**Sex, Love, and Families** Jason King 2020-04-15 2021 Association of Catholic Publishers first place award in theology 2021 Catholic Media Association Award first place award in marriage and family living Six years into the papacy of Pope Francis, Catholics are still figuring out how to respond to his image of the church as a field hospital –a church that goes into the streets rather than remaining locked up behind closed doors. Marriage and family are primary sites of the field hospital, called to meet people's need for healing and accompaniment with compassion and love. The authors of this collection –all lay, a mix of single and married, traditional and progressive Catholics –take up this work. They offer practical wisdom from and critical engagement with the Catholic tradition but avoid rehashing decades-old theological debates. Instead, their essays engage with and respond to realities shaping contemporary family life, like religious pluralism, technology, migration, racism, sex and gender, incarceration, consumerism, and the call to holiness. The result is a collection that envisions ways that families can be places of healing and love in and for the world. List of contributors: Jennifer Beste Megan K. **Love in the Time of AIDS** Mark Hunter 2010-10-25 In some parts of South Africa, more than one in three people are HIV positive. Love in the Time of AIDS explores transformations in notions of gender and intimacy to try to understand the roots of this virulent epidemic. By living in an informal settlement and collecting love letters, cell phone text messages, oral histories, and archival materials, Mark Hunter details the everyday social inequalities that have resulted in untimely deaths. Hunter shows how first apartheid and then chronic unemployment have become entangled with ideas about femininity, masculinity, love, and sex and have created an economy of exchange that perpetuates the transmission of HIV/AIDS. This sobering ethnography challenges conventional understandings of HIV/AIDS in South Africa.

**Marriage and Values in Public Policy** Elizabeth van Acker 2017-01-20 Marriage is a site of political conflict. It is a controversial issue in the UK, Australia and the US where there is a clash of values between neoliberal governments and diverse groups either strongly opposing or supporting marriage. In the meantime, fewer couples are marrying, while other family forms are more widely accepted. This book explores this disconnect by examining policy issues such as class divides, ethnicity, religion, same-sex marriage, gender relations and romantic expectations. A top down approach explores different government policy responses to marriage. In all three countries, there are differences and similarities in how governments react to the changes in family formations, but values or 'conceptions of the desirable' play a significant role. Enhancing stability and commitment as well as personal responsibility are important for policymakers who aim to keep 'the family' intact and thereby lower the burden on the public purse. It is difficult for political actors to respond to conflicting and changing values surrounding the diversity in relationships or to translate them into policies. There is a strong case to be made for increased policy attention to adult relationships - and a much weaker case for marriage. Rich evidence is drawn from interviews with key stakeholders as well as politicians' speeches, government departmental reports, stakeholders' documents and responses to government policies, and media articles.

*Of Love and Papers* Laura E. Enriquez 2020-04-28 A free open access ebook is available upon publication. Learn more at [www.luminosoa.org](http://www.luminosoa.org). *Of Love and Papers* explores how immigration policies are fundamentally reshaping Latino families. Drawing on two waves of interviews with undocumented young adults, Enriquez investigates how immigration status creeps into the most personal aspects of everyday life, intersecting with gender to constrain family formation. The imprint of illegality remains, even upon obtaining DACA or permanent residency. Interweaving the perspectives of US citizen romantic partners and children, Enriquez illustrates the multigenerational punishment that limits the upward mobility of Latino families. *Of Love and Papers* sparks an intimate understanding of contemporary US immigration policies and their enduring consequences for immigrant families.

**Parenting Matters** National Academies of Sciences, Engineering, and Medicine 2016-11-21 Decades of research have demonstrated that the parent-child dyad and the environment of the family –"which includes all primary caregivers" –are at the foundation of children's well-being and healthy development. From birth, children

are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. Parenting Matters identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

**Amoris Laetitia** Pope Francis 2016-04-22 "All of us are called to keep striving towards something greater than ourselves and our families, and every family must feel this constant impulse. Let us make this journey as families, let us keep walking together." Pope Francis, *Amoris Laetitia* In his groundbreaking work on modern family life, *Amoris Laetitia: On Love in the Family*, Pope Francis continues to guide and lead the Church, calling us to be a sign of mercy and encouragement for families of all shapes and sizes. The Our Sunday Visitor edition includes exclusive reflection and discussion questions, to help Catholics grow in our understanding of this call, and act upon it. In *Amoris Laetitia: On Love in the Family* the Holy Father expands on the topics and considerations of the two Synods on the family, and adds his own considerations to help us provide pastoral guidance to support and strengthen today's families. *On Love in the Family* guides us through: Scripture – what we can learn from Biblical families and relationships with God and each other Reality – the experiences and challenges we face in today's world Tradition – essential aspects of Church teaching on marriage and families Love – what it means for all our relationships Ministry – Pope Francis offers pastoral perspectives for helping build strong families Spirituality – the expression of the Gospel message in our relationships

