[The Ruin of Kasch](#) Roberto Calasso 2018-01-02 A brilliant new translation of a classic work on violence and revolution as seen through mythology and art *The Ruin of Kasch* takes up two subjects—"the first is Talleyrand, and the second is everything else," wrote Italo Calvino when the book first appeared in 1983. Hailed as one of those rare books that persuade us to see our entire civilization in a new light, its guide is the French statesman Charles-Maurice de Talleyrand, who knew the secrets of the ancien régime and all that came after, and was able to

adapt the notion of "legitimacy" to the modern age. Roberto Calasso follows him through a vast gallery of scenes set immediately before and after the French Revolution, making occasional forays backward and forward in time, from Vedic India to the porticoes of the Palais-Royal and to the killing fields of Pol Pot, with appearances by Goethe and Marie Antoinette, Napoleon and Marx, Walter Benjamin and Chateaubriand. At the center stands the story of the ruin of Kasch, a legendary kingdom based on the ritual killing of the king and emblematic of the ruin of ancient and modern regimes.

Offered here in a new translation by Richard Dixon, *The Ruin of Kasch* is, as John Banville wrote, "a great fat jewel-box of a book, gleaming with obscure treasures."

### **North Korea's Juche Myth**

B. R. Myers 2015-10-01 For decades the North Korean regime has preached a virulent race-nationalism to its own people. At the same time, however, it has succeeded in making outsiders believe that it is guided by a solipsistic, inward-directed ideology of self-reliant communism. This in turn has nurtured the wishful assumption that the regime no longer has serious designs on South Korea. In this book, his follow-up to *The Cleanest Race* (2009), B.R. Myers shows that although the myth of Juche has done great service for the regime at home and abroad, the ideology's content has never played a significant role in policy-making or domestic propaganda. The North Korean nuclear program must be grasped in the context of the regime's true ideological commitment, which is not to

*The Civil War in France*

Karl Marx 2022-05-29

*The Civil War in France* is a pamphlet written by Karl Marx. It presents a convincing declaration of the General Council of the International, pertaining to the character and importance of the struggle of the Communards in the Paris Commune at the time.

### **From Mahan to Pearl Harbor**

Sadao Asada 2013-01-15

A major work by one of Japan's leading naval historians, this book traces Alfred Thayer Mahan's influence on Japan's rise as a sea power after the publication of his classic study, *The Influence of Sea Power Upon History*. Hailed by the British Admiralty, Theodore Roosevelt, and Kaiser Wilhelm II, the international bestseller also was endorsed by the Japanese Naval Ministry, who took it as a clarion call to enhance their own sea power. That power, of course, was eventually used against the

Suny s Murray

United States. Sadao Asada opens his book with a discussion of Mahan's sea power doctrine and demonstrates how Mahan's ideas led the Imperial Japanese Navy to view itself as a hypothetical enemy of the Americans. Drawing on previously unused Japanese records from the three naval conferences of the 1920s—the Washington Conference of 1921-22, the Geneva Conference of 1927, and the London Conference of 1930—the author examines the strategic dilemma facing the Japanese navy during the 1920s and 1930s against the background of advancing weapon technology and increasing doubt about the relevance of battleships. He also analyzes the decisions that led to war with the United States—namely, the 1936 withdrawal from naval treaties, the conclusion of the Tripartite Pact in September 1940, and the armed advance into south Indochina in July 1941—in the context of bureaucratic struggles between the army

*Limes La Rivoluzione  
Giapponese Pdf Pdf

and navy to gain supremacy. He concludes that the "ghost" of Mahan hung over the Japanese naval leaders as they prepared for war against the United State and made decisions based on miscalculations about American and Japanese strengths and American intentions.

### **The Future of America's Alliances in Northeast Asia**

Michael H. Armacost 2004 For the past half century, the United States, Japan, and South Korea have maintained a three-cornered alliance to guarantee peace in Northeast Asia. U.S.-Japanese security relations currently thrive. However, conflicting perceptions in Seoul and Washington of Kim Jong-Il's North Korean regime and how to deal with it have generated deep concerns about the future of the U.S.-Korean alliance.

