*Janice McCord Rides Again* Paul L. Thompson 2012-12-01 A gang of Texas outlaws kidnap U S Marshal Shorty Thompson and is after his and Buffalo's Wyoming gold. Buffalo and his ranch foreman ride over two hundred miles to get little Janice McCord and her .45 to bring Shorty back alive. The horseback ride from New Mexico to Wyoming is filled with gunfights and crooked town sheriffs. Though Janice starts out two weeks behind, she catches sight of the gang in northern Colorado. If not for her trackers Indian friends, they could have been ambushed several times. Two Texas Rangers show up looking for the same gang, but the local law does not take too kindly to Rangers messing around in his town. Late one night while the outlaws were getting drunk in a saloon, Shorty makes a run for it. Early the next morning the outlaws grab Janice and Cloudy Dawn to take his place, as they leave their hotel room. Dawn is turned loose to find Shorty and tell him to back off or Janice is dead. Dawn strikes out on her own to free Janice and removes several outlaws from their saddles with an arrow or two. The gang is in total panic,

*Paradoxes of Gender* Judith Lorber 1994-01-01 In this pathbreaking book, a well-known feminist and sociologist--who is also the Founding Editor of *Gender & Society*--challenges our most basic assumptions about gender. Judith Lorber views gender as wholly a product of socialization subject to human agency, organization, and interpretation. In her new paradigm, gender is an institution comparable to the economy, the family, and religion in its significance and consequences. Drawing on many schools of feminist scholarship and on research from anthropology, history, sociology, social psychology, sociolinguistics, and cultural studies, Lorber explores different paradoxes of gender: --why we speak of only two "opposite sexes" when there is such a variety of sexual behaviors and relationships; --why transvestites, transsexuals, and hermaphrodites do not affect the conceptualization of two genders and two sexes in Western societies; --why most of our cultural images of women are the way men see them and not the way women see themselves; --why all women in modern society are expected to have children and be the primary caretaker; --why domestic work is almost always the sole responsibility of wives, even when they earn more than half the family income; --why there are so few women in positions of authority, when women can be

found in substantial numbers in many occupations and professions; --why women have not benefited from major social revolutions. Lorber argues that the whole point of the gender system today is to maintain structured gender inequality--to produce a subordinate class (women) that can be exploited as workers, sexual partners, childbearers, and emotional nurturers. Calling into question the inevitability and necessity of gender, she envisions a society structured for equality, where no gender, racial ethnic, or social class group is allowed to monopolize economic, educational, and cultural resources or the positions of power.

**Racism in America** Harvard University Press 2020-08-06 Racism in America has been the subject of serious scholarship for decades. At Harvard University Press, we've had the honor of publishing some of the most influential books on the subject. The excerpts in this volume—culled from works of history, law, sociology, medicine, economics, critical theory, philosophy, art, and literature—are an invitation to understand anti-Black racism through the eyes of our most incisive commentators. Readers will find such classic selections as Toni Morrison's description of the Africanist presence in the White American literary imagination, Walter Johnson's depiction of the nation's largest slave market, and Stuart Hall's theorization of the relationship between race and nationhood. More recent voices include Khalil Gibran Muhammad on the pernicious myth of Black criminality, Elizabeth Hinton on the link between mass incarceration and 1960s social welfare programs, Anthony Abraham Jack on how elite institutions continue to fail first-generation college students, Mehrsa Baradaran on the racial wealth gap, Nicole Fleetwood on carceral art, and Joshua Bennett on the anti-Black bias implicit in how we talk about animals and the environment. Because the experiences of non-White people are integral to the history of racism and often bound up in the story of Black Americans, we have included writers who focus on the struggles of Native Americans, Latinos, and Asians as well. America is for all curious readers, teachers, and students who wish to discover for themselves the complex and rewarding intellectual work that has sustained our national conversation on race and will continue to guide us in future years.