**The End of Love** Eva Illouz 2021-09-15 Western culture has endlessly represented the ways in which love miraculously erupts in people's lives, the mythical moment in which one knows someone is destined for us, the feverish waiting for a phone call or an email, the thrill that runs down our spine at the mere thought of him or her. Yet, a culture that has so much to say about love is virtually silent on the no less mysterious moments when we avoid falling in love, where we fall out of love, when the one who kept us awake at night now leaves us indifferent, or when we hurry away from those who excited us a few months or even a few hours before. In *The End of Love*, Eva Illouz documents the multifarious ways in which relationships end. She argues that if modern love was once marked by the freedom to enter sexual and emotional bonds according to one's will and choice, contemporary love has now become characterized by practices of non-choice, the freedom to withdraw from relationships. Illouz dubs this process by which relationships fade, evaporate, dissolve, and break down "unloving." While sociology has classically focused on the formation of social bonds, *The End of Love* makes a powerful case for studying why and how social bonds collapse and dissolve. Particularly striking is the role that capitalism plays in practices of non-choice and "unloving." The unmaking of social bonds, she argues, is connected to contemporary capitalism which is characterized by practices of non-commitment and non-choice, practices that enable the quick withdrawal from a transaction and the quick realignment of prices and the breaking of loyalties. Unloving and non-choice have in turn a profound impact on society and economics as they explain why people may be having fewer children, increasingly living alone, and having less sex. *The End of Love* presents a profound and original analysis of the effects of capitalism and consumer culture on personal relationships and of what the dissolution of personal relationships means for capitalism.

**Doing Family in Second-Generation British Migration Literature** Corinna Assmann 2018-09-24 Due to the large-scale global transformations of the 20th century, migration literature has become a vibrant genre over the last decades. In these novels, issues of transcultural identity and belonging naturally feature prominently. This study takes a closer look at the ways in which the idea of family informs processes of identity construction. It explores changing roles and meanings of the diasporic family as well as intergenerational family relations in a migration setting in order to identify the specific challenges, problems, and possibilities that arise in this context. This book builds on insights from different fields of family research (e.g. sociology, psychology, communication studies, memory studies) to provide a conceptual framework for the investigation of synchronic and diachronic family constellations and connections. The approach developed in this study not only sheds new light on contemporary British migration literature but can also prove fruitful for analyses of families in literature more generally. By highlighting the relevance and multifaceted nature of doing family, this study also offers new perspectives for transcultural memory studies.

**Living in Love and Faith** The Church of England 2020-11-09 Issues of gender and sexuality are intrinsic to people's experience: their sense of identity, their lives and the loving relationships that shape and sustain them. The life and mission of the Church of England – and of the worldwide Anglican Communion – are affected by the deep, and sometimes painful, disagreements about these matters, divisions brought into sharper focus because of society's changing perspectives and practices, especially in relation to LGTBI+ people. *Living in Love and Faith* sets out to inspire people to think more deeply both about what it means to be

