## **Sentencing and Criminal Justice**

Andrew Ashworth 2005-11-03 Providing unrivalled coverage of one of the most high-profile stages in the criminal justice process, this book examines the key issues in sentencing policy and practice. It provides an up-to-date account of the legislation on sentencing together with the ever-increasing amount of Court of Appeal case law. The law in relation to

elements of the wider criminal justice system is examined, including the prison and probation services. The aim of the book is to examine English sentencing law in its context, drawing not only upon legislation and the decisions of the courts but also upon the findings of research and on theoretical justifications for punishment. This new edition has been extensively revised to integrate the new laws introduced by the Criminal Justice Act 2003, which has brought sweeping reforms into English sentencing.

**The Practice of Punishment** Wesley Cragg 2003-09-02 This study focuses on the practice of punishment, as it is inflicted by the state. The author's first-hand experience with penal reform, combined with philosophical reflection, has led him to develop a theory of punishment that identifies the principles of sentencing and corrections on which modern correctional systems should be built. This new theory of punishment is built on the view that the central function of the law is to reduce the need to use force in the resolution of disputes. Professor Cragg argues

that the proper role of sentencing and sentence administration is to sustain public confidence in the capacity of the law to fulfil that function. Sentencing and corrections should therefore be guided by principles of restorative justice. He points out that, although punishment may be an inevitable concomitant of law enforcement in general and sentencing in particular, inflicting punishment is not a legitimate objective of criminal justice. The strength and appeal of this account is that it moves well beyond the boundaries of conventional discussions. It examines punishment within the framework of policing and adjudication, analyses the relationship between punishment and sentencing, and provides a basis for evaluating correctional practices and

Sentencing and Sanctions in Western Countries Michael Tonry Director of the Institute of Criminology University of Cambridge 2001-03-12 This collection of original essays surveys the evolution of sentencing policies and practices in Western countries over the past twenty-five years. Contributors address plea-bargaining, community service, electronic monitoring, standards of use of incarceration, and legal perspectives on sentencing policy developments, among other topics. Sentencing and Sanctions in Western Countries provides a range of scholars and students excellent cross-national knowledge of

sentencing laws and practices, when and why they have changed over time, and with what effects.

**Sentencing Multiple Crimes** Jesper Ryberg 2018 Most people assume that criminal offenders have only been convicted of a single crime. However, in reality almost half of offenders stand to be sentenced for more than one crime. The high proportion of multiple crime offenders poses a number of practical and theoretical challenges for the criminal justice system. For instance, how should courts punish multiple offenders relative to individuals who have been sentenced for a single crime? How should they be punished relative to each other? **Sentencing Multiple Crimes** discusses these questions from the perspective of several legal theories. This volume considers

questions such as the proportionality of the crimes committed, the temporal span between the crimes, and the relationship between theories about the punitive treatment of recidivists and multiple offenders. Contributors from around the world and in the fields of legal theory, philosophy, and psychology offer their perspectives to the volume. A comprehensive examination of the dynamics involved with sentencing multiple offenders has the potential to be a powerful tool for legal scholars and professionals, particularly given the practical importance of the topic and the relative dearth of research about punishment of multiple offense cases. **Sentencing and Sanctions in Western Countries** Michael Tonry 2001-05-31 This collection of original essays

1996-01-18 Michael Tonry, an internationally recognized authority on criminology, offers in these pages a comprehensive overview of current research, policy developments, and practical experiences concerning sentencing and sanctions. He examines the effects of increased penalties and considers whether they have made America a safer place. Tonry contends that in order for sentencing to be fair and effective, comprehensive and defensible policies must be in place and mechanisms must exist to implement those policies. He also looks at mandatory penalties, community sanctions, and sentencing changes in other countries, and proposes sentencing policies for the twenty-first century. Sentencing has been going through reform for over twenty-five years, yet political

debate on the subject has changed remarkably little. By offering a complete survey of new developments in both research and policy, *Sentencing Matters* is certain to spark fresh dialogue on this divisive issue.

The Practice of Federal Criminal Law  
Harry I. Subin 2006 This book describes the formal rules and informal practices involved in the development and resolution of a criminal case, from the decision to charge to disposition by trial or plea, and sentencing. Analysis of the work of prosecutors and defense attorneys in a hypothetical case helps students to contextualize criminal procedure doctrine by demonstrating the way in which the attorney applies constitutional and statutory law. *The Practice of Federal Criminal Law: Prosecution and Defense* can be used in conjunction with criminal procedure courses using traditional casebooks as well as in skills training courses and prosecution and defense clinics.