#### By More Than Providence

Michael J. Green 2017-03-21

Soon after the American Revolution, certain of the founders began to recognize the strategic significance of Asia and the Pacific and the vast material and cultural

*Downloaded from

Suny s Murray*

resources at stake there. Over the coming generations, the United States continued to ask how best to expand trade with the region and whether to partner with China, at the center of the continent, or Japan, looking toward the Pacific. Where should the United States draw its defensive line, and how should it export democratic principles? In a history that spans the eighteenth century to the present, Michael J. Green follows the development of U.S. strategic thinking toward East Asia, identifying recurring themes in American statecraft that reflect the nation's political philosophy and material realities. Drawing on archives, interviews, and his own experience in the Pentagon and White House, Green finds one overarching concern driving U.S. policy toward East Asia: a fear that a rival power might use the Pacific to isolate and threaten the United States and prevent the ocean from becoming a conduit for the westward free flow of trade, values, and forward defense. By

*Limes La Rivoluzione  
Giapponese Pdf Pdf  
upload Suny s Murray*

More Than Providence works through these problems from the perspective of history's major strategists and statesmen, from Thomas Jefferson to Alfred Thayer Mahan and Henry Kissinger. It records the fate of their ideas as they collided with the realities of the Far East and adds clarity to America's stakes in the region, especially when compared with those of Europe and the Middle East.

### **Tolerance and Intolerance on the Triplex Confinium**

International Research Project "Triplex Confinium." International Conference 2007 The Triplex Confinium, or triple border, was an actual point in the proximity of the town of Knin in Croatia, between the Habsburg Empire, the Ottoman Empire and the Republic of Venice after the peace treaty of Karlowitz in 1699. The Triplex Confinium, as an area and experience of living on the crossroads of different civilizations, cultures and religions in a long historical perspective, inspired an international research project from

*via.ramtech.uri.edu on  
September 24, 2023 by  
Suny s Murray*

focused upon the comparative history and intercultural approaches of borders and borderlands in Southeast Europe, where three distinctive political, cultural and confessional contexts encountered each other over the centuries. The Triplex Confinium is above all a metaphor of cultural challenges in the areas of multiple borderlands.

### **Foreign Policy in Comparative Perspective**

Ryan K. Beasley 2012-04-25 Widely regarded as the most comprehensive comparative foreign policy text, *Foreign Policy in Comparative Perspective* has been completely updated in this much-anticipated second edition. Exploring the foreign policies of thirteen nations—both major and emerging players, and representing all regions of the world—chapter authors link the study of international relations to domestic politics, while treating each nation according to individual histories and contemporary dilemmas. The

even led to the fall of Slobodan Milosevic. She tells how creative social entrepreneurs are starting to use peer pressure to accomplish goals as personal as losing weight and as global as fighting terrorism. Inspiring and engrossing, Join the Club explains how we can better our world through humanity's most powerful and abundant resource: our connections with one another.

### **The Lands of Partitioned**

**Poland, 1795-1918** Piotr S. Wandycz 1975-02-01 The Lands of Partitioned Poland, 1795-1918 comprehensively covers an important, complex, and controversial period in the history of Poland and East Central Europe, beginning in 1795 when the remnant of the Polish Commonwealth were distributed among Prussia, Austria, and Russia, and culminating in 1918 with the re-establishment of an independent Polish state. Until this thorough and authoritative study, literature on the subject in English has been limited to a few chapters in multi-authored works. Chronologically,

*Limes La Rivoluzione  
Giapponese Pdf Pdf  
upload Suny s Murray*

Wandycz traces the histories of the lands under Prussian, Austrian, and Russian rule, pointing out their divergent evolution as well as the threads that bound them together. The result is a balanced, comprehensive picture of the social, political, economic, and cultural developments of all nationalities inhabiting the land of the old commonwealth, rather than a limited history of one state (Poland) and one people (the Poles).

**Sprawl** Robert Bruegmann 2008-09-15 As anyone who has flown into Los Angeles at dusk or Houston at midday knows, urban areas today defy traditional notions of what a city is. Our old definitions of urban, suburban, and rural fail to capture the complexity of these vast regions with their superhighways, subdivisions, industrial areas, office parks, and resort areas pushing far out into the countryside.