human, and to live in love and faith with one another. It tackles the tough questions and the divisions among Christians about what it means to be holy in a society in which understandings and practices of gender, sexuality and marriage continue to change. Commissioned and led by the Bishops of the Church of England, the *Living in Love and Faith* project has involved many people across the Church and beyond, bringing together a great diversity and depth of expertise, conviction and experience to explore these matters by studying what the Bible, theology, history and the social and biological sciences have to say. After a Foreword from the Archbishops of Canterbury and York, the book opens with an invitation from the Bishops of the Church of England to embark on a learning journey in five parts: Part One sets current questions about human identity, sexuality, relationships and marriage in the context of God's gift of life. Part Two takes a careful and dispassionate look at what is happening in the world with regard to identity, sexuality, relationships and marriage. Part Three explores current Christian thinking and discussions about human identity, sexuality, and marriage. In the light of the good news of Jesus Christ, how do Christians understand and respond to the trends observed in Part Two? Part Four considers what it means for us as individuals and as a church to be Christ-like when it comes to matters of identity, sexuality, relationships and marriage. Part Five invites the reader into a conversation between some of the people who have been involved in writing this book who, having engaged with and written Parts One to Four, nevertheless come to different conclusions. Amid the biblical, theological, historical and scientific exploration, each part includes Encounters with real, contemporary disciples of Christ whose stories raise questions which ask us to discern where God is active in human lives. The book ends with an appeal from the Bishops to join them in a period of discernment and decision-making following the publication of *Living in Love and Faith*. The *Living in Love and Faith* book is accompanied by a range of free digital resources including films, podcasts and an online library, together with *Living in Love and Faith: The Course*, a 5-session course which is designed to help local groups engage with the resources, also published by Church House Publishing.

**Women Migrant Workers** Zahra Meghani 2015-10-05 This volume makes the case for the fair treatment of female migrant workers from the global South who are employed in wealthy liberal democracies as care workers, domestic workers, home health workers, and farm workers. An international panel of contributors provide analyses of the ethical, political, and legal harms suffered by female migrant workers, based on empirical data and case studies, along with original and sophisticated analyses of the complex of systemic, structural factors responsible for the harms experienced by women migrant workers. The book also proposes realistic and original solutions to the problem of the unjust treatment of women migrant workers, such as social security systems that are transnational and tailored to meet the particular needs of different groups of international migrant workers. **Looking for Love in the Legal Discourse of Marriage** Renata Grossi 2014-09-01 This book examines the (in)visibility of romantic love in the legal discourse surrounding modern Australian marriage. It looks at how romantic love has become a core part of modernity, and a dominant part of the Western marriage discourse, and considers how the ideologies of romantic love are (or are not) replicated in the legal meaning of marriage. This examination raises two key issues. If love has become central to people's understanding of marriage, then it is important for the legitimacy of law that love is reflected in both the content and application of the law. More fundamentally, it requires us to reconsider how we understand law, and to ask whether it is engaged with emotions, or separate from them. Along the way this book also considers the meaning of love itself in contemporary society, and asks whether love is a radical force capable of breaking down conservative meanings embedded in institutions like marriage, or whether it simply mirrors them. This book will be of interest to everyone working on love, marriage and sexuality in the disciplines of law, sociology and philosophy.

**Family Law, Gender and the State** Alison Diduck 2012-02-07 The third edition of this work on family law, comprising text, cases and materials, provides not only an explication of legal principle but also explores, primarily from a feminist perspective, some of the assumptions about, and constructions of, gender, sexual orientation, class and culture that underlie the law. It examines the ideology of the family and, in particular, the role of the law in contributing to and reproducing that ideology. Structured around the themes of equality, welfare, and family privacy, the book aims to offer the benefits of a textbook while also giving students a wide-ranging set of materials for classroom discussion. As well as providing a firm grounding in family law, the text sets the law in its social and historical context and encourages a critical approach by students to the subject. It provides an ideal introduction to family law for undergraduates, but will be equally helpful for postgraduate students of family law for whom it provides a challenging selection of materials set within a theoretical framework rich in ideas and arguments. Review of the second edition: 'Diduck and Kaganas examine legal developments to shed light on society, principally by investigating the ways in which family law constructs and regulates family life and responsibilities. Theirs is an important and ambitious book that aims ultimately at a feminist restatement of family law. . . . [T]he [book] is written and

referenced in such depth that it is a useful resource for legal as well as social science researchers at all levels, whether looking for theoretical inspiration or drawing up a literature review. The range of diverse sources that Diduck and Kaganas draw on is impressive: they seem to have included every bit of material that helps feminists make sense of family law. There is a well-pitched selection of further reading of such material at the end of each chapter. What's more, they undersell themselves by describing their book as "Text, Cases and Materials", because they have woven by far the largest proportion of the cases and materials into the text.' Helen Reece, Times Higher Education, May 2007. Reviews of first edition: 'A stimulating work which attempts to situate family law in its social, historical and political context. Its appeal should not be confined to family law students, as its commitment to a critical and analytical approach offers insights and ideas with broader significance.' Mary Childs, Child and Family Law Quarterly, September 2002 'The arguments are provocative, the analysis is stimulating and the materials amassed strongly support the authors' aim to question the "axiomatic status of what is traditionally designated as the family".' Fiona E Raitt, Infant and Child Development, September 2002 'It is not often that one can say of a textbook in Law that it "makes interesting reading" with quite the enthusiasm that can be expressed for this text. This new publication offers something that few textbooks seem to offer - a book you CAN open up virtually anywhere and find an interesting piece on almost any aspect of the broad family law spectrum.' Penny Booth, The Law Teacher, September 2002 'All the major themes in feminist and constructionist perspectives in family law are presented together with a wealth of readings and extensive references. As a teaching manual, it is excellent - a coherent feminist perspective across the entire range of family law' Marty Slaughter, Feminist Legal Studies, July 2003

