Russian Motor Vehicles

Maurice A. Kelly 2009-07
There has been nothing
published outside of
Russia concerning the
activities of its motor
industry, by 1937 the
Soviets had become the
largest producers of

motor vehicles in
Europe, albeit with the
help of Henry Ford The
author decided to
concentrate on the work
of the pioneers in
Czarist Russia, for
their efforts were more
diverse than those of
their counterparts in
the Soviet era. However,
one Soviet motor car
which was an indigenous
product has been
included to illustrate
how the industry might
have evolved if Henry
Ford had not been
approached. This is a
comprehensive overview
of all facets of vehicle
production from the
early days to the final
demise of the Soviet
Union. All the
manufacturers of motor
vehicles, certain
accessories, military
machines, and even aero
engines are recorded in
this unique book.