Detractors call it sprawl and assert that it is economically inefficient, socially inequitable, environmentally irresponsible, and aesthetically

*Downloaded from

Suny s Murray*

Bruegmann calls it a logical consequence of economic growth and the democratization of society, with benefits that urban planners have failed to recognize. In his incisive history of the expanded city, Bruegmann overturns every assumption we have about sprawl. Taking a long view of urban development, he demonstrates that sprawl is neither recent nor particularly American but as old as cities themselves, just as characteristic of ancient Rome and eighteenth-century Paris as it is of Atlanta or Los Angeles. Nor is sprawl the disaster claimed by many contemporary observers. Although sprawl, like any settlement pattern, has undoubtedly produced problems that must be addressed, it has also provided millions of people with the kinds of mobility, privacy, and choice that were once the exclusive prerogatives of the rich and powerful. The first major book to strip urban sprawl of its pejorative connotations, *Sprawl* offers a completely new vision of the

*Limes La Rivoluzione  
Giapponese Pdf Pdf  
upload Suny s Murray*

city and its growth. Bruegmann leads readers to the powerful conclusion that "in its immense complexity and constant change, the city—whether dense and concentrated at its core, looser and more sprawling in suburbia, or in the vast tracts of exurban penumbra that extend dozens, even hundreds, of miles—is the grandest and most marvelous work of mankind." "Largely missing from this debate [over sprawl] has been a sound and reasoned history of this pattern of living. With Robert Bruegmann's *Sprawl: A Compact History*, we now have one. What a pleasure it is: well-written, accessible and eager to challenge the current cant about sprawl."—Joel Kotkin, *The Wall Street Journal* "There are scores of books offering 'solutions' to sprawl. Their authors would do well to read this book."—Witold Rybczynski, *Slate*

**The Second World** Parag  
Khanna 2008-03-04 Grand  
explanations of how to  
understand the complex  
twenty-first-century world have  
all fallen short—*Downloaded From*

*Suny s Murray*

Second World, the brilliant young scholar Parag Khanna takes readers on a thrilling global tour, one that shows how America's dominant moment has been suddenly replaced by a geopolitical marketplace wherein the European Union and China compete with the United States to shape world order on their own terms. This contest is hottest and most decisive in the Second World: pivotal regions in Eastern Europe, Central Asia, Latin America, the Middle East, and East Asia. Khanna explores the evolution of geopolitics through the recent histories of such underreported, fascinating, and complicated countries as Azerbaijan, Uzbekistan, Colombia, Libya, Vietnam, and Malaysia—nations whose resources will ultimately determine the fate of the three superpowers, but whose futures are perennially uncertain as they struggle to rise into the first world or avoid falling into the third. Informed, witty, and armed with a traveler's intuition for blending into diverse cultures, Khanna mixes copious

research with deep reportage to remake the map of the world. He depicts second-world societies from the inside out, observing how globalization divides them into winners and losers along political, economic, and cultural lines—and shows how China, Europe, and America use their unique imperial gravities to pull the second-world countries into their orbits. Along the way, Khanna also explains how Arabism and Islamism compete for the Arab soul, reveals how Iran and Saudi Arabia play the superpowers against one another, unmasks Singapore's inspirational role in East Asia, and psychoanalyzes the second-world leaders whose decisions are reshaping the balance of power. He captures the most elusive formula in international affairs: how to think like a country. In the twenty-first century, globalization is the main battlefield of geopolitics, and America itself runs the risk of descending into the second world if it does not renew itself and redefine its role in the

expert on global politics, offers an study of the 21st century's emerging "geopolitical marketplace" dominated by three "first world" superpowers, the U.S., Europe and China...

The final pages of his book warn eloquently of the risks of imperial overstretch combined with declining economic dominance and deteriorating quality of life. By themselves those pages are worth the price of a book that from beginning to end inspires reflection."