Postmodern Love in the Contemporary Jewish Imagination Efraim Sicher 2021-03-18 Offering a radical critique of contemporary Israeli and diaspora fiction by major writers of the generation after Amos Oz and Philip Roth, this book asks searching questions about identity formation in Jewish spaces in the twenty-first century and posits global, transnational identities instead of the bipolar Israel/diaspora model. The chapters put into conversation major authors such as Jonathan Safran Foer, Nicole Krauss, Michael Chabon, and Nathan Englander with their Israeli counterparts Zeruya Shalev, Eshkol Nevo, and Etgar Keret and shows that they share common themes and concerns. Read through a postmodern lens, their preoccupation with failed marriage and failed ideals brings to the fore the crises of home, nation, historical destiny, and collective memory in contemporary secular Jewish culture. At times provocative, at others iconoclastic, this innovative study must be read by anyone concerned with Jewish culture and identity today, whether scholars, students, or the general reader.

The Way We Never Were Stephanie Coontz 2016-03-29 The definitive edition of the classic, myth-shattering history of the American family *Leave It to Beaver* was not a documentary, a man's home has never been his castle, the "male breadwinner marriage" is the least traditional family in history, and rape and sexual assault were far higher in the 1970s than they are today. In *The Way We Never Were*, acclaimed historian Stephanie Coontz examines two centuries of the American family, sweeping away misconceptions about the past that cloud current debates about domestic life. The 1950s do not present a workable model of how to conduct our personal lives today, Coontz argues, and neither does any other era from our cultural past. This revised edition includes a new introduction and epilogue, exploring how the clash between growing gender equality and rising economic inequality is reshaping family life, marriage, and male-female relationships in our modern era. More relevant than ever, *The Way We Never Were* is a potent corrective to dangerous nostalgia for an American tradition that never really existed.

A Plague of Prisons Ernest Drucker 2013-05-28 The public health expert and prison reform activist offers "meticulous analysis" on our criminal justice system and the plague of American incarceration (*The Washington Post*). An internationally recognized public health scholar, Ernest Drucker uses the tools of epidemiology to demonstrate that incarceration in the United States has become an epidemic—a plague upon our body politic. He argues that imprisonment, originally conceived as a response to the crimes of individuals, has become "mass incarceration": a destabilizing force that damages the very social structures that prevent crime. Drucker tracks the phenomenon of mass incarceration using basic public health concepts—"incidence and prevalence," "outbreaks," "contagion," "transmission," "potential years of life lost." The resulting analysis demonstrates that our unprecedented rates of incarceration have the contagious and self-perpetuating features of the plagues of previous centuries. Sure to provoke debate and shift the paradigm of how we think about punishment, *A Plague of Prisons* offers a novel perspective on criminal justice in twenty-first-century America. "How did America's addiction to prisons and mass incarceration get its start and how did it spread from state to state? Of the many attempts to answer this question, none make as much sense as the explanation found in [this] book." —*The Philadelphia Inquirer*

