposed king's son Edward III. Anne of Bohemia was queen to Richard II, but she died young and childless. Isabella of Valois became Richard's second wife when she was only six years old, but was caught up in events when he was violently overthrown. This was a turbulent and brutal age, despite its chivalric color and ethos, and it stands as a vivid backdrop to the extraordinary stories of these queens' lives.

Knights and the Age of Chivalry Charles Phillips 2016-02-07 This evocative book examines the historical brotherhood of knights, how they were governed by their feudal lord, and the ideal of the chivalric code. Knights drew inspiration from portrayals of knighthood in the literature of chivalry - in heroic chansons de geste, poems of courtly love and prose, and verse of romances that told of knights' great deeds in war and love. From the knightly heroes of the Bible and the

classical worlds to the goldenage of medieval chivalry and the enduring tales of King Arthur, there is also a discussion of how the knights of history lived up to these ideals, and themselves became legendary figures. Daughters of Chivalry Kelcey Wilson-Lee 2019-10-01 Virginal, chaste, humble, patiently waiting for rescue by brave knights and handsome princes: this idealized—and largely mythical—notion of the medieval noblewoman still lingers. Yet the reality was very different, as Kelcey Wilson-Lee shows in this vibrant account of the five daughters of Edward I, often known as Longshanks. The lives of these sisters—Eleanora, Joanna, Margaret, Mary and Elizabeth—ran the gamut of experiences open to royal women in the Middle Ages. Edward's daughters were of course expected to cement alliances and secure lands and territory by making great dynastic marriages, or endow religious houses with royal favor. But they also skillfully managed enormous households, navigated choppy diplomatic waters, and promoted their family's cause throughout Europe—and had the courage to defy their royal father. They might never wear the crown in their own right, but they were utterly confident of their crucial role in the spectacle of medieval kingship. Drawing on a wide range of contemporary sources, *Daughters of Chivalry* offers a rich portrait of these formidable women, seeing them—at long last—shine from out of the shadows, revealing what it was to be a princess in the Age of Chivalry.

Age of Chivalry J Alexander Staff 1987-11

Age of Chivalry Nigel Saul 1992 A collection of essays on the artefacts of the chivalric age, the nature of the society in which they were produced, the patrons who commissioned them and the secular and religious ideals that inspired them.

England In The Age Of Chivalry And Awful Diseases The Hundred Years War And Black Death Pdf Pdf upload Jason v Robertson

Queens of the Age of Chivalry Alison Weir 2023-11-02 *Military Society and the Court of Chivalry in the Age of the Hundred Years War* Philip J. Caudrey 2019 An investigation into three of the best-known cases tried under the Court of Chivalry reveals much about gentry military society.

Knights and the Age of Chivalry Raymond Rudorff 1974 Chivalry and Romance in the English Renaissance Alex Davis 2003 A reinterpretation of the place and significance of chivalric culture in the sixteenth and seventeenth centuries, and what it says about contemporary attitudes to the medieval.

Medieval Britain Lloyd Robert Laing 1996 A reconstruction of an intricate tableau of life in the medieval world, using existing evidence of art and architecture to explore all spheres of life, from the dizzy heights of courtly love to the fields of the humble serf. With major sections on urban, rural and court society, the art and tradition of the church, including detail on leisure, science and new information on the role of women, this book brings to life the imagination, ambitions and everyday realities of the world which formed the foundations of modern western society.