Entertainment-Education Behind the Scenes Lauren B. Frank 2021 This Open Access book tracks the latest trends in the theory, research, and practice of entertainment-education, the field of communication that incorporates social change messaging into entertaining media. Sometimes called edutainment, social impact television, narrative persuasion, or cultural strategy, this approach to social and behavior change communication offers new opportunities including transmedia and digital formats. However, making media can be a chaotic process. The realities of working in the field and the rigid structures of scholarly evaluation often act as barriers to honest accounts of entertainment-education practice. In this collection of essays, experienced practitioners offer unique insight into how entertainment-education works and present a balanced view of its potential pitfalls. This book gives readers an opportunity to learn from the successes and mistakes of the experts, taking a behind-the-scenes look at the business of making entertainment-education media.

**The Littlest Gun Two** Paul L. Thompson 2004-07 The brother of an outlaw kidnaps U.S. Marshal M D (Shorty) Thompson for revenge. Shorty had caught Sam Tolbert's brother Ed, and he was hung for killing the Laramie sheriff. Sam and his gang will make Shorty pay, first with his gold and then with his life. Tolbert and his gang head to Wyoming to grab Shorty and Buffalo's gold, with Shorty in tow. Shorty's partner, Buffalo, rides over two hundred miles to enlist the aid of Janice McCord, Shorty's cousin, also known as The Littlest Gun. No other woman and very few men have Janice's ability with a .45. She and her friend Cloudy Dawn will bring Shorty back alive and leave a few outlaws dead in the process. While on the trail to Wyoming, several men make the mistake of thinking Janice is just a helpless little girl. She does not tolerate nonsense of men trying to put their hands where they don't belong. After getting slapped up beside the head with a .45, they back off. On the trail, Janice and Dawn

have one big problem after another. When her ranch foreman is shot and wounded outside of Leadville, they realize they are being followed themselves. Could it be more Tolbert men?

**Texas Ranger** John Boessenecker 2016-04-26 The New York Times bestseller! "Frank Hamer, last of the old breed of Texas Rangers, has not fared well in history or popular culture. John Boessenecker now restores this incredible Ranger to his proper place alongside such fabled lawmen as Wyatt Earp and Eliot Ness. Here is a grand adventure story, told with grace and authority by a master historian of American law enforcement. Frank Hamer can rest easy as readers will finally learn the truth behind his amazing career, spanning the end of the Wild West through the bloody days of the gangsters." --Paul Andrew Hutton, author of *The Apache Wars*  
To most Americans, Frank Hamer is known only as the "villain" of the 1967 film *Bonnie and Clyde*. Now, in *Texas Ranger*, historian John Boessenecker sets out to restore Hamer's good name and prove that he was, in fact, a classic American hero. From the horseback days of the Old West through the gangster days of the 1930s, Hamer stood on the front lines of some of the most important and exciting periods in American history. He participated in the Bandit War of 1915, survived the climactic gunfight in the last blood feud of the Old West, battled the Mexican Revolution's spillover across the border, protected African Americans from lynch mobs and the Ku Klux Klan, and ran down gangsters, bootleggers, and Communists. When at last his career came to an end, it was only when he ran up against another legendary Texan: Lyndon B. Johnson. Written by one of the most acclaimed historians of the Old West, *Texas Ranger* is the first biography to tell the full story of this near-mythic lawman.

The Littlest Gun Paul L. Thompson 1999-06 Janice McCord is fourteen years old when the five Kraymon brothers ride in and shoot down her parents and her twin brother Jack. She takes up Jack's name and her father's .45 to blaze a trail of revenge across the Territory of New Mexico.

*Hoosiers and the American Story* Madison, James H. 2014-10-01 A supplemental textbook for middle and high school students, *Hoosiers and the American Story* provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they

elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

*U. S. Marshal Shorty Thompson* Paul Thompson 2017-11-03 The Rio Grande runs right down the middle of the Mesilla Valley in southern New Mexico Territory. This rich soil was easy to water and toil. Farmers raised all the food for themselves as well as grains and hay for animals. The Jordan Textile Company found growing cotton in these southern valley's was much better than the war torn southern states. Shipping cost to bring in cotton from Cuba and the islands was too great. All that had to be done was hire killers and outlaws to burn these farmers out. Why pay good money and buy land when you can just kill off all the families? Betty Sue Gains' father was the first farmer killed. She went to the law, but Sheriff Brady Cole could not cross to the east side of the Rio Grande to bring those men to justice. She would have to do it, and this she would. Fourteen year old Betty Sue visited an ex-law man Leslie Trousdale, so he might teach her all about using the forty-five she now worn on her right hip. With this over, it was time for her to go after and kill every outlaw she could get in her sights. She had to be careful, if the outlaws found out who was knocking off their men, they might go after and do harm to the Carter family. This must not happen, it will not happen.