For Love or Money Nancy Folbre 2012-09-06 As women moved into the formal labor force in large numbers over the last forty years, care work — traditionally provided primarily by women — has increasingly shifted from the family arena to the market. Child care, elder care, care for the disabled, and home care now account for a growing segment of low-wage work in the United States, and demand for such work will only increase as the baby boom generation ages. But the expanding market provision of care has created new economic anxieties and raised pointed questions: Why do women continue to do most care work, both paid and unpaid? Why does care work remain low paid when the quality of care is so highly valued? How effective and equitable are public policies toward dependents in the United States? In *For Love and Money*, an interdisciplinary team of experts explores the theoretical dilemmas of care provision and provides an unprecedented empirical overview of the looming problems for the care sector in the United States. Drawing on diverse disciplines and areas of expertise, *For Love and Money* develops an innovative framework to analyze existing care policies and suggest potential directions for care policy and future research. Contributors Paula England, Nancy Folbre, and Carrie Leana explore the range of motivations for caregiving, such as familial responsibility or limited job prospects, and why both love and money can be efficient motivators. They also examine why women tend to specialize in the provision of care, citing factors like job discrimination, social pressure, or the personal motivation to provide care reported by many women. Suzanne Bianchi, Nancy Folbre, and Douglas Wolf estimate how much unpaid care is being provided in the United States and show that low-income families rely more on unpaid family members for their child and for elder care than do affluent families. With low wages and little savings, these families often find it difficult to provide care and earn enough money to stay afloat. Candace Howes, Carrie Leana and Kristin Smith investigate the dynamics within the paid care sector and find problematic wages and working conditions, including high turnover, inadequate training and a "pay penalty" for workers who enter care jobs. These conditions have consequences: poor job quality in child care and adult care also leads to poor care quality. In their chapters, Janet Gornick, Candace Howes and Laura Braslow provide a systematic inventory of public policies that directly shape the provision of care for children or for adults who need personal assistance, such as family leave, child care tax credits and Medicaid-funded long-term care. They conclude that income and variations in states' policies are the greatest factors determining how well, and for whom, the current system works. Despite the demand for care work, very little public policy attention has been devoted to it. Only three states, for example, have enacted paid family leave programs. Paid or unpaid, care costs those who provide it. At the heart of *For Love and Money* is the understanding that the quality of care work in the United States matters not only for those who receive care but also for society at large, which benefits from the nurturance and maintenance of human capabilities. As care work gravitates from the family to the formal economy, this volume clarifies the pressing need for America to fundamentally rethink its care policies and increase public investment in this increasingly crucial sector.

*Love as human virtue and human need and its role in the lives of long-term prisoners* Christina Valeska Straub 2021-04-06 While the importance of love is rarely questioned, the effects of its presence and absence in certain environments often goes unnoticed. This book analyses the role of love in the lives of prisoners in a low security English prison. It seeks to provide a deeper insight into the meaning and role of love as a dual concept in the social-ecology of human existence, human development and well-being, and sets out to encourage a critical and practical (re)consideration of the potential benefits of love's (re)inclusion into the prison set-up and purpose. This qualitative multidisciplinary analysis – based on psychological, moral philosophical, neuroscientific, and sociological literature – will appeal to postgraduates and early career researchers across the social sciences, as well practitioners of Criminal Justice and others interested in offender rehabilitation, and the effects of prison.

*Women and Housing* Patricia Kennett 2010-12-07 In the context of contemporary economic, political, social and cultural transformations, this book brings together contributions from developed and emerging societies in Europe, the USA and East Asia in order to highlight the nature, extent and impact of these changes on the housing opportunities of women. The collection seeks to contribute to comparative housing debates by highlighting the gendered nature of housing processes, locating these processes within wider structured and institutionalized relations of power, and to show how these socially constructed relationships are culturally contingent, and manifest and transform over time and space. The international contributors draw on a wide range of empirical evidence relating to labour market participation, wealth distribution, family formation and education to demonstrate the complexity and gendered nature of the interlocking arenas of production, reproduction and consumption and the implications for the housing opportunities of women in different social contexts. Worldwide examples are drawn from Australia, China, Great Britain, Hong Kong, Japan, Spain, Sweden, Taiwan and the USA.

*All About Love* bell hooks 2018-01-30 A New York Times bestseller and enduring classic, All About Love is the acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation" trilogy. All About Love reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in All About Love. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The Utne Reader declared bell hooks one of the "100 Visionaries Who Can Change Your Life." All About Love is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