-Publishers Weekly

[Awash in a Sea of Faith](#) Jon Butler 1990 Challenging the formidable tradition that places early New England Puritanism at the center of the American religious experience, Yale historian Jon Butler offers a new interpretation of three hundred years of religious and cultural development. Butler stresses the instability of religion in Europe where state churches battled dissenters, magic, and astonishingly low church participation. He charts the transfer of these difficulties to America, including the failure of Puritan religious models derived from

*via.ramtech.uri.edu on

describes the surprising advance of religious commitment there between 1700 and 1865. Through the assertion of authority and coercion, a remarkable sacralization of the prerevolutionary countryside, advancing religious pluralism, the folklorization of magic, and an eclectic, syncretistic emphasis on supernatural interventionism, including miracles, America emerged after 1800 as an extraordinary spiritual hothouse that far eclipsed the Puritan achievement--even as secularism triumphed in Europe. *Awash in a Sea of Faith* ranges from popular piety to magic, from anxious revolutionary war chaplains to the cool rationalism of James Madison, from divining rods and seer stones to Anglican and Unitarian elites, and from Virginia Anglican occultists and Presbyterians raised from the dead to Jonathan Edwards, Joseph Smith, and Abraham Lincoln. Butler deftly comes to terms with conventional themes such as Puritanism,

*Limes La Rivoluzione

witchcraft, religion and revolution, revivalism, millenarianism, and Mormonism. His elucidation of Christianity's powerful role in shaping slavery and of a subsequent African spiritual "holocaust," with its ironic result in African Christianization, is an especially fresh and incisive account. *Awash in a Sea of Faith* reveals the proliferation of American religious expression--not its decline--and stresses the creative tensions between pulpit and pew across three hundred years of social maturation. Striking in its breadth and deeply rooted in primary sources, this seminal book recasts the landscape of American religious and cultural history.

**The President of Good & Evil**

Peter Singer 2015-04-14 From the author of *Animal Liberation*, an examination of the chasm between the words and actions of George W. Bush, who claimed the moral high ground more than any president in recent US history. During his time in public office, George W. Bush framed a striking number of his major policies and initiatives with the concepts of good and evil. From his christening of the “axis of evil” to the wars in the Middle East to his condemnation of stem cell research, Bush consistently deployed moral language in discussions of the day’s major issues. But to what degree could his moral philosophy be considered coherent? In *The President of Good & Evil*, Peter Singer offers an eye-opening analysis of the ethical outlook of America’s forty-third president. This ebook features an illustrated biography of

*Limes La Rivoluzione

Peter Singer, including rare photos from the author’s personal collection.

**Hope Springs Eternal**

Kim Oosterlinck 2016-01-01 In 1918, the Soviet revolutionary government repudiated the Tsarist regime's sovereign debt, triggering one of the biggest sovereign defaults ever. Yet the price of Russian bonds remained high for years. Combing French archival records, Kim Oosterlinck shows that, far from irrational, investors had legitimate reasons to hope for repayment. Soviet debt recognition, a change in government, a bailout by the French government, or French banks, or a seceding country would have guaranteed at least a partial reimbursement. As Greece and other European countries raise the possibility of sovereign default, Oosterlinck's superbly researched study is more urgent than ever.

**A Chinese Life**

tribulations of the Chinese everyman as he embraces the new order in childhood, serves in the military and with agricultural labor, and becomes a member of the Communist Party.

*Europe* Brendan Simms  
2013-04-04 Half a millennium of European warfare brilliantly retold by masterly historian Brendan Simms At the heart of Europe's history lies a puzzle. In most of the world humankind has created enormous political frameworks, whether ancient (such as China) or modern (such as the United States). Sprawling empires, kingdoms or republics appear to be the norm. By contrast Europe has remained stubbornly chaotic and fractured into often amazingly tiny pieces, with each serious attempt to unify the continent (by Charles V, Napoleon and Hitler) thwarted. In this marvelously ambitious and exciting new book, Brendan Simms tells the story of Europe's constantly shifting geopolitics and the peculiar circumstances that have made it both so impossible to