Black Students Gordon L. Berry 1989-11 Why are so many Black students prematurely leaving school? What factors can be attributed toward academic achievement of Black students? Should teachers be less concerned with curriculum content and more sensitive to the social and psychological needs during child development? The authors argue that academic achievement for Black students is influenced not only by circumstances found in the individual or family and school settings, but by a whole host of factors. Social and economic environments, the

development of the self-concept, peer pressure, personal attributes such as resources, skills and motivation--these are a few of the many factors contributing towards a person's ability to achieve academically. *Black Students* brings together current research to address these factors from a variety of perspectives and covers the full educational cycle from kindergarten through the college years. The majority of past research on academic achievement of Black students has placed blame on the individual or credited failure toward an incapability to succeed. Berry and Asamen's mission is to shift away from this narrow perspective and to look more holistically at the issues. In addition the book provides some specific programmatic directions for enhancing the academic experiences of Black students. "The editors conceptualized and produced an important, informative, issue-oriented book with contributions by prestigious, involved scholars in education, the social sciences, and mental health. . . . Recommendations for policy and programmatic changes are included, along with directions for future research." --Choice "All in all, this book was well conceived and succeeds in its high ideals of offering a useful, womanlike contribution to the riddle of the causes of under achievement of black Americans and ultimately of all black people of the diaspora; intuitively understood by all who know anything of the history of their experience, but yet to be coherently deciphered." --Education Today "Informative and thought provoking. Berry and Asamen make the reader painfully aware of the many casualties and losses of black youth, particularly low income black youth within today's educational system. . . . [It] explores the societal factors that inhibit or can enhance the academic achievement of low income black students. *Black Students* affirmed some of my own beliefs and provided new information." --Association for Women in Psychology Newsletter "A book written by people who obviously care about Black education. Moreover, it is difficult to take exception to Berry's conclusion that Blacks need an educational system which offers equity and excellence." --British Educational Research Journal.

*Vision's Immanence* Peter Lurie 2020-03-03 William Faulkner occupied a unique position as a modern writer. Although famous for his modernist

novels and their notorious difficulty, he also wrote extensively for the "culture industry," and the works he produced for it—including short stories, adaptations, and screenplays—bore many of the hallmarks of consumer art. His experiences as a Hollywood screenwriter influenced him in a number of ways, many of them negative, while the films turned out by the "dream factories" in which he labored sporadically inspired both his interest and his contempt. Faulkner also disparaged the popular magazines—though he frequently sold short stories to them. To what extent was Faulkner's deeply ambivalent relationship to—and involvement with—American popular culture reflected in his modernist or "art" fiction? Peter Lurie finds convincing evidence that Faulkner was keenly aware of commercial culture and adapted its formulae, strategies, and in particular, its visual techniques into the language of his novels of the 1930s. Lurie contends that Faulkner's modernism can be best understood in light of his reaction to the popular culture of his day. Using Theodor Adorno's theory about modern cultural production as a framework, Lurie's close readings of *Sanctuary*, *Light in August*, *Absalom! Absalom!*, and *If I Forget Thee, Jerusalem* uncover the cultural history that surrounded and influenced the development of Faulkner's art. Lurie is particularly interested in the influence of cinema on Faulkner's fiction and

especially the visual strategies he both deployed and critiqued. These include the suggestion of cinematic viewing on the part of readers and of characters in each of the novels; the collective and individual acts of voyeurism in *Sanctuary* and *Light in August*; the exposing in *Absalom! Absalom!* and *Light in August* of stereotypical and cinematic patterns of thought about history and race; and the evocation of popular forms like melodrama and the movie screen in *If I Forget Thee, Jerusalem*. Offering innovative readings of these canonical works, this study sheds new light on Faulkner's uniquely American modernism.