*An Expert Look at Love, Intimacy and Personal Growth* Robert Morris Gordon 2008 Why do so many people have problems with love and intimacy? Why do some parents scapegoat their children? *Compassionate Love in Intimate Relationships* Josiane M. Apollon 2021-12-30 Drawing on interviews conducted with Black couples in the US, this book explores relational resilience and identifies unique adaptation strategies that enable couples to overcome the multigenerational effects of violence and sexual mass trauma from slavery and activates compassionate love in flourishing relationships. By applying Appreciative Inquiry (AI) methodology and family systems theory, the book captures the spiritual, emotional, and sexual dimensions in black couple systems that gives meaning to their resilient relationships in the context of contemporary America. Within the framework of compassionate love, the book highlights the need for researchers and clinicians to include the broader cultural contexts in their sexual trauma-informed studies and interventions. Using genetic studies and empirical evidence, the volume contributes significantly to discussion

around Black relationships and historical trauma, and to the broader challenges within race relations in the United States. This book will benefit researchers, academicians, and clinicians with an interest in sexual trauma, marriage and family therapy, and couples counseling more broadly. Readers will also find this book useful when designing research in Black studies, intergenerational issues, or sexual intimacy.

*Falling in Love with America Again* Jim DeMint 2014-03-04 Serving within the supposed pinnacles of power as a respected and influential U.S. Senator from South Carolina, Jim DeMint often felt frustrated and powerless to fight against the frightening growth of the federal bureaucracy and refute the mistaken idea that ever-bigger government is the solution to the nation's problems. In his new role as president and CEO of The Heritage Foundation, Jim DeMint has taken on the daunting responsibility of helping to lead Americans themselves to change their country's course, of redirecting us back to our founding principles and restoring and protecting our economy and culture for future generations. He realized that he - and all of us as fellow citizens - must fall in love with America - again. In this book, DeMint illustrates why Americans must rediscover the power, ingenuity and creativity of our little platoons. He then introduces Americans all across the country whose patriotism was nurtured in exactly the same way, recounting example after example of how they're working together locally in what he calls the "little platoons" - the families, churches, communities and voluntary organizations succeeding on the model that smaller is better. They are the hands-on citizens who make America the exceptional, caring and can-do country it has always been. DeMint illustrates why each of us - regardless of political party, age, race, religion or ethnicity - must rediscover the power we represent. The country's future is at risk, not just because of constant pressure from "the Bigs" (big government, big banks, big labor, big Wall Street cronies etc.), but because so many of us fear it's too late to solve problems so huge and seemingly intractable. Jim DeMint is here to reassure us that this is not true. In riveting yet plainspoken style, he tells real-life success stories and educates us via logical, historical and fact-based explanations of the issues (education, taxation, regulation, poverty, labor, health-care, environmentalism, Federalism and more). He affirms the compelling truth that conservative ideas are really American ideas, and they must guide us as we turn our institutions upside-down, taking them from the top-down centrally-controlled bureaucracies they've become back to the bottom-up democratic framework the Constitution intended. Through this heartfelt, fascinating and inspiring look inside the America of both yesterday and today, and the everyday citizens who are working tirelessly and selflessly to insure its future fulfills the promise of its beginnings, Jim DeMint is beckoning us to join him on one of the most meaningful and momentous journeys we have ever undertaken together: FALLING IN LOVE WITH AMERICA AGAIN.

*The Free-Market Family* Maxine Eichner 2019-12-11 US families have been pushed to the wall. At the bottom of the economic ladder, poor and working-class adults aren't forming stable relationships and can't give their kids the start they need because of low wages and uncertain job prospects. Toward the top, professional parents' lives have become a grinding slog of long hours of paid work. Meanwhile their kids are overstressed by pressure to succeed and get into good colleges. In this provocative book, Maxine Eichner argues that these very different struggles might seem unconnected, but they share the same root cause: the increasingly large toll that economic inequality and insecurity are taking on families. It's government rather than families that's to blame, Eichner persuasively contends. Since the 1970s, politicians have sold families out to the wrongheaded notion that the free market alone best supports them. In five decades of "free-market family policy," they've scrapped government programs and gutted market regulations that had helped families thrive. The consequence is the steady drumbeat of bad news we hear about our country today: the opioid epidemic, skyrocketing suicide and mental illness rates, "deaths of despair," and mediocre student achievement scores. Meanwhile, politicians just keep telling families to work a little harder. The Free-Market Family documents US families' impossible plight, showing how much worse they fare than families in other countries. It then demonstrates how politicians' free-market illusions steered our nation wildly off course. Finally, it shows how, using commonsense measures, we can restructure the economy to work for families, rather than the reverse. Doing so would invest in our children's futures, increase our wellbeing, reknit our social fabric, and allow our country to reclaim the American Dream.