*Limes La Rivoluzione  
Giapponese Pdf Pdf  
upload Suny s Murray*

dominate, but also so dynamic and ferocious. It is the story of a group of highly competitive and mutually suspicious dynasties, but also of a continent uniquely prone to interference from 'semi-detached' elements, such as Russia, the Ottoman Empire, Britain and (just as centrally to Simms' argument) the United States. *Europe: The Struggle for Supremacy* will become the standard work on this crucial subject - and an extremely enjoyable one. Reviews: 'This is a brilliant and beautifully written history. From the Holy Roman Empire to the Euro, Brendan Simms shows that one of the constant preoccupations of Europeans has always been the geography, the power and the needs of Germany. *Europe* is a work of extraordinary scholarship delivered with the lightest of touches. It will be essential, absorbing reading for anyone trying to understand both the past and the present of one of the most productive and most dangerous continents on earth' William Shawcross

groundbreaking book, noted historian Thaddeus Russell tells a new and surprising story about the origins of American freedom. Rather than crediting the standard textbook icons, Russell demonstrates that it was those on the fringes of society whose subversive lifestyles helped legitimize the taboo and made America the land of the free. In vivid portraits of renegades and their "respectable" adversaries, Russell shows that the nation's history has been driven by clashes between those interested in preserving social order and those more interested in pursuing their own desires - insiders versus outsiders, good citizens versus bad. The more these accidental revolutionaries existed, resisted, and persevered, the more receptive society became to change. Russell brilliantly and vibrantly argues that it was history's iconoclasts who established many of our most cherished liberties. Russell finds these pioneers of personal freedom in the places that usually go unexamined.

saloons and speakeasies, brothels and gambling halls, and even behind the Iron Curtain. He introduces a fascinating array of antiheroes: drunken workers who created the weekend; prostitutes who set the precedent for women's liberation, including "Diamond Jessie" Hayman, a madam who owned her own land, used her own guns, provided her employees with clothes on the cutting-edge of fashion, and gave food and shelter to the thousands left homeless by the 1906 San Francisco earthquake; there are also the criminals who pioneered racial integration, unassimilated immigrants who gave us birth control, and brazen homosexuals who broke open America's sexual culture. Among Russell's most controversial points is his argument that the enemies of the renegade freedoms we now hold dear are the very heroes of our history books - he not only takes on traditional idols like John Adams, Thomas Jefferson, Andrew Carnegie, John Rockefeller, Thomas

*Limes La Rivoluzione

Edison, Franklin Roosevelt, and John F. Kennedy, but he also shows that some of the most famous and revered abolitionists, progressive activists, and leaders of the feminist, civil rights, and gay rights movements worked to suppress the vibrant energies of working-class women, immigrants, African Americans, and the drag queens who founded Gay Liberation. This is not history that can be found in textbooks - it is a highly original and provocative portrayal of the American past as it has never been written before. *The Sino-Soviet Alliance* Austin Jersild 2014-02-03 In 1950 the Soviet Union and the People's Republic of China signed a Treaty of Friendship, Alliance, and Mutual Assistance to foster cultural and technological cooperation between the Soviet bloc and the PRC. While this treaty was intended as a break with the colonial past, Austin Jersild argues that the alliance ultimately failed because the enduring problem of Russian imperialism led to Chinese frustration with the Soviets. *Downloaded from  
via.ramtech.uri.edu on  
September 24, 2023 by  
Suny s Murray*

Jersild zeros in on the ground-level experiences of the socialist bloc advisers in China, who were involved in everything from the development of university curricula, the exploration for oil, and railway construction to piano lessons. Their goal was to reproduce a Chinese administrative elite in their own image that could serve as a valuable ally in the Soviet bloc's struggle against the United States. Interestingly, the USSR's allies in Central Europe were as frustrated by the "great power chauvinism" of the Soviet Union as was China. By exposing this aspect of the story, Jersild shows how the alliance, and finally the split, had a true international dimension.

variety of poisonous snakes." In *The Dragons and the Snakes*, the eminent soldier-scholar David Kilcullen asks how, and what, opponents of the West have learned during the last quarter-century of conflict. Applying a combination of evolutionary theory and detailed field observation, he explains what happened to the "snakes"-non-state threats including terrorists and guerrillas-and the "dragons"-state-based competitors such as Russia and China. He explores how enemies learn under conditions of conflict, and examines how Western dominance over a very particular, narrowly-defined form of warfare since the Cold War has created a fitness landscape that forces adversaries to adapt in ways that present serious new challenges to America and its allies. Within the world's contemporary conflict zones, Kilcullen argues, state and non-state threats have increasingly come to resemble each other, with states adopting non-state techniques and non-state

actors now able to access levels of precision and lethal weapon systems once only available to governments. A counterintuitive look at this new, vastly more complex environment, *The Dragons and the Snakes* will not only reshape our understanding of the West's enemies' capabilities, but will also show how we can respond given the increasing limits on US power.