Bloody Good Allen J. Frantzen 2004 In the popular imagination, World War I stands for the horror of all wars. The unprecedented scale of the war and the mechanized weaponry it introduced to battle brought an abrupt end to the romantic idea that soldiers were somehow knights in shining armor who always vanquished their foes and saved the day. Yet the concept of chivalry still played a crucial role in how soldiers saw themselves in the conflict. Here for the first time, Allen J. Frantzen traces these chivalric ideals from the

Great War back to their origins in the Middle Ages and shows how they resulted in highly influential models of behavior for men in combat. Drawing on a wide selection of literature and images from the medieval period, along with photographs, memorials, postcards, war posters, and film from both sides of the front, Frantzen shows how such media shaped a chivalric ideal of male sacrifice based on the Passion of Jesus Christ. He demonstrates, for instance, how the wounded body of Christ became the inspiration for heroic male suffering in battle. For some men, the Crucifixion inspired a culture of revenge, one in which Christ's bleeding wounds were venerated as badges of valor and honor. For others, Christ's sacrifice inspired action more in line with his teachings—a daring stay of hands or reason not to visit death upon one's enemies. Lavishly illustrated and eloquently written, *Bloody Good* will be must reading for anyone interested in World War I and the influence of Christian ideas on modern life.

1215 and All That Ed West 2017-10-10 1215 is one of the most famous dates in English history, and with good reason, since it marks the signing of the Magna Carta by King John and the English barons, which altered the entire course of English and world history. John Lackland was born to King Henry II and Eleanor, Duchess of Aquitaine in December, 1166; he was the youngest of five sons. However, he unexpectedly became the favored heir to his father after a failed rebellion by his older brothers in 1173. He became king in 1199, though his reign was tumultuous and short. After a brief peace with Phillip II of France, war broke out again in 1202 and King John lost most of his holdings on the continent. This, coupled with unpopular fiscal policies and treatment of nobles back home, led to conflict upon his

England In The Age Of Chivalry And Awful Diseases The Hundred Years War And Black Death Pdf Pdf upload Jason v Robertson

return from battle. Buffeted from all sides, King John was pushed in 1215 to sign along with his barons the Magna Carta, a precursor to constitutional governance. But both sides failed to uphold the agreements terms and conflict quickly resumed, leading to John's untimely death a year later to dysentery. Pitched at newcomers to the subject, *1215 and All That* will explain how King John's rule and, in particular, his signing of the Magna Carta changed England—and the English—forever, introducing readers to the early days of medieval England. It is the third book in the acclaimed *A Very, Very Short History of England* series, which captures the major moments of English history with humor and bite. **The Age of Chivalry** Hywel Williams 2013-10-01 The five hundred years that separate the mid-tenth century from the mid-15th century constitute a critical and formative period in the history of Europe. This was the age of the system of legal and military obligation known as "feudalism," and of the birth and consolidation of powerful kingdoms in England, France and Spain; it was an era of urbanization and the expansion of trade, of the building of the great Romanesque and Gothic cathedrals, of courtly romance and the art of the troubadour, and of the founding of celebrated seats of learning in Paris, Oxford and Bologna. But it was also an epoch characterized by brutal military adventure in the launching of armed pilgrimages to liberate Jerusalem from Muslim control, of the brutal dynastic conflict of the Hundred Years' War and of the devastating pandemic of the Black Death. In a sequence of scholarly but accessible articles--accompanied by an array of beautiful and authentic images of the era, plus timelines, maps, boxed features and display quotes--distinguished historian Hywel Williams sheds revelatory

light on every aspect of a rich and complex period of European history.

The Age of Chivalry Kenneth Meyer Setton 1969 Special essays by Kenneth M. Setton and others. Published in 1977 under title: *The Middle Ages*. Bibliography: p. [377].

Queens of the Conquest Alison Weir 2017-09-26 In the first volume of an exciting new series, bestselling author Alison Weir brings the dramatic reigns of England's medieval queens to life. The lives of England's medieval queens were packed with incident—love, intrigue, betrayal, adultery, and warfare—but their stories have been largely obscured by centuries of myth and omission. Now esteemed biographer Alison Weir provides a fresh perspective and restores these women to their rightful place in history. Spanning the years from the Norman conquest in 1066 to the dawn of a new era in 1154, when Henry II succeeded to the throne and Eleanor of Aquitaine, the first Plantagenet queen, was crowned, this epic book brings to vivid life five women, including: Matilda of Flanders, wife of William the Conqueror, the first Norman king; Matilda of Scotland, revered as “the common mother of all England”; and Empress Maud, England's first female ruler, whose son King Henry II would go on to found the Plantagenet dynasty. More than those who came before or after them, these Norman consorts were recognized as equal sharers in sovereignty. Without the support of their wives, the Norman kings could not have ruled their disparate dominions as effectively. Drawing from the most reliable contemporary sources, Weir skillfully strips away centuries of romantic lore to share a balanced and authentic take on the importance of these female monarchs. What emerges is a seamless royal saga, an all-