*Love, Marriage, and Jewish Families* Sylvia Barack Fishman 2015-11-22 The concepts of gender, love, and family - as well as the personal choices regarding gender-role construction, sexual and romantic liaisons, and family formation - have become more fluid under a society-wide softening of boundaries, hierarchies, and protocols. Sylvia Barack Fishman gathers the work of social historians and legal scholars who study transformations in the intimate realms of partnering and family construction among Jews. Following a substantive introduction, the volume casts a broad net. Chapters explore the current situation in both the United States and Israel, attending to what once were considered unconventional household arrangements - including extended singlehood, cohabitating couples, single Jewish mothers, and GLBTQ families - along with the legal ramifications and religious backlash. Together, these essays demonstrate how changes in the understanding of male and female roles and expectations over the past few decades have contributed to a social revolution with profound - and paradoxical - effects on partnering, marriage, and family formation. This diverse anthology - with chapters focusing on demography, ethnography, and legal texts - will interest scholars and students in Jewish studies, women's and gender studies, Israel studies, and American Jewish history, sociology, and culture.

*Arranged Marriage* Péter Berta 2023-03-17 Arranged Marriage: The Politics of Tradition, Resistance, and Change shows how arranged marriage practices have been undergoing transformation as a result of global and other processes such as the revolution of digital technology, democratization of transnational mobility, or shifting significance of patriarchal power structures. The ethnographically informed chapters not only highlight how the gendered and intergenerational politics of agency, autonomy, choice, consent, and intimacy work in the contexts of partner choice and management of marriage, but also point out that arranged marriages are increasingly varied and they can be reshaped, reinvented, and reinterpreted flexibly in response to individual, family, religious, class, ethnic and other desires, needs, and constraints. The authors convincingly demonstrate that a nuanced investigation of the reasons, complex dynamics, and consequences of arranged marriages offers a refreshing analytical lens that can significantly contribute to a deeper understanding of other phenomena such as globalization, modernization, international migration as well as patriarchal value regimes, intergenerational power imbalances, and gendered subordination and vulnerability of women.

*Love, Labour and Law* Samita Sen 2020-12-14 Love, Labour and Law: Early and Child Marriage in India is a path-breaking book on an issue that has not been analysed in depth for a while, perhaps since it does not affect the elite. Today, the child brides are usually from poor families. They are of 15-17 years as compared to much younger brides in the earlier times. The book discusses why child marriages persist despite numerous legislative and policy initiatives to 'eliminate' the practice. The chapters examine social and legal reforms to raise the age of marriage; contemporary education and health-related policy attempts at prevention; relationship of child marriage with child labour, sex work, human trafficking and

other issues. Increasingly, there is greater resistance to marriages arranged by parents from the 'child' brides themselves who can now access institutional and bureaucratic support. How hopeful are these developments? The book goes beyond a simple policy focus on 'elimination' and provides a much-needed understanding of marriage and women's agency within the context of the Indian marriage system.

**Well-being in the Early Years** Caroline Bligh 2013-09-30 A multi-disciplinary and holistic approach to the well-being of young children to support child development modules on a variety of programmes. The emotional, physical and social well-being of young children is a prime area of the new Early Years Foundation Stage (EYFS) and is at the forefront of current policy and debate. This text goes beyond issues of safeguarding to address how the well-being of young children can be affected by a range of circumstances and how well-being is promoted by professionals from a variety of disciplines. It looks at various aspects of well-being in the young child from a number of perspectives, and examines key issues such as special and

additional needs, poverty and deprivation, abuse, race, ethnicity and culture. *Living in Happiness in a Complex World* Charles P. Nemeth 2020-02-29 In "Living in Happiness in a Complex World," Aristotle and Aquinas formulate a dependable and perennial recipe and rule for happiness. Readers can compare and contrast these two approaches to human happiness—that of Aristotle and Aquinas—with more contemporary visions, and then make a final decision on what works and what does not. As a result, readers encounter a series of delineated problems that inevitably lead to either happiness or distress, such as drug and alcohol usage, sexual gratification, sexual promiscuity, marriage or non-marriage, family, natural family planning versus artificial interference, materialism, power and greed to name a few. In the final analysis, the text lays out two versions of how one encounters these problems and attractions and by the use of data, empirical evidence about the "current" state of social conditions, give life to a classical vision for human happiness.