**The Fateful Alliance** George Frost Kennan 1984 An analysis of the Russian-French alliance of 1894 and what went wrong in Europe at the end of the nineteenth century.

After Defeat Ayse Zarakol 2010-12-23 Not being of the West; being behind the West; not being modern enough; not being developed or industrialized, secular, civilized, Christian, transparent, or democratic - these descriptions have all served to stigmatize certain states through history. Drawing on constructivism as well as the insights of social theorists and philosophers, *After Defeat* demonstrates that stigmatization in *Internationalism*

relations can lead to a sense of national shame, as well as auto-Orientalism and inferior status. Ayşe Zarakol argues that stigmatized states become extra-sensitive to concerns about status, and shape their foreign policy accordingly. The theoretical argument is supported by a detailed historical overview of central examples of the established/outsider dichotomy throughout the evolution of the modern states system, and in-depth studies of Turkey after the First World War, Japan after the Second World War, and Russia after the Cold War.

### **The Great Encounter of China and the West,**

**1500-1800** David E. Mungello 2005 In the twenty-first century, China has emerged as the leading challenger to U.S. global dominance. China is often seen as a sleeping giant, emerging out of poverty, backwardness, and totalitarianism and moving toward modernization. However, history shows that this vast country is not newly awakening, but rather returning

to its previous state of world eminence. With this compelling perspective in mind, D. E. Mungello convincingly shows that contemporary relations between China and the West are far more like the 1500-1800 period than the more recent past. This fully revised second edition retains the clear and concise qualities of its predecessor, while developing important new social and cultural themes such as gender, sexuality, music, and technology. Drawing from the author's thirty years of experience teaching world history, this book illustrates the importance of history to students and general readers trying to understand today's world.

### **China's Evolving Nuclear Deterrent**

Eric Heginbotham 2017-03-06 This report analyzes international and domestic factors that will affect China's approach to nuclear deterrence, how those drivers may evolve over the next 15 years, and what impact they are likely to have.

**Nature** Philip Dwyer  
2021-08-12 In *The Better Angels of Our Nature* Harvard psychologist Steven Pinker argued that modern history has witnessed a dramatic decline in human violence of every kind, and that in the present we are experiencing the most peaceful time in human history. But what do top historians think about Pinker's reading of the past? Does his argument stand up to historical analysis? In *The Darker Angels of our Nature*, seventeen scholars of international stature evaluate Pinker's arguments and find them lacking. Studying the history of violence from Japan and Russia to Native America, Medieval England and the Imperial Middle East, these scholars debunk the myth of non-violent modernity. Asserting that the real story of human violence is richer, more interesting and incomparably more complex than Pinker's sweeping, simplified narrative, this book tests, and bests, 'fake history' with expert knowledge.

On *Strategic Nonviolent Conflict* delves into the question of how to build a strategy for nonviolent struggle. Covering a variety of topics--such as ways to identify a movement's objectives, preparing a strategic estimate for a nonviolent struggle, and operational planning considerations--this publication contains insights on the similarities between military and nonviolent strategy. It represents a major new contribution to this field of study. Additional topics covered in the book include psychological operations and propaganda, contaminants that may affect the efficiency of a nonviolent movement, and providing consultations and training for members of movements and organizations.

Kennan 2021-02-04 "The material contained in this book is drawn from lectures, some of which were delivered in 1957-1958 in the schools at Oxford University, others — in the spring of 1960 — at Harvard University... This is a study of the relationship between the Soviet Union and the major Western countries, from the inception of the Soviet regime in 1917 to the end of World War II. It is not intended as a chronological account of the happenings in this phase of diplomatic history, but rather as a series of discussions of individual episodes or problems." — George F.