"As part of our "Criminal Law Series," Sentencing: Principles and Practice is a practical, balanced, and concise treatment of all issues related to criminal sentencing. This book is of general application, applying to all types of offences within the criminal justice system. It begins with general principles and then moves on to discuss plea negotiations, the law, procedure and advocacy in sentencing hearings, dangerous offenders, types of sentences available, Charter considerations, the sentencing ruling itself, appellate issues, ancillary orders and collateral consequences, and post-sentencing issues."--

the criminal justice system, beyond the confines of its legalistic aspects. Sentencing is the process that concludes any criminal trial that ends with the defendant being convicted, and any hearing in which a defendant pleads guilty. Those convicted of crime have been subject to sentencing as the method of imposing a punishment for their offences since the earliest existence of anything we would recognise as a criminal justice system. Yet the rationale behind sentencing, and the process by which it happens, has long been viewed through a traditional lens. In contrast, this book considers not just the process by which a Judge arrives at a numerical sentence of months in custody or the amount of a fine, but the wider meanings and effects of sentencing,

as seen through the lens of various ideas of social justice. The book will appeal to students, academics, and legal practitioners who wish to consider a different perspective on the well-known and well-researched, but often shifting, area of sentencing.

*Making Sense of Sentencing* Julian V. Roberts 1999-01-01 On 3 September 1996, Bill C-41 was proclaimed in force, initiating one significant step in the reform of sentencing and parole in Canada. This is the first book that, in addition to providing an overview of the law, effectively presents a sociological analysis of the legal reforms and their ramifications in this controversial area. The commissioned essays in this collection cover such crucial issues as options and alternatives in

sentencing, patterns revealed by recent statistics, sentencing of minority groups, Bill C-41 and its effects, conditional sentencing, and the structure and relationship between parole and sentencing are clearly presented. An introduction, editorial comments beginning each chapter, and a concluding chapter draw the essays together resulting in a timely, comprehensive and extremely readable work on this critical topic. Broad in scope and perspective, this major new socio-legal study of the law of sentencing will be illuminating to students, members of the legal profession, and the general reader.

**Just Sentencing** Richard S. Frase 2013-01-17 This title presents a fully developed punishment theory which incorporates both utilitarian

and retributive sentencing purposes. The author describes and defends a hybrid sentencing model that integrates theory and practice - blending and balancing both the competing principles of retribution and rehabilitation and the procedural concern of weighing rules against discretion.

*Sentencing in Canada* David Cole 2020-08-26 *Sentencing in Canada* contains a unique collection of essays that explore all key aspects of sentencing. The contributors include leading academics, criminal law practitioners, and members of the judiciary, and many of the authors have extensive experience working in the areas of sentencing and parole. The volume is not simply a statement of the law--instead, the chapters examine the wider context in which sentencing and parole decisions are taken. The volume also incorporates findings from the latest empirical research into sentencing policy and practice in Canada, including

important issues such as sentencing Indigenous persons. As Mr Justice Moldaver notes in his preface, the volume "will be useful to criminal law practitioners and, more generally, to all persons interested in sentencing."

**Rehabilitating Lawyers** David B. Wexler 2008 This book seeks to bridge the traditional divide between scholarship and practice in the field of law. It introduces the interdisciplinary perspective of therapeutic jurisprudence (TJ) and then, largely through the thoughtful and informative essays of practitioners and clinical law professors, shows how criminal law practice can be enriched -- and how clients can benefit -- from lawyers looking at their practice with a TJ lens. Lawyers can be positive change

agents for many of their clients, and will find that this approach can markedly increase their own professional satisfaction and enhance their professional image.

"Rehabilitating Lawyers is the kind of smart and balanced book too often absent from the fractious debate about the future of our criminal justice system. By embracing healing as a legitimate criminal justice goal, Professor Wexler offers up an exciting new paradigm in which lawyers finally deserve the label 'counselor.'" -- Robin Steinberg, Executive Director, Bronx Defenders "Criminal law, criminal lawyers and their clients need more than skillful representation in court. For the cycle of offending to be slowed, for criminal law to meet its stated objectives, and for criminal lawyers

to survive burnout, fundamental reconceptualising of the law and lawyering are needed. Rehabilitating Lawyers provides a challenging way of reframing through therapeutic jurisprudence how opportunities for reclamation of offenders can be fostered and criminal lawyers can play a role in reducing recidivist offending. It explores how the ethical practice of criminal law by attorneys and judges alike, from charging through trials and sentencing and into probation, can be made more humane and constructive." -

- Dr. Ian Freckelton SC, Barrister, Melbourne, Australia, Professor of Law, Forensic Medicine and Psychological Medicine, Monash University "The editor hopes that this book will bridge the wide academic/legal practitioner divide.