England In The Age Of Chivalry And Awful Diseases The Hundred Years War And Black Death Pdf Pdf upload Jason v Robertson

encompassing portrait of English medieval queenship, and a sweeping panorama of British history. Praise for *Queens of the Conquest* “Best-selling author [Alison] Weir pens another readable, well-researched English history, the first in a proposed four-volume series on England's medieval queens. . . . Weir's research skills and storytelling ability combine beautifully to tell a fascinating story supported by excellent historical research. Fans of her fiction and nonfiction will enjoy this latest work.”—Library Journal (starred review)

“Another sound feminist resurrection by a seasoned historian . . . Though Norman queens were largely unknowable, leave it to this prolific historical biographer to bring them to life. . . . As usual, Weir is meticulous in her research.”—Kirkus Reviews

The Sword in the Age of Chivalry Ewart Oakeshott 1998 The Resplendent image of the medieval knight is concentrated in the symbolism of his sword. The straight, two-edged, cross-hilted knightly sword of the European middle ages was an object of vital importance, a lethal weapon on the battlefield and a badge of chivalry in that complex social code. Ewart Oakeshott draws on his extensive research and expert eye (and hand, for he has a special sense for the feel of a sword) to develop a typology for and recount the history of the sword, from the knightly successors of the Viking weapon to the emergence of the Renaissance sword - that is, roughly from 1050 to 1550. Within this time-span, two distinct groups of swords successively evolved. Problems of dating are acute, and evidence is adduced from literature and art as well as from archaeology, for a sword (or some parts of a sword) could have been in use several generations after it first saw battle. To deal with such overlap, Ewart Oakeshott develops,

refines and illustrates a detailed typology of swords which takes in entire swords, pommel-forms, cross-guards, and the grip and scabbard.

Chronicles of the Age of Chivalry Elizabeth M. Hallam 1997-06 History of the kings of England from the signing of the Magna Carta to the time of the black death taken from contemporary accounts such as the Barnwell chronicle, the chronicle of Thomas Wykes, the chronicle of Walter of Guisborough, the Lanercost chronicle, Choricon Gaslfridi le Baker de Swyndbroke, and others.
The Age of Chivalry Charles T. Wood 1970

Age of Chivalry Jonathan James Graham Alexander 1987
England in the Age of Chivalry . . . And Awful Diseases Ed West 2018-01-23 A revealing glimpse into the tumultuous history of England's medieval period, full of knights in shining armor and terrible peasant suffering. Covering the violent and disease-ridden period between 1272 to 1399, *England in the Age of Chivalry . . . And Awful Diseases* covers the events, personages and ideas most commonly known as "medieval". This includes Geoffrey Chaucer, the Peasants revolt, the Scottish wars of independence, the Great Famine of 1315, the Black Death and the 100 Years War. Central to this time is King Edward III, who started the 100 Years War and defined the concept of chivalry, including England's order of the garter. His legacy continues to shape our view of England's history and is crucial in understanding the development of Europe.

The Age of Chivalry Arthur Bryant 1968

A Guide to Medieval Gardens Michael Brown 2022-03-30 Medieval gardens usually rate very few pages in the garden history books. The general perception is still of small gardens in the corner of a castle. Recent research has shown that the gardens were larger than we previously believed. This book contains information and pictures that have not been generally available before, including the theory and practice of medieval horticulture. Many features of later gardens were already a part of medieval gardens. The number of plants was limited, but was still no less than many modern

gardeners use in their own gardens today. Yet medieval gardens were imbued with meaning. Whether secular or religious, the additional dimension of symbolism, gave a greater depth to medieval gardens, which is lacking in most modern ones. This book will be of interest to those who know little about medieval gardens and to those with more knowledge. It contains some of the vast amount of research that the author carried out to create the medieval gardens at the Prebendal Manor, Nassington, Northamptonshire. The author has tried to use previously unused sources and included his own practical experience of medieval gardening methods that he carried out to maintain the gardens. Some worked, others certainly didn't.