dilemmas that grew out of ignorance and mutual distrust, beginning with the Allied intervention in Russia in 1918, through World War I, the Versailles conference, Stalin's bloody purges of 1934-1938, the Soviet-German Nonaggression Pact of 1939, the end of World War II, and the meeting in Yalta between Churchill, Stalin, and Roosevelt. "It is not often that a book as instructive as this one manages at the same time to be so engrossing that it is bound to keep even general readers fascinated long past their bedtimes. The book's message is a stern one; the pleasure in reading it derives from the elegant and yet fresh prose style that is one of the many gifts of [the author who] is an artist as well as an experienced diplomat; a moralist as well as a consummate historian. With superb felicity and grace, he here unfolds a historical narrative rich in prophetic judgments — prophetic in the Biblical sense of the word. Not everyone, of course, will agree with all of Mr. Kennan's

proffers them lavishly, inviting agreement or dissent.” — Slavic Review “[A] valuable volume. It is full of flashes of insight, into both Soviet and Western attitudes and policies, and it reveals the painful dilemmas Wilson, Roosevelt, and other Western leaders faced in dealing with this new state and system.” — The Slavic and East European Journal Uncertain Democracy Lincoln A. Mitchell 2013-06-11 In November of 2003, a stolen election in the former Soviet republic of Georgia led to protests and the eventual resignation of President Eduard Shevardnadze. Shevardnadze was replaced by a democratically elected government led by President Mikheil Saakashvili, who pledged to rebuild Georgia, orient it toward the West, and develop a European-style democracy. Known as the Rose Revolution, this early twenty-first-century democratic movement was only one of the so-called color revolutions (Orange in Ukraine, Tulip in Kyrgyzstan, and Cedar in

Lebanon). What made democratic revolution in Georgia thrive when so many similar movements in the early part of the decade dissolved? Lincoln A. Mitchell witnessed the Rose Revolution firsthand, even playing a role in its manifestation by working closely with key Georgian actors who brought about change. In *Uncertain Democracy*, Mitchell recounts the events that led to the overthrow of Shevardnadze and analyzes the factors that contributed to the staying power of the new regime. The book also explores the modest but indispensable role of the United States in contributing to the Rose Revolution and Georgia's failure to live up to its democratic promise. *Uncertain Democracy* is the first scholarly examination of Georgia's recent political past. Drawing upon primary sources, secondary documents, and his own NGO experience, Mitchell presents a compelling case study of the effect of U.S. policy of promoting democracy abroad.

**History** Massimo Meccarelli

2016-07-01

<http://dx.doi.org/10.12946/gplh>

<http://www.epubli.de/shop/buch/53894>"The spatiotemporal

conjunction is a fundamental aspect of the juridical reflection on the historicity of law.

Despite the fact that it seems to represent an issue directly connected with the question of where legal history is heading today, it still has not been the object of a focused inquiry.

Against this background, the book's proposal consists in rethinking key confluences related to this problem in order to provide coordinates for a collective understanding and dialogue. The aim of this volume, however, is not to offer abstract methodological considerations, but rather to rely both on concrete studies, out of which a reflection on this conjunction emerges, as well as on the reconstruction of certain research lines featuring a spatiotemporal component.

This analytical approach makes a contribution by providing some suggestions ~~from the~~

employment of space and time as coordinates for legal history. Indeed, contrary to those historiographical attitudes reflecting a monistic conception of space and time (as well as a Eurocentric approach), the book emphasises the need for a delocalized global perspective. In general terms, the essays collected in this book intend to take into account the multiplicity of the spatiotemporal confines, the flexibility of those instruments that serve to create chronologies and scenarios, as well as certain processes of adaptation of law to different times and into different spaces. The spatiotemporal dynamism enables historians not only to detect new perspectives and dimensions in foregone themes, but also to achieve new and compelling interpretations of legal history. As far as the relationship between space and law is concerned, the book

analyses experiences in which space operates as a determining factor of law, e.g. in terms of a field of action for law. Moreover, it outlines the attempted scales of spatiality in order to develop legal historical research. With reference to the connection between time and law, the volume sketches the possibility of considering the factor of time, not just as a descriptive tool, but as an ascriptive moment (quasi an inner feature) of a legal problem, thus making it possible to appreciate the synchronic aspects of the 'juridical experience'. As a whole, the volume aims to present spatiotemporality as a challenge for legal history. Indeed, reassessing the value of the spatiotemporal coordinates for legal history implies thinking through both the thematic and methodological boundaries of the discipline."
