China's Examination Hell Ichisada Miyazaki 1981-01-01 Written by one of the

foremost historians of Chinese institutions, this book focuses on China's civil service examination system in its final and most elaborate phase during the Ch'ing dynasty. All aspects of this labyrinthine system are explored: the types of questions, the style and form in which they were to be answered, the problem of cheating, and the psychological and financial burdens of the candidates, the rewards of the successful and the plight of those who failed. Drawing on a wide range of sources, including Chinese novels, short stories, and plays, this thought provoking and entertaining book brings to vivid life the testing structure that supplied China's government bureaucracy for almost fourteen hundred years. "Professor Miyazaki's informative work is concerned with a system. . . that was, in effect, . . . the basic institution of Chinese political life, the real pillar which supported the imperial monarchy, the effective vehicle

for the aspirations and ambitions of the ruling class. Imperial China without the examination system for the past thousand years and more would have developed in an entirely different way and might not have endured as the continuing form of government over a huge empire."--Pacific Affairs "The most comprehensive narrative treatment in any language of [this] enduring achievement of Chinese civilization."--American Historical Review
Indiana Notary Public Guide Indiana Secretary of State 2019-04-06 A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely

upon, usually at face value. A notary's authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An

oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.