The Orders of Knighthood and the Formation of the British Honours System, 1660-1760 Antti Matikkala 2008
`Sheds considerable new light on the nature, development and functions of the orders in a key phase of their history, and goes a long way to explaining how such archaic institutions could flourish in a culture that is commonly thought anti-traditional and especially hostile to the "middle ages"'. Professor JONATHAN BOULTON, University of Notre Dame. This is the first comprehensive study to set the British orders of knighthood properly into the context of the honours system - by analysing their political, social and cultural functions from the Restoration of the monarchy to the end of George II's reign. It examines the revival of the Order of the Garter and the proposals to establish the Orders of the Royal Oak and the Esquires of the Martyred King at the Restoration, the foundation (1687) and the revival (1703-4) of the Order of the Thistle as well as the foundation of the Order of the Bath (1725). It establishes just how central a part the
England In The Age Of Chivalry And Awful Diseases The Hundred Years War And Black Death Pdf upload Jason v Robertson

orders played in the British high political life and its comprehensive and multidimensional approach carefully contrasts the idealistic discourse of virtue and honour to the real workings of the honours system; it also makes the case for the 'Chivalric Enlightenment'. The 'orders over the water', the Garter and the Thistle conferred by the Jacobite claimants, are discussed for the first time in the context of the established British honours system. Overall, the comparison between the socially very restricted British and the increasingly meritocratic Continental orders highlights the isolation of the British honours system from the European tendencies.

Chivalry in Medieval England Nigel Saul 2011-10-15
Popular views of medieval chivalry—knights in shining armor, fair ladies, banners fluttering from battlements—were inherited from the nineteenth-century Romantics. This is the first book to explore chivalry's place within a wider history of medieval England, from the Norman Conquest to the aftermath of Henry VII's triumph at Bosworth in the Wars of the Roses. Saul invites us to view the world of castles and cathedrals, tournaments and round tables, with fresh eyes. Chivalry in Medieval England charts the introduction of chivalry by the Normans, the rise of the knightly class as a social elite, the fusion of chivalry with kingship in the fourteenth century, and the influence of chivalry on literature, religion, and architecture. Richard the Lionheart and the Crusades, the Black Death and the Battle of Crecy, the Magna Carta and the cult of King Arthur—all emerge from the mists of time and legend in this vivid, authoritative account.

A Knight's Own Book of Chivalry Geoffroi de Charny 2013-03-01 On the great influence of a valiant lord:

"The companions, who see that good warriors are honored by the great lords for their prowess, become more determined to attain this level of prowess." On the lady who sees her knight honored: "All of this makes the noble lady rejoice greatly within herself at the fact that she has set her mind and heart on loving and helping to make such a good knight or good man-at-arms." On the worthiest amusements: "The best pastime of all is to be often in good company, far from unworthy men and from unworthy activities from which no good can come." Enter the real world of knights and their code of ethics and behavior. Read how an aspiring knight of the fourteenth century would conduct himself and learn what he would have needed to know when traveling, fighting, appearing in court, and engaging fellow knights. Composed at the height of the Hundred Years War by Geoffroi de Charny, one of the most respected knights of his age, *A Knight's Own Book of Chivalry* was designed as a guide for members of the Company of the Star, an order created by Jean II of France in 1352 to rival the English Order of the Garter. This is the most authentic and complete manual on the day-to-day life of the knight that has survived the centuries, and this edition contains a specially commissioned introduction from historian Richard W. Kaeuper that gives the history of both the book and its author, who, among his other achievements, was the original owner of the Shroud of Turin.