It has done so admirably....This inspirational edition deserves wide circulation and further incorporation of its ideas into legal education, court practice and legislative action." -- Law Institute Journal, October 2008 "The most interesting, important and innovative book I have read about the practice of law in many years. I'm a former Public Defender (still one at heart), and I hope this book is read by all of those who devote themselves valiantly to this most undervalued position. Anyone who has ever represented a criminal defendant owes Professor Wexler a great debt of gratitude."-- Professor Michael L. Perlin, Director, International Mental Disability Law Reform Project, Director, Online Mental Disability Law Program New York Law School

"Wexler's collection deserves a place on the shelves of academics interested in this important area of legal education; it is a balanced well referenced source, and a great primer for this area of theory and practice. An equally important reading audience are court administrators, judges and Attorneys General who have the clout to implement some of these suggestions."

combines theory with practical considerations and encourages students to focus on putting their knowledge into a practical context. Written in an informal style, the text covers all procedural and evidential issues that arise in criminal cases. The more complex areas of criminal litigation are examined using numerous diagrams, flowcharts, and examples while potential changes in the law are highlighted by specially designed 'Looking Ahead' boxes. Each chapter ends with a key point summary and self-test questions, enabling students to quickly sum up what they have read and test their own knowledge. Online Resource Centre The comprehensive Online Resource Centre offers vital support to students throughout their course. Updates are

freely accessible to enable students to keep up to date with developments in the field, while links to other useful websites and legislation encourage students to explore the subject area fully. Additionally, two chapters covering regulatory crime and fraud are freely accessible online for those students whose course emphasizes corporate crime. Lecturers are able to access video clips of fictional but realistic court proceedings which follow the case studies included in the text; documentation supporting these case studies is also provided via the site. Additional videos cover the procedure at the police station and sentencing in the Crown Court. Lecturers are also able to access a test bank of questions which provide an innovative way to assess students'

*DeathQuest* Robert M. Bohm 2016-11-10

This fifth edition of the first true textbook on the death penalty engages the reader with a full account of the arguments and issues surrounding capital punishment. The book begins with the history of the death penalty from colonial to modern times, and then examines the moral and legal arguments for and against capital punishment. It also provides an overview of major Supreme Court decisions and describes the legal process behind the death penalty. In addressing these issues, the author reviews recent developments in death penalty law and procedure, including ramifications of newer case law, such as that regarding using lethal

injection as a method of execution. The author's motivation has been to understand what motivates the "deathquest" of the American people, leading a large percentage of the public to support the death penalty. The book educates readers so that whatever their death penalty positions are, they are informed opinions.

*Sentencing in International Criminal Law* Silvia D'Ascoli 2011-04-01  
This book deals with sentencing in international criminal law, focusing on the approach of the UN ad hoc Tribunals for the former Yugoslavia (ICTY) and Rwanda (ICTR). In contrast to sentencing in domestic jurisdictions, and in spite of its growing importance, sentencing law is

a part of international criminal law that is still 'under construction' and is unregulated in many aspects. International sentencing law and practice is not yet defined by exact norms and principles and as yet there is no body of international principles concerning the determination of sentence, notwithstanding the huge volume of sentencing research and the extensive modern debate about sentencing principles. Moreover international judges receive very little guidance in sentencing matters: this contributes to inconsistencies and may increase the risk that similar cases will be sentenced in different ways. One purpose of this book is to investigate and evaluate the process of international sentencing, especially as interpreted by the ICTY

and the ICTR, and to suggest a more comprehensive and coherent system of guiding principles, which will foster the development of a law of sentencing for international criminal justice. The book discusses the law and jurisprudence of the ad hoc Tribunals, and also presents an empirical analysis of influential factors and other data from ICTY and ICTR sentencing practice, thus offering quantitative support for the doctrinal analysis. This publication is one of the first to be entirely devoted to the process of sentencing in international criminal justice. The book will thus be of great interest to practitioners, academics and students of the subject. *Questioning Capital Punishment* James R. Acker 2014-06-13 The death penalty has inspired controversy for

centuries. Raising questions regarding capital punishment rather than answering them, Questioning Capital Punishment offers the footing needed to allow for more informed consideration and analysis of these controversies. Acker edits judicial decisions that have addressed constitutional challenges to capital punishment and its administration in the United States and uses complementary materials to offer historical, empirical, and normative perspectives about death penalty policies and practices. This book is ideal for upper-level undergraduate and graduate classes in criminal justice.

to be an important determinant of the form and severity of punishment for subsequent offences. Repeat offenders receive harsher punishments than first offenders, and offenders with longer criminal records are punished more severely than those with shorter records. Yet the vast literature on sentencing policy, law, and practice has generally overlooked the issue of prior convictions, even though this is the most important sentencing factor after the seriousness of the crime. In *Paying for the Past*, Richard S. Frase and Julian V. Roberts provide a critical and systematic examination of current prior record enhancements under sentencing guidelines across the US. Drawing on empirical data and analyses of guidelines from a number of jurisdictions, they illustrate

different approaches to prior record enhancements and the differing outcomes of those approaches. Roberts and Frase demonstrate that most prior record enhancements generate a range of adverse outcomes at sentencing. Further, the pervasive justifications for prior record enhancement, such as the repeat offender's assumed higher risk of reoffending or greater culpability, are uncertain and have rarely been subjected to critical appraisal. The punitive sentencing premiums for repeat offenders prescribed by US guidelines cannot be justified on grounds of prevention or retribution. Shining a light on a neglected but critically important

topic, *Paying for the Past* examines the costs of prior record enhancements for repeat offenders and offers model guidelines to help reduce racial disparities and reallocate criminal justice resources for jurisdictions who use sentence enhancements.