For Honour and Fame Nigel Saul 2012-06-07 Wide-ranging, vivid and authoritative, this is the first book to treat chivalry as part of the wider history of medieval England. The world of medieval chivalry is at once glamorous and violent, alluring yet alien. Our popular views of the period are largely inherited from the *England In The Age Of Chivalry And Awful Diseases The Hundred Years War And Black Death Pdf Pdf upload Jason v Robertson*

nineteenth-century romantics, for whom chivalry evoked images of knights in shining armour, competing for the attention of fair ladies -- with pennons and streamers fluttering from castle battlements. But what is the reality? Were the rituals and romance of chivalry designed to provide an escape from the brutal facts of almost continuous warfare? Or did they instead help regulate the conduct of war and moderate its violent excesses? Nigel Saul charts the introduction of chivalry by the Normans, the rise of the knightly class as a social elite, the fusion of chivalry with kingship in the fourteenth century and the influence of chivalry on literature, religion and architecture. He shows us a world of kings and barons, castles and cathedrals -- a world shaped by Richard the Lionheart and the Crusades, by Magna Carta and the rule of law, by battles like Bannockburn and Crecy, by the Black Death and by tournaments, round tables and the cult of Arthurianism.

Age of Chivalry Paul Binski 1987
Age of Chivalry Thomas Bulfinch 2015-06-14 Excerpt from *Age of Chivalry: Or King Arthur and His Knights Two years ago, at the instance of Mr. McKay, the publisher, we edited a revised edition of Bulfinch's "Age of Fable."* The "Age of Chivalry" may be regarded as a companion-piece to that work. As a people we have never fully appreciated our mythology or national legends. Greece and Rome have received their proper attention, but few altars have been erected to the unknown gods of our early history. The Druidical age is too indefinite to admit of much save the conjectural, but the one immediately following is replete with traditional interest. The Roman invasion was one of conquest; still it made way for Christianity. The age of Chivalry that immediately followed anticipated the Crusades by

hundreds of years. It was an effort to enroll Mars among the saints. Chivalry was but another form of primitive Christianity. King Arthur becomes the centre of British traditions. He is the embodiment of those higher qualities that marked the ambition of the people; Merlin was the seer and Taliesin the Psalmist of that mystic age. The actual existence of an Arthur scarcely admits of a reasonable question. This is evident for the following reasons: "The general tradition, which is too widespread to be altogether an invention; the existence of so many places in Southwestern England and Southern Scotland that bear his name; the fact that history records certain great Teutonic invasions at the very time and in those parts of Britain where he is said to have lived; the persistent local traditions in Somersetshire and Devonshire, England, where even to-day the Arthurian legends are common among the peasants; the testimony of those ancient historical writers who lived too near the time and scenes to have been altogether deceived." These strange traditions for centuries lay in the sarcophagus of a dead language. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Special Operations in the Age of Chivalry, 1100-1550

Yuval N. Harari 2007 Alongside the familiar pitched battles, regular sieges, and large-scale manoeuvres, medieval and early modern wars also involved assassination, abduction, treason and sabotage. These undercover operations were aimed chiefly against key individuals, mostly royalty or the leaders of the opposing army, and against key fortified places, including bridges, mills and dams. However, because of their clandestine nature, these deeds of 'derring-do' have not been studied in any detail, a major gap which this book seeks to fill. It surveys a wide variety of special operations, from the eleventh to the sixteenth century. It then analyzes in greater depth six select and exciting operations: the betrayal of Antioch in 1098; the attempt to rescue King Baldwin II from the dungeon of Khartpert in 1123; the assassination of Conrad of Montferrat in 1192; the attempt to storm Calais in 1350; the 'dirty war' waged by the rulers of France and Burgundy in the 1460s and 1470s; and the demolition of the flour mill of Auriol in 1536. Dr YUVAL NOAH HARARI teaches at the Hebrew University of Jerusalem.
